

GENEVA COLLEGE

College Catalog 2018-2019 Volume 99

3200 College Avenue
Beaver Falls, PA 15010
724-846-5100
<http://www.geneva.edu/>

This catalog is designed to communicate clearly the information needed by students, faculty, and prospective students. It can be accessed on the Geneva website.

The provisions of this catalog should not be regarded as a contract between any student and the college. Course content and regulations are constantly being reviewed and revised. The college reserves the right to withdraw or amend the content of any courses listed if circumstances necessitate such changes.

COLLEGE CALENDAR

Fall Semester 2018–2019

August 24	Fall orientation
August 27	Classes begin 8 a.m.
August 31	Last day to add a class
September 3	Labor Day – classes will meet
October 7	Homecoming
October 12	Fall break begins 5 p.m.
October 16	Classes resume 5 p.m.
November 5	Last day to drop a class
November 20	Thanksgiving break begins 5 p.m.
November 26	Classes resume 5 p.m.
November 27	Last day for <u>new</u> freshmen to drop 1 class
December 10	Evening exams begin
December 11	Reading and review day- no day classes
	Day exams begin 3:30 p.m.
December 14	Final exams end

Spring Semester 2018–2019

January 14	Classes begin 8 a.m.
January 18	Last day to add a class
January 21	Martin Luther King Jr. Day—no day classes
March 08	Spring break begins 5 p.m.
March 18	Classes resume 5 p.m.
March 19	Day classes follow Monday schedule
March 19	Tuesday evening classes meet as normal
March 25	Last day to drop a class
April 15	Last day for <u>new</u> freshmen to drop one class
April 17	Easter break begins 5 p.m. Follow Monday day schedule
April 23	Classes resume 8 a.m.
May 3	Last day of classes
May 6	Reading and review day- no day classes
	Final exams begin- 3:30 p.m.
May 9	Final exams end
May 10	Baccalaureate
May 11	Traditional Undergraduate Commencement 10:00 a.m.
	Graduate and Adult Education Commencement 3:00 p.m.

Summer Session 2019

May 13–June 7	May@Geneva
June 10–July 12	Summer II
July 15–August 15	Summer III
May 13–July 3	Summer Evening

Summer evening classes meet twice a week for 15 sessions.

Dates are subject to change.

MISSION STATEMENT

Geneva College is a Christ-centered academic community that provides a comprehensive education to equip students for faithful and fruitful service to God and neighbor.

Foundational Concepts of Christian Education

The philosophical basis on which Geneva College rests, referred to as the Foundational Concepts of Christian Education, was prepared by a joint committee of the Board of Corporators and Board of Trustees of Geneva College and adopted by the Board of Trustees at its meeting on October 26, 1967. The Board of Corporators and Trustees modified the document in June, 1996.

Preface

Starting with the belief that God is the source of all truth, education becomes the exciting adventure of seeking to appropriate knowledge in all its various facets under the guidance of the Holy Spirit.

Education which is Christian takes for its perspective the Biblical view of God, mankind and the universe in their mutual relations.

While education in a Christian context does not guarantee truth, it does seek to establish the starting point apart from which ultimate truth can never be learned. It becomes essential, therefore, to establish the direction for education from this Christian perspective and the following Statement has been drawn up in an attempt to make this clear as related to Geneva College. In no sense should it be considered as the last word, but it purports to be the foundational concept upon which scholarship under God may thrive and expand.

This view of education rests upon the historic Christian faith contained in the Scriptures, symbolized by the open Bible on the seal of the college. Holding to the summary of this faith as contained in the Westminster Confession of Faith of the mid-17th century, the Reformed Presbyterian Church of North America has endeavored for over a century to offer through Geneva College an education which articulates the implications of the sovereignty of Jesus Christ over all of His creation.

“For with Thee is the fountain of life; in Thy light shall we see light.” Psalm 36:9

The Theological Basis of Christian Higher Education

The Christian View of God

God is one being, existing in three persons, the Father, the Son and the Holy Spirit. He is a personal being, possessing in Himself all that personality means but without limitation. He is the self-existent Creator, Preserver and Controller of the universe in its totality.

The Christian View of Mankind

Men and women are unique among all living creatures, being distinguished from the animals by being created in the image of God as rational, moral and spiritual beings. The purpose of human life is to glorify and to enjoy God, and only when life is so viewed can the highest happiness, welfare and honor be experienced. We are created as immortal beings. Earthly life is therefore preparatory to the life after death, and should not be regarded as an end in itself, though as God’s creation the present earthly life has a real value of its own.

By our relationship to Adam as representative of the human race, we are fallen creatures. By moral revolt against God, we lost both our position of communion with God and our ability to consciously reflect God’s glory, and instead became devoted to the worship and aggrandizement of self. Our fall into sin affected not only our moral nature but also our intellect, making us prone to error, and requiring divine revelation to determine ultimate standards and values in all fields. The moral and intellectual effects of sin are such that we are incapable of removing them by our own effort.

Jesus Christ, as the second Adam, died and rose again as our representative, in order that we who are chosen of God, regenerated by the Spirit, and by faith identified with Christ in His death and resurrection might be restored to fellowship with God in the Holy Spirit and enabled to glorify God actively in our lives. As believing Christians, having realized our union with Christ and hence our own death to sin and rising to newness of life in the Spirit, we renounce self-centeredness as a lifestyle and seek in every phase of our experience to understand and reflect God’s glory.

The Christian View of the Universe

The universe, as the creation of God, serves to reveal God; and its revelation is true, valid, and useful in itself. The created universe, being full of God's glory, is to be understood, appreciated, ruled and used by us. God in His goodness has bestowed upon us the ability to discover and use truths about the universe, which may be learned irrespective of a person's spiritual relationship with Him. In seeking to understand the truth of the universe in all of its dimensions, we are responsible to use every faculty and effort, but the facts of the universe can be understood in the fullest sense only when viewed in relationship to God. Ultimate judgments must finally be made in the light of God's Word, the Holy Scripture, which is the only adequate and inerrant standard of truth.

The Purpose of Christian Education

Inasmuch as we were created to glorify God, Christian education seeks to develop the students' abilities to know God and to relate themselves and the created universe to God through the study of His Word and Works. Christian education emphasizes the Person and Work of the Lord Jesus Christ in order that students may be yielded to Him as their Saviour from sin and that they may see in Christ the ultimate purpose and meaning of the whole universe.

It is the purpose of Christian education to seek the realization of the potential of the individual as the image of God through the development of God-given capacities. The fulfillment of those potentialities is reached insofar as students devote those capacities to God's glory in their vocations and daily lives. Christian education endeavors to develop each student's capacity for the enjoyment of the world as God's creation, in all its cultural richness, realizing that all of life as a coherent whole is related to God and His redemptive activity. The goal of Christian education is the development of mature students who, as individuals, have well-integrated personalities; and who, as well-oriented members of society, are building the Kingdom of God in the family, the church, the nation and the world.

The Implications of Christian Education

Implications for the School

All persons responsible in any way for the functioning of an educational institution share in the pursuit of its goals. In Christian education this becomes particularly significant since no task, teaching or other, is unrelated to God; and also because all personnel should demonstrate in their lives the end-purpose of Christian education. Everyone shares in the transmission of knowledge, but only those consciously committed to Jesus Christ as revealed in the Scriptures can envision and reach the goals of Christian education. To realize the goals of Christian education all faculty members should seek to understand more completely and to teach more effectively their particular disciplines with academic excellence within a consistent Biblical world and life view.

Implications for the Student

While students may attain a high degree of knowledge through the grace given to all, in order for them to attain the goals of Christian education, they must be in submission to the person of Jesus Christ, that sin and its effects in their own personalities may be overcome. Students, as creatures of God, are under His mandate both to learn and to apply all knowledge for the purpose of knowing and glorifying God. They should not be sheltered from non-Christian viewpoints, but must become able to evaluate all knowledge critically, to gain from that which is true and to discard error. Students should be aware of God's call on their lives and thus see their education as an opportunity to prepare for their life work, whatever those fields of endeavor may be.

Implications for the Curriculum

In Christian education the curriculum is built upon the foundation that the historic Christian Faith is permanently true, and that it is the integrating factor of a truly Christian educational program. Since Christian education leads toward an understanding of God, mankind and the universe in their inter-relatedness, the curriculum will have a strong emphasis on both the Humanities and the Sciences, theoretic and applied, as well as a basic core of Biblical studies. The curriculum should lead students to grasp the foundations of learning so that they can live a life glorifying to God, confronting honestly and confidently the problems and challenges of new knowledge, and contributing to the welfare of society under God.

Implications for Moral Discipline

Standards of moral discipline must be maintained according to the moral law of God which He has set forth in Scripture. Therefore discipline is to be exercised on the basis of God's Word. Discipline exercised in Christian love and firmness not only deters licentiousness, but also teaches in principle how to live under Christ's Lordship and how to live with other people on the basis of righteousness. Moral discipline must always be exercised in an attitude of helping the offender in the context of the doctrine of sin and its solution in Jesus Christ.

Statement of Commitment

In the light of our Christian philosophy of education and our stated aims as a college, we are accountable to God for the implementation of these corporate convictions in the educational process and in the lives of students, faculty, and staff. Geneva College is founded upon a Biblical view of life and the world as expressed in evangelical and Reformed theology and set forth in the Foundational Concepts of Christian Education. We recognize that such convictions will at times bring the college into conflict with the values and direction of our contemporary society.

We commit ourselves consciously and wholeheartedly to offering Christian higher education designed for the whole life of the person.

Consequently, we desire that our educational program . . .

- Foster breadth of learning, through a study of the humanities, the social and natural sciences, and Biblical studies.
- Emphasize integration from a Christian perspective in the study of God, man, societies, and the universe in their interrelatedness.
- Provide our students with knowledge of the Word of God, and how the Word relates to them, their cultural heritage, other societies, and the created universe.
- Motivate and enable faculty and students to continue to learn and develop new skills.
- Offer preparation for effective vocational roles in society.

that our students . . .

- Be challenged to commit themselves to God, to respond to His calling for their lives, to discern their gifts, to develop their gifts in a godly manner, and to use their gifts in His service.
- Be assisted in striving for spiritual maturity that prepares for godly living in the midst of a secular culture.
- Be assisted in learning to live together in harmony and with enjoyment of individual diversities.
- Have opportunity to develop their physical, intellectual, social, cultural, and spiritual gifts in a supportive environment.

and that our faculty and staff . . .

- Demonstrate Christian living and obedience in personal growth, in the interactions of college life, and in dedication to Christian calling and service.
- Seek an understanding and articulation of how the Word of God directs the search for truth; pursue excellence in performance of their work; and show concern for those under their care and instruction.
- Value the contributions of all members of the college community and support each other in their various tasks.
- Be motivated by a vision that the college has been founded upon the providential mercy of God and that their primary purpose is to serve Him within the worldwide company of Christian believers and the geographical area where God has placed the college.

We recognize that only God can revive and renew. We will, therefore, constantly examine our commitments and programs in light of His Word and the needs about us and will endeavor to value, support, and encourage each other in the Lord as we strive to fulfill this commitment in the life of the college.

(Adopted by Geneva faculty, administration, and Board of Trustees in 1982.)

Student Outcomes

Education at Geneva College is firmly rooted in its Mission and Doctrinal Statements, Foundational Concepts of Christian Education, Aims, and Statement of Commitment. Relying on these statements as the appropriate points of departure, and acknowledging that our central interest is to understand the implications of a Christian worldview for all that we do, we desire that all students graduating from Geneva College will:

- 1) **Worldview:** Students can articulate the nature, strengths and weaknesses, and uses of worldviews, can use worldview analyses critically, articulate the critical elements of an evangelical, reformed Christian worldview.

- 2) Bible knowledge and Christian life: Students can articulate the essential Biblical truths of the Christian faith, have evaluated their own faith with respect to those truths, have considered the claims of Christ on their own life, and articulate their calling to participate biblically in relationships, family, church and vocation.
- 3) Communication: Students communicate clearly, responsibly, and with integrity in written and oral forms, and evaluate the written, oral and artistic communications of others based on the same criteria.
- 4) Liberal Arts and Critical Thinking: Students demonstrate value in developing the lifelong learning skills necessary to critically respond to world-shaping intellectual and artistic works, and complement those skills with lifelong habits that nurture physical, mental and emotional well-being.
- 5) Cultural Engagement: Students offer analyses of both historic and current causes and effects of contemporary cultural issues and consider active participation in civic life as shaped by principles of Biblical justice.
- 6) Professional: Students acknowledge that all vocations are arenas for honoring God and demonstrate competency in the essential skills, literacies, data, theory, and methods of their major field to a professionally recognized standard for a graduate and sufficiently for their vocational calling.

(Adopted by the Geneva College Faculty Senate, 2010.)

Academics at Geneva

Accreditation and Membership

Since 1923 Geneva College has been fully accredited by the Middle States Association of Colleges and Schools, 3624 Market Street, Philadelphia, PA 19104. (267-284-5000). The Middle States Commission on Higher Education is an institutional accrediting agency recognized by the U.S. Secretary of Education and the Council for Higher Education Accreditation.

In addition, the College maintains institutional memberships in the following:

American Association of Colleges for Teacher Education
 Association of Reformed Institutions of Higher Education
 Beaver County Council of Higher Learning
 Council of Christian Colleges and Universities
 College Entrance Examination Board
 Council for Higher Education Accreditation
 Council of Independent Colleges
 National Association of Independent Colleges and Universities
 Pennsylvania Association of Colleges and Universities

The Chemistry Program is approved by the American Chemical Society for professional training in chemistry.

The General Engineering Program (BSE) is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>.

The Business Program is accredited by the Association of Collegiate Business Schools and Programs (ACBSP).

The Teacher Certification Program is approved by the Departments of Education in Pennsylvania, Ohio, New Jersey, New York, and other states.

The Master of Arts in Counseling Program is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP).

Effective Date of the Catalog

The most current version of the college catalog is available on-line. The catalog was first published on-line in 2006-2007. Previous versions, which were published every two years, are available in print in the library and the Registrar's Office. The college catalog is designed to communicate clearly the information needed by students, faculty, and prospective students. The most recent college catalog is published in June. An addendum containing significant changes or updates to catalog content may be published during the academic year.

In order to graduate, students must meet the graduation requirements in the catalog in effect at the time that they entered Geneva, provided they complete their work within seven years. Adjustments will be made on an individual basis for completion of courses no longer offered. Students who are still at Geneva beyond seven years from first enrollment are subject to the requirements of the most current published catalog. The college will consider exceptions to these catalog requirements on a case-by-case basis.

The provisions of the catalog should not be regarded as a contract between any student and the college. Graduation requirements, curriculum content and regulations are constantly being reviewed and revised. Policies and regulations are subject to change at any time. Specifically, tuition increases generally take effect at the beginning of the first summer session. The college reserves the right to make changes to any part of the college catalog if circumstances necessitate such changes. If these changes create undo hardship for the student, an appeal may be made to the appropriate Academic Dean.

Degree Requirements

General Requirements for Bachelor's Degree

- 1) Removal of all entrance deficiencies. See page 203.
- 2) Minimum of 120 semester hours.
- 3) Completion of required core courses. See below.
- 4) Fulfillment of requirements for at least one major. See list of majors on page 1.
- 5) Enrollment at Geneva or one of its affiliate programs is required for at least 12 credit hours of a senior's final year.
- 6) Fulfillment of the college chapel requirement
- 7) Grade point average of 2.0 or above overall and in the majors and minors.
- 8) A minimum of 40 credit hours overall, and at least 12 of the last 30 credit hours, must be earned at Geneva.
- 9) Fifteen credits or twenty-five percent, whichever is larger, are required in the major. These credits must include the program's capstone/seminar course if applicable.
- 10) A minimum of one-third of a minor must be earned at Geneva.
- 11) Payment of all financial obligations to the college.

Bachelor's Degree–Core Requirements

Students are strongly encouraged to take these core courses during the recommended years whenever possible. Invitation to Humanities (HUM 103), Great Issues in Politics (POL 352), Biblical Worldview: Testing the Spirits of Our Age (BIB 300) must be taken at Geneva. In the case that a student is transferring a course from a full-member CCCU institution that is determined to be equivalent to BIB 300, three other credits in the core may be substituted for this requirement upon approval of the Core Studies Department. To accomplish our goal of the integration of faith with an introduction to the liberal arts, we encourage students to take these core requirements at Geneva College. However, Geneva welcomes students who wish to transfer credits from other institutions. Policies governing transfer credit can be found starting on page 203.

Bachelor's Degree – Core Requirements

- 1) Community of Learners (1 credit hour): SSC 101 Learning and Transition. Required of all freshman but not transfer students with 12 or more credits.
- 2) Reason and Rhetoric (6 credit hours): ENG 101 Composition, COM 101 Principles of Communication, or PHI 100 Critical Thinking. The typical student takes these courses during the freshman year. ENG 101 English Composition (3) must be taken unless proficiency is met as defined by a minimum of Writing SAT (or comparable ACT) score. A minimum SAT score of 640 on the Evidence-Based Reading and Writing section (2016 and later SAT) or a minimum ACT score of 29 must be met to be exempted from taking ENG 101. Upon recommendation of the English department, one of the following courses may substitute for ENG 101: ENG 102 Academic Research and Writing; ENG 151, Honors English Composition; ENG 201 Introduction to Creative Writing; ENG 205 Advanced Composition; or ENG 232 Introduction to Rhetoric. The ENG 101 (or substitute) requirement is met only with a grade of C- or better.
- 3) God (9 credit hours): BIB 112 Biblical Introduction I- Creation to Post-Exilic Period, BIB 113 Biblical Introduction II – Intertestamental Period through Apostolic Age, and BIB 300 Biblical Worldview or PHI 310 Christian Understanding of Life.

- 4) Humanity (6 credit hours): HUM 103 Invitation to the Humanities and HUM 203 Making the West.
- 5) Cosmos (8-13 credit hours): 7-12 credits in natural science as described on pages 53 and PED 103 Health and Fitness.
- 6) Society (6-9 credits): See pages 53-54.
- 7) Cultural Engagement (7-9 credits): POL 352 Great Issues in Politics (3), HUM 303 Perspectives: Faith, Culture, Identity (3) and a major capstone experience (1-3 credits)

Core Curriculum (43-53 credit hours)

The Geneva College core provides the framework for a student's education. The core curriculum is rooted in the Foundational Concepts of Christian Education and helps to achieve the college's outcomes by providing a common core of liberal studies intended to promote growth in the student's knowledge, skills, understanding, and attitude. The first five institutional student learning outcomes are designated specifically as outcomes of the Core:

1. **Worldview:** Students can articulate the nature, strengths and weaknesses, and uses of worldviews, can use worldview analyses critically, and articulate the critical elements of an evangelical, reformed Christian worldview.
2. **Bible Knowledge and Christian Life:** Students can articulate the essential Biblical truths of the Christian faith, have evaluated their own faith with respect to those truths, have considered the claims of Christ on their own life, and articulate their calling to participate biblically in relationships, family, church and vocation.
3. **Communication:** Students communicate clearly, responsibly, and with integrity in written and oral forms, and evaluate the written, oral and artistic communications of others based on the same criteria.
4. **Liberal Arts and Critical Thinking:** Students demonstrate value in developing the lifelong learning skills necessary to critically respond to world-shaping intellectual and artistic works, and complement those skills with lifelong habits that nurture physical, mental and emotional well-being.
5. **Cultural Engagement:** Civic –Students offer analysis of both historic and current causes and effects of contemporary cultural issues and consider active participation in civic life as shaped by principles of Biblical justice. Cross-cultural – In understanding and interacting across cultures, students demonstrate cultural discernment and analysis, reflecting Biblical principles of humility and justice.

The parts of the core relate to each other in a network of intentional support, application, reinforcement, and development. In a similar way, major programs and electives are designed to reinforce and build upon the skills, knowledge, and perspectives developed in the core.

Please see page 52 for a full listing of Geneva's core requirements.

General Requirements for Associate's Degree

- 1) Removal of all entrance deficiencies. See page 203.
- 2) Minimum of 60 semester hours.
- 3) Completion of required core courses. See below.
- 4) Fulfillment of requirements for at least one associate's degree. See list of majors on page 1.
- 5) Fulfillment of the college chapel requirement
- 6) Grade point average of 2.0 or above overall and in the associate's degree and/or minor.
- 7) A minimum of 36 credit hours overall must be earned at Geneva.
- 8) A minimum of one-third of a minor must be earned at Geneva.
- 9) Payment of all financial obligations to the college.

Associate's Degree—Core Requirements

- 1) Community of Learners (1 credit hour): SSC 101 Learning and Transition. Required of all freshman but not transfer students with 12 or more credits.
- 2) Reason and Rhetoric (6 credit hours): ENG 101 Composition, COM 101 Principles of Communication, or PHI 100 Critical Thinking. The typical student takes these courses during the freshman year. ENG 101 English Composition (3) must be taken unless proficiency is met as defined by a minimum of Writing SAT (or comparable ACT) score. A minimum SAT score of 640 on the Evidence-Based Reading and Writing section (2016 and later SAT) or a minimum ACT score of 29 must be met to be exempted from taking ENG 101. Upon recommendation of the English department, one of the following courses may substitute for ENG 101: ENG 102 Academic Research and Writing; ENG 151, Honors English Composition; ENG 201 Introduction to Creative Writing; ENG 205 Advanced Composition; or ENG 232 Introduction to Rhetoric. The ENG 101 (or substitute) requirement is met only with a grade of C- or better.
- 3) God (6 credit hours): BIB 112 Biblical Introduction I- Creation to Post-Exilic Period and BIB 113 Biblical Introduction II – Intertestamental Period through Apostolic Age.
- 4) Humanity (6 credit hours): Six credit hours from approved department list. Most often this is HUM 103 and 203.
- 5) Cosmos (5 credit hours): SCS 110 Introduction to Natural Science or any other laboratory science course. PED 103 Health and Fitness.
- 6) Society (3 credit hours): Choose from a Group A course.

Majors

Every four-year degree requires the completion of a major and a concentration of study in one field. A student must maintain a 2.0 grade point average for their major courses. Fifteen credits or twenty-five percent, whichever is larger, are required in the major. These credits must include the program's capstone/seminar course if applicable. Whenever the general and major course requirements involve fewer credit hours than needed for a degree, the student may choose a second major, one or more minors, or elective courses. For a complete list of majors, see page 1.

Independent Major - BA or BS

Academic majors and minors typically exist within the context of academic departments. Geneva believes, however, that this educational convention need not prevent students from intentionally designing a course of study that may simultaneously correspond with their particular interests and/or calling and thoughtfully blend inquiry in two or more fields. To this end, Geneva makes available an Independent Major and/or Minor.

Students interested in pursuing an Independent Major and/or Minor must develop an Independent Major/Minor proposal in consultation with the Independent Major/Minor Advisor, and have the proposal submitted no later than February 1 of their sophomore year. Information regarding the Independent Major/Minor Proposal may be obtained from the Independent Major/Minor advisor.

Minors

Though not required for graduation, minors are offered to provide limited concentration in a field. A student must maintain a grade point average of 2.0 in the minor. A minimum of 1/3 of the required credit hours in the minor must be earned at Geneva. For a complete list of minors see page 1.

Practicum, Special Study, Internship, Honors Courses, Independent Study, Specialized Summer Courses

Most majors include special study opportunities that provide flexibility for students beyond the regular structured courses. This section is meant to describe these courses and to prevent abuses such as attempting to register retroactively (following the experience) and the situation where there is little planning or development of student requirements for the class. The following course numbers, titles, and descriptions apply to every department offering them.

Students interested in any of these courses must develop a course plan in consultation with a faculty member prior to the beginning of the course. In turn, students then must complete and submit the required paperwork to the Registrar's Office. Students may not register for these courses retroactively.

Acceptable personal and professional qualities and habits are required for field and internship placement. When it is determined that deficits exist which impede the student's ability to successfully complete any type of fieldwork or internship experience, remedial assistance may be recommended. Because many qualities affect the field experience process and success, a student can be evaluated on non academic performance issues which may include adherence to ethical standards, personal maturity, motivation, dependability, and personal/psychological growth. Significant concerns can lead to the college decision to prohibit the student from participating in fieldwork or internship. A student may also be asked to participate in some form of assessment.

199 Special Study (1-3) A seminar or directed study on an announced topic or set of topics. Credit specified at registration. Repeated for credit with a new topic.

292 Practicum (1-4) The practicum is an introductory, hands-on experience in an applied area, with guidance from a faculty member or other professional. The practicum should be connected to the mission and objectives of the department. The student outcomes and requirements will be generated with and assessed by a faculty member. A student can enroll in a maximum of 4 credits with no more than 2 credits per semester.

491 Special Study (1-3) A seminar or directed study on an announced topic or set of topics. Credit specified at registration. Repeatable for credit with a new topic.

493 Internship (1-12) A work-study type project either on or off campus, designed to expose the student to an actual workplace experience. Undertaken with the consent, regular guidance and direction of an instructor qualified in the area, and with written permission of the instructor and department chair. A student should spend 45 hours at the workplace site for each semester-hour credit. Internships used for elective credit may be taken credit/no credit, but those taken for major or minor requirements must be letter-graded. Normally, internships are limited to juniors and seniors with at least a 2.5 GPA in courses taken in the department in which the internship is taken.

494 Honors Courses (1-3) Specialized study of an area not covered by a regular course. Prerequisite: honors scholar standing or membership in Alpha Chi, and approval by the instructor and the honors program coordinator.

495 Independent Study (1-3) Individualized advanced study, research, or project development in a clearly defined and limited area not covered by a regular course. The work should be primarily initiated by the student but undertaken with the consent, regular guidance, and direction of an instructor qualified in the area. Prerequisites: junior standing, a GPA of 2.5 or above in departmental offerings, and approval by the instructor and department chair.

499 Specialized Summer Courses (1-4) Experience-oriented group study, usually of an experimental or innovative nature, and frequently involving off-campus activity or travel abroad. Offered during the summer sessions. Credit formula: approximately one week (or 50 hours) per hour of academic credit. Not applicable toward general or major requirements unless specifically approved for that purpose. Grading system varies.

Limitations

The following courses may be repeated, but only eight credit hours will count towards a bachelor's degree and four credit hours maximum for an associate degree: COM 201, COM 202, COM 203, COM 204; EDU 220; ENG 221, ENG 223; HMN 491; MUS 212, MUS 213, MUS 214, MUS 215, MUS 216, MUS 218, PED 104.

Courses numbered under 100 (i.e., 095, 096) do not earn credit for graduation.

No more than two semester credit hours in the required PED 101 and PED 103 Physical Education can be applied toward any degree.

Maximum credit hours accepted in transfer are described on page 203.

Classification of Students

In determining each student's classification, all credit hours applied toward graduation requirements are counted.

Freshman	0-27 credit hours
Sophomore	28-59 credit hours
Junior	60-89 credit hours
Senior	90 credit hours or more

Academic Policies

Registration

New students and transfer students receive registration materials via the Geneva website and are encouraged to seek counsel from faculty advisors or the Registrar's Office during orientation sessions or by special appointment or correspondence. Late in each semester, enrolled students prepare schedules using Web registration for the following term in consultation with faculty advisors.

Late registration is permitted up until the end of the first week of day classes or before the second meeting of an evening class.

Adding Courses

Students may add a course to their registration for a term up through the first week of the class for traditional students or the first meeting of the course for non-traditional courses. Dates reflecting the last day to add a course are posted for each term and by academic program as needed.

For details on the financial ramifications for dropping or withdrawing from a course please see the following:

<http://www.geneva.edu/student-financial-services>.

Drop Policy

If it becomes necessary to drop a class, a student should talk with his/her advisor, get a drop slip from the Registrar's Office, have it signed by the advisor and the course instructor and return it to the Registrar's Office before the drop date for the semester. The Dean of Student Development or appropriate Academic Dean may also be consulted for assistance. Students should not drop courses without talking to their advisor, as dropping below 12 credits can negatively impact financial aid, athletic eligibility, insurance coverage, and/or the timely completion of academic requirements.

Courses dropped within the first two weeks of the semester will not appear on the student's transcript. After two weeks, a course may be dropped with both the professor's and advisor's signatures, but it will remain on the transcript with a "W" (withdrew) grade. See the college calendar for the final day to drop a class. First semester freshman may drop a single course up to three weeks after the standard drop date. Grades of "WX" (withdrew before grade could be determined), "WP" (withdrew passing), or "WF" (withdrew failing) are submitted by the instructor and are entered on the student's permanent record but will not affect the student's GPA.

Courses can be dropped and added online via Web Registration through the first week of the semester. After this date students can only drop classes at the Registrar's Office.

Class Load

The maximum is 20 credit hours per semester without an additional charge. Students typically take 15-17 credit hours per semester. The following courses are not included in this limitation and may be taken beyond the 20 hour limit without special permission: COM 201, 203, 204; EDU 220; ENG 221, 222, 223; HMN 491; MUS 212, 213, 214, 215, 216, 218; PED 101, 102, 104. Additional credit hours in other courses beyond the 20 credit hours limit are permitted with the approval of the student's academic advisor.

Charge for additional credit hours is the regular per hour tuition rate (see page 208).

Finals Week Policy

Final exams must be taken at their scheduled times, which are announced in writing at the beginning of each semester. Students desiring an exception must submit a written request to the faculty member(s) involved. Exceptions will only be made in the case of serious illness or the death of an immediate family member. Reasons such as plane schedules, availability of flights, and rides leaving early are not acceptable.

Students having three or more final exams scheduled in one day may arrange to have one of them moved to a different time during finals week. If the student is unable to arrange this change with the instructor(s), he/she should seek assistance from the appropriate Academic Dean. This should be done at least ten days prior to the beginning of finals week.

Class Attendance

General Policy

Students' presence and participation in the classroom is an integral component of the opportunity and responsibility that attends membership in a community of Christian learning. As such, students should attend all of the scheduled class sessions of each of their courses.

Excused Absences

When appropriate documentation is provided to the Student Development Office, students will be excused from class without penalty under any of the following circumstances: a family member's serious hospitalization or death; personal physical or emotional illness; military or jury duty.

In addition, students will be excused from class to participate in the following, college-sponsored activities:

- Performances, varsity and junior-varsity scrimmages against external programs and games, including travel time; make-up games that were postponed due to inclement weather; and official tournament games, both pre-and post-season.
- Class requirements such as field trips and labs. These must be approved through the department chair and the appropriate Academic Dean.
- Internships and field placements which are required for a major or academic program. These should be arranged in such a way that they do not conflict with other classes for which the student is registered or is required to take.
- Educational travel, including professional meetings, touring groups, and missions trips. These must be approved through the department chair and the appropriate Academic Dean.
- Campus work-related training that is directly relevant to a student's campus work assignment. These must be approved through the department chair and the appropriate Academic Dean if the assignment is an academic program area and through the office of the Academic Dean in all other cases.

Several other comments regarding these particular activities are warranted. First, practices and rehearsals are not considered excusable absences. Second, faculty, coaches, and staff should take great care in the scheduling process to prevent students from having to miss multiple classes. It may even become the case where it will be wise for a faculty member, coach, or staff member to encourage a student not to participate in a particular activity if a student's academic progress may be unduly jeopardized by doing so. Third, faculty, coaches, and staff should be proactive in encouraging students to report an excused absence in advance to the faculty member(s) of the class(es) that they miss, and in completing any missed assignments/exams. And, fourth, students should take the initiative in communicating an excused absence clearly and in advance to the faculty member(s) of the class(es) that they miss, and in arranging for the completion of any missed assignments/exams.

Adverse Weather

From time to time it is necessary to close the college and to cancel classes due to inclement weather. On other occasions, there may be adverse weather conditions, but they are not sufficient to justify cancellation of classes. In such cases, commuting students who honestly believe that travel to campus may be hazardous may choose not to travel to campus. These absences will be considered as "excused," provided that the student contact the professor on the day of the absence.

The faculty member, at his/her discretion, may arrange a make-up date with the student if a class is canceled due to inclement weather. If the student has a valid conflict with the established time, it will be considered an excused absence. (See College Catalog for a list of acceptable excused absences. In this situation, a work scheduling conflict would also be considered an excused absence.)

Unexcused Absences

Unexcused absences are those absences for any reason other than those listed above under the "Excused Absences." Faculty members may decide whether or not to penalize students for unexcused absences. Such penalties, if any, will be clearly noted in the course syllabus. Faculty members have no obligation to allow students to complete missed assignments/exams for unexcused absences.

Grading System

Grade	Evaluation	Points per hour
A+	Excellent (Plus)	4.0
A	Excellent	4.0
A-	Excellent (minus)	3.7
B+	Good (plus)	3.3
B	Good	3.0
B-	Good (minus)	2.7
C+	Satisfactory (plus)	2.3
C	Satisfactory	2.0
C-	Satisfactory (minus)	1.7
D+	Poor (plus)	1.3
D	Poor	1.0
D-	Poor (minus)	.7
F	Failure (no credit)	0
IN	Incomplete	
IP	In progress	
CR	Credit (CR/NC option)	
NC	No Credit (CR/NC option)	
WX	Withdrawal before judgment could be formed	
WP	Withdrawal, passing	
WF	Withdrawal, failing	
AU	Audit (no credit)	

Grade Point Average (GPA)

The grade point average is the number of grade points earned divided by the semester credit hours receiving grades A through F. Each semester a term GPA and a cumulative GPA are calculated and reported on the grade report. These two averages are used to determine the student's academic status and eligibility for various offices, honors, or courses and for eligibility for athletic competition.

Credit hours graded F are included in the computation of the GPA but do not count toward graduation requirements. Repeating a course which was graded F does not increase the credit hours used to determine the GPA but will increase both grade points and credit hours toward graduation according to the new grade earned.

Repeating a course for which credit has been granted will not increase the credit hours toward graduation, but the new grade earned may be substituted for the old in determining grade points. It is the student's responsibility to notify the Registrar's Office if a course is repeated.

Incomplete Grade

An incomplete grade is awarded only when a student has been unable to complete the work due to circumstances beyond his or her control. The student must be doing satisfactory work within four weeks of the end of the semester. The incomplete grade is considered temporary and the student must make up the work without repeating the course. The incomplete grade must be replaced with a letter grade by the date specified by the instructor or within eight weeks of the semester's end, whichever date comes first for traditional semester courses. Non-traditional academic programs may have different time frames based on length of course. If the work is not completed, the incomplete will be converted to the grade specified on the incomplete grade form. Exceptions to the policy require approval of the appropriate Academic Dean.

In Progress Grade

The in progress (IP) grade may be used for practica, internships, and research or project courses or independent studies. It is a temporary grade that must be replaced by a letter or credit grade, and it may be used only for course work that is expected to continue beyond one semester.

Grade Reports

Preliminary Reports

At the end of seven weeks in every regular semester, instructors report the current grade of any student who at that point has achieved below the C level. These grades are sent to the student's academic advisor.

Regular Reports

At the end of each semester, students' final grades for the semester are accessible on-line.

Change of Grade

When a final grade has been reported to the Registrar's Office it cannot be changed except by the Academic Dean in consultation with the instructor.

Transcripts

Official transcripts are issued by the Registrar's Office, for a fee, within five business days after receipt of a formal request signed by the student. All indebtedness to the college must be satisfied before any official transcript of record will be issued.

Academic Grievance

Whenever a student believes he or she has been unfairly treated in matters of grades or other evaluations, course policies or expectations, or is facing allegations of cheating or plagiarism, the following grievance procedure should be followed.

Students who are dissatisfied with the grade awarded for a course component or for the course itself should take their grievance to the faculty member involved. If the student is not satisfied with the response from the faculty member, they should take their concern to the Department Chairperson. Only if they are still not satisfied should they go to the appropriate Academic Dean. The decision of the appropriate Academic Dean in such matters is final. At each level the student should expect to receive an explanation in writing. **Such grievances must be initiated within six weeks after the final day of class in question and should be documented in writing.**

Academic Integrity

Academic integrity is a serious matter. Dishonesty is an affront to the character and law of God and an insult to the academy and to its professors. It destroys the basic building blocks for community and has been called a "crime against nature" and an "obscenity" within the educational context because it violates freedom and trust, which are absolutely essential for effective learning. It limits the ability of the student to reach his or her potential as a child of God and citizen of the Kingdom. For these reasons it must be fully understood and closely monitored.

Definitions

Honesty is a personal quality of being authentic, truthful, whole or complete, and responsible. People who are honest will be trusted and respected by others. Dishonesty is the quality of being inauthentic and deceitful to others. It involves abusing or hiding the truth. It breaks trust between people, robs its victims of their sense of security and justice, and shows disrespect for Biblical standards of righteousness.

There are several types of dishonesty that are specific to the academic community. Some of these behaviors typically occur within the context of a specific academic course addressed in points one through five below. Others occur outside the classroom and therefore have broader community implications, as outlined by points five and six.

- 1) Plagiarism: the misattribution or misrepresentation of the intellectual work of another person as one's own, including their ideas, pictorial or graphic materials, and works.
- 2) Inventing or falsifying information in an academic exercise, for example, making up a fictitious source or quote or intentionally giving an incorrect citation.
- 3) Cheating: obtaining or attempting to obtain answers from another student for an academic test or exercise, or using unauthorized notes during an exam.
- 4) Allowing one's own intellectual work to be dishonestly used by others, including sharing a term paper, examination, or diskette so that another student may cheat.
- 5) Misrepresenting or disguising one's actions in order to deceive the instructor, including fabricating a reason for having missed a class or a deadline or turning in a paper for one class that was originally written for another class.
- 6) Preventing other students from successfully completing an academic assignment for example, stealing materials from the library; stealing a diskette, textbook, or notes from another student; hiding materials in the library; or ruining a laboratory experiment.

- 7) Forging a signature on, or unauthorized alteration of, academic documents such as transcripts, registration and drop-add forms, grade books.

Procedural Guidelines for Intellectual Dishonesty Cases

Definitions—Each syllabus should include a statement about academic dishonesty for that course. Instructors are encouraged to reference the college integrity policy and openly articulate their personal philosophy about dishonesty in class.

Detection—Where the instructor has reason to believe that dishonest behavior has occurred, the parties involved should be confronted as soon as possible and all relevant materials confiscated where possible. If there is reasonable doubt about whether an offense has occurred, the instructor should warn the student or students. While instructors must be careful to avoid false accusation, they are free to exercise their professional judgment.

Reporting Procedure—The instructor will confront the student or students involved and report the offense to the department chairperson for consultation. Prior to making a course-specific judgment about penalties to be imposed, the appropriate Academic Dean will be notified about the offense, who will determine if additional disciplinary action may be warranted. The appropriate Academic Dean will inform the Dean of Student Development for the purpose of record keeping and, if applicable, consideration of additional disciplinary measures to be taken. A staff member or administrator who discovers a case of academic dishonesty should report it to the appropriate Academic Dean, who shall then follow the procedures of this document.

Sanctions—For an offense in categories one through five, several penalty options are available to the instructor, including, but not limited to the following:

- Informal or formal warning to the student or students involved.
- Requiring the assignment or test in question to be retaken, with a lower grade.
- Requiring makeup work, with or without a lower grade being assigned.
- Assigning a grade of zero for the assignment or test in question.
- Lowering the final grade for the course.
- Giving the student a failing grade for the course.

In addition to the above sanctions, the instructor, appropriate Academic Dean or Dean of Student Development may require for an offense in categories six or seven, sanctions that may include, but are not limited to, the following:

- Informal or formal apologies to the victim or victims,
- Restitution for lost or damaged material.

Upon recommendation of the appropriate Academic Dean or Dean of Student Development may invoke further penalties as warranted by an offense, including:

- Charging fines,
- Placing the student on academic and/or disciplinary probation,
- Suspension or dismissal from the institution,
- Reporting the offense to external authorities.

For multiple or repeat offenses, the penalty imposed will normally be of greater severity. College policy allows for the possibility of suspension upon the commission of a second offense.

Appeals—Students have the right to appeal disciplinary actions taken in response to academic dishonesty. A faculty member's ruling can be appealed to the department chairperson. If needed, further appeals are taken to: an ad hoc committee of three faculty members appointed by the appropriate Academic Dean and finally, to the President whose decision is final.

Academic Standing

Dean's List

At the end of each semester the names of undergraduate students with high achievement are published and a congratulatory note is sent to each student by the appropriate Academic Dean.

To be eligible for this recognition, the student must for that semester:

- 1) Pass at least 12 credit hours.
- 2) Earn a GPA of at least 3.6.
- 3) Receive no grades of F, WF, IN, or NC.

Athletic Eligibility

Geneva College complies with the eligibility standards established by Division III of the National Collegiate Athletic Association.

“To be eligible to represent an institution in intercollegiate athletics competition, a student-athlete shall be enrolled in at least a minimum full-time program of studies, be in good academic standing and maintain satisfactory progress toward a baccalaureate or equivalent degree... A waiver of the minimum full-time enrollment requirement may be granted for a student enrolled in the final term of the baccalaureate program. Also, a student may represent the institution while enrolled as a graduate or professional student or while enrolled and seeking a second baccalaureate degree at the same institution.” (NCAA Div III Manual 2006-2007, pg. 85)

Academic Continuation

The academic status of each student is determined at the end of every grading period and is normally based on the decision criteria described below. Students are normally considered to be in “Academic Good Standing” unless their cumulative GPA falls below 2.00. Students who are not in “Academic Good Standing” fall into one of three categories: Probation, Suspension, or Dismissal. Normally, students are placed in one of these categories based on academic performance as described below. Students who have GPAs that qualify them for these categories may be explicitly notified, but absence of such explicit notification does not exempt a student from the status or the consequences of the status.

The college administration reserves the right to place a student on probation, suspension, or dismissal for reasons other than the criteria described here. Criteria that might be used to make these judgments include, but are not limited to, specific patterns of poor academic performance, weak progress in completing attempted credit hours, student disciplinary history, poor class attendance, problematic behavior in and/or out of class, lack of conformance to academic regulations, and so forth. If the dismissal occurs before the end of the first ten weeks, the courses will be marked as withdrawn. After the first ten weeks, the student will receive actual letter grades.

If a student’s cumulative GPA is below the following values in the appropriate Hours Attempted category, the student’s Academic Status is as listed. [Note that “cumulative GPA” has a specific meaning for students who have transferred credit to Geneva. In short, “cumulative GPA” is based only on course work that was taken after a student matriculated at Geneva. Courses taken prior to that date may be accepted in transfer, but the GPA’s associated with those courses are not carried forward, except Education majors. See the section on Transfer Policies (page 203) for more details on this policy and other matters that effect transfer students.]

<u>Hours Attempted</u>	<u>Warning</u>	<u>Probation</u>	<u>Suspension</u>	<u>Dismissal</u>
0-17	2.20	2.00	1.50	--
18-34	2.20	2.00	1.70	0.50
35-68	2.20	2.00	1.70	1.00
69-90	2.20	2.00	1.85	1.50
91 or above	2.20	2.00	1.95	1.85

Academic Warning

Students who have a cumulative GPA less than 2.20 at the end of a grading period are on Academic Warning. This indicates that this student has a GPA that is sufficiently low to warrant concern about the student’s ability to successfully meet the 2.00 minimum GPA required for graduation. However, as long as the student’s cumulative GPA remains at 2.00 or above, the student is in “Academic Good Standing.”

Academic Probation

Students who have a cumulative GPA less than 2.00 at the end of a grading period (or whose admission to the college is as a probationary student) are on academic probation. Academic probation status indicates that the student is not making satisfactory progress towards graduation. In order to help students become academically successful, students on academic probation are under the following restrictions:

- May not enroll for more than 14 credit hours in any single semester.
- Are ineligible for the following co-curricular activities: varsity, junior varsity or club athletics (including off-season team practices), Geneva-sponsored music ensembles, theatre productions (any capacity), student leadership, and student publications.
- May not be resident assistants or hold any other compensated student leadership roles.

- May be subject to further conditions determined by the college administration based on individual circumstances.

Students on academic probation are required to seek assistance from Geneva's Student Success Center for assistance in academic skills such as effective study habits, time management, and note taking. Students on academic probation are also encouraged to re-take courses in which they have failed as the quickest means to raise their GPA.

A student may appeal one or more of the restrictions associated with Academic Probation by submitting a written request, along with any supporting documentation, to the appropriate Academic Dean. The appeal must be based on the assurance of improved academic performance, and the assurance that past difficulties that have affected academic performance can be overcome. The appropriate Academic Dean may consult with appropriate college staff concerning the student's appeal, including, but not limited to, staff in student development, the business office, and the student's academic advisor. Such an appeal must be made at least three business days prior to the start of a spring semester, and at least one week prior to the start of a fall semester.

Academic Suspension

Students are on academic suspension if their GPA is less than the value indicated in the chart above. Students on academic suspension are prohibited from taking any classes at Geneva for at least one regular academic semester (Fall or Spring). Further, any course work taken elsewhere while on academic suspension will not be accepted as transfer credit, except upon successful readmission and Registrar's Office course approval. (Note: For students pursuing teaching certification, courses will transfer and will count toward the career GPA.)

A student on academic suspension may appeal to be moved to academic probation status by submitting a written request, along with any supporting documentation, to the appropriate Academic Dean. The appeal must be based on the assurance of improved academic performance. Such appeals will be granted only in cases where there is clear reason to expect immediate and marked improvement in academic performance and the demonstration that factors that have disrupted academic progress have been successfully addressed. The appropriate Academic Dean may consult with appropriate college staff concerning the student's appeal, including, but not limited to, staff in student development, the business office, and the student's academic advisor. Such an appeal must be made at least three business days prior to the start of a spring semester, and at least one week prior to the start of a Fall semester.

Readmission following suspension will be based on evidence of improved academic performance or evidence that past difficulties that have affected academic performance have been overcome, and that eventual completion of the requirements for a degree can be reasonably expected. Students on academic suspension who wish to be readmitted should send a letter of application, along with any supporting documents, to the appropriate Academic Dean no later than 60 days prior to the first day of class in the semester for which they are seeking readmission. Students who are readmitted following suspension will be on academic probation until such time as their cumulative GPA rises above 2.00, they are placed on Academic Suspension again, or they are placed on Academic Dismissal.

Academic Dismissal

Academic dismissal occurs when the student's academic performance indicates that it is unreasonable to anticipate eventual completion of degree requirements (normally determined by the chart above). Since the dismissal is intended to be permanent, only the lapse of a year or more and a drastic change in circumstances can justify application for readmission to the appropriate Academic Dean. The appropriate Academic Dean will grant readmission of a dismissed student only in rare instances.

Withdrawal From The College

To withdraw from the college, a student must complete a withdrawal form available from the Student Development Office. If the student receives financial aid, he or she should notify the Director of Student Financial Services. A resident student may not reduce class load below 12 semester credit hours without approval by the Dean of Student Development. Since college housing is intended for full-time students, a student who drops below 12 credit hours must petition the Residence Life Office in order to remain in college housing.

Readmission After Withdrawal

A full-time or part-time degree candidate who for any reason is out of college for a semester or more must apply for readmission to the Registrar's Office. The application, http://www.geneva.edu/academics/registrar/registrar_downloads which is available online at, must be accompanied by official transcripts of all grades earned at other institutions since leaving Geneva and should be filed at least 60 days prior to registration to assure proper clearance and a smooth transition

back into the college. For readmission following academic suspension, please refer to the section labeled “Academic Suspension”.

Geneva College will readmit veterans who left in order to perform military service. The veteran will be readmitted with the same academic status he or she had when last they attended the institution. In most cases, the length of the absence from the institution cannot exceed five years. Exceptions to this policy would include the veteran receiving a dishonorable discharge or bad conduct discharge, or who are sentenced in a court-martial.

Once readmission is granted, there are several steps that must be completed prior to the start of the term:

1. **Enrollment Deposit.** Prior to registering for your courses, you are required to submit your \$250 enrollment deposit. You can pay your enrollment deposit online at geneva.edu/deposit. Be sure to have your Student ID available.
2. **Registration.** Contact your academic advisor to review courses and necessary requirements.
3. **Student Financial Services.** Contact the Student Financial Services Office (724-847-6530) and consult with them regarding your financial aid eligibility, estimated balance, and tuition due dates.
4. **Commuter/Resident Status.** Contact Mrs. Kelsey Murphy, housing@geneva.edu, to discuss your living plans. Even if you plan to commute, your commuter status must be approved by the Residence Life Office.
5. **Student Account Information.** Watch for information regarding the reactivation of your Geneva student account and how to access it. The information will be sent to you via email at the address you provided on your Readmission form.

Credit-No Credit Option

Any junior or senior with a cumulative average at registration of 2.5 or higher may choose to take one course per semester on a credit-no credit basis. The student must decide by the normal drop date (see above) whether to be graded credit-no credit or in the regular manner. Credit-no credit grading is not allowed for any course used to meet a core, a major, or a minor requirement. To receive a grade of credit, performance equivalent to a grade of C or better is required.

Credit-No Credit Courses

The following courses, also graded credit-no credit (CR/NC), are repeatable, but not more than a combined total of eight semester credit hours in all can be applied toward minimum graduation requirements: COM 201, 203, 204; EDU 220; ENG 221, 223; HMN 491; MUS 212, 213, 214, 215, 216, 218, PED 104.

Transfer Policies

Detailed information for students transferring to Geneva and for Geneva students who wish to transfer credits to Geneva is found on page 203.

Applied Music Policies

College students taking music lessons, whether for credit or not, are required to register at the regular time and place for college registration. They will be charged for 14 lessons for the semester. Absences may be made up at the discretion of the instructor. In certain areas of performance, private weekly instruction is available to non-students.

Auditing

Any student may audit a course with the instructor’s permission. Full-time students who wish to have a course recorded as AU must register for it within the first two weeks of the beginning of the regular semester, and pay half the per-hour tuition rate for any credit hours above the load limit described on page 208. All part-time students pay half tuition for the auditing privilege. Audited courses do not apply toward graduation requirements. Exceptions to this policy must be approved by the appropriate Academic Dean.

Veteran’s Education

Geneva College is approved for the education of veterans under Public Law 894, and Chapter 34 of the GIBILL. Veterans should check with the Veterans Administration regarding their eligibility for educational or other veteran benefits. Veterans may receive two credit hours in physical education by filing in the Registrar’s Office a photostatic copy of their separation record. Upon presentation of appropriate records, credit for service school courses may also be granted as recommended in “A Guide For The Evaluation of Educational Experiences in the Armed Forces.”

Program for Adult Continuing Education (PACE)

PACE provides an avenue for students to take courses as non-degree candidates without formal admission. A maximum of 30 credit hours (attempted and completed) may be taken, at which time formal application for admission must be made. The student, however, is permitted to apply for admission any time during the course of the 30 credit hours. The student is required to maintain a satisfactory grade point average in order to be permitted to register for future courses.

Graduation Arrangements

Upon completion of degree requirements and application to the Registrar's Office, a student may be graduated at the end of either semester or of the summer session. At the conclusion of the spring semester each year, commencement exercises are held for all students who have completed graduation requirements at that time or the preceding January, or who expect to complete their final 9 credit hours (or less) by August. Three commencement ceremonies are held: a more informal one in December, and two more formal ones in May. On the evening before the traditional undergraduate commencement day, graduates are invited to participate in a public baccalaureate worship service.

Undergraduate Honors and Awards

Special recognition is given to members of the graduating class who have maintained high scholastic standing. To qualify for honors a student with a bachelor's degree must have completed 60 or more credit hours while matriculated at Geneva, including affiliate programs. The selection for graduation honors is based on the student's cumulative grade point average at the time of degree conferral.

The following recognition is provided:

Valedictorian

The person or persons with the highest GPA in the graduating class during the academic year (August, December, or May) with no repeated course.

Summa Cum Laude (with highest honor)

GPA of 3.8 or higher

Magna Cum Laude (with high honor)

GPA of at least 3.6 but less than 3.8

Cum Laude (with honor)

GPA of at least 3.4 but less than 3.6

Students with associate's degrees must have completed 36 or more credit hours while matriculated at Geneva, including affiliate programs. The selection for graduation honors is based on the student's cumulative grade point average at the time of degree conferral.

The following recognition is provided:

With Highest Honors

GPA of 3.8 or higher

With High Honors

GPA of at least 3.6 but less than 3.8

With Honor

GPA of at least 3.4 but less than 3.6

Departmental Honors

Honors are awarded to students who have completed research or creative projects, or performance activities judged to be of high quality by the faculty of an academic department, including a public presentation of the projects at a special honors symposium.

DEGREES AND PROGRAMS

Degrees

Bachelor's Degrees

These require a minimum of 120 semester credit hours. Majors which require more than 120 credit hours are identified under Programs of Instruction.

- Bachelor of Arts
- Bachelor of Science
- Bachelor of Science in Business Administration
- Bachelor of Science in Education
- Bachelor of Science in Engineering
- Bachelor of Professional Studies

Associate's Degrees

These require a minimum of 60 semester credit hours.

- Associate in Business Administration
- Associate in Engineering

Master's Degrees

Each requires a minimum of 33 semester credit hours.

- Master of Arts in Counseling (requires 60 credit hours)
- Master of Arts in Higher Education
- Master of Business Administration
- Master of Science in Cybersecurity
- Master of Science in Leadership Studies

Second Degrees

A student who has earned a bachelor's degree from another institution may be granted a second degree by fulfilling all of the following requirements:

- 1) A minimum of 40 credit hours earned in residence at Geneva.
- 2) A minimum of 15 credit hours or 25% earned in a new major at Geneva.
- 3) All of Geneva's core requirements not fulfilled in the first degree.

A Geneva graduate may earn a second degree or major by completing the requirements, including at least 15 credit hours in the major earned at Geneva. Once a student graduates, the requirements for a second degree or major are determined by the catalog current at the time of re-enrollment.

TRADITIONAL UNDERGRADUATE PROGRAMS

Department of Biblical Studies, Ministry and Philosophy

Following the guidelines established in the Foundational Concepts of Christian Education, the instructors in this department are committed to the historic Reformed doctrine of Scripture as the inspired, infallible, and authoritative Word of God.

Biblical studies are designed to develop the basis for Christian perspectives in the study of the liberal arts, to encourage the formulation of a scripturally informed conception of life and of the world, to equip for ministry, and to provide a foundation for advanced study and professional specialization.

The Philosophy Program at Geneva College serves students in Biblical Studies as well as in Core Studies and other majors. It offers a Philosophy Major and Minor. The Philosophy Program offers courses in Philosophical Orientation (introductory philosophical awareness), Philosophical Tradition (fundamental texts and formative ideas from the History of Western Thought and Culture), and Christian Philosophical Formation (forming students as Christian believers in the philosophical life).

Besides supervising the majors and minors described in this section, the department shares responsibility for the minor in Christian school teaching, described on page 61.

Biblical Studies Major • BA - Program requirements 36 credit hours

In addition to the nine credit hours required in the college core:

BIB 200	How to Read the Bible	3
BIB 308	Luke	3
or BIB 311	Matthew	3
or BIB 313	John	3

One Old Testament course from:

BIB 301	Old Testament Prophecy	3
BIB 302	Wisdom Literature	3
BIB 303	Old Testament Studies	3
BIB 304	Psalms	3
BIB 305	Isaiah	3
BIB 306	Daniel	3
BIB 307	Judah's Exile/Restoration	3
BIB 340	Inter-Testamental Literature	3
BIB 341	Archeology and Geography of Israel	3

Nine credit hours in philosophy selected from:

PHI 100	Critical Thinking	3
PHI 110	The Philosophical Conversation	3
PHI 112	Ethics *	3
PHI 113	C.S. Lewis *	3
PHI 200	Plato and Classical Philosophy	3
PHI 202	Augustine *	3
PHI 206	Aquinas and Medieval Philosophy *	3
PHI 300	History of Modern Philosophy	3
PHI 304	Nineteenth-Century Social Philosophers and Pragmatism	3
PHI 305	Contemporary Philosophy: The Analytic Tradition	3
PHI 306	Postmodern Philosophers	3
PHI 307	Women Philosophers	3
PHI 308	Contemporary Continental Philosophy	3
PHI 309	Kierkegaard & Nietzsche	3
PHI 310	Christian Understanding of Life *	3
PHI 353	Philosophy of Science	3
PHI 354	Political Philosophy	3
PHI 355	Philosophy for Theology	3

(Priority should be given to * courses)

Three credit hours in church history:		
BIB 350	History of the Christian Church	
or BIB 351	Church History I: Patristic and Medieval	
or BIB 352	Church History II: Reformation and Modern	
or BIB 353	Covenanter History and Theology (Scotland)	3
Three credit hours in theology selected from:		
BIB 320	Special Topics in Theology	3
BIB 324	Introduction to Reformed Tradition	3
BIB 322	Calvin's Institutes	3
BIB 325	Biblical Theology	3
Three credit hours in evangelism:		
MIN 210	Evangelism	3
Three credit hours in practical theology selected from:		
MIN 205	Christian Education in the Local Church	3
MIN 215	Methods of Teaching the Bible	3
MIN 219	World Christian Movement	3
MIN 220	Topics in Christian Ministry	3
Six additional credit hours in Biblical studies or philosophy one of which must be a New Testament course		6

Biblical Studies Minor

Requires a minimum of 18 credit hours

Six credit hours in:

BIB 350	History of the Christian Church	
or BIB 351	Church History I: Patristic and Medieval	
or BIB 352	Church History II: Reformation and Modern	
or BIB 353	Covenanter History and Theology (Scotland)	3
PHI 100	Critical Thinking	3

Three credit hours from:

BIB 320	Special Topics in Theology	
or BIB 322	Calvin's Institutes	
or BIB 324	Introduction to Reformed Tradition	
or BIB 325	Biblical Theology	3

Three credit hours from:

BIB 301	Old Testament Prophecy	3
BIB 302	Wisdom Literature	3
BIB 303	Old Testament Studies	3
BIB 304	Psalms	3
BIB 305	Isaiah	3
BIB 306	Daniel	3
BIB 307	Judah's Exile/Restoration	3
BIB 308	Luke	3
BIB 309	Revelation	3
BIB 310	Pauline Epistles	3
BIB 311	Matthew	3
BIB 313	John	3
BIB 314	New Testament Studies	3
BIB 315	Acts	3
BIB 316	Romans	3
BIB 317	Ephesians/Pastorals	3
BIB 318	Hebrews	3

Three credit hours from:		
MIN 205	Christian Education in the Local Church	3
MIN 210	Evangelism	3
MIN 215	Methods of Teaching the Bible	3
MIN 219	World Christian Movements	3

Three credit hours from:		
PHI 310	Christian Understanding of Life	3
or another philosophy course approved by the department		

Missions Major • BA- Program requirements 39 credit hours

This track helps to equip a student for cross-cultural ministry, ordinarily for service under the supervision of a mission agency.

Three credit hours in Bible interpretation:		
BIB 200	How to Read the Bible	3

Nine credit hours in Bible content courses, including at least three credit hours in Old Testament and three credit hours in New Testament:

BIB 301	Old Testament Prophecy	3
BIB 302	Wisdom Literature	3
BIB 303	Old Testament Studies	3
BIB 304	Psalms	3
BIB 305	Isaiah	3
BIB 306	Daniel	3
BIB 307	Judah's Exile/Restoration	3
BIB 308	Luke	3
BIB 309	Revelation	3
BIB 310	Pauline Epistles	3
BIB 311	Matthew	3
BIB 313	John	3
BIB 314	New Testament Studies	3
BIB 315	Acts	3
BIB 316	Romans	3
BIB 317	Ephesians/Pastorals	3
BIB 318	Hebrews	3

Three credit hours in philosophy from:		
PHI 310	Christian Understanding of Life	3
PHI 318	Philosophies of World Religions	3

Three credit hours in evangelism:		
MIN 210	Evangelism	3

Nine credit hours in missions from:		
MIN 201	Cultural Anthropology	3
MIN 204	Sustainable Missions	3
MIN 219	World Christian Movement	3
MIN 224	Missions and Culture	3
MIN 225	Globalism and Multiculturalism	3
LIN 219	Introduction to Linguistics	3
LIN 220	Applied Linguistics	3

Three credit hours in theology selected from:		
BIB 320	Special Topics in Theology	3
BIB 322	Calvin's Institutes	3
BIB 324	Introduction to Reformed Tradition	3
BIB 325	Biblical Theology	3

Three credit hours in church history:		
BIB 350	History of the Christian Church	
or BIB 351	Church History I: Patristic and Medieval	
or BIB 352	Church History II: Reformation and Modern	
or BIB 353	Covenanter History and Theology (Scotland)	3

Six credit hours Internship involving guided experiences in cross-cultural outreach (MIN 493)		6
---	--	---

Pre-Seminary Major -BA - Program requirements 39 credit hours

This track leads to seminary studies and is intended for the student aiming towards ordination to the Christian ministry.

Three credit hours in Bible Interpretation:		
BIB 200	How to Read the Bible	3

Six credit hours in Bible content courses divided between 3 credit hours Old Testament and 3 credit hours New Testament studies, and selected from:

BIB 301	Old Testament Prophecy	3
BIB 302	Wisdom Literature	3
BIB 303	Old Testament Studies	3
BIB 304	Psalms	3
BIB 305	Isaiah	3
BIB 306	Daniel	3
BIB 307	Judah's Exile/Restoration	3
BIB 308	Luke	3
BIB 309	Revelation	3
BIB 310	Pauline Epistles	3
BIB 311	Matthew	3
BIB 313	John	3
BIB 314	New Testament Studies	3
BIB 315	Acts	3
BIB 316	Romans	3
BIB 317	Ephesians/Pastorals	3
BIB 318	Hebrews	3

Six credit hours in Hellenistic Greek or in Biblical Hebrew		6
---	--	---

Nine credit hours in philosophy selected from:		
PHI 100	Critical Thinking	3
PHI 110	The Philosophical Conversation	3
PHI 112	Ethics	3
PHI 200	Plato and Classical Philosophy	3
PHI 202	Augustine	3
PHI 310	Christian Understanding of life	3

Three credit hours in church history:		
BIB 350	History of the Christian Church	
or BIB 351	Church History I: Patristic and Medieval	
or BIB 352	Church History II: Reformation and Modern	
or BIB 353	Covenanter History and Theology (Scotland)	3

Three credit hours in theology selected from:		
BIB 320	Special Topics in Theology	3
BIB 322	Calvin's Institutes	3
BIB 324	Introduction to Reformed Tradition	3
BIB 325	Biblical Theology	3

Three credit hours in evangelism:
 MIN 210 Evangelism 3

Three credit hours in internship:
 MIN 493 A Christian Ministries Internship 3

Three credit hours in electives chosen from any of the BIB, MIN or PHI categories.

As part of its Pre-Seminary program, Geneva's Bible department has entered into a 3-3 program with the Reformed Presbyterian Theological Seminary in Pittsburgh. This program is designed to make it possible for an undergraduate student to take three years of coursework at Geneva, and three years of coursework at the Reformed Presbyterian Theological Seminary and thus earn both an undergraduate degree in Christian Ministries at Geneva and a Master of Divinity at RPTS in the space of six years.

Missions/Aviation Dual Degrees • AAS and BA – 64 credit hours max CCBC

In cooperation with the Community College of Beaver County, Geneva College has developed a dual degree program by which a student may earn the Associate in Applied Science degree (AAS) in professional piloting from the community college and the Bachelor of Arts in Missions degree from Geneva College. The program enhances the graduate's career potential by blending specific vocational training in aviation with the broader education experience involved in earning a baccalaureate degree.

Community College of Beaver County's AAS in aviation can be earned before, after, or entirely apart from fulfillment of requirements for Geneva's BA.

Community Development Minor

18 credit hours

MIN 201	Cultural Anthropology	3
MIN 225	Globalism and Multiculturalism	
or SOC 254	Gender, Class and Race	3
MIN 491	Sustainable Missions	3
SOC 230	Introduction to Community Development	3
SOC 271	Restoring the City	3
SOC 311	Sociology of the City	3

Missions Minor

Requires a minimum of 18 credit hours
 Choose three courses selected from:

MIN 201	Cultural Anthropology	3
MIN 219	World Christian Movement	3
MIN 224	Missions and Culture	3
MIN 225	Globalism and Multiculturalism	3

or approved course substitution or up to one 3-credit internship containing cross-cultural experience

Six credits from BIB 301-BIB 314 (these are upper level OT and NT content courses)

Three credit hours of church history or theology.

BIB 322	Calvin's Institutes	3
BIB 324	Introduction to Reformed Tradition	3
BIB 325	Biblical Theology	3
BIB 340	Inter-Testamental Literature	3
BIB 341	Archaeology & Geography of Israel	3
BIB 350	History of the Christian Church	3
BIB 351	Church History I: Patristic and Medieval	3
BIB 352	Church History II: Reformation and Modern	3

Pre-Seminary Minor

Requires a minimum of 18 credit hours

Six credit hours of Bible content

Six credit hours of philosophy content

Three credit hours of theology

Three credit hours of practical theology

Philosophy Major · BA - Program requirements 33 credit hours

The mission of the Philosophy Program at Geneva College is: Engaging the Philosophical Conversation, honing critical skills and passions, cultivating wisdom, for service, for living; in submission to Christ the Truth. Accordingly, we offer courses in Philosophical Orientation (introductory philosophical awareness), Philosophical Tradition (fundamental texts and formative ideas from the History of Western Thought and Culture), and Christian Philosophical Formation (forming students as Christian believers in the philosophical life). The Philosophy Program maintains a commitment to a caliber of undergraduate training that is required for successful admittance into graduate programs in philosophy.

Courses in the Major are offered over a two-year cycle. Philosophy Majors are also encouraged to take additional courses in Bible and other Humanities, and possibly to add a second major.

Philosophical Orientation: 6 hours from

PHI 100 Critical Thinking 3

PHI 110 The Philosophical Conversation
or PHI 112 Ethics 3

Philosophical Tradition: 12 hours from

PHI 200 Plato and Classical Philosophy 3

PHI 206 Aquinas and Medieval Philosophy 3

PHI 300 History of Modern Philosophy 3

PHI 304 Nineteenth-Century Social Philosophers and Pragmatism 3

PHI 305 Contemporary Philosophy: The Analytic Tradition 3

PHI 306 Postmodern Philosophers 3

PHI 308 Contemporary Continental Philosophy 3

PHI 309 Kierkegaard and Nietzsche 3

PHI 353 Philosophy of Science 3

PHI 354 Political Philosophy 3

Christian Philosophical Formation: 12 hours

PHI 113 C.S. Lewis 3

PHI 202 Augustine 3

PHI 310 Christian Understanding of Life 3

Note: Philosophy majors may substitute PHI 310 for BIB 300

PHI 355 Philosophy for Theology 3

Capstone: 3 hours

PHI 410 Senior Seminar 3

*upon anticipated approval of Faculty Senate August 2018

Philosophy Minor

Eighteen credit hours in philosophy (PHI) courses, including PHI 110.

Student Ministry Major • BA - Program requirements 52 credit hours

This major prepares a student for ministry within the church, parachurch, or a variety of other organizations that work with students – children through college age. Adding substantial ministry experience to a solid Biblical, theoretical, and methods core, the major allows a student to concentrate on the area within their understood sense of personal calling, including: church and parachurch ministry; urban ministry; children's ministry, adventure education; and campus ministry.

Bible core (12 credit hours)

BIB 200 How to Read the Bible 3

One Gospel Course:

BIB 308 Luke 3

BIB 311 Matthew 3

BIB 312 Gospel Studies 3

BIB 313 John 3

One Old Testament Course from:

BIB 301 Old Testament Prophecy 3

BIB 302 Wisdom Literature 3

BIB 303 Old Testament Studies 3

BIB 304 Psalms 3

BIB 305 Isaiah 3

BIB 306 Daniel 3

BIB 307 Judah's Exile/Restoration 3

BIB 340 Intertestamental Studies 3

BIB 341 Archeology/Geography of Israel 3

One New Testament Course from:

BIB 309 Revelation 3

BIB 310 Pauline Epistles 3

BIB 314 New Testament Studies 3

BIB 315 Acts 3

BIB 316 Romans 3

BIB 317 Ephesians/Pastorals 3

BIB 318 Hebrews 3

BIB 340 Intertestamental Literature 3

Theory core (12 credit Hours)

MIN 319 Contemporary Adolescent Culture 3

MIN 311 Family Ministry 3

Choose one course in Theology from:

BIB 320 Special Topics in Theology 3

BIB 322 Calvin's Institutes 3

BIB 324 Introduction to Reformed Tradition 3

BIB 325 Biblical Theology 3

Choose one course in Philosophy from:

PHI 112 Ethics 3

PHI 113 C.S. Lewis 3

PHI 202 Augustine 3

PHI 206 Aquinas 3

Other Philosophy course approved by the Department 3

Methods core (9 credit hours)

MIN 210 Evangelism 3

MIN 240 Introduction to Student Ministry 3

Three additional credit hours methods course from:		
MIN 215	Methods of Teaching the Bible	3
MIN 203	Discipleship	3

Specialization core (3 credit hours)

Three credit hours from:

MIN 204	Sustainable Missions	3
MIN 242	Children’s Ministry	3
MIN 244	Urban Student Ministry	3
MIN 246	Campus Ministry	3
MIN 250	Theory and Practice of Experiential Education	3
MIN 253	Challenge Course Facilitation	3
SOC 230	Introduction to Community Development	3

Experiential core (16 credit hours)

Sixteen credit hours from:

MIN 292	Ministries Practicum (two credit hours per course for two semesters)	4
MIN 430	Senior Seminar	3
MIN 493	Student Ministry Internship (taken with MIN 430)	9

Recommended Electives:

MIN 316	Special Topics in Student Ministry- Including: Apologetics Arts and Ministry Critical Issues Principles of Leadership
---------	---

Student Ministry Minor

18 credit hours:

Six credit hours of BIB core—BIB 200 required plus one other course

Three credit hours of Theory core

Six credit hours of Methods core—MIN 240 required plus one other course

Three credit hours of Experiential core—MIN 292 or MIN 493

Study Abroad Possibilities

The Jerusalem University College program and the Geneva College Semester in Scotland program are housed in the department. Interested students can find additional information regarding these programs on page 149.

Department of Biology

The Biology Department’s program is intended to give each student an understanding of and appreciation of the living world as God’s creation, provide an appreciation for the use and limitations of the scientific method of inquiry, and prepare the student majoring in biology for a life of service. Some areas in which the biologist serves are healthcare, education, and research.

The department offers the environmental science major and the biology major, with concentrations in environmental biology, cell and molecular biology, and human biology, and supervises the pre-medical program (page 94) and programs in medical technology (page 36) and pre-nursing (page 37).

Geneva College is affiliated with the Au Sable Institute of Environmental Studies in Mancelona, Michigan. The institute is designed to support and serve evangelical Christian colleges by offering summer courses and programs in various areas of ecology, field biology, land resources, water resources, and environmental studies. The courses available through the institute are listed on page 148.

Note: Virtual or online labs cannot be used to fulfill requirements for a Biology degree.

Biology Major • BS - Program requirements 60-61 credit hours

38 credit hours of biology (BIO) courses, including:

BIO 107	Foundations of Biology	4
BIO 112	Introduction to Cellular Biology	4
BIO 225	Human Anatomy and Physiology I	4
BIO 319	Genetics	4
BIO 326	Human Anatomy and Physiology II	4
BIO 306	General Ecology	4
or EVS 111	Environmental Science	4
or EVS 221	Environmental Ethics	3

One of the following:

	Embryology, Botany, Neuroscience, or Molecular Biology	4
BIO 419	Senior Project	1

*BIO Electives above 290 (waived for BIO education majors and medical technology students)
(see list below for BIO electives)

CHM 111	General College Chemistry	4
CHM 221	Organic Chemistry I	4
CHM 222	Organic Chemistry II	4
PHY 181–182	General Physics I – II	
or PHY 201–202	College Physics I – II	4,4
MAT 105	Elementary Statistical Methods	
or PSY 205	Psychological Statistics	3

*BIO Electives:

BIO 302	Embryology	4
BIO 305	Microbiology	4
BIO 306	General Ecology	4
BIO 310	Botany	4
BIO 315	Immunology	3
BIO 316	Virology	3
BIO 317	Biochemistry I	3
BIO 331	Biomedical Ethics	3
BIO 405	Molecular Biology	4
BIO 421	Genomics	3
BIO 422	Neuroscience	4
BIO 491	Field Biology Classes (Au Sable)	3-6
CHM 491	Environmental Chemistry (Au Sable)	3-6
SCS 491	Other Environmental Classes (Au Sable)	3-6
BIO 292	Practicum	1-4
BIO 491	Special Study	1-3
BIO 495	Independent Study	1-3

Additional recommendations from related fields: CHM 232 Quantitative Analytical Chemistry or PSY 202 Biological Bases of Behavior.

Biology with Secondary Education Major • BS- Program requirements 57-58 which includes the following requirements:

BIO 112	Introduction to Cellular Biology	4
BIO 225	Human Anatomy and Physiology I	4
BIO 302	Embryology	4
BIO 306	General Ecology	4
BIO 310	Botany	4

BIO 319	Genetics	4
BIO 419	Senior Project	1
CHM 111	General College Chemistry	4
CHM 221	Organic Chemistry I	4
MAT 101	College Algebra	
or MAT 120	Precalculus Mathematics	3
or MAT 161	Calculus I	4
MAT 105	Elementary Statistical Methods	
or PSY 205	Psychological Statistics	3
PHY 181	General Physics I	
or PHY 201	College Physics I	4
PHY 182	General Physics II	
or PHY 202	College Physics II	4
SCS 105	Environmental Science	3
SCS 215	Earth and Space Science	3
SCS 403	Teaching of Secondary Science	4

In addition, they must take the professional requirements listed on page 59.

Chapter 354, "Preparation of Professional Educators," was enacted in 2000 in Pennsylvania. This law mandates certain regulations in the preparation of professional educators in the state. Students are responsible to be certain they are meeting regularly with their advisor in regard to this legislation. **Geneva College is not responsible for students who will not be certified because of failure to meet certification requirements at the time of graduation.**

Biology Minor

17-18 credit hours:

BIO 112	Introduction to Cellular Biology	4
BIO 225	Human Anatomy and Physiology I	4
BIO 306	General Ecology	4
or BIO 107	Foundations of Biology	4
or EVS 111	Environmental Science	4
or SCS 105	Environmental Science	3
Additional biology credit hours at 200 level or above		6

Environmental Biology Concentration

18 credit hours:

BIO 306	Ecology	4
BIO 310	Botany	4
EVS 111	Environmental Science	3

Plus six credits of courses at the AuSable Institute of Environmental Studies 6

Cell and Molecular Biology Concentration

19 credit hours:

BIO 112	Introduction to Cell Biology	4
BIO 317	Biochemistry	3
BIO 319	Genetics	4
BIO 405	Molecular Biology	4
BIO 421	Genomics	3
CHM 313	Biochemistry Laboratory	1

Human Biology Concentration

22 credit hours:

BIO 225	Human Anatomy and Physiology I	4
BIO 326	Human Anatomy and Physiology II	4
Plus 14 credits from the following:		
BIO 302	Embryology	4
BIO 305	Microbiology	4
BIO 315	Immunology	3

BIO 316	Virology	3
BIO 331	Biomedical Ethics	3
BIO 422	Neuroscience	4

Environmental Science Major • BS -Program requirements 60 credit hours

The environmental science major is an interdisciplinary curriculum that focuses on the functioning of the natural world, environmental problems and solutions, and management of natural resources. As students seek to understand the role of humans as stewards of God’s creation, they will gain a strong foundation in the natural sciences along with an understanding of ethics and public policy as they relate to environmental decision-making. Field-based courses at Au Sable Institute of Environmental Studies (see page 148) provide hands-on experience in the environment as well as additional opportunities to integrate faith and learning.

BIO 112	Cell Biology	4
BIO 225	Human Anatomy and Physiology I (lecture only)	3
BIO 306	General Ecology	4
BIO 310	Botany	4
BIO 319	Genetics	4
CHM 111	General College Chemistry	4
CHM 221	Organic Chemistry I	4
CHM 222	Organic Chemistry II	4
or CHM 232	Quantitative Analytical Chemistry	4
EVS 111	Environmental Science	4
EVS 221	Environmental Ethics	3
MAT 105	Elementary Statistical Methods	3
POL 361	American Public Policy	3
SCS 360	Land Resources (at Au Sable Institute)	4
Three additional courses at Au Sable Institute		12
(See page 148 for a list of available courses.)		

Additional recommendations: ENG 102 Academic Writing and Research Process, BIO 305 Microbiology, BIO 210 ID & Evolution, CHM 170 Worth of Water.

Environmental Science Minor

18 credit hours		
BIO 306	General Ecology	4
BIO 310	Botany	4
EVS 111	Environmental Science	4
Plus two courses taken at the Au Sable Institute of Environmental Studies		6

Medical Technology Affiliate Degree Program

A three-year sequence at Geneva totaling at least 94 semester credit hours can be combined with a year of training in an approved school of medical technology to earn a bachelor of science degree from Geneva. The three-year program includes all the core requirements for Geneva’s degree and 28 credit hours of biology and 16 credit hours of chemistry. See page 33 for the specific courses required for a biology major. Medical technology students are required to take BIO 305 Microbiology and BIO 315 Immunology, but they are not required to take physics or BIO 419. The National Accrediting Agency for Clinical Laboratory Sciences (NAACLS) requirements for medical technology include anatomy and physiology (BIO 225, BIO 326), immunology (BIO 315), genetics (BIO 319), microbiology (BIO 305), chemistry (CHM 111 General College Chemistry, CHM 221 Organic Chemistry I, CHM 222 Organic Chemistry II, CHM 232 Quantitative Analytical Chemistry, and statistics (MAT 105). Courses regularly offered at Geneva can satisfy the three-year curriculum requirements for the Board of Registry of Medical Technologists. The year of training at an approved school of medical technology is accepted as equivalent to the senior year in fulfilling Geneva’s degree requirements.

Nursing: Affiliate 2-2 • BSN

Geneva College has an affiliate relationship with Roberts Wesleyan University in Rochester, New York. This enables a student to earn a BSN degree by combining two years at Geneva College with two years at Roberts Wesleyan.

This program permits students to participate in Geneva's Reformed approach to the liberal arts and sciences for two years. The credit hours are then transferred to Roberts Wesleyan University and applied toward their four-year BSN degree. All nursing theory and clinical courses are included in the last two years of this program.

Completion of the prescribed courses at Geneva with a cumulative GPA and a science GPA of 2.50 or higher guarantees admission to the final two years at Roberts Wesleyan University. All the Geneva courses may also be applied toward a Geneva degree if so desired.

Program requirements

BIB 112, 113	Biblical Introduction I & II	3,3
BIO 112	Introduction to Cellular Biology	4
BIO 218	Introduction to Nutrition	3
BIO 225, 326	Human Anatomy and Physiology I & II	4,4
BIO 305	Microbiology	4
CHM 111	General College Chemistry	4
CHM 221	Organic Chemistry I	4
COM 101	Principles of Communication	3
ENG 101	English Composition	3
ENG 112	Introduction to Literary Study and Research	3
HIS 150	Survey of American History	
or HIS 220	Europe I: Ancient through Medieval	
or HIS 221	Europe II: 1500-1815	3
HUM 203	Making the West	3
MAT 105	Elementary Statistical Methods	3
PED 101	Physical Education	1
PED 103	Physical Fitness	1
PSY 201	Introduction to Psychology	3
PSY 250	Life Span Development	3
SOC 120	Society	3

*Two summer nursing courses are required at Roberts Wesleyan University before beginning the junior year there. CPR certification is also a prerequisite.

This program may prepare the student to transfer into other BSN programs. However, each program has its own unique requirements and many are not very accommodating to transfer students. A student interested in transferring into another program should contact that school in their freshman year to determine their requirements and transfer policies.

Nursing: Affiliate 3-2 Double Degree Program • BS and BSN

Nursing students wishing to receive a BS degree in biology from Geneva College may complete three years at Geneva before transferring to Roberts Wesleyan University or another BSN program. During those three years they complete all the college's core requirements for the BS degree and at least 28 credit hours of biology courses, including all the courses required for the biology major except BIO electives and BIO 419. See page 34 of the catalog for the major requirements. Their program must include all the courses required for admission to the third year of the BSN program into which they wish to transfer. The first year at the nursing school is then accepted as equivalent to the senior year in fulfilling Geneva's degree requirements. The nursing school conveys the BSN after one additional year.

It is also possible to complete a Bachelor of Science degree in Biology at Geneva and then enter one of many accelerated BSN programs.

See page 94 for the college's pre-medical program.

Department of Business, Accounting, and Management

The mission of the Business, Accounting, and Management Department is to develop competent business practitioners who can be effective witnesses for our Lord in the workplace. We believe that business is a calling by God that involves integrating Biblical concepts such as wisdom, stewardship, justice, righteousness, and integrity. Therefore the department desires to develop graduates who are grounded in Biblical principles and business knowledge equipped to serve Jesus Christ in their vocational endeavors.

The department offers an MBA in the graduate studies division and baccalaureate degrees in accounting, business, aviation, marketing, management, and sports management/business. Within the business major, concentrations are offered in finance, sport management, management, human resource management, marketing, international business and soon, entrepreneurship. The business programs emphasize the application of theory and professional practice; and the faculty possesses both academic competence and professional experience from a variety of employment settings. The department prepares students for responsible positions in business, accounting, not-for-profit, and/or government organizations.

Geneva College is a charter member of the Association of the Accreditation Council for Business Schools and Programs (ACBSP) and received national accreditation in 1997 for their undergraduate program and in 2004 for their graduate program. The accounting major meets the Pennsylvania State Board of Accountancy requirements to sit for the Certified Public Accountant (CPA) examination.

Unique aspects of the business program include the use of computer simulations and projects, study abroad opportunities, the management lunch program with local executives, service in student professional clubs and organizations, and continual opportunities to personally interact with the faculty. Internship placements are available in a variety of work settings. The department may offer intensive classes during periods immediately prior to and following regular semesters. These courses allow students to accommodate work schedules, internships, double majors, and other personal considerations.

In cooperation with the Community College of Beaver County (CCBC), Geneva College offers a four-year “dual degree” program in business and aviation. Students earn the associate in applied science degree (AAS) in professional piloting, aerospace management, unmanned aerial vehicle, or air traffic control from the Community College of Beaver County, plus the Bachelor of Science degree in Business Administration (BSBA) from Geneva College. Those graduating from the CCBC program qualify for the appropriate Federal Aviation Administration (FAA) ratings and certification.

The Business, Accounting, and Management Department also offers an Associate in Business Administration (ABA). All these courses may be applied toward a bachelor’s degree if desired. College minors are offered in business, accounting, marketing, finance and finance/economics.

Accounting and Accounting-CPA Majors • BSBA - Program requirements 66 credit hours

The accounting major prepares students for careers in managerial, governmental, or certified public accounting positions. Geneva’s program affords students the opportunity to define their accounting track towards public (150 total credit hours) or private accounting (120 credit hours). Both tracks offer students instruction from CPA faculty and potential for internships in their related areas of interest. The public track is designed to meet the requirements of the State Board of Accountancy to sit for the CPA examination. This can be accomplished in a traditional undergraduate setting or in a combined undergraduate-graduate program. Accounting graduates are more than equipped to meet today’s demand for well prepared and ethical accountants who are able to function in the business world.

Accounting Minor

Any 18 credit hours from among accounting (ACC) courses except ACC 457 Auditing.

Business Major • BSBA - Program requirements 66 credit hours

Geneva's business major requires a 54 credit hour core that provides the broad foundation necessary to comprehend the variety of functions and activities in business. The core then integrates the functional components for a strategic view of management. The business major builds upon the core with the choice of a 12 credit hour concentration of upper division courses in a specialized area. Concentrations may be selected in management/entrepreneurship, marketing, finance, human resource management, international business, economics, sport management, and information systems. Majors taking business/aviation use their aviation preparation as their concentration.

Business Major core courses 54 credit hours

ACC 151	Principles of Accounting I	3
ACC 256	Managerial Accounting	3
BUS 110	Business Foundations	3
BUS 115	Business Communication	3
BUS 241, 242	Business Analytics I, II	3,3
BUS 310	Principles of Management	3
BUS 311	Business Law	3
BUS 314	International Business	3

BUS 420	Market Research	3
BUS 421	Advertising and Promotion	3
or BUS 422	Sales and Sales Management	3
or BUS 425	Consumer Behavior	3

BUS 427	Digital Marketing	3
BUS 428	Strategic Marketing Policy (Marketing Capstone Course)	3

Human Resource Management Concentration

Lead Faculty Member: Matt Fuss

12 credit hours:

BUS 453	Employee & Labor Relations	3
BUS 454	Compensation & Benefits	3
BUS 455	Strategic Human Resource Management	3
BUS 456	Strategic Staffing	3

International Business Concentration

Lead Faculty Member: Denise Murphy-Gerber

12 credit hours:

COM 305	Culture & Communication	3
BUS 424	International Marketing and Export Management	3
ECO 327	Comparative Economic Systems	3
XCX 210	Foundations for Developing Intercultural Competence	3

Sport Management Concentration

Lead Faculty Member: Denise Murphy-Gerber

12 credit hours:

SPM 101	Introduction to Sport Management	3
SPM 201	Legal Issues in Sport	3
SPM 302	Facility Management and Design	3
SPM 401	Sport in American Culture	3

Students should declare a concentration as soon as possible, and no later than the beginning of their junior year.

Management Major • BS – Program requirements 69 credit hours

Management consists of the interconnecting functions of creating organizational policy and organizing, planning, controlling, and directing an organization's resources in order to achieve the objectives of that policy. The management degree combines the various management disciplines to expose students to these interconnecting functions and core aspects of business management. The B.S. in Management program offers a comprehensive overview of the field that will develop in students a multifaceted managerial skillset and prepare them to operate more effectively as managers in organizations as well as within cross-functional teams. This broad understanding of business management will enhance student's value to employers and expand career opportunities. The management major includes courses from all of the major disciplines of management including operations management, human resource management, project management, supervision, leadership, etc. The capstone for the major will be the Strategic Management course.

Business Core – 48 credit hours		
ACC 151	Principles of Accounting I	3
ACC 256	Managerial Accounting	3
BUS 110	Business Foundations	3
BUS 115	Business Communications	3
BUS 241	Business Analytics I	3

BUS 417	The Entrepreneur	3
BUS 441	Project Management	3
BUS 453	Employee & Labor Relations	3
BUS 454	Compensation & Benefits	3
BUS 455	Strategic Human Resource Management	3
BUS 456	Strategic Staffing	3

Marketing Major • BS – Program requirements 69 credits

The marketing degree exposes students to all of the core aspects of integrated marketing communications. The B.S. in Marketing program offers a comprehensive overview of the field that will allow students to engage in the many exciting areas in marketing from the creative side of marketing (advertising, promotion, sales, consumer behavior) to the more technical and/or skilled side of marketing (digital marketing, market research, public relations, international marketing, and strategic marketing.) Every organization is a marketing organization. An organization (whether a for-profit, not-for-profit or government entity) must communicate their products, services, and ideas. Without marketing, consumers do not know what the organization is offering. This multidimensional approach to marketing is presented as an applied approach to the discipline and gives the student not only a broad understanding of business marketing but also builds specific skills that an employer needs. Each student will graduate with a portfolio of practical, real-world projects to show a prospective employer the student's depth of knowledge and skill level. The capstone for the major will be the Strategic Marketing course.

Business Core- 42 credit hours		
ACC 151	Principles of Accounting I	3
BUS 110	Business Foundations	3
BUS 115	Business Communication	3
BUS 140	Business Computing	3

Business Minor

Eighteen credit hours:

ACC 151	Principles of Accounting I	3
BUS 110	Business Foundations	3
BUS 310	Principles of Management	3
BUS 311	Business Law	3
and any six credit hours of upper-level business courses		6

A minor of an alternative 18 credit hours content may be taken with department chair approval.

Finance Minor for accounting majors

Eighteen credit hours:

ACC 256	Managerial Accounting	3
ACC 357	Taxation	3
BUS 330	Principles of Finance	3
BUS 331	Investments	3
BUS 430	Intermediate Finance	3
ECO 311	Money, Credit, & Banking	3

Finance/Economics Minor for non-business majors

Eighteen credit hours:

ACC 151	Principles of Accounting I	3
BUS 330	Principles of Finance	3
ECO 211	Micro Economics	3
ECO 212	Macro Economics	3
ECO 311	Money, Credit, and Banking	3
plus either BUS 331 Investments or any other 300 level economics course		3

Marketing Minor for non-business majors

Eighteen credit hours:

BUS 320	Principles of Marketing (prerequisite for courses below)	3
BUS 420	Market Research	3
BUS 421	Advertising and Promotion	
or BUS 422	Sales and Sales Management	3
BUS 424	International Marketing and Export Management	
or BUS 425	Consumer Behavior	3
BUS 427	Digital Marketing	3
BUS 428	Strategic Marketing	3

Business Administration and Aviation Dual Degrees • AAS and BSBA - 64 credit hours max CCBC

In cooperation with the Community College of Beaver County, Geneva College has developed a dual degree program by which a student may earn the Associate in Applied Science degree (AAS) in professional piloting, air traffic control, or aerospace management from the community college and the Bachelor of Science in Business Administration degree (BSBA) from Geneva. The program enhances the graduate's career potential by blending specific vocational training in aviation with the broader educational experience involved in earning a baccalaureate degree.

Community College of Beaver County's AAS in aviation can be earned before, after, or entirely apart from fulfillment of requirements for Geneva's BSBA. Two of the programs involve 129 or more credit hours as compared with 126 credit hours in a usual four-year one-degree program. Some students may prefer to plan for an additional semester or for some summer study.

Sport Management/Business Major •BS- Program Requirements 57 credit hours

The Sport Management major prepares students for positions in the athletic world including athletic administration, sport/recreational facility management, coaching, and event management. Students explore the theories and principles of management as applied to sport programs and facilities. As a joint venture of the Department of Business and the Department of Physical Education, the goal of the sport management major is to prepare students to become a valuable part

of the workforce in a variety of venues within the sport culture, thereby fulfilling the Geneva College mission statement, “to equip students for faithful and fruitful service to God and neighbor.”

Take each of the following Business courses (39 credits):

ACC 151	Principles of Accounting I	3
BUS 110	Business Foundations	3
BUS 115	Business Communication	3
BUS 241	Business Analytics I	3
BUS 310	Principles of Management	3
BUS 311	Business Law	3
BUS 314	International Business	3
BUS 320	Principles of Marketing	3
BUS 330	Principles of Finance	3
BUS 400	Biblical Management and Business Ethics	3
BUS 410	Strategic Management	3
ECO 211	Micro Economics	3
ECO 212	Macro Economics	3

Take each of the following SPM courses (18 credits):

SPM 101	Introduction to Sport Management	3
SPM 201	Legal Issues in Sport	3
SPM 205	Sport Management Practicum	3
SPM 206	Governance and Organization of Sport	3
SPM 302	Facility Management and Design	3
SPM 401	Sport in American Culture	3

*An additional 1-9 credits in SPM 493 (Internship) may be taken as elective credits.

Sport Coaching Minor

Courses in the Sport Coaching Minor can prepare students for coaching in interscholastic, intercollegiate, community, and youth sport organizations.

The following 18 credit hours must be taken to fulfill the requirements for a sport coaching minor:

PED 150	Coaching Effectiveness	3
PED 205	Sport Coaching Practicum	3
PED 247	First Aid and Emergency Care	2
PED 255	Athletic Training	3
PED 405	Sport Coaching Seminar	1
SPM 101	Introduction to Sport Management	3
SPM 401	Sport in American Culture	3

Sport Management Minor (business concentration)

Courses in the sport management concentration, in conjunction with a business major, can prepare students for employment in professional, amateur, interscholastic, intercollegiate, community and youth sport organizations.

The following 18 credit hours are required to complete a minor in sport management:

PED 247	First Aid and Emergency Care	2
PED 405	Sport Coaching Seminar	1
SPM 101	Introduction to Sport Management	3
SPM 201	Legal Issues in Sport	3
SPM 205	Sport Management Practicum	3
SPM 302	Facility Management and Design	3
SPM 401	Sport in American Culture	3

3+1 BSBA/MBA Business Scholars Program

The 3 + 1 BSBA/MBA Business Scholars Program is an opportunity for outstanding students to accelerate the completion of both a Bachelor of Science in Business Administration and a Masters of Business Administration. Students will be selected for this program based on high school GPA, SAT/ACT scores, essay and an interview with department faculty. If selected, students will need to maintain a GPA of 3.4 or higher in order to remain in the program. The course load

requirement will be heavy (typically 18 credit hours/semester). Some summer courses will be required. Six credit hours of internship will need to be earned prior to beginning the MBA program. Nine credit hours of graduate courses will be taken during the undergraduate program that will count toward satisfaction of degree requirements for both programs. Students will enjoy priority registration for BUS 419 Management Insights, which is a small weekly forum in which students interact with Christian business professionals. First year students will compete for a stackable, non-renewable \$5000 scholarship. An honors designation will be included on the transcripts for students completing the 3+1 BSBA/MBA Business Scholars Program. Students in the scholars program will receive a 10% discount on their graduate classes once in the MBA program.

Department of Chemistry, Mathematics, and Physics

This department administers programs in which students learn about the intricate details of God’s physical creation. We seek to help students develop their abilities so that they can understand the physical creation deeply and thus be able to serve with excellence in a wide variety of callings and careers.

The programs or majors administered by our department include Biochemistry, Chemistry, Applied Mathematics, and Physics. Within the Chemistry major, there are options for a professional curriculum track, or a more basic track that allows room for more electives. In addition, we offer majors leading to Pennsylvania certification to teach at the secondary level in Chemistry, Mathematics, or Physics.

Our Chemistry program has been approved by the American Chemical Society’s Committee on Professional Training (ACS-CPT) continuously since 1958. Both the Biochemistry major and the Professional Chemistry major lead to certification by the ACS-CPT. The Biochemistry major is an excellent preparation for graduate or medical school.

Students in all of our programs will find opportunities for research and for advanced study in upper-level courses. We emphasize laboratory skills in the chemistry and physics programs, and the applications of mathematics to solve problems.

Note: Virtual or online labs cannot be used to fulfill requirements for a Chemistry degree.

Biochemistry Major – BS – Approved by the ACS-CPT– Program requirements 73 credit hours

Chemistry requirements 37 credit hours

CHM 111	General College Chemistry	4

CHM 420	Chemical Research	2
CHM 421	Current Topics Seminar	1

Supporting Field requirements 16 credit hours:

MAT 161	Calculus I	4
MAT 162	Calculus II	4
PHY 201	College Physics I	4
PHY 202	College Physics II	4

Plus all required courses and requirements for secondary education certification. See page 59.

A passing grade on a chemistry comprehensive exam is required.

Chemistry majors with secondary education certification are not required to take a HUM 304 core course.

Chemistry Minor

Twenty credit hours in Chemistry as follows:

CHM 111	General College Chemistry	4
CHM 221	Organic Chemistry I	4
CHM 222	Organic Chemistry II	4
CHM 232	Quantitative Analytical Chemistry	4
CHM 421	Current Topics Seminar	1

And at least 3 additional credit hours in CHM courses at the 300 level or above.

Applied Mathematics Major • BS – Program requirements 63-65 credit hours

To be stewards of God’s creation, we are given the precious gift of mathematics. The department offers training in the tools of mathematics for students in science and engineering, as well as studies of the properties of mathematics for those who will pursue teaching or graduate school.

30 credit hours of mathematics courses including:

MAT 130	Discrete Mathematics	3
MAT 161	Calculus I	4
MAT 162	Calculus II	4
MAT 261	Calculus III	4
MAT 265	Probability and Statistics I	3
MAT 307	Linear Algebra	3
MAT 309	Introduction to Abstract Algebra	2
MAT 310	Introduction to Real Analysis	2
MAT 405	Differential Equations	4
MAT 430	Mathematics Senior Project	1

Plus 6 credits of math electives chosen from the following:

MAT 266	Probability and Statistics II	3
MAT 350	Numerical Methods	3
MAT 409	Partial Differential Equations	3
MAT 410	Special Topics	3

Students must complete an applied mathematics focus area in one of the following ways:

- Complete the Actuarial Science minor (27 credits)
 - Complete 9 credits in CSC courses plus the requirements for a minor in Biology, Business, Chemistry, Engineering, Environmental Science, or Physics. (27-29 credits)
 - Complete a Computer Science minor plus enough additional courses in CSC, CPE, ELE, EGR, or PHY to make a total of 27 credits. (27 credits)
- Alternatively, a student could complete a second major in Computer Science.

Actuarial Science Minor- 27 credits

Only available to Applied Mathematics majors.

27 credit hours including:

ACC 151	Principles of Accounting I	3
ACC 152	Principles of Accounting II	3
BUS 241	Business Analytics I	3
BUS 242	Business Analytics II	3
BUS 310	Principles of Management	3
BUS 330	Principles of Finance	3
CSC 111	Introduction to Engineering Computation	3
ECO 211	Microeconomics	3
ECO 212	Macroeconomics	3

Mathematics Education Major • BS - Program requirements 82 credit hours

MAT 105	Elementary Statistical Methods	
or MAT 265	Probability and Statistics I	3
MAT 130	Discrete Mathematics	3
MAT 161	Calculus I	4
MAT 162	Calculus II	4
MAT 261	Calculus III	4
MAT 307	Linear Algebra	3
MAT 309	Introduction to Abstract Algebra	2
MAT 310	Introduction to Real Analysis	2
MAT 350	Numerical Methods	3
MAT 404	College Geometry	3
CSC 101	Structured Programming	3
EDU 380	History of Mathematics and Mathematics Education	2
EDU 382	Math Curricula in the Middle and Secondary School	2

MAT 403	Methods of Teaching Math (included in secondary certification requirement)	4
PHY 201	College Physics I	4
ECO 100	Fundamentals of Economics	
or ECO 211	Micro Economics	
or ECO 212	Macro Economics	3

Plus required courses and requirements for secondary certification. See page 57.

Mathematics Minor

18 credit hours of Math

Choose 0-3 credits from MAT 102, MAT 120, or MAT 130.

Choose 15- 18 credits from math courses above the level of MAT 130.

Physics Major · BS – Program Requirements 64 credit hours

The major provides a basis for entering industrial laboratories as a professional physicist or in a field related to physics, for working toward an advanced degree, or for obtaining certification to teach.

CSC 101	Structured Programming	3
PHY 201	College Physics I	4
PHY 202	College Physics II	4
PHY 301	Classical Mechanics	3
PHY 303	Advanced Physical Measurement I	2
PHY 307	Thermodynamics	3
PHY 318	Modern Physics I	3
PHY 430	Physics Senior Project	1
CHM 111	General College Chemistry	4
ELE 305	Electromagnetic Fields and Waves	4
ELE 309	Electronic Devices and Circuits I	4
MAT 161	Calculus I	4
MAT 162	Calculus II	4
MAT 261	Calculus III	4
MAT 350	Numerical Methods	3
MAT 405	Differential Equations	4

3 credit hours of advanced physics electives chosen from the list below:

ELE 402	Communications Engineering	4
PHY 250	Observational Astronomy	3
PHY 304	Advanced Measurements	1-3
PHY 306	Optics	3
PHY 319	Modern Physics II	3
PHY 410	Advanced Topics in Theoretical Physics	3
PHY 420	Physics Research	1-2

7 credit hours of focus area electives chosen from the list above or from courses numbered 300 or above in MAT, CHM, EGR, MEE, ELE, CSC or CPE.

Physics with Secondary Education Major · BS – Program Requirements 55 credits hours

CHM 111	General College Chemistry	4
ELE 305	Electromagnetic Fields and Waves	4
ELE 309	Electronic Devices and Circuits I	4
MAT 161	Calculus I	4
MAT 162	Calculus II	4
MAT 261	Calculus III	4
MAT 350	Numerical Methods	3
MAT 405	Differential Equations	4
PHY 201	College Physics I	4
PHY 202	College Physics II	4
PHY 301	Classical Mechanics	3

PHY 303	Advanced Physical Measurement I	2
PHY 304	Advanced Physical Measurement II	2
PHY 306	Optics	3
PHY 307	Thermodynamics	3
PHY 318	Modern Physics I	3

In addition, those preparing to teach must include general and professional education courses and requirements specified on page 59.

Physics Minor

At least 18 credit hours from:

PHY 160	Introduction to Acoustics	3
PHY 201	College Physics I	4
PHY 202	College Physics II	4
PHY 250	Observational Astronomy	3
PHY 301	Classical Mechanics	3
PHY 303	Advanced Physical Measurement I	1-3
PHY 304	Advanced Physical Measurement II	1-3
PHY 306	Optics	3
PHY 307	Thermodynamics	
or CHM 307	Physical Chemistry I: Thermodynamics (course is cross-listed)	3
PHY 318	Modern Physics I	3
PHY 410	Advanced Topics in Theoretical Physics	3
PHY 420	Physics Research	1-2
ELE 305	Electromagnetic Fields and Waves	4
ELE 309	Electronic Devices and Circuits I	4

Department of Communication

The Department of Communication at Geneva College offers degrees in both Communication and Communication Disorders.

The Communication major specifically addresses contemporary concerns and trends in human communication. This includes the study of communication theory and media (writing, speaking, graphic, digital). We believe we are called to use communication creatively and compassionately, bridging differences of ability and culture, transforming society for the kingdom of Christ. In addition to taking a core of classes which expose them to the whole realm of communication, each student will choose a concentration of study: communication studies, integrated media, public relations, visual communication, and writing.

The Communication Disorders program is committed to studying typical and disordered human communication from a biblical perspective. It is our goal to prepare well-qualified students for entrance into graduate programs and later into the field of communication disorders. It is rewarding to see our graduates working as Christian speech/language pathologists, modeling the compassion of Jesus when working with people disabled by communication disorders.

Communication Major • BA - Program requirements 44 credit hours

Communication core 28 credit hours:

COM 111	Foundations of Communication Inquiry	3
COM 212	Organizational Communication	3
COM 230	Interpersonal Communication	3
COM 250	Mediated Communication	3
COM 305	Culture & Communication	3
COM 310	Advanced Public Speaking	3
COM 315	Communication Theory	3
COM 335	Argumentation and Debate	3
COM 400	The Communication Professional	3
-Choose one practicum outside of concentration area		
COM 201, 202, 204, CSC 190, VIS 205, ENG 221, or ENG 223		1

Concentrations

In addition to the communication core and practicum requirement, each student will choose one of the following concentrations. Students who wish to declare two concentrations may not have more than two courses that overlap. An asterisk* indicates a course is required for that concentration.

Communication Studies Concentration

Choose 16 credit hours from the following:

CDS 220	Language Development	3
COM 325	Media Ecology	3
COM 330	Special Topics in Communication	3
*COM 355	Persuasion	3
*COM 375	Communication Architecture	3
*COM 420	Communicology	3
EGR 304	Technology & Society	3
ENG 205	Advanced Composition	3
MIN 245	Christian Community Development	3
PHI 304	19 th Century Social Philosophers and Pragmatism	3
PHI 305	Contemporary Philosophy	3
PHI 306	Postmodern Philosophers	3
PHI 307	Women Philosophers	3
PHI 308	Contemporary Continental Philosophy	3
PHI 309	Kierkegaard & Nietzsche	3
PSY 404	Personality Psychology	3
PSY 408	Social Psychology	3
SSC 210	Crime, Law and Society	3
*One Practicum:	COM 201, 202, 204, or VIS 205	1

Integrated Media Concentration

Choose 16 credit hours from the following:

*COM 150	Media Literacy	3
*COM 235	Studio Production	3
*COM 245	Writing for Integrated Media	3
*COM410	Media, Law, Regulation and Ethics	3
COM 255	Field Production	3
COM 325	Media Ecology	3
COM 350	Digital Communication Design	3
*Practicum:	COM 204	1

Public Relations Concentration

Choose 16 credit hours from the following:

*COM 205	Introduction to Public Relations	3
COM 206, 207	Bateman Competition	1,1
COM 245	Writing for Integrated Media	3
or ENG 241	Contemporary Newswriting	3
*COM 280	Public Relations Publications	3
*COM 320	Communication Workshop Facilitation	2
COM 325	Media Ecology	3
COM 350	Digital Communication Design	3
*COM 380	Advanced Public Relations	3
ENG 205	Advanced Composition	3
ENG 242	Editing	3
*Practicum:	COM 202	1

Visual Communication Concentration

Choose 16 credit hours from the following:

COM 235	Studio Production	3
COM 280	Public Relations Publications	3
COM 320	Communication Workshop Facilitation	2
COM 350	Digital Communication Design	3

ENG 212	Cinema	3
ENG 216	Creative Writing: Poetry	3
*VIS 201	3D Art Fundamentals	3
*VIS 202	Painting Techniques (Repeatable with instructor permission)	3
*VIS 300	Drawing Techniques (Repeatable with instructor permission)	3
VIS 330	Topics in Visual Communication or other art courses (Repeatable with instructor permission)	3
*One Practicum:	VIS 205	1

Writing Concentration

Choose 16 credit hours from the following:

BUS 115	Business Communication	3
*COM 245	Writing for Integrated Media	3
*COM 280	Public Relations Publications	3
ENG 205	Advanced Composition	
or ENG 102	Academic Writing and Research Process	3
ENG 215	Creative Writing: Fiction	
and/or ENG 216	Creative Writing: Poetry	3
ENG 241	Contemporary Newswriting	3
ENG 242	Editing	3
ENG 311	Writing for Business and Industry	3
ENG 344	Publishing	3
*Choose one practicum:	ENG 221 or ENG 223	1

Communication Minor

18 credit hours

COM 212	Organizational Communication	3
COM 230	Interpersonal Communication	3
COM 250	Mediated Communication	3
COM 315	Communication Theory	3
6 additional credit hours of Communication (COM) or or Visual Communication (VIS), excluding COM 101		6

Communication Disorders Major - BA - Program requirements 57 credit hours

Advisor:

CDS 190	Introduction to Communication Disorders	3
CDS 220	Language Development	3
CDS 230	Phonetics	3
CDS 250	Treatment Procedures in Communicative Disorders	3
CDS 260	Introduction to Audiology	3
CDS 270	Aural Rehabilitation	3
CDS 280	Anatomy and Physiology of Speech Mechanism	3
CDS 340	Voice/Fluency Disorders	3
CDS 350	Language Disorders in Children	3
CDS 360	Articulation/Phonological Disorders in Children	3
CDS 370	Neurogenic Communication Disorders in Adults	3
CDS 420	Speech & Hearing Science	3
*CDS 450	Clinical Experience in Communication Disorders	6
COM 305	Culture & Communication	3
LIN 219	Introduction to Linguistics	3
LIN 220	Applied Linguistics	3
PHY 160	Introduction to Acoustics	
or CHM 100	Introductory Applied Chemistry	3
MAT 105	Elementary Statistical Methods	
or PSY 205	Psychological Statistics	3

* Communication Disorders majors must have an overall GPA and major GPA of 3.0 to enroll in CDS 450 Clinical Experience in Communication Disorders.

Communication Disorders Minor

Any 18 credit hours from the following courses:

CDS 190	Introduction to Communication Disorders	3
CDS 220	Language Development	3
CDS 230	Phonetics	3
CDS 250	Treatment Procedures in Communicative Disorders	3
CDS 260	Introduction to Audiology	3
CDS 270	Aural Rehabilitation	3
CDS 280	Anatomy and Physiology of the Speech Mechanism	3
CDS 340	Voice/Fluency Disorders	3
CDS 350	Language Disorders in Children	3
CDS 360	Articulation/Phonological Disorders in Children	3
CDS 370	Neurogenic Communication Disorders in Adults	3
CDS 420	Speech and Hearing Science	3

Department of Core Studies

Core Themes

The core is organized based upon themes present in the Foundational Concepts and the college outcomes.

Community of Learners (1 credit)

Community of Learners courses invite Geneva students to join the circle of learners in a quest for wisdom. Students gain an understanding of who they are within an institution of higher learning oriented by the Christian faith and structured around the liberal arts ideal. Through the exploration of academic excellence, interpersonal growth, and intrapersonal awareness, students will be prepared for a transformational experience in and out of the classroom.

Courses:

- SSC 101 Learning and Transition (1) or EGR 100 Engineering: Calling and Vocation (1) or HON 101 Freshman Honors: College (1)

Reason and Rhetoric (6 credits)

Reason and Rhetoric courses prepare students for prudent and thoughtful engagement of culture and require facility with languages, written and oral. As individuals created in the image of God, students must learn to listen, speak, read, write and reason with wisdom, care, and integrity to the end that students are prepared to purposefully and charitably redeem personal and social problems in their families, churches, the civic realm, and the workplace.

Choose two of three courses:

- ENG 101 English Composition (3) Must be taken unless proficiency is met as defined by a minimum Writing SAT (or comparable ACT) score. A minimum SAT score of 640 on the Evidence-Based Reading and Writing section (2016 and later SAT) or a minimum ACT score of 29 must be met to be exempted from taking ENG 101. Upon recommendation of the English department, one of the following courses may substitute for ENG 101: ENG 102, Academic Research Writing; ENG 151; Honors English Composition; ENG 201 Introduction to Creative Writing; ENG 205 Advanced Composition; or ENG 232 Introduction to Rhetoric. The ENG 101 requirement is met only with a grade of C- or better.
- COM 101 Principles of Communication (3)
- PHI 100 Critical Thinking (3)

God (9 credits)

The Triune God reveals himself in the created world, yet human sin estranges us from the love of God, and blinds us to his truth. Hence, we need a Mediator who reconciles us to God: the Lord Jesus Christ, our incarnate Redeemer. We also need a clearer revelation: the Holy Scriptures, inspired by the Holy Spirit. The Bible Core at Geneva College seeks to give students confidence in the Bible as God's written, inerrant, inspired, and authoritative special revelation, and ultimately in Jesus Christ as Savior and Lord. Courses in the Bible Core seek to provide students with a comprehensive framework for faithful service in the Kingdom of God.

Courses:

- BIB 112 Biblical Introduction I- Creation to Post-Exilic Period (3) and BIB 113 Biblical Introduction II- Intertestamental Period through Apostolic Age (3)

- and BIB 300 Biblical Worldview: Testing the Spirits of Our Age (3) or PHI 310 Christian Understanding of Life (3)

Humanity (6 credits)

Humanity courses explore the purpose of human life which is to glorify and enjoy God as humans in *Coram Deo*. This requires a knowledge of self in light of one's knowledge of God building upon the Christian intellectual tradition. As such, humanity courses celebrate texts, words, poetry, art, and music as expressions of the creativity of humanness. The object of study of "Humanity" is that which is distinctively human, exploring deeply and reverentially the beauty and brokenness of human endeavor.

Courses:

- HUM 103 Invitation to the Humanities (3) and HUM 203 Making the West (3)

Cosmos (8-13 credits)

Cosmos courses explore the nature of the physical and biological universe--from galaxies to oceans to human beings to panda bears to bacteria to atoms. As the creation of God, the universe serves to reveal God's glory and attributes and is meant to be understood, appreciated, and stewarded by humankind. In Cosmos courses, students learn not only about the descriptive facts of the creation, but also about the process of scientific discovery with its advantages and limitations.

Courses:

- PED 103 Physical Fitness (1) or PED for varsity athletes (1)
- SCS 110 Introduction to the Natural Sciences (4) and a minimum of 3 credits from Cosmos options; or three lab courses in two different areas (CHM, PHY, BIO, EVS)

Cosmos Options:

BIO 101	Topics in Biology
BIO 210	Intelligent Design and Evolution
SCS 220	Weather & Climate
BIO 218	Introduction to Nutrition
CHM 100	Introductory Applied Chemistry
CHM 160	Chemistry in Art
CHM 170	Worth of Water
PHY 100	Introductory Physics
PHY 160	Introduction to Acoustics
PHY 250	Observational Astronomy
SCS 105	Environmental Science
SCS 201	Astronomy
SCS 215	Earth and Space Science

Or any lab science

Society (6-9 credits)

Society courses explore the purpose and contours of human society, enabling students to understand and evaluate its varying forms. By nature, humans, made in the image of the Triune God, are social beings. These courses enable students to become more judicious and constructive members of their varying communities (e.g. family, church, neighborhood, nation, etc.)

Courses, Two Options:

- Option 1: Group A (3) and Group C (3) from two different disciplines
- Option 2: Group A (3) and Group B (6) from two different disciplines
- Engineering Majors: ECO 270 Principles of Microeconomics (Group A) and one course from either Group B or Group C
- Chemical Engineering Majors: ECO 270 only (not required to take a Group B or Group C course)

Society Group A Courses:

ECO 100	Fundamentals of Economics
ECO 211	Micro Economics
ECO 212	Macro Economics
ECO 270	Principles of Microeconomics for Engineers (Engineering majors only)
POL 151	American Government
PSY 201	Introduction to Psychology
PSY 211/EDU 211	Educational Psychology (Education majors only)
SOC 120	Society

Society Group B Courses:

ECO 100	Fundamentals of Economics
ECO 211	Micro Economics
ECO 212	Macro Economics
ECO 270	Principles of Microeconomics for Engineers (Engineering majors only)
ENG 337	Immigration and American Literature
HIS 150	Survey of American History
HIS 220	Europe I: Ancient through Medieval
HIS 221	Europe II: 1500- 1815
HIS 250	U.S. I: Colonial
HIS 251	U.S. II: 19 th Century
HIS 252	U.S. III: 20 th Century
HIS 303	Special Surveys- Society Group B
HUM 214	History of the Christian Church
PHI 304	Nineteenth-Century Social Philosophers and Pragmatism
PHI 354/POL309	Political Philosophy
POL 151	American Government
POL 203	International Relations
PSY 201	Introduction to Psychology
PSY 211	Educational Psychology (Education majors only)
PSY 251	Child Development
PSY 254	Marriage and the Family
SOC 120	Society
SSC 280	Human Geography

Society Group C Courses (Global Perspectives):

A semester or year-long study abroad experience

3 credits of Intermediate level Foreign Language

BIB 341	Archaeology and Geography of Israel
BUS 316	Business & Cultural Experience-China
and BUS 317	How to Do Business in Asia
BUS 318	Business & Cultural Experience- South America
and BUS 319	How to Do Business in Latin America
ENG 213	Topics in Non-western Film
ENG 290	Non-Western World Literature
HIS 222	Europe III: 1815- Present
HIS 260	Latin America
HIS 270	Middle East
HIS 280	Modern Africa
HIS 290	Modern Asia
HIS 304	Special Surveys- Society Group C
HIS 365	World Religions
HIS 366	Global Christianity
MIN 201	Cultural Anthropology
MIN 219	World Christian Movement
MIN 224	Missions and Culture
MIN 225	Globalism and Multiculturalism
MIN 227	Cultural Perspectives for Missions
MUS 370	World and Popular Music
POL 211	Comparative Politics
POL 332	Topics in Comparative Politics
PSY 350	International Psychology
SCS 320	Global Health

Cultural Engagement (7-9 credits)

Cultural engagement courses build on the other core areas to prepare students to engage in prudent care and responsible participation in culture and civic life. In keeping with the love of Christ and growth in wisdom, students develop an informed, thoughtful, caring, understanding of and approach to culture in our era and place, as

well as to cultures and subcultures other than our own. This involves affirming the goodness and fallenness of culture, discerning its need and seeking its blessing in justice and shalom. Students grasp the significance of shaping ideas and events (both past and current) as they bear on our time and place.

Courses:

- POL 352 Great Issues in Politics (3)
- HUM 303 Perspectives: Faith, Culture, Identity (3)
- and Major Capstone Experience (1-3 credits)

Associate's Degree–Core Requirements

- 1) Community of Learners (1 credit hour): SSC 101 Learning and Transition. Required of all freshman but not transfer students with 12 or more credits.
- 2) Reason and Rhetoric (6 credit hours): ENG 101 Composition, COM 101 Principles of Communication, or PHI 100 Critical Thinking. The typical student takes these courses during the freshman year. Upon recommendation of the English department, one of the following courses may substitute for ENG 101: ENG 102 Academic Research and Writing; ENG 151, Honors English Composition; ENG 201 Introduction to Creative Writing; ENG 205 Advanced Composition; or ENG 232 Introduction to Rhetoric. The ENG 101 (or substitute) requirement is met only with a grade of C- or better.
- 3) God (6 credit hours): BIB 112 Biblical Introduction I- Creation to Post-Exilic Period and BIB 113 Biblical Introduction II – Intertestamental Period through Apostolic Age.
- 4) Humanity (6 credit hours): Six credit hours from approved department list. Most often this is HUM 103 and 203.
- 5) Cosmos (5 credit hours): SCS 110 Introduction to Natural Science or any other laboratory science course. PED 103 Health and Fitness.
- 6) Society (3 credit hours): Choose from a Group A course.

Humanities Minor (See page 81)

Department of Education

The mission of the education department of Geneva College is to prepare competent professional teachers committed to excellence and integrity in teaching; responding to student needs; continuing professional development; collaborating with colleagues, parents, and community members; and identifying and analyzing educational issues from a Christian perspective.

Geneva has a strong interest in preparing well-qualified Christian teachers for careers in both public and Christian schools. The minor in Christian school teaching provides courses in Biblical studies, philosophy, and Christian education to complement the professional education program for students planning to teach in Christian elementary or secondary schools. The option of student teaching overseas in a mission related or international school allows students to experience Christian or international service as well as have a significant cross-cultural experience.

Programs lead to certification in Pennsylvania through the Pennsylvania Department of Education. Through inter-state certification agreements, certification is readily achieved in many other states. A listing of states with which the Pennsylvania Department of Education has negotiated inter-state certification agreements is available in the office of the Geneva College Department of Education. Geneva graduates are assured of general acceptance as teachers of the subject areas for which the college has approved programs.

The department offers The Bachelor of Science in Education with majors in PK-4 Early Childhood and PK-8 Special Education as well as Secondary Education majors in Biology, Chemistry, English, Math, Physics, and Social Studies. We also offer Music Education K-12 and Middle Level Education 4-8 with concentrations in English Language Arts, Math, Science and Social Studies.

The Bachelor of Science in Education is designed to prepare students for professional teaching careers at various levels. Our program seeks to develop in our students a Christian perspective and practice that promotes and affirms the calling that God places on their life. The curriculum assures the graduate of having the skills and knowledge required for initial employment in the public and private schools of this state and around the world. Practical experiences begin with the freshman and sophomore year and peak with the senior year. The experiences provide opportunities for students to apply

the knowledge and skills acquired at Geneva. The practical experiences culminate in the senior year with two to three semesters of field-based training under the mentorship of both local school and college supervisors.

Admission to Candidacy in Professional Education Program

Students must gain admission into the professional education program in order to take 300 and 400 level EDU courses.

This candidacy is initiated through the student's advisor during the sophomore year. The criteria as mandated by state regulation Chapter 354 are:

- 1) Display evidence of competence in the Basic Skills of Reading, Math, and Writing. Contact the Education Department for the details.
- 2) Complete 48 credit hours or more
- 3) Achieve and maintain an overall GPA of 3.00 (career GPA which includes transfer course work)
- 4) Complete six credit hours of college level math (MAT 101 or higher level math)
Complete three credit hours of English composition (ENG 101)
Complete three credit hours of English literature, which can be fulfilled with HUM 103, 203 and 303 sequence
- 5) Obtain two letters of recommendation from education faculty
- 6) Approval of candidacy by the chair of the education department
- 7) A rating of at least "Developing" on the Professional Dispositions Continuum.

Teacher Certification Requirements

In order to be certified, pre-service teachers must demonstrate knowledge competence in the following areas:

- 1) Basic skills: writing, reading, and mathematics are skills that students should have when they enter college.
- 2) General knowledge: curriculum areas such as English, humanities, social science, mathematics, and natural science provide content preparation which teachers need to be prepared to teach.
- 3) Content area knowledge: knowledge about the specific subject area or areas in which certification is sought is a must.
- 4) Have a minimum of 3.0 college career GPA.
- 5) Professional skills: strategies, methods, and dispositions required of a teacher.

Those applying for a teaching certificate only must have a college degree and be recommended for certification by a Geneva College department of education certification officer. In addition, the applicant must supply to the Pennsylvania Department of Education passing scores on the PRAXIS or PECT appropriate for their certification areas.

The requirements for the Education majors (BSEd), certification and for secondary content area majors are detailed in this catalog. The requirements for the procedures to be followed by those who already have a college degree and who are seeking certification alone in one of the content areas for which Geneva College has approved programs are described in this portion of the catalog also. On successful completion of requirements for certification at the elementary or secondary levels, students will be recommended to the Pennsylvania Department of Education for Certification.

Requirements for certification may change in response to changes required by the Pennsylvania Department of Education. While there is usually a phase-in period for new requirements, students enrolling under this catalog could be affected by such changes. While students would be able to graduate from the college under the program criteria described in this catalog, they might not be able to be certified if they do not meet the new requirements for certification. Students will be advised of any such changes and of the impact of those changes on their certification programs.

Chapter 354, Preparation of Professional Educators, was enacted in 2000 in Pennsylvania. This law mandates certain regulations in the preparation of professional educators in the state. Students are responsible to be certain they are meeting regularly with their advisor in regard to this legislation. **Geneva College is not responsible for students who will not be certified because of failure to meet certification requirements at the time of graduation.**

Approved Certification Programs

Geneva College certification programs approved by the Pennsylvania Department of Education are as follows:

- Biology
- Chemistry
- English
- Mathematics
- Music Education (K-12)
- PK-4 and PK-8 Special Education Dual Certificate
- Physics
- Social Studies
- Middle Level (4-8)

General Education Requirements

All teacher candidates must complete core requirements (for Geneva College) as described in the catalog. (**Core science and social science requirements are very specific for education students. Candidates MUST visit each semester with their advisor to determine which courses address both education program and core curricular requirements.**) **In addition, all candidates must complete six credits of college level math (MAT 101 or higher level math course).**

Chapter 354, Preparation of Professional Educators, was enacted in 2000 in Pennsylvania. This law mandates certain regulations in the preparation of professional educators in the state. Students are responsible to be certain they are meeting regularly with their advisor in regard to this legislation. **Geneva College is not responsible for students who will not be certified because of failure to meet certification requirements at the time of graduation.**

For PK-4/PK-8 Special Education Dual Certification

EDU 202	Social and Philosophical Foundations of Modern Education	3

EDU 471	Assessment of Exceptional Children	3
EDU 472	Academic Skill Intervention for Exceptional Children	3
EDU 473	Behavioral Skill Intervention for Exceptional Children	3
EDU 474	Teaching Reading to the Exceptional Child	3
EDU 430	Student Teaching Performance-Special Education	2
EDU 431	Student Teaching Performance-PK-4	2
EDU 433	Student Teaching Portfolio	4
EDU 434	Student Teaching Seminar	4

For Middle Level Education

Geneva Core Requirements/4-8 Core Requirements:

BIB 112	Biblical Introduction I	3
BIB 113	Biblical Introduction II	3
BIB 300	Biblical Worldview: Testing the Spirits of Our Age	3

BIO 107	Foundations of Biology	4
COM 101	Principles of Communication	3
EDU 472	Academic Skill Intervention for Exceptional Children	3
ENG 101	English Composition	3
ENG 112	Critical Approaches to Literature	3
ENG 205	Advanced Composition	3
ENG 402	Teaching Language Arts, 4-8	3
HIS 150	Survey of American History	
or HIS 250	U.S. I: Colonial (Social Studies Concentration Students)	3
POL 151	American Government	3
HUM 103	Invitation to the Humanities	3
HUM 203	Making the West	3
HUM 303	Perspectives: Faith, Culture, Identity	3
MAT 101	College Algebra	3
MAT 102	Trigonometry	3
MAT 105	Elementary Statistical Methods	3
MAT 402	Teaching Math, 4-8	3
PED 103	Physical Fitness	1
POL 352	Great Issues in Politics	3
SCS 110	Introduction to the Natural Sciences	4
SCS 404	Teaching of Science, 4-8	4
SSC 101	Learning and Transition	1
SSC 280	Human Geography	3
SSC 404	Teaching of Social Studies 4-8	3

Certification Requirements:

EDU 202	Foundations of Education	3
EDU 211	Educational Psychology	3
EDU 217	Level 1 Field Experience	1
EDU 219	Level 2 Field Experience	1
EDU 375	Survey of Disabilities	3
EDU 415	Literacy Across the Curriculum	3
EDU 420	Educational Assessment	3
EDU 432	Student Teaching Performance – 4-12	4
EDU 433	Student Teaching Portfolio	4
EDU 434	Student Teaching Seminar	4
ENG 382	English Grammars (English Language Learner)	3
PSY 252	Adolescent Development	3

Language Arts Concentration Additional Courses:

ENG	Literature Electives	6
ENG	Writing Electives	9
ENG 328	History of English Language	3

Mathematics Concentration Additional Courses:

MAT 130	Discrete Math	3
MAT 161	Calculus I	4
MAT 162	Calculus II	4
MAT 380	History of Mathematics & Mathematics Education	2
MAT 382	Math Curricula in Middle and Secondary School	2
MAT 404	College Geometry	3

Science Concentration Additional Courses:

CHM 111	General College Chemistry	4
BIO 112	Introduction to Cellular Biology	4
SCS 105	Environmental Science	3
BIO 225	Human Anatomy and Physiology	4
SCS 215	Earth and Space Science	3

Social Studies Concentration Additional Courses:

HIS 220	Europe I: Ancient through Medieval	3
HIS 251	U.S. II: 19 th Century	3
HIS 252	U.S. III: 20 th Century	3
POL 151	American Government	3
HIS or POL Elective		3

One course from:

HIS 260	Latin America	
HIS 270	Middle East	
HIS 280	Modern Africa	
HIS 290	Modern Asia	
or another non-Western History course approved by the Department		3

For Secondary Education (7-12)

Chapter 354, Preparation of Professional Educators, was enacted in 2000 in Pennsylvania. This law mandates certain regulations in the preparation of professional educators in the state. Students are responsible to be certain they are meeting regularly with their advisor in regard to this legislation. **Geneva College is not responsible for students who will not be certified because of failure to meet certification requirements at the time of graduation.**

For all Secondary Certification Programs:

EDU 202	Social and Philosophical Foundations of Modern Education	3
EDU 211	Educational Psychology	3
EDU 217	Level 1- Field Experience, 4-12	1
EDU 219	Level 2- Field Experience Exploration, 4- 12	1
EDU 375	Exceptionality in the Secondary School	3
EDU 415	Content Literacy Across the Curriculum Grades 4-12	3
EDU 482	Interventions for Students in Inclusive Classrooms - 7-12	3
EDU 420	Educational Assessment	3
EDU 432	Student Teaching Performance - 4-12	4
EDU 433	Student Teaching Portfolio	4
EDU 434	Student Teaching Seminar	4
Methods of Teaching Course in the Certification area		3 or 4
ENG 382	English Grammars	3

For Music Education K-12

Chapter 354, Preparation of Professional Educators, was enacted in 2000 in Pennsylvania. This law mandates certain regulations in the preparation of professional educators in the state. Students are responsible to be certain they are meeting regularly with their advisor in regard to this legislation. **Geneva College is not responsible for students who will not be certified because of failure to meet certification requirements at the time of graduation.**

For Music Education K-12

EDU 202	Social and Philosophical Foundations of Modern Education	3
EDU 211	Education Psychology	3
EDU 216	Stage 1-Field Experience Observation Elementary	1
EDU 219	Stage 2- Field Experience Exploration	1
EDU 375	Survey of Disabilities	3
EDU 431	Student Teaching Performance Elementary	2
EDU 432	Student Teaching Performance 4-12	2
EDU 433	Student Teaching Portfolio	4
EDU 434	Student Teaching Seminar	4
EDU 482	Intervention for Students in Inclusive Classrooms	3
ENG 382	English Grammars	3
MAT 101	College Algebra (or equivalent)	3
MAT 105	Elementary Statistical Methods (or equivalent)	3
MUS 350	Elementary School Music	3
MUS 351	Secondary School Music	3

Admission to All Field Experiences

- 1) Acceptable personal and professional qualities and habits, including grooming and dress as defined in the Pennsylvania's Code of Professional Practice and Conduct for Educators.
- 2) Current child abuse, criminal history, and fingerprint clearances.
- 3) A cumulative grade point average: 3.00 or above (includes transfer work)

Admission to Student Teaching

Enrollment in student teaching requires approval of an application by the director of student teaching. The following criteria must be met in order for applications to be approved:

- 1) A cumulative grade point average:
3.00 or above (includes transfer work)
- 2) For student teaching and certification purposes, all courses in elementary education or in professional education for secondary certification candidates must be passed with grades of C or better. The overall GPA must be as per the Chapter 354 regulations.
- 3) Completion of at least 96 credit hours of college work.
- 4) Acceptable personal and professional qualities and habits, including grooming and dress as defined in the Pennsylvania's Code of Professional Practice and Conduct for Educators.
- 5) Current child abuse, criminal history and fingerprint clearances.
- 6) A rating of "Developing" or "Target" on the Professional Dispositions Continuum.
- 7) Approval of advanced field experience faculty (elementary/special education) methods and advanced field experience professors (secondary) and approval of the department chair.

Professional Semester

Student teaching, EDU 431 or EDU 432 and EDU 433 and EDU 434, may be scheduled for either semester of the senior year. Student teachers must spend the entire school day for a semester in a school classroom and are to follow the same daily schedule as their cooperating teacher. It is recommended that student teachers not take a course in addition to student teaching. Student teaching is a full-time task and is to be the student teacher's top priority. If, for some reason, other course work must be taken, no more than one other course may be taken by a student teacher. The separate courses EDU 430, EDU 431, EDU 433, and EDU 434 for PK-4/PK-8 Special Education majors and EDU 432, EDU 433, and EDU 434 for secondary certification students must be taken together.

If a student is going to be recommended for certification by the Geneva College Department of Education, the student must student teach through Geneva College and be observed by Geneva College faculty. To be recommended by the department of education for certification, a student must receive at least a grade of B in EDU 430/431/432.

Expenses incurred incidental to student teaching such as and including transportation, food, housing, and books are the responsibility of the student as are incidental expenses associated with any other class. There may be occasions, such as fall break and spring break, when the student teaching schedule does not provide for a break at the time that regular college breaks are scheduled. Student teachers may inquire in the Residence Life Office about reduced meal plan options.

Exit Criteria for Secondary Education Majors

- Complete the Admission to Candidacy Requirements listed on page 56.
- Complete the requirements for a degree in your content area.
- Complete the General Education Requirements listed on page 59.
- Complete Student Teaching, having met all the requirements for Admission to Student Teaching as listed on page 60.

International

Geneva College has joined with several other Christian colleges in the Christian College Teacher Education Coordinating Council (CCTECC). Through CCTECC, Geneva may sponsor qualified students who attend Geneva to do a portion of their student teaching in mission schools or selected other schools. The first seven weeks of student teaching will be completed in a school near Geneva College under supervision of Geneva faculty. The final seven to nine weeks will be done in an approved missions or international school.

Special Students

- 1) Students who are transients (page 206) and who wish to student teach through Geneva College, but who are going to be recommended for certification by another institution to which they will transfer the transcript of their student teaching, must file an application for student teaching by the appropriate deadline with the Geneva College Department of Education during the year prior to the one in which they plan to student teach, meet the requirements listed above for admission to student teaching, submit a letter from the dean of academic administration or chair of the education department of their college recommending them for student teaching, and supply a current official transcript of their college work to be sent directly to the Geneva College Department of Education from the Registrar of their college.
- 2) Persons who have a bachelor's degree and are seeking initial certification in the state of Pennsylvania must furnish an official transcript of all college work to the Geneva College Department of Education, and must meet with a certification officer in the Geneva College Department of Education who will develop a program of prescribed courses, the successful completion of which will lead to teacher certification in the state of Pennsylvania. Course work from other institutions to be used in meeting the requirements for certification in any teaching area must be recent and have received a grade of C or better.
- 3) Graduates of Geneva College or other colleges who already hold teaching certificates may be certified in an additional area by taking any additional courses needed. Arrangements should be made directly with Geneva's Department of Education. Requirements and processes are the same as the number 2 above. A program of study will be established.

Placement Service

The education department maintains credential files. A file containing recommendations and evaluations from faculty and employers is maintained and is sent only to prospective employers on request of the graduates.

Christian School Teaching Minor

Christian schools need certified and highly competent Christian teachers. They cannot accept less because the school is "just a Christian school." Teachers in Christian schools must be knowledgeable about the subject matter they teach and about pedagogical issues and principles they use to help children learn. They need to have a positive Christian world and life view and to be able to provide Biblical and spiritual leadership to their students and to others in their school community. Christian teachers should be competent practitioners, able to make their knowledge and theory work to benefit students. Students need more than "nice" Christian experiences only; they must learn and demonstrate their learning, and their teachers must be skilled in directing and assessing that learning.

The level of competence required by the Pennsylvania Department of Education is a base level, but teachers in Christian schools must also have a foundational understanding of Biblical Christian education beyond the base level, and reflect that understanding in their teaching and in their critique of issues and trends in both secular and Christian education.

This minor is for prospective teachers who believe that a Christian school may be where they belong or who wish to have the background and perspective that the minor will help them develop. The minor is not intended to stand-alone but to be a significant supplement to the elementary or to one of the secondary certification programs. Given the size of the elementary and secondary certification programs at Geneva College, students should plan carefully in taking the Christian school teaching minor. *Students interested in this minor should check with their advisor, the chair of the Biblical studies department or the chair of the education department for further details.*

The Christian School Teaching Minor is composed of the following courses:

BIB 300	Biblical Worldview: Testing the Spirits of Our Age	3
BIB 325	Biblical Theology	3
BIB 350	History of the Christian Church	3
EDU 303	Introduction to Christian Education	3
MIN 210	Evangelism	
or MIN 215	Methods of Teaching the Bible	3

In order to be eligible to declare the Christian education minor, students must complete BIB 112 Biblical Introduction I—Creation to Post-Exilic Period; BIB 113 Biblical Introduction II—Intertestament Period through Apostolic Age; and one of the teacher certification programs offered through the department of education.

All courses that require field experience in a school district require payment to a certified cooperating teacher and have a fee attached. These fees contribute to an honorarium that is paid to the cooperating teacher for their willingness to supervise and work with Geneva teacher candidates.

Reading Methods Minor

Take the following 18 credits:

EDU 321	Teaching of Reading PK-4	3
EDU 342	Children’s Literature Pre-K-4	3
EDU 345	Advanced Teaching of Reading and Writing PreK-4	3
EDU 346	Language Arts in Early Childhood PreK-4	3
EDU 385	The Role of Phonics and Spelling in Literacy Instruction	3
EDU 474	Teaching Reading to the Exceptional Child	3

Education Department Fees (fees are per course unless otherwise noted):

EDU 214, 219, 342, 343, 345, 346, 347	\$65
EDU 470, 471, 472, 473, 474	\$70
EDU 430, 431, 432 (fee is per credit hour)	\$105
MUS 350 and 351	\$65
SCS 404, SSC 403, SSC 404, MAT 403, MAT402, ENG 402, and ENG 405	\$65

Department of Engineering and Computer Science

By developing and using the tools and capacities the God of creation has provided for our service to Him and each other, the department seeks to prepare students to enter industry and business, graduate school, or the teaching profession. Insights and skills are developed through majors in computer science and engineering.

Mission of the Department

The mission of the Department of Engineering and Computer Science is to serve Christ by equipping a diverse community of students to provide excellent engineering and computing services in an environment of technological change.

Computer Information Systems • BS – Program requirements 58 credit hours

The field of Information Systems is growing constantly. Students entering this field must be prepared to meet the challenges of a discipline in continuous change. Organizations need leaders who understand the capabilities that technology can bring to the table and how to apply those technologies to solve business problems. These people must be able to speak the language of business and technology and to translate them into results. The curriculum is a blend of business and computer science courses designed to prepare students for the challenges of today’s ever-changing Information System needs.

ACC 151	Principles of Accounting	3
ACC 256	Managerial Accounting	3
BUS 110	Foundations of Business	3
BUS 241	Business Analytics I	3
BUS 242	Business Analytics II	3
BUS 310	Principles of Management	3
BUS 311	Business Law	3
BUS 344	Management of Information Systems	3
CSC 101	Structured Programming	3
CSC 102	Object-Oriented Programming	3
CSC 190	HTML	1
CSC 203	Software Engineering	3
CSC 251	Networks and Security	4
CSC 311	Cyberethics and Cyber Law	2
CSC 363	Database Systems	3

CSC 441	Project Management	3
CSC 454	Cybersecurity	3
ECO 211	Micro Economics	3
ECO 212	Macro Economics	3
ENG 311	Writing for Business and Industry	3

Computer Science Major • BS - Program requirements 55 credit hours

The field of Computer Science is one of rapid growth. Students entering this field must be prepared to meet the challenges of a discipline immersed in constant change. Consequently the program provides a foundational survey of Computer Science topics through a set of courses required by all majors, and then gives depth in a particular area of application tailored to each student's interests and career goals through a choice of concentrations.

CSC 101	Structured Programming	3
CSC 102	Object-Oriented Programming	3
CSC 133	Survey of Computer Science	4
CSC 203	Software Engineering	3
CSC 204	Algorithms	3
CSC 251	Networks & Security	4
CSC 311	Cyberethics and Cyber Law	2
CSC 363	Database Systems	3
CSC 481	Senior Project 1	
or CSC 483	Software Engineering Project 1	3
CSC 482	Senior Project 2	
or CSC 484	Senior Engineering Project 2	3
MAT 130	Discrete Mathematics	3
MAT 105	Elementary Statistical Methods	
or MAT 265	Probability and Statistics I	3

Plus a minor or second major.

Web and Mobile Technology Minor- 19 credit hours

BUS 441	Project Management	3
CSC 190	HTML	1
CSC 205	HCI Design & Programming	3
CSC 206	Web Programming	3
CSC 364	E-Commerce	3
CSC 407	Web Engineering	3
CSC 408	Mobile and Cloud Applications	3

Cybersecurity Minor – 18 credit hours

BUS 441	Project Management	3
CSC 252	Disaster Recovery	3
CSC 335	System Foundations	3
CSC 454	Cybersecurity	3
CSC 471	Computer Forensics	3
CSC 472	Faithful Hacking	3

Data Science Minor – 20 credit hours

BUS 441	Project Management	3
CSC 465	Big Data Analytics	3
EGR 371	Operations Research	3
MAT 161	Calculus 1	4
MAT 162	Calculus 2	4
MAT 350	Numerical Methods	3

Computer Science Minor for Non-Computer Science Majors – 18 credit hours

CSC 101	Structured Programming	3
CSC 102	Object-Oriented Programming	3
CSC 133	Survey of Computer Science	3

CSC 203	Software Engineering	3
CSC 204	Algorithms	3
CSC 363	Database Systems	3

Engineering Major · BSE

The college offers one four-year degree program in engineering. This general engineering program is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>. This program is accredited under the general criteria for basic level programs, not under program criteria for specific branches of engineering. Within this program, students may choose to concentrate in biomedical engineering, chemical engineering, civil engineering, computer engineering, electrical engineering, environmental engineering, mechanical engineering, or an interdisciplinary field.

The college also offers a two-year program leading to the Associate in Engineering degree (AE). All the courses in this program carry full college credit and may be used towards the four-year degree.

Objectives of the Engineering Department

We recognize that our students and graduates make choices and commitments that we do not control. Nevertheless, we state our objectives on the assumption that our graduates stay in the engineering profession and make the choices and commitments that we encourage.

Graduates of Geneva College's Engineering program will:

- 1) See their lives from a Biblical viewpoint and their professional careers as a calling from God.
- 2) Understand and be committed to Biblical ethics and practice engineering according to high standards of integrity.
- 3) Be able to design effective solutions to engineering problems in accord with applicable standards.
- 4) Communicate effectively, both orally and in writing.
- 5) Understand the mathematics and physical phenomena relevant to their fields and how these relate to a Christian worldview.
- 6) Work effectively in teams, and with experience, assume increasing levels of responsibility.
- 7) Be familiar with state-of-the-art engineering equipment and methods relevant to their field.
- 8) Be aware of non-technical viewpoints and the diversity of world cultures.
- 9) Be engaged in lifelong learning, keep up with the advancing state of the art in their fields, and continue to grow as disciples of Christ.

Engineering Major · BSE

General program requirements

15 credit hours of mathematics:

MAT 161	Calculus I	4
MAT 162	Calculus II	4
MAT 265	Probability and Statistics I	3
MAT 405	Differential Equations	4

Eight credit hours of chemistry and physics:

CHM 111	General College Chemistry	4
PHY 201	College Physics I	4

10-30 additional credit hours of mathematics or science electives, to be chosen from course lists provided under the biomedical, chemical, civil, computer, electrical, environmental, mechanical, and interdisciplinary engineering concentrations. Credit hours in excess of the requirements may be used as free electives credit.

Three credit hours of Economics (the following course is counted as a social science elective in the Core curriculum):

ECO 270	Principles of Microeconomics for Engineers	3
23 credit hours of engineering:		
EGR 100	Calling and Vocation	1
EGR 101	Introduction to Engineering	2
EGR 102	Computer-Aided Engineering	2
EGR 211	Solid Mechanics	4
EGR 212	Linear Circuit Analysis I	3
EGR 330	Thermal Fluid Sciences	3
EGR 401	Christian Ethics and Engineering	2
EGR 481, 482	Senior Design Project	3, 3

25-39 additional credit hours of engineering (BME, CHE, CIE, CPE, EGR, ELE, EVE, MEE)
 Credit hours in excess of requirements may be used as free elective credit. 25-39

29-32 credit hours of core requirements not included in the major.
 Engineering students take EGR 100 (see above) instead of SSC 101.
 Engineering students need only take nine credit hours of humanities (HUM) and need not take HUM 304.
 Engineering students take ECO 270 as one of the two social science electives. Students in the chemical engineering concentration need not take a second social science elective in addition to ECO 270. 29-32

Two to four additional credit hours of free electives. 2-4

Zero to nine credit hours of computer programming 0-9

Summary of required credit hours
 99-104 in major requirements, 29-32 in core requirements
 not included in major, two to four in electives. 135

Specific requirements for concentrations in biomedical, chemical, civil, computer, electrical, environmental, mechanical, and interdisciplinary engineering are given below.

Students completing the requirements for the BSE degree in four years (eight semesters) will be required to take 18 credit hours in two to four semesters.

Plan of Study

By the end of the fall semester of the sophomore year, each student should prepare a plan, in consultation with his or her advisor, for meeting the requirements of a particular concentration. The plan should include selecting math, science, and engineering electives that contribute to the attainment of a coherent educational objective. The plan should also include the preliminary scheduling of courses semester by semester so that prerequisites for required and elective courses can be met in a timely way. Planning is especially important for the biomedical and interdisciplinary concentrations and may need to be done in the freshman year. An advisor may refuse to clear an advisee for registration if he or she fails to prepare a plan or fails to select courses according to plan. The plan may be revised in consultation with the student's advisor.

Double Concentrations

A student who desires to complete the requirements for two concentrations and receive recognition for both on his/her transcript must complete all the requirements for each concentration. Any course that meets a requirement in both concentrations may be counted towards both, but the student must complete at least 15 more credit hours in engineering (BME, CHE, CIE, CPE, EGR, ELE, EVE, or MEE) than required to complete a single concentration.

Biomedical Engineering Concentration- Program requirements 100 credit hours

84 credit hours as defined above: 15 in mathematics, 8 in science, 23 in general engineering, three in economics, 32 in core requirements, and three in free electives, plus:

16 additional credit hours in biology and chemistry:
 BIO 112 Introduction to Cellular Biology 4

BIO 225	Human Anatomy and Physiology I	4
BIO 326	Human Anatomy and Physiology II	4
CHM 221	Organic Chemistry I	4

3 credit hours of computer programming:

CSC 101	Structured Programming	
or CSC 111	Introduction to Engineering Computation	3

3 credit hours of biomedical engineering:

BME 300	Introduction to Biomedical Engineering	3
---------	--	---

29 credit hours in mathematics, science, and engineering chosen in consultation with the student's advisor and incorporated into her/his Plan of Study; at least 22 must in engineering.

Chemical Engineering Concentration- Program requirements 104 credit hours

80 credit hours as defined above: 15 in mathematics, eight in science, 23 in general engineering, three in economics, and 29 in core requirements, and two in free electives, plus:

29 additional credit hours of mathematics and science:

MAT 261	Calculus III	4
PHY 202	College Physics II	4
CHM 221	Organic Chemistry I	4
CHM 222	Organic Chemistry II	4
CHM 232	Quantitative Analytical Chemistry	4
CHM 306	Instrumental Analysis	3
CHM 307	Physical Chemistry I: Thermodynamics	3
CHM 308	Physical Chemistry II: Structure and Dynamics	3

23 credit hours in general and chemical engineering:

EGR 316	Process Control	3
EGR 331	Introduction to Thermal and Fluid Engineering Laboratory	1
EGR 332	Fluid Mechanics	4
MEE 416	Design of Thermal Systems	3
CHE 301	Process Analysis	3
CHE 302	Unit Operations	3
CHE 312	Advanced Laboratory- Physical/Inorganic	2
CHE 315	Mass Transfer	1
CHE 401	Reactor Design	3

Three additional credit hours in engineering electives- any course listed in BME, CHE, CIE, CPE, EGR, ELE, EVE, or MEE.

Civil Engineering Concentration - Program requirement 100 credit hours

84 credit hours as defined above: 15 in mathematics, 8 in science, 23 in general engineering, three in economics, and 32 in core requirements, and three in free electives, plus:

12 additional credit hours of mathematics and science:

MAT 261	Calculus III	4
CHM 221	Organic Chemistry I	4
PHY 202	College Physics II	4

18 credit hours required in general and civil engineering:

EGR 331	Introduction to Thermal and Fluid Engineering Laboratory	1
EGR 332	Fluid Mechanics	4
CIE 201	Geomatics Engineering	3
CIE 231	Structural Analysis	3
CIE 407	Geotechnical Engineering	4
CIE 451	Urban Hydrology	3

Nine credit hours in civil engineering electives, selected from the following (if more than 9 credit hours are selected, the excess credit hours may be applied towards the three credit hours of free electives):

EGR 214	Dynamics	3
CIE 301	Transportation Engineering	3
CIE 333	Reinforced Concrete Design	4
CIE 434	Structural Steel Design	3
EVE 240	Water Quality Control	3

Six additional credit hours in engineering electives—any course listed in BME, CHE, CIE, CPE, EGR, ELE, EVE or MEE, including those listed as civil engineering electives (if more than six credit hours are selected, the excess credit hours may be applied towards the three credit hours of free electives).

Six additional credit hours of mathematics and science electives selected from the following (if more than six credit hours are selected, the excess credit hours may be applied towards the three credit hours of free electives):

MAT 307	Linear Algebra	3
MAT 350	Numerical Methods	3
MAT 409	Partial Differential Equations	3
BIO 101	Topics in Biology	3
BIO 112	Introduction to Cellular Biology	4
BIO 210	ID and Evolution	4
BIO 306	General Ecology	4
BIO 331	Biomedical Ethics	3
CHM 170	Worth of Water	4
CHM 222	Organic Chemistry II	4
CHM 232	Quantitative Analytical Chemistry	4
CHM 307	Physical Chemistry I: Thermodynamics	3
EVS 111	Environmental Science	4
EVS 221	Environmental Ethics	3
PHY 160	Introduction to Acoustics	3
PHY 250	Observational Astronomy	3
PHY 301	Classical Mechanics	3
PHY 306	Optics	3
PHY 307	Thermodynamics	3
PHY 318	Modern Physics I	3
SCS 201	Astronomy	3
SCS 215	Earth and Space Science	3

Au Sable Courses (see p. 148)

Computer Engineering Concentration - Program requirement 99 credit hours

85 credit hours as defined above: 15 in mathematics, eight in science, 23 in general engineering, three in economics, 32 in core requirements, and four in free electives, plus:

Nine additional credit hours of computer science:

CSC 101	Structured Programming	3
CSC 102	Object-Oriented Programming	3
CSC 204	Algorithms	3

Seven additional credit hours of required mathematics and science:

MAT 130	Discrete Mathematics	3
PHY 202	College Physics II	4

Three credit hours of mathematics or science elective selected from the following (if four credit hours are selected, the fourth credit hour may be counted as free electives):

BIO 101	Topics in Biology	3
BIO 112	Introduction to Cellular Biology	4
CHM 221	Organic Chemistry I	4
CHM 222	Organic Chemistry II	4
CHM 232	Quantitative Analytical Chemistry	4
CHM 304	Inorganic Chemistry	3

CHM 307	Physical Chemistry I	3
EVS 111	Environmental Science	4
EVS 221	Environmental Ethics	3
MAT 261	Calculus III	4
MAT 307	Linear Algebra	3
MAT 309	Introduction to Abstract Algebra	2
MAT 310	Introduction to Real Analysis	2
MAT 350	Numerical Methods	3
MAT 409	Partial Differential Equations	3
PHY 160	Introduction to Acoustics	3
PHY 250	Observational Astronomy	3
PHY 301	Classical Mechanics	3
PHY 303, 304	Advanced Physical Measurements	1-3
PHY 306	Optics	3
PHY 307*	Thermodynamics	3
PHY 318	Modern Physics I	3
SCS 201	Astronomy	3

*Cross-listed as CHM 307

22 credit hours in general and computer engineering:

CPE 133	Survey of Computer Science	3
CPE 203	Software Engineering	3
CPE 220	Digital Systems	3
CPE 303	Microprocessor Systems	3
CPE 335	System Foundations	3
EGR 225	Signals and Systems	3
ELE 309	Electronic Devices and Circuits I	4

Six credit hours of computer engineering electives, selected from the following:

CPE 251	Networks and Security	4
CPE 252	Cybersecurity	3
CPE 304	Advanced Digital Logic	3
CPE 454	Cybersecurity	3
CPE 471	Computer Forensics	3
CPE 490	Embedded Systems	3
CSC 363	Database Systems	3
CSC 465	Big Data Analytics	3
ELE 440	Digital Signal Processing	3

Three additional credit-hours in engineering elective- any course listed in BME, CHE, CIE, CPE, EGR, ELE, EVE, or MEE.

Electrical Engineering Concentration - Program requirements 99 credit hours

85 credit hours as defined above: 15 in mathematics, eight in science, 23 in general engineering, three in economics, 32 in core requirements, and four in free electives, plus:

Eight additional credit hours of mathematics and science:

MAT 261	Calculus III	4
PHY 202	College Physics II	4

3 credit hours of computer programming:

CSC 101	Structured Programming	3
---------	------------------------	---

26 credit hours in general and electrical engineering:

CPE 220	Digital Systems	3
CPE 303	Microprocessor Systems	3
CPE 304	Advanced Digital Logic	3
EGR 225	Signals and Systems	3
EGR 316	Process Control	3
ELE 222	Linear Circuit Analysis II	3

ELE 305	Electromagnetic Fields and Waves	4
ELE 309	Electronic Devices and Circuits I	4

Seven or eight credit hours of electrical engineering electives, selected from the following (if eight credit hours are selected, the eighth credit hour may be counted towards the four credit hours of free electives):

CPE 490	Embedded Systems	3
ELE 324	Electrical Machines	3
ELE 402	Communications Engineering	4
ELE 410	Electronic Devices and Circuits II	4
ELE 440	Digital Signal Processing	3

Three additional credit hours in engineering electives- any course listed in BME, CHE, CIE, CPE, EGR, ELE, EVE, or MEE.

Three credit hours of physics elective selected from the following:

PHY 306	Optics	3
PHY 318	Modern Physics I	3

Environmental Engineering Concentration- Program requirements 100 credit hours

84 credit hours defined above: 15 in mathematics, eight in science, 23 in general engineering, three in economics, 32 in core requirements, and three in free electives, plus:

15 additional credit hours of science:

CHM 221	Organic Chemistry I	4
EVS 111	Environmental Science	4
EVS 221	Environmental Ethics	3
BIO 306	General Ecology	4

Six credit hours of political science:

POL 151	American Government	3
POL 361	American Public Policy	3

15 credit hours of general and environmental engineering:

EGR 331	Introduction to Thermal and Fluid Engineering Laboratory	1
EGR 332	Fluid Mechanics	4
CHE 301	Process Analysis	3
EVE 240	Water Quality Control	4
EVE 341	Environmental Monitoring and Impact Analysis	3

Three credit hours of hydrology, selected from the following:

EVE 461	Surface Water Hydrology	3
EVE 462	Ground Water Hydraulics and Hydrology	3

Six credit hours of environmental engineering electives, selected from the following:

CHE 302	Unit Operations	3
CHE 401	Reactor Design	3
EVE 453	Solid and Hazardous Waste	3
EVE 454	Air Pollution Control	3
EVE 461	Surface Water Hydrology	3
EVE 462	Ground Water Hydraulics and Hydrology	3

Six credit hours of engineering electives-any course listed in BME, CHE, CIE, CPE, EGR, ELE, EVE, or MEE, including those listed as environmental engineering electives. If more than six credit hours are taken, the credit hours above six may be counted towards the three credit hours of free elective.

Three or four credit hours of mathematics or science electives, selected from the following (if a four credit hour course is selected, the fourth credit hour may be counted towards the three credit hours of free electives):

MAT 261	Calculus III	4
MAT 307	Linear Algebra	3
MAT 350	Numerical Methods	3

MAT 409	Partial Differential Equations	3
BIO 112	Introduction to Cellular Biology	4
BIO 305	Microbiology	4
BIO/CHM 317	Biochemistry	3
CHM 170	Worth of Water	4
CHM 222	Organic Chemistry II	4
PHY 160	Acoustics	3
PHY 202	College Physics II	4
SCS 215	Earth and Space Science	3
Au Sable Courses (see p. 148)		

Mechanical Engineering Concentration - Program requirements 100 credit hours

85 credit hours as defined above: 15 in mathematics, eight in science, 23 in general engineering, three in economics, 32 in core requirements, and four in free electives, plus:

12 additional credit hours of mathematics and science:

MAT 261	Calculus III	4
CHM 221	Organic Chemistry I	4
PHY 202	College Physics II	4

Three credit hours of computer programming:

CSC 111	Introduction to Engineering Computation	3
---------	---	---

17 credit hours in general and mechanical engineering:

EGR 214	Dynamics	3
EGR 331	Introduction to Thermal and Fluid Engineering Laboratory	1
EGR 332	Fluid Mechanics	4
MEE 321	Mechanics of Deformable Bodies	3
MEE 333	Applied Thermal Fluids Engineering	3
MEE 403	Mechanical Component Design	3

Six credit hours in mechanical engineering electives, selected from the following:

MEE 324	Kinematics of Mechanisms	3
MEE 405	Finite Element Methods	3
MEE 410	Mechanical Vibration	3
MEE 416	Design of Thermal Systems	3
MEE 418	Reacting Systems	3

Six additional credit hours in engineering electives—any course listed in BME, CHE, CIE, CPE, EGR, ELE, EVE, or MEE, including those listed as mechanical engineering electives. If more than six credit hours are taken, the credit hours above six may be counted towards the four credit hours of free elective.

The requirements for the mechanical engineering concentration may alternatively be satisfied by choosing the following manufacturing-related courses in place of the mechanical engineering electives and engineering electives described above:

EGR 322	Manufacturing Engineering	3
EGR 325	Materials Engineering	3
EGR 371	Operations Research	3
EGR 423	Quality Engineering	3

Three credit hours of mathematics elective selected from the following:

MAT 307	Linear Algebra	3
MAT 350	Numerical Methods	3
MAT 409	Partial Differential Equations	3

Three or four credit hours of chemistry or physics elective selected from the following (if a four credit hour course is selected, the fourth credit hour may be counted towards the three credit hours of free electives):

CHM 232	Quantitative Analytical Chemistry	4
CHM 307	Physical Chemistry I: Thermodynamics	3
PHY 301	Classical Mechanics	3

PHY 306	Optics	3
PHY 307	Thermodynamics	3
PHY 318	Modern Physics I	3

Interdisciplinary Engineering

To select this concentration a student must identify two specific focus areas, and then select courses supporting the focus areas. The focus areas may support one overall goal. Students selecting this option must obtain the approval of two department chairs, or if the focus areas are both within engineering, the approval of two engineering faculty members.

Program requirements 84 credit hours

84 credit hours as defined above: 15 in mathematics, eight in science, 23 in general engineering, three in economics, 32 in core requirements, and three in free electives, plus:

Four additional credit hours of chemistry or physics, selected from the following:

CHM 221	Organic Chemistry I	4
PHY 202	College Physics II	4

24 credit hours of engineering in focus area one:

These courses must be selected from BME, CHE, CIE, CPE, EGR, ELE, EVE, or MEE, and must constitute a generally recognized track within engineering, for example, microprocessor design or thermal sciences. The selected courses must lead to senior level competencies in this focus area.

15 credit hours of science, mathematics, or engineering in focus area two:

Course selections must constitute or support a generally recognized or identifiable focus area in science, engineering, or mathematics, for example, robotics or engineering physics. At least three credit hours in this group must be selected from BME, CHE, CIE, CPE, EGR, ELE, EVE, or MEE.

Eight credit hours of mathematics, science, or engineering selected to support or augment one or both focus areas.

All plans must meet or exceed the department's minimum requirements for engineering design. The student should consult with his or her advisor for details.

Engineering Minor

At least 19 credit hours:

EGR 101	Introduction to Engineering	2
EGR 102	Computer-Aided Engineering	2
EGR 211	Solid Mechanics	4
EGR 212	Linear Circuit Analysis I	3
EGR 401	Christian Ethics and Engineering	2

Plus at least six additional credit hours from BME, CHE, CIE, CPE, EGR, ELE, EVE, or MEE.

Associate Degree in Engineering - Program requirements 41 credit hours

11 credit hours of mathematics:

MAT 161	Calculus I	4
MAT 162	Calculus II	4
MAT 265	Probability and Statistics I	3

Four additional hours of mathematics, selected from the following:

MAT 261	Calculus III	4
or MAT 405	Differential Equations	

12 credit hours of chemistry and physics, selected from the following:

CHM 111	General College Chemistry	4
CHM 221	Organic Chemistry I	4
PHY 201	College Physics I	4
PHY 202	College Physics II	4

12 credit hours of engineering:

EGR 100	Engineering: Calling and Vocation	1
---------	-----------------------------------	---

EGR 101	Introduction to Engineering	2
EGR 102	Computer-Aided Engineering	2
EGR 211	Solid Mechanics	4
EGR 212	Linear Circuit Analysis I	3

Three additional credit hours in engineering elective from BME, CHE, CIE, CPE, EGR, ELE, EVE or MEE.

22 credit hours of core requirements:

BIB 112	Bible Introduction I	3
BIB 113	Bible Introduction II	3
COM 101	Principles of Communication	3
ENG 101	English Composition	3
HUM 103	Invitation to the Humanities	3
HUM 203	Making the West	3
PED 103	Physical Fitness	1
Social Science Elective		3

Summary of Required credit hours

42 in major requirements, 22 in core requirements not included in major.

If less than 12 hours of the engineering credit hours are taken at Geneva, the student must also satisfy a general competency test administered by the engineering department chairperson.

Department of English

Our vision

In the beginning the Word was with God
And God spoke the worlds into being.
Then and now those worlds sing their words back to God;
God hears, enjoys, and joins the singing.

The Word gives breath and can take breath away;
The Word informs and imagines.
The Word that condemns can take death away;
The Word sustains and envisions.

Now some words are broken, and wordsmiths die,
And some names are said all in vain.
We sing some songs as sad as a sigh,
But the Word still speaks and His words sustain.

Christ calls a name and He images the same;
He figures, patterns, and designs.
We read, we write, we watch, and we wait,
And our words with the Word He aligns.

This vision leads to some ideals that we would like to sow and cultivate in our students with the hope that sooner or later these qualities will mature in students' lives.

Through the experience of literature and the related arts, through the clear and creative use of language, and through understanding language itself, our students, especially our departmental majors, should come to:

- Connect their words and their reading with the Word.
- Experience, express, and testify to the wonder of the glory of God, His work, and the work of His creatures.
- Comprehend and lament the brokenness of this fallen world.
- Seek wisdom in humility.
- Honor God in the use of language and in responding to others' use of language.

The mission of the English department of Geneva College is to serve the student body by offering college level writing courses as part of the core curriculum and by offering upper level writing, English language, and literature courses to English majors and future teachers. We aim to prepare students to be competent writers, to be innovative critical thinkers, and to gain general knowledge about literary history both in the West and globally. As we help students pursue excellence in writing, language, and literature, we do so believing that human beings are image bearers of God and as such are creative beings. Moreover, we teach, pursue scholarship, and write out of a commitment to the power of language as expressed and reflected in the Word of God; we encourage students to do the same.

A major in English is excellent preparation for professions such as law, teaching, business, and other ministry-related vocations, including those requiring graduate work. The department offers majors in English with a concentration in Literature, English with Secondary Education, and Writing.

The department also offers minors in English, teaching English as a second language and Writing. Minors should be chosen by the beginning of the junior year.

The English department works with the student publications board in sponsoring The Cabinet, the Geneva College student newspaper, and the Chimes, our student literary magazine. The department operates a writing center open to students desiring tutoring assistance in developing their writing skills. The English department also works with the department of languages and culture in its work with English as a second language.

English Major • BA - 48 Total Credit Hours

Core Curriculum (27 credit hours):

Students may earn the BA in English by completing both a common core curriculum and a specialized concentration. All English majors- whether they intend to concentrate on Literature, English Education, or Writing- will take a common core of foundational courses, as follows:

ENG 112	Introduction to Literary Study and Research	3
ENG 201	Introduction to Creative Writing	
or ENG 205	Advanced Composition	3
ENG 232	Introduction to Rhetoric	3
ENG 291	Masterpieces of World Literature	3
ENG 351	Shakespeare	3
LIN 219	Introduction to Linguistics	
or ENG 382	English Grammars	3
ENG 489	Senior Seminar	3

Three credits from Survey of British Literature or Survey of American Literature:

ENG 261	British Literature to 18 th Century	3
ENG 262	British Literature from 18 th Century to Present	3
ENG 281	American Literature to Civil War	3
ENG 282	American Literature from Civil War to Present	3

Three credits from Diverse Voices

ENG 213	Topics in Non-western Film	3
ENG 290	Nonwestern World Literature	3
ENG 335	Minority Literature	3
ENG 336	Women's Literature	3

Concentration in Literature (21 credit hours):

In addition to the required 27 credits in the English Major Core Curriculum, a student majoring in English with a concentration in literature must complete 21 hours in Literature concentration courses. In electing courses outside this major, students should consider developing a minor that has specific pre-professional orientation and also choosing courses in American and English history. Courses for the Literature concentration are selected from the following:

9 additional credits in British & American Survey:

ENG 261	British Literature to 18 th Century	3
ENG 262	British Literature from 18 th Century to Present	3
ENG 281	American Literature to Civil War	3
ENG 282	American Literature from Civil War to Present	3

6 credits in ENG 390 Specialized Topics 6

3 additional elective credits in English Literature or Linguistics 3

3 credits in Theory to Practice selected from the following:

COM 201	Theatre Practicum	1
ENG 221	Newspaper	1
ENG 223	Literary Magazine	1
ENG 320	Tutoring Writing	2
ENG 493	Internship	1-3

English with Secondary Education Major - BA- 84 Total Credit Hours

In addition to the required 27 credits in the English Major Core Curriculum, a student majoring in English Education must complete 22 credit hours in English Education major courses and 35 credit hours of pre-professional courses from the Education department. English Education students are exempted from one of the non-laboratory science course requirements in the Natural Sciences section of Geneva's Core curriculum. See page 59 for a full description of the program requirements for certification to teach English on the secondary high school level. Courses for the English with Secondary Education major are selected from the following:

Core Curriculum (27 credit hours):

ENG 112	Introduction to Literary Study and Research	3
ENG 201	Introduction to Creative Writing	
or ENG 205	Advanced Composition	3
ENG 232	Introduction to Rhetoric	3
ENG 291	Masterpieces of World Literature	3
ENG 351	Shakespeare	3

LIN 219	Introduction to Linguistics	
or ENG 382	English Grammars	3
(English Education majors should choose ENG 382)		
ENG 489	Majors Seminar	3
3 credits from Survey of British Literature or Survey of American Literature:		
ENG 261	British Literature to 18 th Century	3
ENG 262	British Literature from 18 th Century to Present	3
ENG 281	American Literature to Civil War	3
ENG 282	American Literature from Civil War to Present	3
3 credits from Diverse Voices		
ENG 213	Topics in Non-western Film	3
ENG 290	Nonwestern World Literature	3
ENG 335	Minority Literature	3
ENG 336	Women's Literature	3
Additional English Education Major Course requirements (22 credit hours)		
9 additional credits in British & American Survey:		
ENG 261	British Literature to 18 th Century	3
ENG 262	British Literature from 18 th Century to Present	3
ENG 281	American Literature to Civil War	3
ENG 282	American Literature from Civil War to Present	3
6 credit hours from special topics:		
ENG 390	Special Topics in Literature	6
3 Credits in Theory to Practice selected from the following:		
ENG 320	Tutoring Writing (required)	2
and ENG 221	Newspaper	1
or ENG 223	Literary Magazine	1
ENG 405	Methods of Teaching English- Secondary	4
Pre-Professional Courses (35 credits)		
EDU 202	Social and Philosophical Foundations of Modern Education	3
EDU 217	Initial Field Experience – Secondary	1
EDU 219	Level 2- Field Experience 4-12	1
EDU 375	Exceptionality in the Secondary School	3
EDU 415	Literacy Across the Curriculum Grades 4- 12	3
EDU 420	Educational Assessment	3
EDU 432	Student Teaching Performance – 4-12	4
EDU 433	Student Teaching Portfolio	4
EDU 434	Student Teaching Seminar	4
EDU 482	Interventions for Students in Inclusive Classrooms- 7-12	3
MAT 101	College Algebra (or equivalent)	3
MAT 105	Elementary Statistical Methods (or equivalent)	3

*** The EDU 211 pre-professional requirement is completed in the Social Sciences category of the Geneva College Core general curriculum; therefore these 3 credits are not added into the above published list of Pre-Professional Courses.

Teaching majors should plan to do their student teaching during the spring semester of their senior year, except under special circumstances.

Successful completion of the English with Secondary Education major with a 3.0 grade point average or better, together with passing the pre-professional and content area examinations mandated by the Commonwealth of Pennsylvania, will qualify a Geneva College student for certification to teach English on the secondary level. Most states honor Pennsylvania's certification. **Geneva College is not responsible for students who will not be certified because of failure to meet certification requirements at the time of graduation.**

Writing Major • BA - Program requirements 48 credit hours

In addition to the required 27 credits in the English Major Core Curriculum, a student majoring in Writing must complete 21 credit hours in Writing courses. The writing major is designed to develop general writing skills while still giving the student the option of emphasizing creative or informational writing. **NOTE:** The writing major is **not** a journalism major.

Courses for the Writing major are selected from the following:

Core Curriculum (27 credit hours)		
ENG 112	Introduction to Literary Study and Research	3
ENG 201	Introduction to Creative Writing	
or ENG 205	Advanced Composition	3
ENG 232	Introduction to Rhetoric	3
ENG 291	Masterpieces of World Literature	3
ENG 351	Shakespeare	3
ENG 382	English Grammars	
or LIN 219	Introduction to Linguistics	3
ENG 489	Majors Seminar	3
3 credits in British or American Survey:		
ENG 261	British Literature to 18 th Century	3
ENG 262	British Literature from 18 th Century to Present	3
ENG 281	American Literature to Civil War	3
ENG 282	American Literature from Civil War to Present	3
3 credits from Diverse Voices		
ENG 213	Topics in Non-western Film	3
ENG 290	Nonwestern World Literature	3
ENG 335	Minority Literature	3
ENG 336	Women's Literature	3
Additional Writing Major Course requirements (21 credit hours)		
ENG 242	Editing	3
ENG 344	Publishing	3
ENG 215	Writing Fiction	
or ENG 216	Writing Poetry	3
3 additional credits in core Writing courses:		
ENG 201	Creative Writing	3
ENG 205	Advanced Composition	3
3 credits from Theory to Practice selected from the following:		
COM 201	Theatre Practicum	1
ENG 221	Newspaper	1
ENG 223	Literary Magazine	1
ENG 320	Tutoring Writing	2
ENG 493	English Internship	1-3
6 elective credits from:		
ENG 212	Cinema	3
ENG 241	Contemporary Newswriting	3
ENG 301	Genre Writing	3
ENG 311	Business & Technical Writing	3
ENG 401	Advanced Creative Writing Workshop	3

English Minor (18 credit hours)

An English minor is intended for students who wish to add a literature centered liberal arts concentration to a major outside the English department.

A student can complete an English minor by taking 18 credit hours of English courses with the following constraints:

Required:

ENG 112	Introduction to Literary Study and Research	3
ENG 201	Introduction to Creative Writing	
or ENG 205	Advanced Composition	3

12 credits of English Electives selected from the following:

ENG 215	Creative Writing: Fiction
ENG 216	Creative Writing: Poetry
ENG 232	Introduction to Rhetoric
ENG 241	Newswriting
ENG 242	Editing
ENG 301	Genre Writing
ENG 311	Business and Technical Writing
ENG 344	Publishing
ENG 401	Advanced Creative Writing Workshop

The following courses may not be used to complete an English minor:

ENG 095	English Proficiency
ENG 101	English Composition
ENG 110	Proficiency in English as a Second Language
ENG 405	Teaching of English—Secondary
ENG 413	Teaching of English as a Second Language

Writing Minor (19 credit hours)

Students who wish to increase their resources for and develop skill in creative writing, or who wish to add a concentration in writing useful in supporting their work in a professional field should consider minoring in writing. A student can complete a Writing minor by taking 19 credit hours of English courses with the following constraints:

Nineteen credit hours are required to complete the minor.

ENG 112	Introduction to Literary Study and Research	3
ENG 201	Introduction to Creative Writing	
or ENG 205	Advanced Composition	3
ENG 215	Creative Writing: Fiction	
or ENG 216	Creative Writing: Poetry	3
ENG 221	Newspaper	
or ENG 223	Literary Magazine	1

The remaining nine credit hours can be elected from the following courses:

ENG 232	Introduction to Rhetoric	3
ENG 241	Contemporary Newswriting	3
ENG 242	Editing	3
ENG 301	Topics in Genre Writing	3
ENG 311	Writing for Business and Industry	3
ENG 344	Publishing	3
ENG 401	Advanced Creative Writing Workshop	3

Minor in Teaching of English as a Second Language (18 credit hours)

This minor (usually referred to as a TESL minor) is available for students who want to develop the special skills for teaching English to persons for whom English is not their first language. Eighteen credit hours are needed to complete the following program:

EDU 343	Meeting the Instructional Needs of PreK-4 English Language Learners	3
ENG 382	English Grammars	3
ENG 413	Teaching English as Second Language	3
LIN 219	Introduction to Linguistics	3

One of the following three courses:

MIN 201	Cultural Anthropology	3
COM 305	Culture & Communication	3

XCX 210	Foundations for Developing Intercultural Competence	3
One of the following four courses:		
ENG 328	History of the English Language	3
LIN 220	Applied Linguistics	3
LIN 384	Special Topics in Linguistics	3
LIN 491	Special Study in Linguistics	3

Department of History, Political Science, and Sociology

The Department of History, Political Science, and Sociology seeks to give all students an understanding of human society, its history, and its present condition from a Christian perspective, and it seeks to develop in students an awareness of their appropriate role in that society. The department offers majors in history, political science, and sociology for students who wish to concentrate in those fields and selected minors in related professional fields. Courses offered by the department contribute to preparation for graduate study and for careers in research, law, business, government service, the ministry, library work, journalism, editing, public or applied history, and education, among others.

Students who wish to gain certification to teach social studies should be aware that the combination of college core courses, secondary education requirements (see the requirements for the Social Studies Education major on p. 80), the major requirements, and related social studies courses adds up to at least 135 credit hours. This requires careful scheduling and coordination with both the advisor and the education department. It may be difficult or impossible to fit these requirements into eight semesters. Students also must achieve a 3.0 GPA and pass the pre-professional skills test before being admitted to candidacy to the professional education program. **Geneva College is not responsible for students who will not be certified because of failure to meet certification requirements at the time of graduation.**

The department provides leadership in the development of a pre-law studies minor which involves courses in various disciplines, and which serves to introduce students to the basic tenets of the legal profession. See page 93.

History Major · BA - Program requirements 42 credit hours

The history major seeks to help students understand and evaluate the past through the collection, organization, and interpretation of evidence (historical research and writing), taking into consideration the dynamics of historical events, cause-and-effect relationships, and the interpretation of historical periods and civilizations. In other words, the program is designed to encourage students to develop an historical imagination for the “how’s and why’s” of history as much as the “what’s, when’s, and where’s,” and to articulate their findings. It particularly seeks to help students approach the past through a distinctly Christian worldview: an attempt to responsibly and honestly address and interpret the complexities of history in the spirit of Biblical faithfulness. The major is intended to complement the core curriculum and to encourage students to gain a liberal arts background as the basis for future development and contributions to the Christian community and society.

HIS 201	Introduction to Historical Studies	3
European Sequence (9 credit hours):		
HIS 220	Europe I: Ancient through Medieval	3
HIS 221	Europe II: 1500 – 1815	3
HIS 222	Europe III: 1815 – Present	3
United States Sequence (9 credit hours):		
HIS 250	US I: Colonial	3
HIS 251	US II: 19 th Century	3
HIS 252	US III: 20 th Century	3
Non-Western Courses (6 credit hours):		
HIS 260	Latin America	3
HIS 270	Middle East	3
HIS 280	Modern Africa	3
HIS 290	Modern Asia	3
Six credit hours of 300 Level courses		6

Three credit hours of HIS 401 Selected Themes in History	3
HIS 421 Senior Seminar (open only to senior history majors; may be replaced by SSC 403 for Social Studies Education majors only)	3
HIS 422 History and Theory (open only to senior History majors)	3

History Minor

18 credit hours of history courses.

Political Science Major • BA - Program requirements 40 credit hours

The political science major seeks to help students understand and assess the discipline of political science, theories of politics, political systems and governmental structures, and the tools used in social science research. In addition, the political science major encourages students to develop their reasoning, analytic, and communication skills, and to apply what they are learning to contemporary political issues. The political science major particularly seeks to help students apply Biblical perspectives to the study, practice, and transformation of politics. In conjunction with the core curriculum, the political science major provides students with a broad liberal arts background while training them in the discipline, and equipping them for service in fields including government, law, politics, teaching, policy analysis, and private sector management.

Major Core Courses (22 credit hours):

POL 151 American Government (Political Science majors may not use this course to fulfill the Social Science core requirement.)	3
POL 203 International Relations	3
POL 211 Comparative Politics	3
POL 352 Great Issues in Politics	3
POL 421 Senior Seminar	3
SSC 348 Methods of Social Science Research	3
SSC 349 Social Science Statistics	4

Major Area Courses (9 credit hours with at least 3 credit hours in each of the following areas):

American Government (at least 3 credit hours)

POL 253 Parties, Elections, and Interest Groups	3
POL 254 State and Local Government	3
POL 255 Congress and the Presidency	4
POL 360 Public Administration	3
POL 361 American Public Policy	3

Comparative/International Government (at least 3 credit hours)

POL 331 Foreign and National Security Policy	3
POL 332 Topics in Comparative Politics	3
POL 341 Politics of Global Economics	3
POL 342 Topics in International Relations	3

Political Ideas (at least 3 credit hours)

POL 305 Constitutional Law	3
POL 309 Topics in Modern Political Thought	3
POL 312 History of Political Thought	3
POL 313 Democratic Political Thought	3

Nine credit hours in Political Science 9

Political Science Minor

18 credit hours

POL 151	American Government	3
POL 203	International Relations	
or POL 211	Comparative Politics	3
POL 352	Great Issues in Politics	3

Plus three other courses selected from any POL course or SSC 348

Students are strongly advised to include SSC 348 Methods in Social Science Research in the minor.

Sociology Major • BA - Program requirements 33 credit hours

The sociology major is designed to give students a foundation in social theory that is demonstrated in everyday social life. While the program is theory based, students are regularly in the community seeing the implications of theory in neighborhood design, marginalized groups, and the functioning of institutions. This kind of preparation depends on interdisciplinary study and is rooted in a Biblical view of social life.

1)	Sociology Core— (12 credit hours)	
	SOC 120 Society	3
	SOC 220 Social Change	3
	SOC 223 The Sociological Imagination	3
	SOC 254 Gender, Class and Race	3
2)	Contemporary Trends in Sociology (12 credit hours)	
	SOC 230 Introduction to Community Development	3
	SOC 271 Restoring the City	3
	SOC 300 Special Topics	3
	*International Justice	
	*American Culture Studies	
	*Work, Vocation and Leadership	
	*Environmental Sociology	
	SOC 312 Studies in Black Culture	3
3)	Social Theory—(9 credit hours)	
	SOC 346 Sociology of Religion	3
	SOC 360 Readings in Social Theory	3
	SOC 401 Utopia and Shalom	3

Social Studies Education Major – BSEd- Program requirements 106 credit hours

Education Courses (41 credit hours)

EDU 202	Social and Philosophical Foundations of Modern Education	3
EDU/PSY 211	Educational Psychology	3
EDU 217	Level 1- Field Experience 4-12	1
EDU 219	Level 2- Field Experience 4-12	1
EDU 375	Survey of Disabilities- 4-8 and Secondary	3
EDU 415	Literacy Across the Curriculum Grades 4-12	3
EDU 420	Educational Assessment	3
EDU 432	Student Teaching Performance- 4-12	4
EDU 433	Student Teaching Portfolio	4
EDU 434	Student Teaching Seminar	4
EDU 482	Intervention for Students in Inclusive Classrooms (Grades 7-12)	3
ENG 382	English Grammars	3
MAT 101	College Algebra (or equivalent)	3
MAT 105	Elementary Statistical Methods (or equivalent)	3

Social Studies Courses (25 credits hours)

ECO 100	Fundamentals of Economics	
or ECO 211	Micro Economics	
or ECO 212	Macro Economics	3
POL 151	American Government	3

PSY 201	Introduction to Psychology	3
SOC 120	Society	3
SSC 280	Human Geography	3
SSC 403	Social Studies Teaching Methods	4
6 credits from:		
HIS 250	U.S. I: Colonial	3
HIS 251	U.S. II: 19 th Century	3
HIS 252	U.S. III: 20 th Century	3

Second major of History or Political Science (40 credit hours)

Sociology Minor

A student must complete 18 credit hours in sociology for a minor. Students must complete SOC 120, Society, either SOC 360, Readings in Social Theory or SOC 401, Utopia and Shalom, and four of any other sociology courses.

Community Development Minor

18 credits		
MIN 201	Cultural Anthropology	3
MIN 225	Globalism and Multiculturalism	
or SOC 254	Gender, Class and Race	3
MIN 491	Sustainable Missions	3
SOC 230	Introduction to Community Development	3
SOC 271	Restoring the City	3
SOC 311	Sociology of the City	3

Humanities Program

The Humanities program is academically administered from within the Department of Core Studies. The Humanities program is interdisciplinary in nature consisting of content from History, English, Philosophy, Music, Theater and the Visual Arts. The program offers three interdisciplinary core courses, HUM 103, HUM 203, and HUM 303, as well as a Humanities minor.

Humanities Minor

19 credits		
Fifteen hours in English, Philosophy, and History (One course may count for students majoring in one of these three)		15
Three credits from a fine arts performance area.		
From Music: MUS 212, 213, 214, 215, 216, 218		
From Art: VIS 201, 202, 300		
From Theater: COM 165, 201		
From Writing: ENG 201, 221, 222, 223, 301, 320, 394		3
One hour interdisciplinary study seminar. (Course number and description are currently being developed)		1

Department of Languages and Cultures

Language, a God-given means of conversing with our Creator and our fellow creatures, provides essential communicative skills for understanding, appreciating, and working with millions of people who speak languages other than English in the United States and outside of our borders. Foreign languages erect bridges leading to successful business and international/national relationships, enabling those who speak them to be a more integral, active component of our present day international society. Acquaintance with one or more languages besides our own helps us value and share the varieties of wisdom, vision and experience that God has distributed among us, and provides us with a valuable tool for serving Him in His earthly Kingdom.

The Spanish minor helps prepare for careers in business, government, missions, science, social service, and teaching. The emphasis of the program is on communication skills, and the demand for these skills in areas such as education,

international banking, multinational commerce, government translation, criminology, and missions makes a Spanish minor in conjunction with any of the college's other majors an attractive combination of study.

All students taking Spanish should consider participating in Geneva College's endorsed programs in Quito, Ecuador (EQUIP), Seville, Spain (Semester in Spain) and Nicaragua (SPIN-Studies Program in Nicaragua). Students may fulfill their Spanish minor requirements by taking 9 credits in Geneva's Spanish minor and 9 credits of Spanish courses abroad. Also, several students opt to plan an Independent Spanish major at Geneva alongside any major at Geneva (except Secondary Education) by completing 18 credits in the Spanish minor at Geneva and 18 credits of Spanish courses in a semester study abroad program.

The beginning Spanish courses are also offered, SPA 101 and 102, but they do not count toward the 18-credit minor.

Spanish Minor

Students wishing to obtain a Spanish minor must take six of the following courses for a total of 18 credit hours:

SPA 201	Intermediate Spanish I	3
SPA 202	Intermediate Spanish II	3
SPA 315	Culture and Civilization of Spanish America	3
SPA 319	Advanced Spanish Conversation	3
SPA 320	Advanced Spanish Composition	3
SPA 321	Advanced Spanish Grammar	3
SPA 330	Hispanic Film	3

Department of Music

The Department of Music offers instruction in voice and a variety of instruments, and provides opportunities for solo and group performance, both for students majoring in music and for students from the college at large.

The fundamental purpose of the department of music at Geneva College is to prepare graduates who are able to critique musical life from a Christian perspective and transform it into a Biblical pattern. Such graduates include those who will be listeners and amateur performers of music as well as those who will be professional musicians. To achieve their purpose, we believe music graduates must develop skills in five major areas. Curricular offerings of the department focus on these areas.

- 1) A broad appreciation of the humanities, sciences, and other arts, in order to understand the significance of music to individuals and societies. The college's core is supplemented by ensembles and elective courses open to all students.
- 2) Detailed comprehension of the logic and context of music. Courses in music theory (MUS 108, MUS 109, MUS 208, MUS 209) and aural skills (MUS 128, MUS 129, MUS 228, MUS 229) provide understanding of musicianship, writing and composition, and analysis. Those in music history (MUS 310, MUS 311, MUS 370) examine music's social context, critical writing, and style. Introduction to Acoustics (PHY 160) studies the creational framework within which music operates. Independent and directed study (MUS 491, MUS 495) offer additional insights.
- 3) Competence in the individual and group performance of music. "Making music" involves both private and class lessons in voice, piano, percussion, and a variety of brass, reed, and string instruments; choral groups such as Genevans and Madrigal Singers; and such instrumental groups as Symphonic band, Marching band, Jazz band, and instrumental ensemble.
- 4) The development of salable professional skills in music. Each student majoring in music chooses one of three tracks.
 - a. Music education BS, preparation to teach vocal and instrumental music in elementary and secondary schools. This program is accredited by the Pennsylvania Department of Education and, through interstate agreements; certification is readily achieved in many other states as well. See page 56.
 - b. Music business BA, preparation to work in music wholesaling and retailing, personal and concert management, etc.
 - c. Music general BA, for the generalist. This program is not career specific; it may include preparation for graduate study either in music or in some related field. This is a flexible program and is essentially liberal arts rather than career specific.
- 5) The opportunity to articulate and demonstrate a comprehensive philosophy of music, embodied in all courses, and in performances.

Auditions

Students who wish to major in music must meet the normal conditions for admission to the college. In addition, they must be accepted by the music department, based on their qualifications to pursue study in this field. The acceptance process will include an audition, interview with the faculty, and diagnostic evaluation (testing), as appropriate for the particular major intended. Students who wish to be considered for a music scholarship must audition by the end of February of their senior year.

Individual Instruction

Any student may receive college credit for private studio lessons in voice, piano, organ, strings, woodwinds, brass, guitar, and percussion. Fees are described on page 208. These lessons constitute the applied music requirement for music majors. All music majors taking applied music for credit must appear before a board (see page 84 for definition of terms) at the end of each semester.

Musical Organizations

Regardless of major, students may earn college credit for participation in MUS 212 Marching Band, MUS 213 Symphonic Band, MUS 214 Instrumental Ensembles, MUS 214 Jazz Band, MUS 215 Genevans, MUS 216 Vocal Ensemble, and MUS 218 Handbell Ensemble. A maximum of eight of these credit hours can be used to meet minimum graduation requirements.

All music majors are required to participate in at least one ensemble every semester, and to complete a total of ten credit hours in ensembles. Eight of these must be in large ensembles (MUS 212, MUS 213, or MUS 215) and two in small ensembles (MUS 214, MUS 216, MUS 218). Music minors are required to complete four credit hours in ensembles.

Piano Proficiency

All music majors are required to pass a proficiency examination in piano by the end of their sophomore year. See second year review, page 84. General music and music business majors are required to pass level I proficiency. Music education majors are required to pass at level II.

- 1) Every music major must be continuously enrolled in piano until the piano proficiency examination is passed.
- 2) Preparation for the piano proficiency exam should not be made through private lessons until after the piano classes are completed.
- 3)
 - a. The level I exam can be completed by passing MUA 107 the second in the class piano sequence, with a grade of "B" or better. The student need not appear before the entire faculty board.
 - b. Students who enter the department with some piano skills may elect to test out of MUA 107 by passing a version of the level I proficiency.
 - c. Preparation for a level II exam should be made by completing two semesters of the class piano sequence (MUA 106, MUA107, and continuing with private piano lessons until proficiency is passed).
- 4) The following guidelines apply to the class piano and keyboard harmony sequence:
 - a. If a student receives an A or B for the semester, he or she may go on to the next course. If the grade is B, the class syllabus must be completed before beginning the next.
 - b. If the student receives C, D, or F, the course must be repeated.
- 5) Details more specific than the lists above are available from the piano instructors and should be followed in preparing for the examination.
- 6) Failure to pass the examination by the end of the sophomore year puts doubt on the student's ability to complete the degree successfully and to succeed in a musical career. Students who do not pass by that time will be placed on probation for one semester.

Voice Proficiency

Students majoring in music education must pass a voice proficiency examination by the end of their junior year.

Recitals and Attendance

The BS in music education requires the presentation of a senior recital. Students in this program should check with their advisor upon registration to learn the specific requirements.

All music majors and minors are required to attend recitals and concerts on campus. Such attendance is essential to musical and personal growth, and is an important part of one's musical education.

Second Year Review

During the spring semester of the sophomore year as a music major, or after the completion of 43 credit hours of college work, the student will be evaluated by the faculty of the music department on the basis of progress in five areas: academic studies (music literature, theory, and aural skills; business and accounting courses for music business majors), piano skills (completion of piano proficiency), performance skills (ensemble as well as private and class lessons), interpersonal skills, and vocal skills (music education majors). On the basis of this evaluation, the student may be advised to continue or to consider a different major. Results of the evaluation will be discussed in a conference with the student's academic advisor.

Definitions of Terms

Board: a committee, consisting of members of the music faculty, that sits at the end of each semester to hear and evaluate the progress of all music majors taking private lessons.

Concentration: the primary applied music study of students majoring in music education, music business, or music (general).

Ensemble: a performing group sponsored by the music department, and conducted or coached by a member of the music faculty: MUS 212, MUS 213, MUS 214, MUS 215, MUS 216, and MUS 218.

Music Education Major • BS – Program requirements 94 credit hours

Fourteen credit hours in music theory and aural skills (MUS 108, MUS 109, MUS 128, MUS 129, MUS 208, MUS 209, MUS 228, MUS 229)

Nine credit hours in music history and literature (MUS 310, MUS 311, MUS 370)

Four credit hours in conducting (MUS 231, MUS 232, MUS 334, MUS 335)

Six credit hours in school music methods (MUS 350, MUS 351)

Six credit hours in class lessons (MUA 153, MUA 154, MUA 155, MUA 156, MUA 157, MUA 193).

Ten credit hours in ensembles (eight in large ensembles, MUS 212, MUS 213, MUS 215; two in small ensembles, MUS 214, MUS 216, MUS 218)

Three credit hours in Introduction to Acoustics (PHY 160)

Thirteen credit hours in studio lessons in the instrument of concentration

One hour in senior recital

Piano proficiency, Level II

Total: 64 credit hours in music; three in acoustics; 26 credit hours in Professional education and 43 in core requirements not included in the major. Total credit hours: 133-136.

Additional proficiency and program requirements:

Passing piano proficiency examination (level II) by the end of the sophomore year, and a voice proficiency test by end of junior year. Prerequisite for student teaching.

- Participation in at least one ensemble each semester.
- Performance in one or more student recitals, and before the board, each semester.
- Prescribed attendance at recitals and concerts on campus.
- Senior recital: presentation during senior year, of a solo half-recital (30 minutes) of works approved by the music faculty.
- Organ majors must study piano at least one year or pass a diagnostic test in piano and receive special recommendation of the organ instructor.

Suggestions: Students entering with any academic deficiencies as defined on page 203 will need additional time. For most majors at least one summer session is recommended to complete the degree within four years.

Music Business Major • BA – Program requirements 79 credit hours

Purpose: preparation to work in music wholesaling and retailing, personal and concert management, etc.

Eleven credit hours in music theory and aural skills (MUS 108, MUS 109, MUS 128, MUS 129, MUS 208 or MUS 209, MUS 228 or MUS 229)

Six credit hours in music history and literature (MUS 310, MUS 311)

Ten credit hours in ensembles (eight in large ensembles, MUS 212, MUS 213, MUS 215; two in small ensembles, MUS 214, MUS 216, MUS 218)

Three credit hours in Introduction to Acoustics (PHY 160)

Eight credit hours in applied music lessons (two of which may be class lessons)

Piano proficiency, level I (normally one to two credit hours)

Eighteen credit hours of business (BUS 110, BUS 241, BUS 310, BUS 311, BUS 320, BUS 417)

Nine credit hours of Accounting and Economics (ACC 151, ECO 211, and either ACC 152 or ECO 212)

Three credit hours of public relations (COM 205)

Nine credit hours in music business (MUS 301, MUS 493, MUS 495)

Total: 37 in music, three in acoustics, 27 in BUS/ACC/ECO; three in public relations, 9 in music business, and 40 in core requirements not included in the major. Total credit hours 119.

There are additional proficiency and program requirements:

- Passing piano proficiency level I. MUS 106, MUS 107 are provided to help students meet this goal.
- Passing two credit hours in class lessons in instruments (MUA 153, MUA 154, MUA 155, MUA 156, MUA 157, MUA 193), which may be counted toward the applied music requirement.
- Passing participation in at least one ensemble each semester (as explained above).
- Passing performance in at least one student recital per semester, and before the board each semester, while studying privately.
- Passing prescribed attendance at recitals and concerts on campus.

Music Major • BA – Program requirements 60-64 credit hours

Purpose: This liberal art major is not career-specific; it is for the generalist. With the addition of further options, it is suitable as preparation for graduate study.

Eight credit hours in music theory and aural skills (MUS 108, MUS 109, MUS 128, MUS 129)

Three credit hours in Music History (MUS 310 or MUS 311)

Ten credit hours in ensembles (eight in large ensembles, MUS 212, MUS 213, MUS 215; two in small ensembles, MUS 214, MUS 216, MUS 218)

Three credit hours in Introduction to Acoustics (PHY 160)

Eight credit hours in applied music lessons (two of which may be class lessons)

Ten additional credit hours in music

Piano proficiency level I (normally two credit hours)

An approved minor (such as business or theatre) or a second major.
 Total: 39–43 credit hours in music; three in acoustics; 18 or more in a minor.

Additional performance and proficiency requirements:

- Passing piano proficiency examination at level I.
- Performance in at least one student recital per semester and appearance before the board each semester.
- Prescribed attendance at recitals and concerts on campus.

Program options or tracks:

MUS 208	Music Theory III	2
MUS 209	Music Theory IV	2
MUS 228	Aural Skills III	1
MUS 229	Aural Skills IV	1
MUS 310	Music History I	3
MUS 311	Music History II	3
MUS 231	Fundamentals of Conducting I	1
MUS 232	Fundamentals of Conducting II	1
MUS 370	World and Popular Music	3

Music Minor

Music: 19 credit hours

MUS 108	Music Theory I	2
MUS 109	Music Theory II	2
MUS 128	Aural Skills I	2
MUS 129	Aural Skills II	2
MUS 310	Music History I	3
or MUS 311	Music History II	3
	Applied Music	4
	Ensembles	4
	Attendance at recitals and concerts	

Post Baccalaureate Certification in Music Education K-12

If you already have a bachelor's degree in music and you are seeking certification to teach, follow these steps:

- Send an e-mail with a scanned copy of your transcript to Dr. Adel Aiken at aaiken@geneva.edu, Chair of the Education Department
- Include a brief description of any experience you may have had in music or in working with children or high school students that may be applicable to an education career.

What will happen next?

Dr. Aiken will evaluate your transcript and let you know:

- How many credits you will need to take and what the cost will be.
- Which credits could be taken at a community college or online to save money.
- How long the process would take (may vary from 1-3 years depending on your coursework).

What you need to know:

- You must student teach for an entire semester.
- If your final undergraduate grade point average is below 3.0, it is a state requirement that you will need to achieve at least a 3.0 over the first 12 credits you take toward your certification in order to continue working toward certification.
- It is also a state requirement that you pass a standardized test in the content area you want to teach before you can be certified.

- You may earn teaching certification at Geneva College in any of the areas that are listed under the undergraduate majors in education.
- The courses you would take are undergraduate courses.

Department of Nursing

Nursing Major (BSN)

The Nursing Department offers a 1-2-1 BSN in cooperation with the Community College of Beaver County (CCBC). This program will enable students to earn the Associate in Nursing degree (ADN) from CCBC along with the Bachelor of Science in Nursing (BSN) from Geneva. The program enables students to sit for the national licensure exam (NCLEX-RN). In the 1-2-1 program, students spend their first and fourth years at Geneva earning credits toward the Bachelor's Degree in Nursing. The majority of their second and third years, students will be enrolled in nursing clinical experiences at the Community College of Beaver County (CCBC), accumulating credits for the Associate in Nursing Degree. Students may live on the Geneva campus all four years of the program, and they will make all payments for the nursing program through Geneva College.

The following Geneva courses are required for the 1-2-1 program:

BIO 120	Foundations of Anatomy & Physiology I	4
BIO 121	Foundations of Anatomy & Physiology II	4
CHM 111	General Chemistry	4
NUR 331	Nursing Ethics	
or BIO 331	Biomedical Ethics	
or PHI 112	Ethics	3
BIO 218	Nutrition	3
NUR 310	Course Under Development	3
NUR 320	Course Under Development	3
NUR 330	Course Under Development	3
NUR 410	Course Under Development	3
NUR 420	Course Under Development	3
NUR 430	Course Under Development	2
NUR 490	Nursing Clinical	6

These specific core courses must be completed in order to fulfill the ADN requirements through CCBC.

COM 101	Principles of Communication	3
ENG 101	English Composition	3
PSY 201	Introduction to Psychology	3
SOC 120	Society	3

The following courses are designed to be taken at CCBC to fulfill the requirements of the ADN and BSN degrees:

CIST 100	Introduction to Information Technology	3
PSYC 106	Human Growth & Development	3
BIOL 215	Microbiology	4
NURS 170	Nursing I	7
NURS 171	Nursing II	7
NURS 270	Nursing III	4
NURS 275	Nursing IV	10
NURS 276	Nursing V	10
NURS 278	Community Health Nursing	2
HSCI 202	Pharmacology	3

RN to BSN (33 credits): Anticipated availability Fall 2019

Students with an RN may complete their BSN at Geneva by successfully completing the following coursework:

CHM 111	General Chemistry	4
NUR 331	Nursing Ethics	

or BIO 331	Biomedical Ethics	
or PHI 112	Ethics	3
BIO 218	Nutrition	3
NUR 310	Course Under Development	3
NUR 320	Course Under Development	3
NUR 330	Course Under Development	3
NUR 410	Course Under Development	3
NUR 420	Course Under Development	3
NUR 430	Course Under Development	2
NUR 490	Nursing Clinical	6

Department of Psychology and Social Services

The department offers four undergraduate majors—psychology, biopsychology, criminal justice, and human services.

Faculty members of the department approach the study and practice of psychology, biopsychology, criminal justice and human services from a Christian perspective. They mentor and encourage students in their academic and Christian spiritual development. Faculty members are affiliated with professional organizations including the American Psychological Association, the Christian Association for Psychological Studies, the American Psychological Society, the National Organization for Human Service Education, and the National Council on Family Relations.

Psychology Major • BS - Program requirements 44 credit hours

Psychology, the study of behavior and thinking, provides a strong basis for many careers. Psychology graduates are well prepared for graduate school in a specialized field of psychology such as clinical, counseling, industrial, or experimental psychology. Psychology graduates also find themselves prepared for graduate study in many other fields such as business, ministry, theology, or medical fields. Those with a bachelor's degree in psychology who do not wish to pursue graduate study are eligible for a wide array of jobs working with people. The understanding of human behavior, personality, emotions, and groups, is an exciting discipline with broad application to almost all areas of life. Honors students are invited to participate in Psi Chi, the national psychology honorary society.

The Bachelor of Science in psychology incorporates the broad study of psychology and methods of inquiry within the context of a Christian worldview. Students develop a general knowledge base that includes human development, social psychology, statistics, research methods, abnormal psychology, personality, biological bases, and learning and social cognition psychology. A doctoral degree in psychology is required for those who wish to become licensed psychologists, professors of psychology, or research scientists and a master's degree is required for those who wish to be licensed counselors.

The psychology major provides comprehensive understanding of both psychological science (research methods and findings) as well as psychological practice (applying research results to solve human problems). Hence, it includes courses that incorporate a research and writing emphasis, as well as courses that examine practice and applications of psychological research. All students participate in an orientation to the field of psychology course at the beginning of the program and a seminar during the senior year, which serves as a capstone course oriented toward fostering students' professional development and planning. In all courses, students learn to evaluate and apply psychology from a Christian perspective.

Take each of the following PSY courses (44 credit hours):

HSV 202	Human Diversity	3
PSY 201	Introduction to Psychology	3
PSY 202	Biological Bases of Behavior	3
PSY 205	Psychological Statistics	
or MAT 105	Elementary Statistical Methods	3
PSY 206	Orientation to Psychology	2
PSY 207	Research Methods in Psychology	3
PSY 214	SPSS and Statistical Analysis	1
PSY 250	Life Span Development	3
PSY 313	Abnormal Psychology	3
PSY 328	Learning and Cognition	4
PSY 404	Personality Psychology	3
PSY 408	Social Psychology	3
PSY 411	History and Theories of Psychology	3
PSY 425	Senior Seminar in Psychology	1

Take one of the following PSY courses (three credit hours):

PSY 251	Child Development	3
PSY 252	Adolescent Development	3
PSY 253	Adulthood and Aging	3

Take one of the following PSY courses (three credit hours):

PSY 254	Marriage and Family	3
PSY 260	Tests and Measures	3
PSY 350	International Psychology	3
PSY 405	Psychology of Gender	3
PSY 406	Psychology of Prejudice	3

Psychology Minor

Any 18 credit hours from the list below:

HSV 202	Human Diversity	3
PSY 201	Introduction to Psychology	3
PSY 202	Biological Bases of Behavior	3
PSY 205	Psychological Statistics	3
or MAT 105	Elementary Statistical Methods	3
PSY 206	Orientation to Psychology	2
PSY 207	Research Methods in Psychology	3
PSY 250	Life Span Development	3
PSY251	Child Development	3
PSY 252	Adolescent Development	3
PSY 253	Adulthood and Aging	3
PSY 254	Marriage and Family	3
PSY 260	Tests and Measures	3
PSY 313	Abnormal Psychology	3
PSY 328	Learning and Cognition	4
PSY 404	Personality Psychology	3
PSY 405	Psychology of Gender	3
PSY 406	Psychology of Prejudice	3
PSY 408	Social Psychology	3
PSY 411	History and Theories of Psychology	3
PSY 423	Psychology Research Literature	1
and PSY 424	Applied Psychological Research	2
PSY 425	Senior Seminar in Psychology	1

*upon anticipated approval of Faculty Senate in August.

Biopsychology Major • BS-Program requirements 60 hours

Recent advances in the understanding of brain function and how it relates to behavior have led to the emergence, development and rapid expansion of a new interdisciplinary scientific field of Biopsychology. This area of study explores the relationship between physiological and psychological systems. A major objective for this discipline is to provide a deeper understanding of how the physiology of the body functions in behavior, and also how defects in such function affect behavior. Recent advances in neuroscience and psychology have led to materialistic and scientific explanations of the mind, which in turn, influence fields of ethics, anthropology, theology, and philosophy. For example, a 2009 Wall Street Journal op-ed article by William McGurn expressed concern about a scientific view of human nature for its ability to account for love, morality, and human dignity. He points out that those who claim the mind can be reduced to electrochemical processes rarely live out the implications of that view. As Christians we should join in on this type of conversation and bring the metaphysical reality of God to bear on these types of issues. Although we must avoid the exclusivity of the current pervasive reductionistic philosophy in the study of biology and behavior, it is nevertheless clear that some behaviors and cognitive functions can be localized to specific physiological systems.

Our goal for the Biopsychology degree program is to structure a curriculum of courses that provide training in this new field as well as provide tools for engaging this area with Christian critique and discernment. The curriculum includes Psychology courses having a developmental and biological approach, along with Biology courses dealing with humans and/or animals at the genetic and molecular levels. Cognates in other disciplines are also to be required (e.g., Bible, Chemistry, Physics, and Philosophy).

Take each of the following courses:

BIO 112	Introduction to Cellular Biology	4
BIO 225	Human Anatomy and Physiology I	4
BIO 319	Genetics	4
BIO 326	Human Anatomy and Physiology II	4
BIO 331	Biomedical Ethics	3
BIO 422	Neuroscience	4
CHM 111	General College Chemistry	4
CHM 221	Organic Chemistry I	4
PHI 110	The Philosophical Conversation	3
PSY 201	Introduction to Psychology	3
PSY 202	Biological Bases	3
PSY 205	Psychological Statistics	3
PSY 206	Orientation to Psychology	2
PSY 207	Research Methods in Psychology	3
PSY 214	SPSS Tutorial	1
PSY 250	Life Span Development	3
PSY 313	Abnormal Psychology	3
PSY 328	Learning and Cognition	4
PSY 425	Senior Seminar in Psychology	1

Human Services Major · BS - Program requirements 50 credit hours

The human services field uses an interdisciplinary knowledge base, which includes, but is not limited to, psychology, sociology, anthropology to remediate and to assist individuals, families, groups, and communities to function as effectively as possible, by providing direct services, improvement of service accessibility, accountability, and coordination, as well as through prevention strategies. Graduates with a major in human services are prepared to work with different populations such as children, the indigent, the distressed, the elderly, the homeless, the abused or victimized, and the physically or mentally handicapped or ill and also are prepared to work in various human service settings (e.g., church or faith-based programs, the public welfare system, community development, public housing, children/youth/family services, residential treatment facilities, hospitals, prisons). Graduates also find themselves prepared for graduate studies in many fields such as human services, social work, counseling, psychology, sociology, criminal justice, or ministry.

The interdisciplinary approach of the human services affords students the opportunity to explore human services, practice, and theory from a variety of academic perspectives. Core courses in psychology prepare the students to comprehend normal human development. Human services courses stress a basic understanding of the history of social welfare, issues of diverse population groups, social systems, and the role of various service agencies in meeting human needs. Methodology courses promote understanding of the experimental methods employed in studying human behavior and systems. Internship and skills-based course work assure that students will possess the requisite generalist practice competencies needed to perform successfully in human services agencies. During the senior year, students complete semester-long internships in public, private, church, and government human services agencies.

Take each of the following HSV courses (35 credit hours):

HSV 201	Introduction to Human Services	3
HSV 202	Human Diversity	3
HSV 215	Human Services: Foundations and Calling	2
HSV 230	The Family System in Context	3
HSV 301	Social Welfare Agencies and Policies	3
HSV 303	Agency Field Experience	3
HSV 305	Counseling and Helping Skills I	3
HSV 307	Generalist Practice, Model, and Theory	3
HSV 401*	Senior Seminar	3
HSV 405	Special Populations	3
HSV 450*	Field Experience	6

*HSV 401 and HSV 450 are taken concurrently. Admission is only by application and eligibility. Several prerequisites and an extensive time commitment make it essential to plan carefully for these courses.

Take one of the following statistics courses (three credit hours):

MAT 105	Elementary Statistical Methods	3
---------	--------------------------------	---

PSY 205	Psychological Statistics	3
Take each of the following PSY courses (9 credit hours):		
PSY 201	Introduction to Psychology	3
PSY 250	Life Span Development	3
PSY 313	Abnormal Psychology	3
Take the following SOC course (3 credit hours):		
SOC 120	Society	3
Optional course (taken with HSV 303):		
HSV 302	Program Evaluation for Human Services	1

Human Services Minor

18 credit hours

Take each of the following HSV courses (15 credit hours):

HSV 201	Introduction to Human Services	3
HSV 202	Human Diversity	3
HSV 230	The Family System in Context	3
HSV 301	Social Welfare Agencies and Policies	3
HSV 307	Generalist Practice, Model, and Theory	3

Take one of the following courses (three credit hours):

Any psychology (PSY) or human services (HSV) course	3
---	---

HSV 303, 401, and 450 are for majors only.

HSV 305 is for HSV, PSY, MIN, BIB, and BIOPSY majors only.

Criminal Justice Major · BS – Program Requirements 53 hours

The interdisciplinary major in Criminal Justice is intended to help students develop the knowledge and background necessary to understand the origins of criminal behavior, the consequences of crime for society, and how societies seek to respond to crime. It draws from coursework in criminal justice, psychology, sociology, political science and will help students probe the deeper questions of how we determine what behaviors should be criminalized, what caused those behaviors, and how societies respond to those behaviors. It also seeks to help the student evaluate criminal justice systems from a Christian perspective to prepare students to serve God through compassionate service in this field. During the senior year, students will complete a semester-long field experience to further prepare for work in a variety of criminal justice fields.

Take 9 credits from the following Background and Framing Courses

HSV 202	Human Diversity	3
POL 151	American Government	
or POL 254	State and Local Government	3
POL 360	Public Administration	3

Take the following 14 credits from Understanding Causes of Criminality:

CRJ 210	Crime, Law, and Society	3
CRJ 215	Career Pathways in Criminal Justice	2
HSV 405	Community Intervention and Special Populations	3
SOC 242	Criminology	3
PSY 313	Abnormal Psychology	3

Take the following 24 credits in Understanding our Response to Crime

CRJ 230	Juvenile Justice	3
CRJ 260	Criminal Law	3
CRJ 310	Criminal Justice Systems	3
CRJ 345	Probation and Parole	3
CRJ 360	Criminal Investigations and Procedures	3
SOC 249	Restorative Justice	3
CRJ 493	Internship in Criminal Justice	3
CRJ 450	Senior Seminar and Professional Ethics	3

Take 9 credits of Criminal Justice electives from the following:

CRJ 220	Victimology	1
CRJ 250	Homeland Security	3
CRJ 315	Women and the Criminal Justice System	3
CSC 311	Cyberethics and Cyber Law	2
PSY 250	Lifespan Development	3
PSY 251	Child Development	3
PSY 252	Adolescent Development	3
HSV 230	The Family System in Context	3
POL 331	Foreign and National Security	3
POL 342	Global Terrorism	3
SOC 310	Deviance and Marginalization	3

Criminal Justice Minor

The interdisciplinary minor in Crime, Law, and Society is intended to help students develop the knowledge and background necessary to understand the origins of criminal behavior, the consequences of crime for society, and how societies seek to respond to crime. The minor is not intended to provide students with technical skills used in law enforcement. Rather, the minor seeks to help students probe the deeper questions of how we determine what behaviors should be criminalized, what caused those behaviors, and how societies respond to those behaviors. It also seeks to help the student evaluate criminal justice systems from a Christian perspective. This minor should be a good complement to majors in a variety of fields, especially those in the social sciences. It should also enhance the student's employment opportunities in the field of criminal justice.

18 credit hours

CRJ 210	Crime, Law, and Society	3
SOC 242	Criminology	3

SSC 310	Criminal Justice: Theories and Systems	3
POL 360	Public Administration	3
HSV 202	Human Diversity	3
PSY 313	Abnormal Psychology	3
SOC 310	Deviance and Marginalization	3
SOC 249	Restorative Justice	3
CRJ 230	Juvenile Justice	3
CRJ 260	Criminal Law	3
CRJ 345	Probation and Parole	3
CRJ 360	Criminal Investigation and Procedures	3
CRJ 330	Special Populations in Criminal Justice	3
POL 151	American Government	
or POL 254	State and Local Government	3

*upon anticipated approval of Faculty Senate August 2018.

Pre-Professional Programs

Pre-Law Program

To be admitted to a law school accredited by the American Bar Association, and eventually to the practice of law, the student generally must receive a bachelor's degree from an accredited college or university and an acceptable score on the Law School Admissions Test (LSAT). Most law schools prefer that students not make legal studies the focus of their undergraduate work. For this reason, Geneva College does not offer a pre-law major.

Geneva's pre-law committee provides counsel and advice to students interested in careers in the legal professions. The committee seeks to assist students in assessing their interests in the legal profession, in thinking about the role Christians should play in the legal profession, in preparing for law school and for the LSAT, and in the law school application process. Students with an interest in the legal professions are urged to identify themselves to the committee through the pre-law advisor, Dr. Frederick Neikirk.

While no particular major is necessary to gain admission to law school, law schools are looking for students who have good analytic and communication skills and a solid background in history and the social sciences. These attributes are also necessary for success in the practice of law. Many of these skills and much of this background knowledge can be attained through the core curriculum of the college. For students who want to pursue these in more depth Geneva offers a minor in pre-law studies. This minor is designed to build on the skills and understandings developed in the core, to supplement the student's major, and to help the student gain some understanding of the study and practice of law.

Pre-Law Studies Minor

The pre-law studies minor requires at least six courses of which two must be chosen from the skill-oriented courses, two from the background courses, and one from the law-related courses. The sixth course may come from any of the three areas. No more than one course in this minor may be used to fulfill the requirements of any major and no more than one may be used to fulfill the requirements of the core curriculum. Students should see the pre-law advisor for more information on this minor and for assistance in planning which combination of courses will best meet their needs and interests.

Approved Skill-Oriented courses:

ACC 151	Principles of Accounting I	3
ACC 152	Accounting II (recommended, may not be used in the minor)	3
COM 310	Advanced Public Speaking	3
COM 335	Argumentation and Debate	3
ENG 113	Researched Writing	
or ENG 205	Advanced Composition	3
PHI 100	Critical Thinking	3

Approved Background courses:

ECO 100	Fundamentals of Economics	
or ECO 211	Micro Economics	
or ECO 212	Macro Economics	3
HIS 250	US I: Colonial	
or HIS 251	US II: 19 th Century	
or HIS 252	US III: 20 th Century	
or HIS 381	History of Britain	3

PHI 112	Ethics	3
POL 151	American Government	
or POL 254	State and Local Government	
or POL 361	American Public Policy	3
PSY 201	Introduction to Psychology	
SOC 120	Society	
or SOC 310	Deviance and Marginalization.	3

Approved Law Related courses:

BUS 311	Business Law	3
POL 305	Constitutional Law	3

Plus approved internship, special topics course, or off-campus course which introduces the student to some aspect of the law or legal profession. Students must see the pre-law advisor to get permission to include such a course or internship in the minor.

Pre-Medical Program

The Geneva College curriculum provides an opportunity within a liberal arts context to fulfill the requirements for admission to allopathic or osteopathic medical schools and to professional schools of dental, veterinary, and podiatric medicine as well as optometry. The minimum entrance requirements for most of these schools can be met by completing the following courses: BIO 112, BIO 225, BIO 319, BIO 326, CHM 111, CHM 221, CHM 222, PHY 201, PHY 202 (or PHY 181, PHY 182), and six credit hours of English writing. Successful completion of these courses will also give the student the minimum preparation for the national admissions exams such as the MCAT, DAT, VAT, GRE, or OAT. Therefore, it is advisable that the student has completed or be enrolled in these courses by the spring of the junior year when these tests are ordinarily taken.

The new MCAT, being offered for the first time in 2015, places greater emphasis on psychology and sociology. To be prepared for this exam, a pre-medical student should take PSY 201 (Introduction to Psychology), PSY 205 (Psychological Statistics), PSY 207 (Research Methods in Psychology), and PSY 408 (Social Psychology) as well as SOC 120 (Society) and SOC 225 (Sociological Investigation).

In addition, to provide the best preparation for the medical professions, as many as possible of the following courses should be completed: BIO 302 Embryology, BIO 305 Microbiology, BIO 315 Immunology, BIO 317 Biochemistry, BIO 331 Biomedical Ethics, BIO 405 Molecular Biology, and BIO 422 Neuroscience.

Pre-medical students should complete the requirements for a major within an academic discipline. The most common majors of students preparing for a career in medicine are biology, chemistry, and psychology, although most other majors are acceptable if the student has an excellent record of achievement. See page 34 for biology major requirements and page 44 for chemistry major requirements.

Suggested electives, occasionally recommended by medical schools: MAT 120 Precalculus, MAT 161 Calculus I, PSY 313 Abnormal Psychology, SOC 221 Social Groups and Institutions, CHM 318 Biochemistry II.

Undergraduate Course Descriptions

This listing of each course includes its formal name, the number of credit hours earned when it is completed successfully, a general description of the content, the frequency with which it is usually offered, and prerequisites that are usually required. Note that special circumstances may lead to the course being offered more frequently than scheduled and, on some occasions, the college may choose not to offer a course in the expected semester. Students should consult the course listing printed each semester prior to registration and, if difficulties in scheduling occur, should consult their academic advisor. In all cases, the content of each course will be indicated more fully by the course syllabus that will be available from the instructor at the beginning of the course.

The following courses may be repeated, but only eight credit hours will count towards a bachelor's degree and four credit hours maximum for an associate degree: COM 201, 202, 203, 204; EDU 220; ENG 221, 222, 223; HMN 491; MUS 212, 213, 214, 215, 216, 218. (See limitations on page 15.)

ACCOUNTING • ACC

ACC 151, 152 Principles of Accounting I, II (3, 3) is a two semester introduction to accounting. Accounting application is critical to this course as the preparation of trial balances, adjusting and other journal entries, and financial statements are the focus. Financial and managerial decision making techniques are discussed and applied in detail during the second semester. ACC 151: Every semester. Prerequisite for ACC 152: ACC 151.

ACC 256 Managerial Accounting (3) Cost accounting with a managerial emphasis including cost-volume-profit relationships; job costing, ABC costing, master budgets, flexible budgets and variance analysis, cost behavior, decision-making and relevant information, cost allocation, and process costing. Every semester. Prerequisites: ACC 151.

ACC 261, 262 Intermediate Accounting I, II (3, 3) is a two semester intermediate accounting course where financial statement components are examined in detail and more complex financial concepts such as bond accounting, deferred income taxes, pensions, leases, and securities are studied. ACC 261: Fall semester. ACC 262: Spring semester. Prerequisite for ACC 261: ACC 151; Prerequisite for ACC 262: ACC 261

ACC 350 Accounting Systems and Application (3) Using QuickBooks to perform and understand accounting transactions, controls, and procedures in a simulation-type setting. Fall Semester. Prerequisite: ACC 151.

ACC 357 Taxation (3) Underlying principles and concepts of income taxation as they relate to the preparation of federal income tax returns for individuals. Fall semester. Prerequisite: ACC 151.

ACC 358 Advanced Taxation (3) In-depth consideration of corporate income taxation, including the principles of estate and gift taxation. On demand. Prerequisite: ACC 357.

ACC 363 Advanced Accounting (3) Covers advanced topics such as purchase accounting, consolidations, partnership, governmental and not-for-profit accounting. Fall semester. Prerequisite: ACC 151.

ACC 365 Accounting Special Topics (3) are offered to fulfill core accounting requirements. Potential topics include International Accounting, Forensic Accounting, Advanced Managerial Accounting, Governmental and Not-for Profit Accounting, etc. Spring semester. Prerequisites: ACC 261.

ACC 457 Auditing (3) examines the entire audit process from a professional point of view. The application of course materials are critical to understanding the preliminary, fieldwork, and review stages of an audit and crucial to the comprehension of risk assessment and management communications. Spring semester. Prerequisite: ACC 261 .

ACC 199, 491, 493, 494, 495 (see pages 14-15)

BIBLICAL STUDIES • BIB

BIB 112 Biblical Introduction I—Creation to Post-Exilic Period (3) Introduction to the history of salvation as expressed in the Old Testament, including historical and theological study focused on Israel as the covenant people of God, with special attention on the relationship of the Old Testament to Jesus Christ. Every semester.

BIB 113 Biblical Introduction II—Intertestamental Period through Apostolic Age (3) The political, social, and religious background and setting of the New Testament; the Gospels as witness to Jesus Christ; and the development of Christianity in the first century. Every semester.

BIB 151 Introduction to Biblical Studies (honors) (3) An introductory Old Testament Bible course for students with a strong Bible background. Prerequisite: Invitation, based on pretest performance. Every Fall.

BIB 152 Introduction to Biblical Studies (honors) (3) An introductory New Testament Bible course for students with a strong Bible background. Prerequisite: Invitation, based on pretest performance. Every Spring.

BIB 200 How to Read the Bible (3) This course provides a general overview to the principles of interpretation from a redemptive historical perspective. Every semester.

BIB 300 Biblical Worldview: Testing the Spirits of Our Age (3) Students will expand their understanding of the concept of worldview generally and the Reformed worldview specifically by identifying and analyzing both hidden and competing worldviews. Prerequisites: BIB 112, BIB 113. Open only to juniors and seniors. Every semester.

BIB 301 Old Testament Prophecy (3) Theological and ethical content, with attention to the original life-settings and contemporary relevance of the prophetic literature. Repeatable. Prerequisites: BIB 112/BIB 113 or BIB 151/152; BIB 200 or permission of the instructor. Offered periodically.

BIB 302 Wisdom Literature (3) The wisdom tradition in Israel and the ancient Near East, with special emphasis on Job, Proverbs, and Ecclesiastes. Approved HUM 304 option. Prerequisites: BIB 112, BIB 113, and BIB 200 or permission of the instructor. Every other Fall.

BIB 303 Old Testament Studies (3) Variable topics in the Old Testament. Gives opportunity to study the book of Psalms or a more in-depth examination of some of the Pentateuch or history books. Repeatable. Prerequisites: BIB 112/113 or BIB 151/152; BIB 200 or permission of the instructor. Offered periodically.

BIB 304 Psalms (3) This course explores the biblical book of Psalms under four headings: its ancient Israelite origins, its witness to Israel's Old Testament theology, its use in the New Testament, and its use in the Christian prayer and worship. Approved HUM 304 option. Prerequisites: BIB 112/113 or BIB 151/152; BIB 200; or permission of instructor. Every other Spring.

BIB 305 Isaiah (3) A study of the Old Testament Book of Isaiah, with special attention toward exploring its role in the unfolding of redemptive-history, and how its message and imagery contains key themes that were recognized by the New Testament writers as having been ultimately fulfilled in the Person and Work of Jesus Christ. Approved HUM 304 option. Prerequisites: BIB 112/113 or BIB 151/152; BIB 200. Offered periodically.

BIB 306 Daniel (3) An introduction to Biblical prophecy and the book of Daniel. Prerequisites: BIB 112/113 or BIB 151/152; BIB 200; or permission of instructor. Every other Fall.

BIB 307 Judah's Exile and Restoration (3) A study of Judean history and prophecy from the Babylonian captivity to the return from exile. Approved HUM 304 option. Prerequisites: BIB 112/113 or BIB 151/152; BIB 200; or permission of instructor.

BIB 308 Luke (3) A study of the Gospel of Luke. Prerequisites: BIB 112/113 or BIB 151/152; BIB 200. Fall semester.

BIB 309 Revelation (3) A study of the book of Revelation. Prerequisites: BIB 112/113 or BIB 151/152; BIB 200. Spring semester, even years.

BIB 310 Pauline Epistles (3) In-depth study of various epistles. Repeatable. Prerequisites: BIB 112, BIB 113, and BIB 200 or permission of the instructor.

BIB 311 Matthew (3) A study of the Gospel of Matthew. Prerequisites: BIB 112/113 or BIB 151/152; BIB 200. Fall semester.

BIB 313 John (3) A study of the Gospel of John. Prerequisites: BIB 112/113 or BIB 151/152; BIB 200. Spring semester, odd years.

BIB 314 New Testament Studies (3) Study various New Testament books not covered in other courses. Repeatable. Prerequisites: BIB 112, BIB 113, and BIB 200 or permission of the instructor.

BIB 315 Acts (3) A study of the Book of Acts. Prerequisites: BIB 112/113 or BIB 151/152; BIB 200. Fall semester.

BIB 316 Romans (3) An in-depth study of the Book of Romans. Prerequisites: BIB 112/113 or BIB 151/152; BIB 200. Fall semester, even years.

BIB 317 Ephesians/Pastoral Epistles (3) A study of Ephesians, its themes and doctrines. Prerequisites: BIB 112/BIB 113, or BIB 151/152; BIB 200. Spring semester.

BIB 318 Hebrews (3) Studies the setting and theological themes of this major New Testament epistle. Prerequisites: BIB 112/113 or BIB 151/152; BIB 200. Spring semester, even years.

BIB 320 Special Topics in Theology (3) Variable theological topics. Repeatable.

BIB 322 Calvin's Institutes (3) A survey of the theological concepts in John Calvin's *Institutes of Christian Religion* with an introduction to the life and ministry of John Calvin. Prerequisites: BIB 112, BIB 113 and BIB 200. Every Spring.

BIB 324 Introduction to Reformed Tradition (3) An introduction to the history and theology of the Reformation, especially as seen in the Westminster Confession of Faith. Approved HUM 304 option. Prerequisites: BIB 112/113 or BIB 151/152; BIB 200; or permission of instructor.

BIB 325 Biblical Theology (3) Dominant motifs of Biblical literature, emphasizing Biblical texts, with some review of theological literature and methods. Prerequisites: BIB 112 and BIB 113. Juniors and seniors only.

BIB 340 Inter-Testamental Literature (3) Examines the history, literature, and religious developments of the Jewish people between the close of the Old Testament and the time of Jesus. Prerequisites: BIB 112/113 or BIB 151/152; BIB 200. Fall semester.

BIB 341 Archaeology & Geography of Israel (3) This course, team taught by faculty in the Bible Department, studies archeology in general, specific archeological sites in Israel, and the historical geography of Israel. This course culminates in a trip to Israel over Christmas Break. Students unable to participate in the travel component of the course may write a research paper. Permission only. Prerequisites: BIB 112, BIB 113. Fall semester, alternate years. Society Group C option.

BIB 350 History of the Christian Church (3) Origin and spread of Christianity from the time of the apostles to the end of the 1900s, with special emphasis on doctrinal formulations. Prerequisite: HUM 203.

BIB 351 Church History I: Patristic and Medieval (3) A study of the origin and development of Christianity from the time of the Apostles to the eve of the Protestant Reformation, with special emphasis upon doctrinal formulations. Every fourth or fifth semester, in sequence with BIB 352, Church History II. Prerequisites: BIB 112/113 or BIB 151/152; plus HUM 203.

BIB 352 Church History II: Reformation and Modern (3) A study of the history and development of Christianity from the time of the Protestant Reformation to the present, with special emphasis upon doctrinal formulations. Every fourth or fifth semester, in sequence after BIB 351, Church History I. Prerequisites: BIB 112/113 or BIB 151/152; plus HUM 203.

BIB 353 Covenant History and Theology (Scotland) (3) Examines the origins of Presbyterians and other non-conformists in Scotland from the 16th – 17th centuries up to the present day. Students will read primary and secondary sources that describe the doctrinal, ecclesiastical and political views of the Covenanters, why they stayed separate from the state church even when Scotland became Presbyterian, and how their legacy has led to the modern day Reformed Presbyterian experience in Scotland. Prerequisites: BIB 112/113 or BIB 151/152.

BIB 356 History of Music in the Christian Church (3) This course is a survey of Western church music from its roots in pre-exilic Judaism to the modern era. It is structured to provide an introduction to the theological issues, musical developments, and various musical personalities connected to the Western church. While particular emphasis will be given to Reformed Presbyterian worship practice, we will also examine the practices of other Protestant and Roman Catholic traditions. Offered only in Scotland. Available every semester (if requested by student.)

BIB 199, 491, 493, 495, 499 (See pages 14-15)

BIOLOGY • BIO

BIO 101 Topics in Biology (3) An in-depth examination of one biological topic that varies from semester to semester. Fulfills part of the natural science requirement for graduation but does not give credit toward a major in biology. Repeatable. Every semester.

BIO 107 Foundations of Biology (4) Intended to provide students with a solid understanding of foundational concepts in physiology, genetics, and ecology necessary for success in subsequent biology courses. Three hours lecture and three hours lab per week. Fall semester. Prerequisite: biology major.

BIO 112 Introduction to Cellular Biology (4) An introduction to the biological principles that operate at the cellular and molecular levels of organization. Three hours lecture and three hours laboratory per week. Spring semester. Prerequisites: BIO 107 or permission of the instructor.

BIO 120 Fundamental Human Anatomy & Physiology I (4) This course covers the basic anatomy and physiology of the integumentary, skeletal, muscular, nervous and endocrine systems of the human body, in addition to chemistry, cell biology and histology fundamental to the nursing profession. The laboratory portion of the course illustrates the same background information and organ systems. This course is designed for nursing students and does not fulfill any requirement for any major or minor within the Biology department. Fall semester.

BIO 121 Fundamental Human Anatomy & Physiology II (4) This course covers the basic anatomy and physiology of the circulatory, lymphatic, respiratory, digestive, urinary and reproductive systems of the human body. The laboratory portion of the course illustrates the same organ systems. This course is designed for nursing students and does not fulfill any requirement for any major or minor within the Biology department. Spring semester.

BIO 210 ID and Evolution (3) This course explores the debate between the proponents of Intelligent Design (ID) and the defenders of Darwinian Evolution, by reading and discussing compelling publications written by each camp. Fall semester, even years. Fulfills part of the natural science requirement for graduation but does not give credit toward a major in biology.

BIO 218 Introduction to Nutrition (3) An introduction to the major types of nutrients needed by humans, their utilization by the body, the consequences of their deficiencies, and their sources. Nutritional principles are applied through the life cycle. Spring semester. Fulfills part of the natural science requirement for graduation but does not give credit toward a major in biology.

BIO 225 Human Anatomy and Physiology I (4) An introduction to gross anatomy and microscopic anatomy, as well as the function and regulation of the organ systems of the human body. Both systemic and regional approaches to learning anatomy will be used. Fall semester. Prerequisite: BIO 112 or permission of the instructor.

BIO 302 Embryology (4) Analysis of all stages of embryonic development, touching on underlying mechanisms. Focus is on mammalian development in lectures; fish, chick and human embryonic development in lab. Ethical issues involving human embryos are also discussed. Fall semester, odd years. Prerequisite: BIO 225 or permission of the instructor.

BIO 305 Microbiology (4) An introduction to the various types of microorganisms and representative human microbial infections. Also includes principles of infectious disease and host responses to infection. Three hours lecture and three hours laboratory per week. Spring semester. Prerequisite: BIO 112.

BIO 306 General Ecology (4) Principles describing the interactions of organisms with their living and non-living surroundings. Laboratories introduce field techniques. Three hours lecture and recitation; and three hours laboratory per week. Spring semester, odd years. Prerequisite: BIO 107 or EVS 111.

BIO 310 Botany (4) Introduction to plant structure, function, and diversity. Three hours lecture and three hours laboratory per week. Fall semester, even years. Prerequisite: BIO 112 or permission of the instructor.

BIO 315 Immunology (3) A thorough study of the activities, interactions, and regulation of the immune system and its role in areas such as infections, transplants, tumors, and auto-immunity. Fall semester, even years. Prerequisite: BIO 225 or permission of the instructor.

BIO 316 Virology (3) A study of the general mechanisms by which viruses cause disease followed by a survey of the major groups of human viruses and the infections and tumors which they cause. The diagnosis and treatment of viral infections are also discussed. Spring semester, even years. Prerequisite: BIO 319.

BIO 317 Biochemistry (3) An introduction to biochemistry focusing on the structure and function of biological compounds. Topics include cellular structure, biological reactions, compartmentalization, water, amino acids, proteins, enzymes, carbohydrates, and membranes/lipids. Three hours lecture per week. Fall semester. Prerequisite: CHM 222. Cross-listed as CHM 317.

BIO 319 Genetics (4) A study of the inheritance, expression, and regulation of genes. Of particular interest is the relationship of these topics to human disease. Three hours lecture and three hours laboratory per week. Fall semester. Prerequisite: BIO 112.

BIO 326 Human Anatomy and Physiology II (4) This course focuses on the physiological regulation of human body homeostasis. The first segment covers neuronal and endocrine signal pathways vital to intercellular communication and regulation. Subsequently, regulation of homeostasis in a variety of stress and disease states is presented. In the laboratory, the student will perform actual experiments using physiological recording techniques. Students are challenged to integrate their knowledge of physiology with their theological and philosophical views of human nature and personhood. Spring semester. Prerequisite: BIO 225 or permission of the instructor.

BIO 331 Biomedical Ethics (3) A description and critique of the worldviews underlying humanistic and Biblical principles of ethics and the application of those principles to contemporary problems in health care and medical technology. Spring semester, odd years. Prerequisite: biology major, junior status.

BIO 405 Molecular Biology (4) An investigation into several of the hottest topics in molecular biology based on recent articles from biological journals. Particular areas of interest include intracellular sorting, signal transduction, cell cycle regulation, and cancer. The lab integrates techniques from biochemistry, cell biology, immunology, and molecular genetics. Three hours lecture and four hours laboratory per week. Spring semester, odd years. Prerequisite: BIO 319.

BIO 419 Senior Project (1) Performance of a research project under the direction of a Biology Department faculty member, resulting in a written report and an oral presentation. The research can be either lab-based or literature-based, but must be both scholarly and produce original ideas or data. Grade of C- or better required for graduation. Every semester, permission required. Prerequisite: biology major, senior status.

BIO 421 Genomics (3) The course will be an in depth exploration of contemporary genomics. This newly emerging field studies the structure, content and evolution of genomes. The analysis of gene regulation at the genome level (transcriptome) is also emphasized. The related disciplines of bioinformatics and computational biology will be integrated into the course. Applications will focus on the discovery of disease gene alleles and the analysis of genetic determinism in relation to a Biblical anthropology of humanness. Course format will include lectures, critical reading of current research articles and discovery based learning. Spring semester, even years. Prerequisites: BIO 319 and BIO 326.

BIO 422 Neuroscience (4) The course will teach the electrophysical, cellular, and molecular basis of neuronal signaling. This will serve as the foundation for understanding the neuroscientific bases of thought, mood, learning, memory, and selected diseases. The student will also be challenged to integrate current neuroscientific knowledge with their ethical, philosophical, and theological views of human nature. In the laboratory, the student will perform experiments in electrophysiology using crayfish neuron and muscle preparations. Three hours lecture and three hours laboratory per week. Fall semester, odd years. Prerequisites: BIO 319, BIO 326 and PHY 181.

BIO 199, 292, 491, 493, 495 (See pages 14-15)

BIOMEDICAL ENGINEERING • BME

BME 300 Introduction to Biomedical Engineering (3) A survey of applications of engineering principles to medical diagnosis/treatment of disease, monitoring/measurement of physiological function, and rehabilitation/replacement of body dysfunction. Specific applications include bioinstrumentation, bioelectricity, biotransport, biomaterials, and biomechanics. Although discussion will focus primarily on the engineering aspects, issues such as patient safety, public policy and regulation, animal experimentation will be discussed as appropriate. Fall semester. Prerequisites: EGR 212, BIO 326.

BME 440 Biomedical Signal Processing (3) Introduction to discrete signals and systems. Includes convolution, correlation, and Fourier transforms; sampling theorems, and digital filters. Offered in 2 lectures and one three-hour lab format. Taught concurrently with ELE 440. Fall semester, even years. Prerequisite: EGR 225 or EGR 316.

BUSINESS • BUS

BUS 110 Business Foundations (3) A course that exposes students to current business concepts and provides a holistic view of business operation. Includes study of external factors affecting management decision-making. Case analysis and business plan development are utilized to present business interrelationships. Every semester.

BUS 115 Business Communication (3) The course emphasizes business and professional communication in the marketplace. Topics include business research, writing, presentations, professionalism, teambuilding, social and electronic media, international business communication and integration of faith in the workplace. Every semester.

BUS 140 Introduction to Business Computing (3) An introductory course in the field of computing with a business emphasis. Course includes an introduction to computers, an introduction to programming and the use of business application software such as word processing and spreadsheets. This course is an elective in the business major. Every semester.

BUS 220 Personal Finance (1) A seminar course for students interested in learning how to manage their personal finances. Topics include budgeting, checkbook and savings management, insurances, personal income taxes, personal loans and financing, debt management, online banking and identity management, investing, personal legal matters, retirement planning and stewardship. Every semester.

BUS 241 Business Analytics I (3) Introduction to basic statistics and spreadsheets. Includes data collection, descriptive statistics, basic concepts of probability, inferential methods, hypothesis testing, correlation, and regression. Fall semester.

BUS 242 Business Analytics II (3) The study of the firm using a systems approach. Problem solving and decision-making are examined as well as use of quantitative analysis to business problems. Extensive use of spreadsheets and simulations. Topics include forecasting, cash management, break-even analysis, decision theory, and statistical analysis. Prerequisite: BUS 241. Every semester.

BUS 304 Report Writing for Management (3) Practices learned in freshman composition applied to scientific description, report and research papers, and special correspondence. Written papers each week. On demand.

BUS 310 Principles of Management (3) Management and administrative concepts that are common to all types of organizations. Focuses on the functions of planning, organizing, leading, and controlling, with emphasis on integration of faith, systems, and contingency approaches. Prerequisite: sophomore standing and recommended to be taken in the sophomore year. Every semester.

BUS 311 Business Law (3) General principles applied to contracts, agency and employment, business organizations, government regulation, and real and personal property. Every semester. Prerequisite: sophomore standing.

BUS 313 Leadership (3) This course offers a comprehensive review of contemporary issues and perspectives on leadership, including multidisciplinary and systems-oriented approaches as well as classic theory, moving to the examination of evolving contemporary beliefs. An emphasis is placed on developing a leadership style within a Christian worldview. Prerequisite: BUS 110.

BUS 314 International Business (3) A comprehensive course covering all the major aspects of doing business in a global marketplace. Specific topics include the nature and environments where international business is conducted, the uncontrollable forces at work in the international business environments, international economics, trade theory, foreign direct investment, and the organizational environment. Every semester. Prerequisite: junior standing. BUS 310 recommended.

BUS 316 Business & Cultural Experience-China (3) A 14 day cultural and business exposure trip to Beijing, Shanghai, and Hong Kong, China. The trip provides experiential learning in Chinese history, culture, art, language, and business. Includes tours of cultural, historic, and business sites in China. Offered every fourth year (odd years). Next offering: May 2019. Prerequisite: BUS 317.

BUS 317 How To Do Business in Asia (1) A semester long seminar class discussing the professional and cultural nuances of how to do business in Asia. The seminar class will prepare students for the cultural exposure trip to China. Spring semester every fourth year. Next offering, Spring 2019.

BUS 318 Business & Cultural Experience- Latin America (3) A 12-14 day business and cultural exposure trip to Latin America. The trip provides experiential learning in Latin American history, culture, art, language & business. Includes tours of cultural, historic and business sites in Latin America. Every fourth year. Next offered: May 2021. Prerequisite: BUS 319. Approved HUM 304 and/or Group C option.

BUS 319 How To Do Business in Latin America (1) A semester long seminar class discussing the professional and cultural nuances of how to do business in Latin America. The seminar class will prepare students for the cultural exposure trip. Spring semester, every fourth year. Next offered: Spring 2021

BUS 320 Principles of Marketing (3) This course introduces the student to basic principles and foundations of marketing. Topics include defining marketing and the market process, understanding the marketplace and consumers, designing a customer-driven marketing strategy and mix, and the major trends and forces that impact marketing. Every semester. Prerequisite: BUS 110.

BUS 330 Principles of Finance (3) Principles of corporate financial management. Course topics include ratio analysis, cash flow forecasting, leverage, working capital management, cost of capital, capital budgeting, and security types. Every semester. Prerequisites: ACC 151.

BUS 331 Investments (3) Basic principles of investing suitable for the individual. Covers investment types and markets. Spring semester. Prerequisite: junior standing. Course in economics recommended.

BUS 335 Financial Statement Analysis (3) This course combines theoretical concepts underlying the presentation of financial statements with the practical techniques of financial analysis. Topics include accounting processes; examination of the components of the balance sheet, the income statement and the statement of cash flows; application of the various quantitative techniques of financial analysis, such as ratio interpretation and EPS evaluation; the meaning and significance of the auditor's opinion, and current SEC reporting regulations. The course will fulfill special topics requirement. Offered on demand. Prerequisite: BUS 330.

BUS 341, 342 Development of Information Systems I, II (3, 3) Analysis of business, industrial and institutional organizations from the viewpoint of computer applications. Data processing, hardware configurations, peripheral devices; analysis of systems; development of computer implemented systems. Fall semester. Prerequisites for BUS 341: BUS 110 and BUS 241 or permission of the instructor. Spring semester. Prerequisite for BUS 342: BUS 341.

BUS 343 Systems Analysis and Design (3) This course provides the student with theory and practice associated with the analysis and design of computer-based information systems. Fundamental topics include systems theory, the role of the information system in operating and managing the organization, and systems design concepts from a structured and object oriented perspective. The purpose, function, and expected outcomes of each phase and activity of the systems development life cycle (SDLC) are discussed from theoretical and practical perspectives. Specific design techniques, such as data flow diagrams and data dictionaries are discussed and used. Other topics include the function of design tools such as CASE, planning techniques, and project management. A cumulative project is used to supplement lectures, with hands-on experiences in applying the SDLC to the analysis and design of information systems. Fall semester. Prerequisite: sophomore standing.

BUS 344 Management of Information Systems (3) Explores current information systems concepts and technologies. Students learn how information systems give a business or organization a competitive edge by providing technologies that help managers plan, control, and make decisions. Includes topics such as hardware and software components of an information system, e-business concepts and implementation, and a survey of common information systems used today. Fall and Spring semesters. Cross-listed as CSC 344.

BUS 350 Human Resource Management (3) A survey of the management of human resources and its role in strategy formulation and implementation. Content includes the study of employee recruitment, socialization, motivation, training and development, legal compliance, evaluation, and retention. Every semester. Prerequisites: BUS 310, sophomore standing, or permission of the instructor. BUS 310 may be taken concurrently.

BUS 371 Operations Research (3) Quantitative approaches to management decision-making. Includes review of probability, decision theory, linear programming, network analysis, inventory control, waiting line theory, and simulation. Applications to business and industry. Spring semester. Prerequisite: BUS 242 or permission of the instructor.

BUS 400 Biblical Management and Business Ethics (3) The integration of insights from a Christian perspective wrestling with the problems associated with carrying out managerial decisions and managerial applications within organizations. The course focuses on management challenges and ethical issues facing managers. Every semester. Prerequisite: BUS 310 and junior standing.

BUS 401 Tour de Commerce (1-3) This course provides an opportunity to see business in action and to focus more attention on a biblical worldview of business. Students will participate in a weekly book study related to biblical business and then travel to some destination city (e.g. Chicago, New York, Philadelphia, Washington DC, etc.) while making several stops on the way to visit businesses. The trip includes approximately 6-8 business visits and cultural and entertainment venues. Students are required to cover the cost of travel and meals. The costs are determined each semester. This course is repeatable every year. Students can choose to earn 1, 2, or 3 credits for the course. On demand.

BUS 410 Strategic Management (3) The capstone business class, integrating concepts and practices from the core business classes, utilizing an organization-wide perspective. The course emphasizes strategic analysis, strategy formulation, and strategy implementations so as to formulate sustainable competitive advantage. Case analysis and computer simulation are significant learning components. Every semester. Prerequisites: senior standing and BUS 330 or permission of the instructor. BUS 320 and BUS 415 recommended.

BUS 411 Advanced Business Law (3) In-depth considerations of principles including uniform commercial code, negotiable instruments, creditor's rights and bankruptcy, insurance, and professional liability and accountability. Intended to meet the CPA examination requirements of certain states that set a two-semester minimum requirement. On demand. Prerequisite: BUS 311.

BUS 415 Operations Management (3) Planning and controlling the use of human resources, materials, capital, and equipment for production; the manufacturing and service firm from both a conceptual and a quantitative viewpoint. Every semester. Prerequisites: BUS 242, BUS 310, and junior standing.

BUS 417 The Entrepreneur (3) Seminar in management for students interested in operating their own business. Study, guest speakers, and field trips designed to fit specific needs of students enrolled. Limit 15 students. Spring semester. Prerequisite: junior standing.

BUS 419 Management Insights (1) A seminar course for business students where students have the opportunity to engage business executives/industry experts in order to gain insights into current business perspectives through the sharing of current issues and challenges in business. Every semester. Not repeatable. Prerequisite: Junior or Senior status or by permission.

BUS 420 Marketing Research (3) Introduction to the practical problems, including sources of information, questionnaire preparation, design of a sample, analysis of data, preparation of reports. Fall semester. Prerequisites: BUS 242 and BUS 320 or permission of the instructor.

BUS 421 Advertising and Promotion (3) A comprehensive study of advertising, detailing its relationship to market practice. Topics such as advertising preparation, media selection and evaluation, consumer behavior and research, and promotional budgeting, are included. The roles of public relations, direct marketing, personal selling, and sales promotion are also explored within the context of an integrated marketing communication (IMC) program. Also, there is a laboratory attached to this class where the student will become proficient in Adobe Illustrator software for use in designing effective artwork for advertising campaigns. Fall semester. Prerequisite: BUS 320 or permission of the instructor.

BUS 422 Sales and Sales Management (3) This course introduces the student to the basic principles and foundations of personal selling on three levels: industrial, commercial, and retail. Emphasis is on the detailed analysis of the sales process as viewed by the salesperson. Other topics include the organizational buying process, sales communications, the theory of adaptive sales, and ethical/legal issues in selling. Using a variety of instructional methods such as role-playing and video cases, students are given the opportunity to practice their newly acquired sales skills. In the second portion of the course, various specialized managerial functions are studied, such as sales department budgeting, sales force organization, territory design, and sales compensation. Spring semester. Prerequisite: BUS 320.

BUS 423 Quality Engineering (3) Introduction to traditional quality engineering topics such as statistical quality control (control charts, acceptance sampling, process capability analysis, design of experiments), total quality management, lean manufacturing, six-sigma concepts and practices, measurement, detection, reduction, elimination, and prevention of quality deficiencies. Taguchi method and its application to engineering design. Spring semester, alternate years. Next offered, Spring 2020 Prerequisite: BUS 242. Cross-listed as EGR 423.

BUS 424 International Marketing and Export Management (3) This course focuses on key management functions in international marketing including entry strategies, product and pricing policies, financing, promotion and distribution. This course will also concentrate on export management which is a major international activity of most small and medium-sized companies. Alternate Spring semesters-even years. Prerequisite: BUS 320.

BUS 425 Consumer Behavior (3) This course studies the concepts, theories, and marketplace factors that explain the decision-making process used by the consumer in purchasing goods and services. A number of influences including Economic, Sociological, Psychological, and Cultural as well as Marketing strategy are integrated to understand the influences on choice made by the consumer. Spring semester. Prerequisite: BUS 320.

BUS 426 Consumer Behavior & Market Research (3) This course will study two of the major inputs to market strategy: consumer behavior and market research. The student will learn concepts, theories, influences on buying behaviors and analysis tools to research and understand the marketplace as inputs into the decision making process for marketing management strategic decisions. Prerequisite: BUS 320. Fall semester.

BUS 427 Digital Marketing (3) Digital marketing has become critical to most all organizations' success. Nearly all organizations (both for profit and non-profit) now use digital marketing to compliment the traditional four P's of marketing (product, pricing, place, and promotion). This course will explore the impact of digital marketing in each of these areas via in-class discussions, special readings, an online text, guest speakers, and a multi-week simulation. Every fall semester. Prerequisite: BUS 320.

BUS 428 Strategic Marketing Policy (3) The course emphasizes strategic and operational issues in managing the marketing mix. Through the use of computer simulation, student team companies compete for market share and profitability. Spring semester. Prerequisites: BUS 320 and senior standing.

BUS 430 Intermediate Finance (3) Emphasis on valuation approach. Course topics include risk and return, valuation models, capital structure, capital markets, mergers and acquisitions, and bankruptcy. Fall semester. Prerequisites: BUS 242 and BUS 330.

BUS 441 Project Management (3) Project Management, the capstone course, utilizes an Information Systems Project Management Taxonomy to provide the student with an integrated theoretical and practical perspective of technology and information systems as process and functional components of an organization. Emphasis is on the roles that people, information, information systems quality, and technology play in the application of the nine Knowledge Areas and five Process Groups that comprise the Common Body of Knowledge for Information Systems Project Management. Particular emphasis is placed in the five Process Groups- initiating, planning, executing, controlling, and closing- for information systems projects that are needed to provide the various types of information systems which provide a competitive advantage in both inter-organizational and international environments and yet serve the needs of both the users and management. As an underlying tenet for the nine Functional Areas, the course emphasizes refining individual communications skills necessary to the field of information systems project planning and management. The student completes Chapter Questions and case studies, practices team problem solving techniques, participates in structured group discussions, conducts research, writes reports, and gives oral presentations. Spring semester. Prerequisite: Junior standing. Cross-listed as CSC 441.

BUS 445 Computing Applications in Management (1-3) Special topics. On demand. Prerequisite: permission of the instructor.

BUS 453 Employee & Labor Relations (3) Class will cover relational strategies for both union and non-union environments. Every other Spring year, odd years. Prerequisite: BUS 350.

BUS 454 Compensation & Benefits (3) Class will cover compensation and benefits issues related to employment. Fall semester, even years. Prerequisite: BUS 350.

BUS 455 Strategic Human Resource Management (3) This capstone course challenges students to apply their HR knowledge in employment law and regulatory related scenarios. A seminar-style class, students will be asked to critically analyze and discuss in-depth, complex human resource issues. Prerequisites: BUS 350 and junior/senior standing or permission of the instructor. Every other Spring- even years.

BUS 456 Strategic Staffing (3) Class will cover recruitment and selection including organizational entry and socialization. Every other Fall, odd years. Prerequisite: BUS 350.

BUS 199, 491, 493, 494, 495, 499 (See pages 14-15)

CHEMICAL ENGINEERING • CHE

CHE 301 Process Analysis (3) Introduction to the units and methods involved in designing commercial chemical processes. Fall semester. Prerequisite: CHM 111 and MAT 161.

CHE 302 Unit Operations (3) Study of equipment necessary to carry out chemical processes. Spring semester. Prerequisite: CHE 301.

CHE 312 Advanced Laboratory—Physical/Inorganic (2) Techniques of inorganic synthesis and physical measurement on these and other chemical systems. Includes handling of air-sensitive materials, bubble-cap fractional distillation, kinetics, spectroscopy, and thermochemistry. Three hours laboratory per week per credit hour. Taught concurrently with CHM 312. Fall semester. Prerequisite: CHM 232. Pre or Co-requisite: CHM 307.

CHE 315 Mass Transfer (1) Fundamentals of mass transfer; steady-state and unsteady-state molecular diffusion in fluids and solids with chemical reaction. Spring semester. Prerequisite: EGR 330.

CHE 401 Reactor Design (3) Techniques involved in choosing a reactor to produce a desired product, taught concurrently with MEE 418. Fall semester. Prerequisites: CHM 221 and either EGR 330 or CHM 307.

CHEMISTRY • CHM

CHM 100 Introductory Applied Chemistry (3) An introduction to the basic concepts of chemistry with emphasis on utility for daily life. Not applicable toward a major or minor in chemistry. Three hours lecture per week. Prerequisite: Math proficiency is required. (See page 202). Offered periodically.

CHM 111 General College Chemistry (4) Begins with atomic theory and bonding and continues through simple chemical reactions, the periodic table and forms of matter. The students will develop the skills to perform general chemical calculations. Laboratory experiments will include physical properties, synthesis, kinetics, and identifying unknowns. Three hours lecture and 3.3 hours laboratory per week. Every Fall and periodically in Spring semesters. Prerequisite: Math proficiency is required or permission of instructor. (See page 202).

CHM 160 Chemistry in Art (3) Topics include a scientific description of the materials and methods used in making works of art; light and the chemistry of color; pigments and dyes; restoration and conservation; scientific examination of artworks; the identification of fakes; and scientific probes of influence and style. Not applicable toward a major or minor in chemistry. Three hours lecture per week. Fall semesters, odd years. Prerequisite: Math proficiency is required.

CHM 170 Worth of Water (4) The course, which includes a lab component, focuses on cultivating an understanding and awareness of complex issues related to water issues in Southwestern Pennsylvania, the United States and the global environment. It concludes with a travel component to southern Florida. This class satisfies the core requirement for a laboratory course in the natural sciences. Approved HUM 304 option. Offered periodically.

CHM 221 Organic Chemistry I (4) A study of carbon compounds that includes topics in structure, properties, and reactivity. All functional groups will be surveyed with alkanes, alkenes, halogens, and alcohols covered in detail. Attention will be given to basic mechanisms of organic reactions and introductory spectroscopy. Includes applications with fuels and polymers. The laboratory will introduce basic techniques in studying organic molecules. Three hours lecture and 3.3 hours laboratory per week. Spring semester. Prerequisite: CHM 111.

CHM 222 Organic Chemistry II (4) A continuation of study of the structure and chemistry of organic molecules, including radical reactions and the functional group chemistry of aromatics, alcohols, ketones, aldehydes, and amines. Introduction to biochemical molecules. Use and interpretation of major spectroscopy techniques including: NMR, IR, and mass

spectroscopy. Laboratory will focus on synthesis and characterization. Three hours lecture and 3.3 hours laboratory per week. Fall semester. Prerequisite: Passing grade in CHM 221.

CHM 232 Quantitative Analytical Chemistry (4) Classical methods of analysis of chemical substances with an introduction to instrumental methods. Includes thorough understanding of the processes of ionic equilibria. Three hours lecture and 3.3 hours laboratory per week. Spring semester. Prerequisite: CHM 111.

CHM 304 Inorganic Chemistry (3) Chemical properties of inorganic chemical substances correlated with current theories of atomic and molecular structure and the periodic table. Special emphasis on current topics in inorganic chemistry. Fall, alternate even-numbered years. Prerequisite: CHM 232.

CHM 305 Advanced Organic Chemistry (3) Organic structures and reactivities, methods of studying reaction mechanisms (including spectroscopy), and comprehensive study of mechanisms of organic reactions. Topics will include ideas important in modern organic chemistry including the relationship of structure and reactivity, functional group manipulations, spectroscopy, methods of studying reaction mechanisms, and a comprehensive study of mechanisms of organic reactions. Offered periodically. Prerequisite: CHM 222.

CHM 306 Instrumental Analysis (3) Overview of the theory and practice of spectroscopic, electrochemical, and chromatographic techniques of chemical analysis. Spring semester, alternate even-numbered years. Prerequisites: CHM 232 and PHY 182 or PHY 202.

CHM 307 Physical Chemistry I: Thermodynamics (3) The three laws of thermodynamics and the concepts of energy and equilibrium applied to physical and chemical systems. Includes the kinetic theory of gases and an introduction to statistical mechanics. Fall semester. Prerequisites: PHY 202, MAT 162, and CHM 221. Cross-listed as PHY 307.

CHM 308 Physical Chemistry II: Structure and Dynamics (3) Topics include the models of the structure of matter, surface phenomena, transport properties of matter, and chemical kinetics. Spring semester. Prerequisite: CHM 307.

CHM 310 Advanced Laboratory—Organic (1-2) Synthesis of organic compounds via multi-step and classic named reactions. Characterization and analysis of organic compounds by NMR, IR, MS, and chromatography. Three hours laboratory per week per credit. Periodically. Prerequisite: CHM 222.

CHM 311 Advanced Laboratory—Instrumental (1- 2) Quantitative and qualitative analyses by spectroscopic, electrochemical, and chromatographic techniques. Three hours laboratory per week per credit hour . Spring semester, alternate even numbered years (next in Spring 2020). Pre or Co-requisite: CHM 306.

CHM 312 Advanced Laboratory—Physical/Inorganic (2) Techniques of inorganic synthesis and physical measurement on these and other chemical systems. Includes handling of air-sensitive materials, bubble-cap fractional distillation, kinetics, spectroscopy, and thermochemistry. Three hours laboratory per week per credit hour. Fall semester. Prerequisite: CHM 232. Pre or Co-requisite: CHM 307. Cross-listed as CHE 312.

CHM 313 Biochemistry Laboratory (1) Purification and characterization of biological molecules with a focus on proteins, enzymes, lipids and carbohydrates. Techniques important for isolation and characterization of these molecules will be learned and applied in the laboratory. Techniques/experiments to include electrophoresis, spectroscopy, centrifugation, drug binding to proteins and kinetic analysis. Spring, alternate odd-numbered years. Pre or Co-requisite: CHM 317.

CHM 317 Biochemistry I (3) An introduction to biochemistry focusing on the structure and function of biological compounds. Topics include cellular structure, biological reactions, compartmentalization, water, amino acids, proteins, enzymes, carbohydrates, and membranes/lipids. Three hour lecture per week. Fall semester. Prerequisite: CHM 222. Cross-listed as BIO 317.

CHM 318 Biochemistry II (3) A study of metabolic and nucleic acid chemistry. Topics include bioenergetics, metabolic reaction mechanisms, metabolic pathways, biosynthesis, and pathway regulation. Spring, alternate even-numbered years. Prerequisite: CHM 317.

CHM 412 Polymer Chemistry (3) Nomenclature, structure, properties, characterization methods, reactions, and synthesis of polymeric materials. Spring semester, alternate odd-numbered years. Prerequisite: CHM 307.

CHM 420 Chemical Research (credit variable—usually 2) Individualized laboratory work in a specialized field of chemistry under direct supervision. Problems should be selected a semester in advance to provide for preliminary literature review. Every semester. Three hours laboratory per week per credit hour. May be taken repeatedly but a maximum of two credit hours count toward a chemistry major or minor.

CHM 421 Current Topics Seminar (1) Study and discussion of selected current topics in chemistry. Requires use of primary chemical literature. May be taken repeatedly but counted no more than two times toward a chemistry major or minor. Every semester. Prerequisite: CHM 222 and junior standing.

CHM 199, 491, 493, 494, 495, 499 (See pages 14-15)

Au Sable courses are listed on page 148.

CIVIL ENGINEERING • CIE

CIE 201 Geomatics Engineering (3) Field measurement of distance, elevation, and angles using various instruments including tape, automatic level, and total station. Topics include types of surveying, legal aspects, and error analysis. Fall semester.

CIE 231 Structural Analysis (3) Shear and moment diagrams, influence lines. Analysis of statically determinate and indeterminate trusses and frames. Virtual work, moment distribution, and matrix methods. Spring semester. Prerequisite: EGR 211.

CIE 301 Transportation Engineering (3) Introduction to the primary modes of transportation. Main emphasis on planning, design, and operation of roadways, including traffic flow theory, highway capacity, traffic control, geometry, drainage, and design of pavements. Fall semester, odd years. Co-requisite: CIE 201.

CIE 333 Reinforced Concrete Design (4) Design of reinforced concrete beams, columns, frames, and slabs using the strength method. Concentrates on use of the ACI 318 Code. Design software application. Practical design project. Spring semester. Prerequisite: CIE 231.

CIE 407 Geotechnical Engineering (4) Mechanics of aggregations applied to earthwork and foundations design. Spring semester. Prerequisite: EGR 211.

CIE 434 Structural Steel Design (3) Introduction to the design of structural steel beams, columns, tension members, frames, trusses, and connections (bolted and welded) using the load and resistance factor design (LRFD) method. Concentrates on AISC specifications and manuals. Design software application. Practical design project. Fall semester. Prerequisite: CIE 231.

CIE 451 Urban Hydrology (3) Water supply and sewer systems, reservoirs, wells, water transmission and distribution, sanitary sewers, storm sewers, flooding and flood control. Practical design projects. Fall semester. Prerequisite: EGR 330.

CIE 199, 491, 493, 494, 495, 499 (See pages 14-15)

COMMUNICATION DISORDERS • CDS

CDS 160 Introduction to Sign Language (3) Manual communication via “Signed English.” Emphasis on both receptive and expressive abilities of a basic, foundational vocabulary. Spring semester.

CDS 190 Introduction to Communication Disorders (3) Characteristics, etiology, and an introduction to individuals with various communication disorders. Overview of the field. Fall semester.

CDS 220 Language Development (3) Focuses upon current information and theory regarding language development through the lifespan. Fall semester.

CDS 230 Phonetics (3) The science of the production, perception and transcription of speech sounds. Studies of the physiological, acoustical, perceptual, and descriptive aspects of speech and sound production. Fall semester.

CDS 250 Treatment Procedures in Communicative Disorders (3) Treatment principles and procedures used in treating communicative disorders. Current issues and ethics in the field of communicative disorders. Spring semester. Prerequisite: CDS 190.

CDS 260 Introduction to Audiology (3) Physics of sound; anatomy and physiology of the ear; types of hearing disorders, etiology, and treatments; audiometric evaluation. Fall semester.

CDS 270 Aural Rehabilitation (3) Communicative rehabilitation or habilitation of the hearing-impaired individuals through auditory training, speech reading, and hearing-aid orientation. Includes linguistic development of the hearing-impaired child, therapy planning, educational alternatives, and psychosocial aspects of hearing impairment. Spring semester. Prerequisite: CDS 260.

CDS 280 Anatomy and Physiology of the Speech Mechanism (3) Anatomy and physiology of the speech/language mechanism. Includes respiration, phonation, articulation, and neurology. Spring semester.

CDS 340 Voice/Fluency Disorders (3) Description, diagnosis, and treatment of voice and fluency disorders in children and adults. Spring semester. Prerequisites: CDS 190 and CDS 250 or permission of the instructor.

CDS 350 Language Disorders in Children (3) Description, diagnosis, and treatment of language disorders in children. Fall semester. Prerequisites: CDS 190, CDS 220, and CDS 250 or permission of the instructor.

CDS 360 Articulation/Phonological Disorders in Children (3) Description, diagnosis, and treatment of articulation/phonological disorders in children. Spring semester. Prerequisites: CDS 190, CDS 230 and CDS 250 or permission of the instructor.

CDS 370 Neurogenic Communication Disorders in Adults (3) Description, diagnosis, and treatment of neurogenic communication disorders in adults. Fall semester. Prerequisites: CDS 190 and CDS 250 or permission of the instructor.

CDS 420 Speech & Hearing Science (3) The scientific study of the processes of speech production (neurology, respiration, phonation, articulation, and resonance) and perception (audition), and the application of this study to the evaluation and treatment of communication disorders. Special emphasis is given to the exploration of modern instrumental techniques used in clinical practice by Speech-Language-Pathologists. Every other fall semester, odd years. Prerequisites: CDS 190, CDS 230, CDS 260, and CDS 280.

CDS 450 Clinical Experience in Communication Disorders (6) Experience in working with individuals that exhibit speech and/or language disorders to achieve more effective communication skills. Provide therapy under the supervision of a certified speech/language pathologist at facilities in the surrounding area. Every semester. Prerequisites: CDS 250, CDS 340, CDS 350, CDS 360 and CDS 370. Communication Disorders majors must have an overall GPA and major GPA of 3.0 to enroll in CDS 450.

COMMUNICATION • COM

COM 101 Principles of Communication (3) A preliminary inquiry into the fundamental areas of study in the communication discipline including interpersonal, group and public speech. Emphasis placed on the development of sensitivity and competency in the various settings of oral communication. Every semester.

COM 111 Foundations of Communication Inquiry (3) A platform course introducing students to the study of communication through the foundational disciplines of rhetoric and phenomenology attending specifically to the themes of character and community. Fall semester.

COM 150 Media Literacy (3) This course is a practical application class that centers on the relationship between media and society. Students will examine, discuss, and analyze media messages. Coursework will include analysis of advertisements, television programs, video games, movies, and news. This course is suited to students who want to better understand the persuasive techniques used in advertising. It provides the groundwork for Integrated Media emphasis students to understand and appreciate creation of mediated messages. Every semester.

COM 160 Interpretative Reading (3) Training in understanding thought and feeling in literature and in communicating it to an audience. Spring semester.

COM 165 Acting Principles (3) Introduction to the principles of acting. Participation in several scenes and monologues. Fall semester.

*COM 201 Theatre Practicum (1) Practical experience in the various phases of theatre work connected with the major productions of the department. Repeatable. Every semester.

COM 202 Public Relations Practicum (1) Individual projects. Every semester. Repeatable with permission of the instructor.

*COM 203 Radio Practicum (1) Practical experience. Repeatable. Every semester.

*COM 204 Integrated Media Practicum (1) Practical experience with print, audio, video, and digital communication tools. Repeatable. Every semester.

COM 205 Introduction to Public Relations (3) Overview of the theories and applications of public relations and related fields. Examines integration of Biblical values in public relations through various lessons, case studies, and group projects. Spring semester. Prerequisite: COM 111 or permission of instructor.

COM 206, 207 Bateman Competition (1,1) The Bateman Case Study Competition is PRSSA's premier national case study competition for public relations students, and gives students an opportunity to apply their classroom education to create and implement a full public relations campaign. Must be taken in sequence; COM 206 will be graded in progress (IP); the final grade in COM 207 will count for both credit hours in GPA. Every semester.

COM 212 Organizational Communication (3) The course explores the historical and theoretical developments in the research and practice of communication within organizational structures. Students will learn major theories and will be able to identify and define primary concepts, then apply them to real world situations. Students will also examine the roles of technology, culture, leadership, teamwork, and ethics as they relate to organizational communication. Fall semester.

COM 230 Interpersonal Communication (3) An introduction to philosophical perspectives and contemporary research in the field of interpersonal communication focused on developing and sustaining valuable interpersonal relationships. Spring semester.

COM 235 Studio Production (3) This course covers basic use of all studio equipment, including camera operations, lighting theory, color, and audio mixing, as well as control room equipment, such as the studio switcher, audio mixer, and camera controls. Spring semester.

COM 245 Writing for Integrated Media (3) A writing course to introduce the student to the techniques and styles of writing found in the integrated media marketplace. Students will learn how to write for multiple media forms, not simply as each form exists on its own merit, but in such a way that a message can be crafted and adapted across multiple platforms, reaching the appropriate audiences and publics. Theoretical and practical applications are explored. Every other Fall, odd years.

COM 250 Mediated Communications (3) The course traces the history of mediated communication technologies from its rhetorical roots through the beginning of the written work, newspapers, books, magazines, radio, television, the Internet and gaming. It will explore how citizens, public relations practitioners, the media, and other professionals use electronic communication tools to distribute their messages. Spring semester.

COM 255 Field Production (3) This course serves as an intensive study in the theory and practice of field and location shooting. Students are introduced to the challenges and uniqueness of field production as it relates to videography, news media, documentaries, and commercial production. Fall semester. Prerequisite: COM 235.

COM 280 Public Relations Publications (3) Hands-on experience in the theory and development of creating graphic communications. Basics of design for printed and electronic materials used in public relations and marketing are discussed. Fall semester, even years.

COM 305 Culture & Communication (3) An overview of the fundamental human values exposed by the study of different cultures. Emphasis placed on understanding the role of micro and macro cultures informing domestic, civic, and international relations. Every Spring semester.

COM 310 Advanced Public Speaking (3) Practical and psychological principles of persuasive speech in varied settings. Spring semester. Prerequisite: COM 101 or COM 111; or 200 level communication course.

COM 315 Communication Theory (3) The study of communication through the exploration and analysis of societal theories and contemporary issues. Fall semester. Prerequisites: COM 101 or 111, and junior standing or permission of department chair.

COM 320 Communications Workshop Facilitation (2) Resources for improving communication in organizations, including workshop formats and workshop management skills. Fall semester. Prerequisite: COM 101 or COM 111; or permission of instructor.

COM 325 Media Ecology (3) Media environments shape individuals, society and culture. This course examines how communication technologies, both old and new, have had such an impact. Students will explore the complex issues and practices of media ecology and how they relate to, interact with, and seek to emulate natural environments. Every other Fall, odd years.

COM 330 Special Topics in Communication (3) Special Topics in Communication will be a seminar course that will rotate between members of the department allowing them to teach various communication courses/topics based on research interests with the intent of exposing students to the breadth and depth of the discipline. Spring semester.

COM 335 Argumentation and Debate (3) Critical analysis, organization, and evidence applied to intensive study of common public arguments. Fall semester.

COM 350 Digital Communication Design (3) This course engages digital communication contexts emphasizing the role of design in web based mediums. Students learn how to make informed design decisions about content placement and invention. Students are also introduced to first level content development in an industry standard content management application. Prerequisite: sophomore standing. Every other Fall, odd years.

COM 355 Persuasion (3) This course studies change prompted by strategic messaging. Persuasion, originally studied in the discipline of rhetoric, also inquires into the sociological phenomenon of mass political movements, marketing and propaganda. This course may also serve students of business, psychology, counseling, sociology and political science. Every other Fall, even years.

COM 375 Communication Architecture (3) Communication Architecture offers students a primary look at how attitudes of scale, magnitude, value, and beauty shape communication practice and ethics. This course provides helpful coordinates for thinking about communicative contexts influenced by art, economics, appearance, emotional affect and spatial relationships. Every other Spring, odd years. Prerequisite: Junior standing.

COM 380 Advanced Public Relations (3) Exploring the various tools and tactics of effective public relations as a means of building mutually beneficial relationships between commercial and/or nonprofit organizations and their various publics. Every other Fall, even years. Prerequisite: COM 205.

COM 400 The Communication Professional (3) This course is taught in a facilitative format with heavy emphasis on final student projects and assessments of their portfolio. COM 400 is designed to aid the student in making closure on their major, its key values, and preparing their heart and mind for becoming servant-leaders who will transform society for the Kingdom of Christ. Limited to communication majors. Spring semester. Prerequisite: senior standing or permission of the instructor.

COM 410 Media Law, Regulation, and Ethics (3) This course surveys laws and regulations that affect the print and broadcast media. Includes material on the First Amendment, libel, invasion of privacy, freedom of information, copyright, obscenity, advertising and broadcast regulation and matters relating to press coverage of the judicial system. Also investigates the relationship between law and ethics and key ethical issues in professional communications. Every other Fall, odd years. Prerequisite: Junior status.

COM 420 Communicology (3) The convergence of communication studies and phenomenology has resulted in the sub discipline of Communicology. Communicology offers fruitful viewpoints for the study and practice of communication. This course employs the phenomenological method to improve perceptive awareness and communicative sensitivity in various situations. This course could also benefit majors of art, engineering, music, psychology, and writing. Every other Spring, even years. Prerequisite: Junior status.

COM 493 Internship (3) Supervised involvement in professional and applied settings: integrated media, public relations, visual communication, writing, general communication, and communication disorders. On demand. Prerequisite: junior or senior standing and permission of the instructor.

COM 199, 491, 494, 495, 499 (See pages 14-15)

COMPUTER ENGINEERING • CPE

CPE 133 Survey of Computer Science (3) An exploration of computer science including digital systems, computer architecture, networks, operating systems, database systems, computer languages, simulation, algorithms, artificial intelligence, and software engineering. This course is a cross-listing of CSC 133 with CPE 220 material removed. Fall semester. Prerequisite: CPE 220.

CPE 203 Software Engineering (3) Traditional and Agile software engineering, including process models, requirements, specifications, design, implementation, testing, documentation, deployment, configuration management, maintenance, project management, and brief introductions to current software engineering tools. Cross-listed as CSC 203. Spring semester. Prerequisite: CSC 102.

CPE 220 Digital Systems (3) Boolean algebra, logic components, combinatorial and sequential system analysis and synthesis, number and coding systems; circuits, structure, and logical design of digital systems. Includes laboratory exercises and a design project using standard integrated circuits. Spring semester.

CPE 251 Networks and Security (4) Introduction to data networking, telecommunications, and security. Topics include: Analog and digital signals, network topologies, network protocols (TCP/IP), network operating systems, network hardware, frame types, the OSI model, LANs, WANs, the Internet, Ethernet, network and host-based intrusion detection, firewalls, secure web filtering, security vulnerabilities, public key infrastructures (PKI), and virtual private networks (VPN). Every spring semester. Prerequisite: CPE 133.

CPE 303 Microprocessor Systems (3) A study of microprocessors and their peripheral components as central elements in a digital system. Includes machine architectures, instruction sets, peripheral interfacing, data acquisition and control. A semester design project is required. Fall semester. Prerequisite: CPE 220.

CPE 304 Advanced Digital Logic (3) Design and implementation of complex combinational and sequential digital systems. Topics include the VHDL hardware description language, programmable logic devices, CAD tools for design entry, simulation and synthesis, and rapid prototyping. A semester design project is required. Spring semester. Prerequisite: CPE 220.

CPE 335 System Foundations (3) Hardware configuration, operating systems, and organization of computing systems; functional components, bus input/output, and memory systems, operating system support including process, storage, and input/output management, instruction set design, comparison of RISC and CISC systems, and instruction pipelining. Spring semester, odd years. Prerequisite: CPE 133. Cross-listed as CSC 335.

CPE 363 Data Base Systems (3) Introduction to the fundamental concepts necessary for designing, using, and implementing database systems. Topics include: entity-relationship models, relational data model, relational database schemas, SQL, and emerging database technologies such as data warehousing and data mining. Hands-on experience using current database system. Fall semester. Cross-listed as CSC 363.

CPE 454 Cybersecurity (3) This course contains theory and hands-on practice in topics to include: Cryptography, exploit development for penetration testing, intrusion detection, system hardening, ethical hacking, web app penetration testing, security plan development, and securing various types of operating systems. Cross-listed as CSC 454. Fall semesters, odd years. Prerequisite: CPE 251 or CSC 251 and CSC 363 or CPE 363.

CPE 465 Big Data Analytics (3) Introduction to extracting, verifying, and presentation of information and knowledge from data using fundamental technologies that support distributed storage and efficient analysis of very large amounts of data. Spring semester, even years. Prerequisites: CPE 363 or CSC 363, MAT 265, MAT 350. Co-requisite: CSC 204. Cross-listed as CSC 465.

CPE 471 Computer Forensics (3) Computer and network in-depth forensic analysis by applying key techniques one byte at a time using various operating systems, memory systems, smartphone devices, and reverse-engineering of malware. Spring semester, even years. Prerequisite: CPE 454. Cross-listed as CSC 471.

CPE 490 Embedded Systems (3) Design and implementation of embedded microprocessor systems. Includes the use of micro-controllers and complex logic devices to implement digital systems. Topics include C++ and assembly language programming, data structures, I/O structures, and real time operating systems. Includes a semester design project. Spring semester, even years. Prerequisite: CPE 303.

CPE 199, 491, 493, 494, 495, 499 (See pages 14-15)

COMPUTER SCIENCE • CSC

CSC 101 Introduction to Programming (3) Basic concepts in structured programming including data types, selection, iteration, methods, arrays, strings, files, and graphical user interfaces. Spring semester. Prerequisites: none.

CSC 102 Object-Oriented Programming (3) Object-oriented programming including class design, information hiding, inheritance, polymorphism and templates. OOP concepts are demonstrated through building abstract data types that implement basic data structures. Fall semester. Prerequisite: CSC 101.

CSC 111 Introduction to Engineering Computation (3) Structured programming and problem solving using a current application (MATLAB). Fall semester.

CSC 133 Survey of Computer Science (4) An exploration of computer science including digital systems, computer architecture, networks, operating systems, database systems, computer languages, simulation, algorithms, artificial intelligence, and software engineering. This course is cross-listed as CPE 133. Fall semester.

CSC 190 HTML (1) Basic web page development using HTML5 and CSS3, with emphasis on methods for backward compatibility to older browsers and a short introduction to JavaScript. Fall semester.

CSC 203 Software Engineering (3) Traditional and Agile software engineering, including process models, requirements, specifications, design, implementation, testing, documentation, deployment, configuration management, maintenance, project management, and brief introductions to current software engineering tools. Cross-listed as CPE 203. Spring semester. Prerequisite: CSC 102.

CSC 204 Algorithms (3) An in-depth study of essential data structures and algorithms their implementation and analysis. Specific topics include object-oriented implementation, recursion, backtracking, searching, sorting, hash tables, dictionaries, trees, graphs, design patterns, functional programming, and parallel programming. Spring semester. Prerequisite: CSC 102.

CSC 205 HCI Design and Programming (3) Human Computer Interaction design and implementation in an event-driven programming language. Concepts include issues of graphical user interface design, event processing, integration of a database system, exception handling, and simple screen graphics. Fall semester, odd years. Prerequisite: CSC 101.

CSC 206 Web Programming (3) Design and implementation of web pages and websites using a server-side scripting language with forms and validation programming. Spring semester, even years. Prerequisite: CSC 190 or by exam. Co-requisite: CSC 102.

CSC 251 Networks and Security (4) Introduction to data networking, telecommunications, and security. Topics include: Analog and digital signals, network topologies, network protocols (TCP/IP), network operating systems, network hardware, frame types, the OSI model, LANs, WANs, the Internet, Ethernet, network and host-based intrusion detection, firewalls, secure web filtering, security vulnerabilities, public key infrastructures (PKI), and virtual private networks (VPN). Every spring semester. Prerequisite: CSC 133. Cross-listed as CPE 251.

CSC 252 Disaster Recovery and Business Continuity Planning (3) IT disaster recovery: identifying the risks, analyzing impact, user recovery, facilities protection and recovery, system and network recovery, data recovery, writing the plan, implementing the plan, testing the plan and managing the plan, prevention. Spring semester.

CSC 311 Cyberethics and Cyber Law (2) Significant consideration of ethical issues, professional practice and social responsibility, especially as illuminated by Christian faith. Spring semester. Prerequisites: ENG 101, BIB 112, and BIB 113 or permission of instructor.

CSC 335 System Foundations (3) Hardware configuration, operating systems, and organization of computing systems; functional components, bus, input/output, and memory systems, operating system support including process, storage, and input/output management, instruction set design, comparison of RISC and CISC systems, and instruction pipelining. Spring semester. Prerequisite: Sophomore standing. Cross-listed as CPE 335.

CSC 344 Management Information Systems (3) Explores current information systems concepts and technologies. Students learn how information systems give a business or organization a competitive edge by providing technologies that help

managers plan, control, and make decisions. Includes topics such as hardware and software components of an information system, e-business concepts and implementation, and a survey of common information systems used today. Prerequisite: BUS 110. Fall and Spring semesters. Cross listed as BUS 344.

CSC 363 Data Base Systems (3) Introduction to the fundamental concepts necessary for designing, using, and implementing database systems. Topics include: entity-relationship models, relational data model, relational database schemas, SQL, and emerging database technologies such as data warehousing and data mining. Hands-on experience using current database system. Fall semester. Cross-listed as CPE 363.

CSC 364 E-Commerce (3) Explore the Internet as a way to communicate and do business in the changing technological world around us. Topics include: evaluation of tools, hosting services, visual design, and website management issues related to Web presence. Requires research and hands-on development. Spring semester, odd years. Prerequisite: CSC 206. Pre or co-requisite: CSC 363.

CSC 407 Web Engineering (3) A capstone course where topics from web programming, software engineering, e-commerce, database systems and computer security are merged with project management, change and content management and user-centered design to support the engineering of complex websites. Fall semester, even years. Pre-requisite: CSC 364.

CSC 408 Mobile and Cloud Applications (3) Design and development of applications for the mobile and cloud computing environment using the appropriate development environment for the particular device. Spring semester, odd years. Prerequisite: CSC 407.

CSC 441 Project Management (3) Project Management, the capstone course, utilizes an Information Systems Project Management Taxonomy to provide the student with an integrated theoretical and practical perspective of technology and information systems as process and functional components of an organization. Emphasis is on the roles that people, information, information systems quality, and technology play in the application of the nine Knowledge Areas and five Process Groups that comprise the Common Body of Knowledge for Information Systems Project Management. Particular emphasis is placed in the five Process Groups- initiating, planning, executing, controlling, and closing- for information systems projects that are needed to provide the various types of information systems which provide a competitive advantage in both inter-organizational and international environments and yet serve the needs of both the users and management. As an underlying tenet for the nine Functional Areas, the course emphasizes refining individual communications skills necessary to the field of information systems project planning and management. The student completes Chapter Questions and case studies, practices team problem solving techniques, participates in structured group discussions, conducts research, writes reports, and gives oral presentations. Spring semester. Prerequisite: Junior standing. Cross-listed as BUS 441.

CSC 454 Cybersecurity (3) This course contains theory and hands-on practice in topics to include: Cryptography, exploit development for penetration testing, intrusion detection, system hardening, ethical hacking, web app penetration testing, security plan development, and securing various types of operating systems. Cross-listed as CPE 454. Fall semester. Prerequisites: Junior standing.

CSC 465 Big Data Analytics (3) Introduction to extracting, verifying, and presentation of information and knowledge from data using fundamental technologies that support distributed storage and efficient analysis of very large amounts of data. Spring semester, even years. Prerequisites: CPE 363 or CSC 363, MAT 265, MAT 350. Co-requisite: CSC 204. Cross-listed as CPE 465.

CSC 471 Computer Forensics (3) Computer and network in-depth forensic analysis by applying key techniques one byte at a time using various operating systems, memory systems, smartphone devices, and reverse-engineering of malware. Spring semester. Prerequisites: CSC 335 and Junior standing. Cross-listed as CPE 471.

CSC 472 Faithful Hacking (3) This course will prepare students to succeed in the areas of system reconnaissance, scanning, and exploitation, including investigation into viruses, attacks, defenses, ethical processes, cryptographic methods, remote administration, vulnerability scanning, and penetration testing. Prerequisite: CSC 335.

CSC 481, 482 Senior Project (3,3) Projects derived from realistic problems requiring a computer-related solution. Projects may be undertaken by individuals or teams. Projects may be interdisciplinary or specific to an area of interest. Must be taken in sequence. CSC 481 will be graded in progress (IP); the final grade in CSC 482 will count for all 6 credits in GPA. Offered at the discretion of the department. Prerequisites: senior standing. CSC 481.

CSC 483, 484 Senior Software Project (3, 3) Senior capstone experience. Members of the class will function as a software development team facilitated by the course instructor to develop an original application. Fall and Spring semesters. Prerequisites: CSC 203, 204, Senior standing, CSC 483 is a prerequisite for CSC 484.

CSC 199, 491, 493, 494, 495, 499 (See pages 14-15)

CRIMINAL JUSTICE · CRJ

CRJ 210 Crime, Law, and Society (3) This course will provide students with an introductory survey of the basis of American civil and criminal law; key contemporary legal issues; and the processes and institutions of the justice system, including law enforcement, courts, and corrections. Particular attention is placed on the relationship between the law and society's norms, and the relationship of both to Scriptural principles of justice. Spring semester. Cross-listed as SSC 210.

CRJ 215 Career Pathways in Criminal Justice (2) This course will explore the various policing organizations and the way they operate in America. This included municipal, county, state, and federal law enforcement entities. Attention will be given to career exploration and preparation. Every Fall.

CRJ 220 Victimology (1) This course will explore the legal, emotional, and social responses to the process of victimization by offenders and third parties. It will also address the victim's rights movement, and alternative ways of defining and responding to victimization. Fall semester, odd years.

CRJ 230 Juvenile Justice (3) Students will review causal theories of juvenile crime and will also examine the history and philosophy of the treatment of juveniles in the criminal justice system and the goals and effectiveness of the system. Promising alternatives rooted in a biblical reconciliation worldview will be included. Problems such as gangs, drug usage, and school violence will also be explored. Fall semester, even years. Prerequisite: CRJ 210.

CRJ 250 Homeland Security (3) This course is an introduction to both public and private sector dimensions of theoretical and practical aspects of homeland security and emergency management, including: origins of natural and terrorist-caused disasters; local, state, and federal emergency management planning and operations; health infrastructure capabilities, public communication strategies; business community concerns; ethical, legal, and constitutional questions; as well as the social and psychological dimensions of disasters. Spring semester, even years.

CRJ 260 Criminal Law (3) This course is an introduction to the basic concepts of criminal law focusing on a study of what constitutes particular crimes, both in the common law and by statute, including certain defenses. Principles learned in this course will help students develop a deeper ability to discern what constitutes fair administration of justice: dealing fairly with the accused while continuing to uphold the interests of both victims and society at large. Fall semester.

CRJ 310 Criminal Justice Systems (3) This course will compare and contrast the objectives and outcomes of law enforcement, corrections, and community based corrections. Particular attention will be given to alternative sentencing options with a focus on restorative justice principles. Students will be challenged to explore these different criminal justice system components using their worldview and the Christian worldview. Spring semester, odd years.

CRJ 315 Women and the Criminal Justice System (3) This course focuses on the experiences of women as offenders, prisoners, parolees, victims, and professionals (law enforcement officers, lawyers, judges, and correction and parole officers) in the criminal justice system. Professionals from criminal justice agencies may participate in classroom discussions. Prerequisite: CRJ 210. Fall semester, odd years.

CRJ 345 Probation and Parole (3) Probation and Parole examines the history, structure, organization, and operation of probation and parole in the Criminal Justice System. The focus is on the application of services provided to people convicted of committing crimes who are allowed to remain in the community either through probation or parole. Distinctions will be drawn between probation and parole, the types of offenders under each, styles of supervision, goals, and objectives and between adult and juvenile offenders. Spring semester, even years.

CRJ 360 Criminal Investigation and Procedures (3) This course continues the material covered in Criminal Law, this time focusing on the procedural protections guaranteed by the 4th, 5th, 6th, and 8th Amendments to the Constitution, helping students develop a more sophisticated understanding of things like searches and seizures and the right to an attorney. Students will learn the crucial role these protections play in protecting the rights of those suspected or accused of criminal activity. Prerequisite: CRJ 260 or permission of instructor. Fall semester.

CRJ 405 Leadership in the Criminal Justice System (3) This course is designed to aid students in identifying and understanding leadership styles and approaches, including their own leadership styles. The intent is to prepare the criminal justice major for work roles requiring leadership in fields such as police work administration. Prerequisites: CRJ 210, CRJ 310, SOC 242. Spring semester, odd years.

CRJ 450 Senior Seminar, Leadership, and Professional Ethics (3) This course is offered in conjunction with the internship experience. It acts as a capstone course for the major. Students will be given the opportunity to consider their worldview, the Christian worldview and a Christian response to the discipline and issues of criminal justice. Attention will also be focused on ethical principles necessary in the field. The course acts as a preparation for the professional career launch of a student, particularly giving attention to leadership theory and roles in the field of criminal justice. The course is taken in conjunction with the field experience and is designed to support the student's field experiences. Co-requisite: CRJ 493. Every Spring.

CRJ 493 Internship in Criminal Justice (3) This field experience provides exposure to the type of activities in which Criminal Justice graduates are likely to be involved. Requires a total of 135 site hours. Spring semester. Prerequisites: declared criminal justice emphasis or minor; junior or senior standing.

CROSS CULTURAL EXPERIENCE • XCX

XCX 150 Introduction to Italian Culture (3) This course offers a multi-disciplinary approach to the study of Italian culture through an exploration of history, art, architecture, literature, and religion. The class culminates with travel to Italy. Offered on-demand.

XCX 160 Exploring America (1) This course will introduce global students to American culture and life through attendance at cultural events and visits to historical sights and museums. It will also seek to help participants understand and cope with cultural differences and make a smooth transition to life in the US. Every summer.

XCX 201 Cultural Perspectives & Italian Language (3) This course will seek to develop the student's cultural intelligence to enable them to function effectively within other cultures by introducing them to the Italian culture and people. Students will also develop basic Italian language skills, equipping them with the ability to speak, write, and comprehend Italian on an elementary level. Every semester in Rome. Prerequisite: HUM 103.

XCX 210 Foundations for Developing Intercultural Competence (3) This course will introduce students to biblical and theoretical approaches to the development of inter- and intracultural competencies, the history of immigration and minority-majority relations in the United States, and strategies for promoting intercultural understanding between and among neighbors in the Church, on campus, and beyond. The course is a requirement for domestic Global Partners Program students. Spring semester.

XCX 311 Puerto Rico (3) This course will be a multi-disciplinary course integrated around the theme of Puerto Rico and, specifically, colonialism in Puerto Rico. Prerequisite: HUM 203, HUM 303 concurrently.

XCX 313 Arizona (3) This course will be a multi-disciplinary course integrated around the theme of Arizona and, specifically, colonialism in Arizona.

XCX 315 Ireland (3) This course will be a multi-disciplinary course integrated around the theme of Ireland and, specifically, colonialism in Ireland.

ECONOMICS • ECO

ECO 100 Fundamentals of Economics (3) General introduction to the field for non-majors. Credit is not granted to students completing ECO 211 and/or ECO 212. If a student declares a major in the department after having taken ECO 100, this course may be substituted for ECO 212. On demand.

ECO 211 Micro Economics (3) This course examines consumption and production at the household, firm and industry level; explains methods of economic analysis and price formulation; and examines the various market structures and behavior of pure competition, monopoly, oligopoly, and monopolistic consumption. Fall semester. Prerequisite: Sophomore standing/or permission of instructor or department chair.

ECO 212 Macro Economics (3) This course explains the characteristics and operations of the national economy including the measurement of national employment, production and income, the role of money and banking, and international trade.

Students also learn methods of economic analysis, the role of government, and economic policy. Spring semester. Prerequisite: Sophomore standing/ or permission of instructor or department chair.

ECO 270 Principles of Microeconomics for Engineers (3) An introduction to the principles of micro-economics with selected topics in finance. Topics include, but are not limited to , the theoretical basis of markets (supply and demand), basic market structures, externalities and other market failures, the time value of money, project revaluation, and related concepts. The emphasis throughout is on economics as a social science. Not applicable toward a major, minor, or associate degree in Accounting or Business. Every semester. Prerequisite: Sophomore standing.

ECO 311 Money, Credit, & Banking (3) Monetary system of the United States, the Federal Reserve System, and commercial banking. Alternate Fall semesters, next offered Fall 2018. Prerequisite: ECO 100 or ECO 211.

ECO 327 Comparative Economic Systems (3) Various policies for improving our economic institutions are studied based on theory and the historical experience of selected countries. The course emphasizes the mechanisms of such policies in the context of values and ideology. Spring Semester. Prerequisites: ECO 211 and ECO 212.

ECO 350 History of Economic Thought (3) Contribution of the classical economists are examined starting with Adam Smith and continuing to the marginal revolution with Jevons, Menger, Walras, as well as socialist and historical thought, and concluding with Keynes. On demand. Prerequisites: ECO 211 and ECO 212.

ECO 351 Intermediate Economic Theory (3) General theory examined with emphasis on the micro approach. On demand. Prerequisites: ECO 211 and ECO 212.

ECO 199, 491, 493, 494, 495, 499 (See pages 14-15)

EDUCATION • EDU

Courses with an asterisk give credit only toward the Bachelor of Science in education degree and are to be taken only by elementary education majors, not by those in secondary certification programs.

EDU 095 Reading Improvement I (2) For college students who are under prepared in vocabulary development, reading comprehension, oral communication, or basic study skills. Fall semester. This course does not earn credit toward graduation.

EDU 096 Reading Improvement II (2) A continuation of Reading Improvement I. An individualized laboratory course in advanced study skills, including skimming, scanning, outlining, summarizing, note taking, and critical analysis of specialized types of reading materials. Spring semester. This course does not earn credit toward graduation.

EDU 099 Foundations of Academic Success (1) This course introduces the student to the most basic and critical academic study skills and strategies necessary for success in the collegiate environment. Students will learn to view academic study skills as an essential foundation to the rest of their academic career at the institution. Students will develop a basic understanding of the fixed and growth mindsets and will be able to articulate the importance of a growth mindset within the learning environment. Students will work toward developing critical psychological competencies that lead to success, including self-efficacy, approach behaviors, and internal locus of control. Generally, this course will introduce students to their own personal potential for continuous growth, development, and maturation as active learners within in the collegiate environment. Every Fall (first 8 weeks of the semester). Prerequisite: Admitted on Academic Probation.

EDU 202 Social and Philosophical Foundations of Modern Education (3) This course reviews the historic, philosophical, and social developments that affect American education, along with a study of its organization and legal foundations. Particular attention is given to the development of a philosophy of education. The course is designed to analyze historical, philosophical, and social developments in American education from a Christian perspective. This course must be taken at Geneva College. Fall and Spring semesters.

EDU 211 Educational Psychology (3) Psychological principles and theories applied to teaching. The coverage of psychological variables that influence teacher functioning in the classroom, the role of human development, learning, instructional models, motivation, classroom management and discipline, the nature of and the response of teachers to exceptionality, and ethnic, racial, and social differences in schools. Every semester.

EDU 214 Stage 2- Field Experience Exploration (1) In this course, each student will complete 20 hours of field experience in a Birth through PK setting that includes students with and without disabilities. Assignments related to Cognitive,

Physical, Social, Behavioral, and Language Development will be given and students will participate in small group and individual tutoring with reading, math, and other subject matter; activities with outdoor and indoor play; and monitoring classroom routines and procedures. These assignments will help students explore various issues related to the development of children in this age range. Prerequisite: Act 34, 114, and 151 clearances. Every semester.

EDU 216 Stage 1- Field Experience Observation (1) Systematic visitation, observation and participation in elementary school classroom. Nine seminar classes will help explore educational methods, techniques, and related issues. Recommended to be taken during the sophomore year. It is a prerequisite to junior year courses. Every semester. Credit granted up to two semesters. Prerequisites: Act 34, 114 and 151 clearances. Every semester.

EDU 217 Level 1- Field Experience, 4-12 (1) Systematic visitation, observation and participation in the secondary school classroom. Must be taken by the sophomore year. It is prerequisite to junior year courses. Spring semester. Prerequisites or Co-requisites: EDU 211 or PSY 211 and Act 34, 114, and 151 clearances.

EDU 219 Level 2-Field Experience Exploration, 4-12 (1) A ten week practical field experience and a series of discussion seminars. The student is assigned to a local secondary or middle school where he/she observes and carries out tasks assigned by the professional teachers. Discussion seminars are scheduled throughout the semester. The student will expand his/her understanding of teaching techniques, classroom management strategies and other related issues during the seminar. One of the primary goals of this course is to help the student develop an understanding about the nature of the student learning and effective types of instructional mediation in a secondary school environment. Fall semester. Prerequisites: Act 34, 114, and 151 clearances.

EDU 220 Tutoring (1) Thirty hours of tutoring in a supervised setting. With permission from the instructor and education department chair, credit can be given for working with tutoring programs or other directed tutoring situations. Credit granted up to two semesters and graded as credit/no credit. Prerequisites: EDU 211 or PSY 211 and sophomore standing.

EDU 249 Teaching of Science for PreK-4 (3) This course provides the future teacher with preparation for teaching science at the PK-4 grade level. A variety of strategies and philosophies for teaching will be explored. Inquiry-based science is an important focus of the course. Every semester.

EDU 251 Integrating the Arts in the PreK-4 Classroom (3) The course will focus on the integration of the arts- visual arts, dance/movement, music/song, drama/theater- at the PreK-4 grades. The course will build an appreciation of the arts as well as basic concepts in the arts. It will also develop in the preservice teacher an understanding how the arts can be used to support and develop the core subjects of math, language arts, science and social studies. The emphasis will be What is basic to the arts, Why integrating the arts can be essential to the curriculum, and How the arts can be used in the PreK-4 classrooms. Prerequisite: PK4/PK8 Special Education majors only or by permission. Every semester.

EDU 290 Educational Technology (2) A course designed to explore various technology tools and instructional strategies to enhance student learning. Fall and Spring semesters.

EDU 303 Introduction to Christian Education (3) Teaching of the Scriptures as they relate to education; the role of the teacher in the Christian school; the history of Christian education; and the organization and administration of the Christian school. Offered as needed.

EDU 321 Teaching of Reading PK-4 (3) This course covers foundations of the reading process, history of reading methodologies, current approaches to teaching reading, RTI, ELL, and evidenced-based teaching strategies involved in phonemic awareness, decoding, vocabulary, comprehension, and fluency for PK-4 teachers. Every semester.

EDU 323 Teaching Children Mathematics PK-4 (3) The course provides a strong background in teaching children mathematics PK-4. It was designed to examine math concepts developed in PK-4 and best practices for teaching these concepts, explore the role of assessment, provide opportunity to examine math standards, and explore and reflect on the teacher's role in the creation of a positive math environment. Every semester.

EDU 342 Children's Literature Pre-K-4 (3) This course is an introductory course in children's literature that gives a brief overview of the field and the various genres as they are used in the elementary school. Books that are appropriate for children ages 3-12 will be read and discussed, and teaching strategies that involve literature in the context of the curriculum will be modeled. Every semester.

EDU 343 Meeting the Instructional Needs of PreK-4 English Language Learners: Language & Cultural Diversity in the PK-4 Classroom(3) This course is designed to prepare future teachers to work with English Language Learners (ELLs) in the PK-4 classroom. This includes using effective strategies to help ELLs meet the PA Academic Standards, as well as working and communicating with the ESL Program Specialist in regards to appropriate and effective classroom instruction, Pennsylvania's English Language Proficiency Standards (ELPS), and assessment data. Every semester.

EDU 345 Advanced Teaching of Reading and Writing PreK-4 (3) This course investigates current approaches to teaching reading and writing and includes strategies involved in assessing, planning, and instructing in a balanced literacy curriculum within the context of an advanced field placement. Every semester.

EDU 346 Language Arts in Early Childhood PreK-4 (3) This course covers listening, speaking, reading, and writing skills as they apply to child development and the early childhood curriculum. Teaching strategies for the language arts and the integration of the language arts into content areas and ELL education will be addressed. Every semester.

EDU 347 Teaching of Social Studies in the PreK-4 Grades (3) This course provides the future teacher with preparation for teaching in the content area of social studies in prekindergarten-4th grade. A variety of strategies and philosophies for teaching will be explored. Prerequisites: Educational psychology and requirements as mandated by Chapter 354. This course is part of a block of courses in the PreK-4 major. Field experience is a major component of the course. This course must be successfully completed prior to student teaching. Every semester.

EDU 370 Survey of Disabilities- PreK-4 and PreK-8 Special Education (3) This course will provide PK-4-PK8 Special Education aspiring teachers with a survey of the characteristics of special needs students, including differences in Cognitive, Physical, Social, Behavioral, and Language Development. Academic challenges of special education students will be highlighted including their specific needs and legal status. Federal legislation, team collaboration, special support services, and IEPs will be discussed. Every semester. Prerequisites: EDU 211 or PSY 211 and requirements as mandated by Chapter 354. Every semester.

EDU 375 Survey of Disabilities- 4-8 and Secondary (3) This course will provide 4-8 and Secondary Education aspiring teachers with a survey of the characteristics of special needs students, including differences in Cognitive, Physical, Social, Behavioral, and Language Development. Academic challenges of special education students will be highlighted including their specific needs and legal status. Federal legislation, team collaboration, special support services, and IEPs will be discussed. Fall semester. Prerequisites: EDU 211 or PSY 211 and requirements as mandated by Chapter 354. Fall semester.

EDU 380 History of Mathematics & Mathematics Education (2) Today's efforts to reform the teaching of mathematics will be examined in an historical context. Both the history of mathematics education and the history of mathematical thought will be explored. The great thinkers and their contribution to mathematical thought will be highlighted. The implications of various worldviews, including a Christian worldview, concerning the nature of mathematics and mathematics pedagogy will be examined. Spring semester. Corequisites: EDU 382 and requirements as mandated by Chapter 354. Cross-listed as MAT 380.

EDU 382 Math Curricula in the Middle and Secondary School (2) An introduction to curriculum resources focusing on what is critical for students to know and be able to do. Emphasis is on creating unity among the written, taught, and tested curricula. Those taking the course will become knowledgeable about and able to use the standards of the State of Pennsylvania and the National Council for the Teaching of Mathematics (NCTM) with regard to their own teaching of mathematics. Spring semester. Corequisites: EDU 380 and requirements as mandated by Chapter 354. Cross-listed as MAT 382.

EDU 385 The Role of Phonics and Spelling in Literacy Instruction (3) Principles of phonics and spelling patterns as aids to word identification will be addressed, as well as methods of teaching and assessing phonemic awareness, alphabetic principle, spelling and fluency within diverse contexts to diverse learners. This course will also examine current research on different phonics approaches in reading and spelling instruction. Spring only.

EDU 415 Literacy Across the Curriculum Grades 4-12 (3) This course provides preservice teachers with an understanding of the ways in which reading and writing can be used to enhance students' comprehension of content area material. Every Spring.

EDU 420 Educational Assessment (3) Methods and instruments for evaluating the individual and the various outcomes of the school program; elementary statistical techniques for interpreting measurements. Every semester. Prerequisites: EDU 211 or PSY 211 and requirements as mandated by Chapter 354.

EDU 430 Student Teaching Performance—Special Education (2) Observation and pre-service teaching under the supervision of a cooperating teacher and a student teaching supervisor from Geneva College. Every semester. Prerequisites: Student must meet all criteria delineated on page 60 must have completed the special education block of courses, and must have been accepted as a student teacher.

EDU 431 Student Teaching Performance—Elementary (2) Observation and pre-service teaching under the direction and supervision of a cooperating teacher and a student teaching supervisor from Geneva College. Every semester. For prerequisites, see admission to student teaching section on page 60.

EDU 432 Student Teaching Performance – 4-12 (4) Observation and pre-service teaching under the direction and supervision of a cooperating teacher and a student teaching supervisor from Geneva College. Every semester. For prerequisites, see admission to student teaching section on page 60.

EDU 433 Student Teaching Portfolio (4) An integral part of student teaching, the portfolio experience is an opportunity for students to produce a collection of materials to show growth of knowledge and application of teaching practices. It is expected that, in the production phase, students will reflect on their performance and analyze their own work. A well-developed portfolio will be a useful tool to help a graduate present herself or himself to prospective employers. Every semester. For prerequisites, see the admission to student teaching section on page 60.

EDU 434 Student Teaching Seminar (4) A weekly seminar provides a context in which professional issues can be explored and to which student teachers can bring issues they need to raise. The seminar will revolve around reviewing professional literature, developing curriculum materials and lesson plans, and participating in analysis and resolution of real and simulated concerns. Every semester. For prerequisites, see admission to student teaching section on page 60.

EDU 470 Advanced Studies in Special Education (3) Prepares students for classroom teaching through (1) understanding the historical foundations of special education, (2) demonstrating an understanding of IDEA, ADA, Section 504, and ESSA and how these acts impact the school, (3) understanding procedural safeguards, disciplinary procedures, preventing over-representation of diverse students, effective early intervention procedures to prevent placement, (4) authoring an appropriate transition IEP based on a student's post secondary and independent living needs as well as the academic needs. This course includes field experience. Prerequisites: EDU 370 and requirements as mandated by Chapter 354. Concurrent enrollment in EDU 471, 472, 473 and 474.

EDU 471 Assessment of Exceptional Children (3) Prepares the students to assess individuals with disabilities by (1) applying general evaluative and assessment techniques to exceptional children, (2) identifying types of instruments used to assess exceptional learners, (3) identifying factors involved in collecting, interpreting, and analyzing information about the family, school, and personal history of exceptional learners, (4) applying universal screenings and progress monitoring techniques within field placements, (5) interpreting evaluative data for screening and placement; (6) evaluating student progress toward mastery learning outcomes and objectives, (7) organizing, interpreting, and summarizing evaluation data for instructional planning, delivery, and management, and (8) authoring an appropriate IEP based on student's individual needs and present levels of performance. Prerequisites: EDU 370 and requirements as mandated by Chapter 354, concurrent enrollment in EDU 470, EDU 472, EDU 473, EDU 474. Every semester.

EDU 472 Academic Skill Intervention for Exceptional Children (3) Prepares prospective teachers to develop and implement special education and inclusive academic programs for the physically and/or mentally disabled student. Proven methods, strategies, and techniques will emphasize the required planning behind the use of such methods, strategies and techniques. Geneva students will be given the opportunity to practice the skills learned through field experience work in local educational agencies prior to the student teaching experience. Prerequisites: EDU 370 and requirements as mandated by Chapter 354, concurrent enrollment in EDU 470, EDU 471, EDU 473, EDU 474. Every semester.

EDU 473 Behavioral Skill Intervention for Exceptional Children (3) Prepares prospective PK-8 Special Education teachers to develop and implement special education and inclusive programs of behavioral intervention for the physically and/or mentally disabled. Behavioral management, behavioral modification techniques, therapeutic crisis intervention, positive behavioral support skills, and other methods will be emphasized to prepare Geneva students to deal with problem behaviors with skill and confidence. Geneva students will be expected to practice their newly acquired skills and techniques through field experience work in local educational agencies prior to the student teaching experience. Prerequisites: EDU 370 and requirements as mandated by Chapter 354, concurrent enrollment in EDU 470, EDU 471, EDU 472, EDU 474. Every semester.

EDU 474 Teaching Reading to the Exceptional Child (3) Teaches the theory and skills necessary for success in teaching reading to exceptional students. A wide variety of research on proven methods and techniques in teaching reading to exceptional students will be covered in this course. Geneva students will be given the opportunity to work with children with reading disabilities through our on-campus reading laboratory as well as through field experience opportunities prior to student teaching. Prerequisites: EDU 370 and requirements as mandated by Chapter 354, concurrent enrollment in EDU 470, EDU 471, EDU 472, EDU 473. Every semester.

EDU 482 Intervention for Students in Inclusive Classrooms (Grades 7-12) (3) This course is designed to instruct the undergraduate student in techniques and strategies used in teaching students with special needs. It is designed to include technology as it relates to methods, how to use specific instructional approaches, and how to modify existing curricular methods to meet individual needs. Fall semester.

EDU 199, 491, 493, 494, 495, 499 (See pages 14-15)

ELECTRICAL ENGINEERING • ELE

ELE 222 Linear Circuit Analysis II (3) Use of Phasors in AC linear circuit analysis, AC Power Analysis including three phase systems, magnetically couple circuits, circuit frequency response, and the simulation of circuits. Spring semester, odd years. Prerequisite: EGR 212.

ELE 305 Electromagnetic Fields and Waves (4) Such topics as Coulomb's Law, Gauss' Law, energy and potential. Poisson and Laplace's equations, the steady magnetic field, time-varying fields, and Maxwell's equations. Fall semester. Prerequisites: PHY 202, MAT 405. Corequisite: MAT 261.

ELE 309 Electronic Devices and Circuits I (4) Introduction to the characteristics and circuit applications of diodes, field-effect and bipolar junction transistors and vacuum tubes. Includes energy band theory, graphical analysis, biasing, small-signal equivalent circuits, device modeling, and computer simulation. Emphasis is on analysis and design of power supplies, small-signal amplifiers, power amplifiers, oscillators, and switching circuits. Laboratory exercises in design, simulation, and construction of circuits and measurements of their properties. Fall semester. Prerequisite: PHY 202 or EGR 212.

ELE 324 Electrical Machines (3) Energy, power transfer devices, magnetic circuits, transformer analysis, introduction to rotating machinery. Spring semester. Prerequisite: EGR 212.

ELE 402 Communications Engineering (4) Amplitude, phase and frequency modulation, Fourier analysis and spectra, transmission and reception circuits, transmission line and antenna theory. Laboratory exercises in spectral analysis of modulated signals, communications circuits, and transmission line and antenna properties. Fall semester, odd years. Next offered, Fall 2019. Prerequisites: ELE 225 or EGR 316.

ELE 410 Electronic Devices and Circuits II (4) Continuation of ELE 309. Topics include feedback theory, linear integrated circuits with emphasis on operational amplifiers and their applications, SCR and Triac theory and applications, tunnel diodes, optoelectronic devices, and switching power supplies. Laboratory exercises in design, simulation, construction and measurement of circuits. Spring semester, even years. Prerequisites: ELE 309 and either EGR 316 or EGR 225.

ELE 440 Digital Signal Processing (3) Introduction to discrete signals and systems. Includes convolution, correlation, and Fourier transforms; sampling theorems, and digital filters. Offered in 2 lectures and one three-hour lab format. Fall semester, even years. Prerequisite: EGR 225 or EGR 316.

ELE 199, 491, 493, 494, 495, 499 (See pages 14-15)

ENGINEERING • EGR

EGR 100 Engineering: Calling and Vocation (1) Introduction to the engineering profession, the Biblical concepts of calling and vocation, and skills and information to enhance the transition from high school or work to college. Fall semester.

EGR 101 Introduction to Engineering (2) Introduction to engineering design and decision-making. Christian worldview applied to engineering. Use of logic, experimental data, and design criteria. Project-oriented. Every semester.

EGR 102 Computer-Aided Engineering (2) Design problems requiring the use of computers and professional software. Continuation of issues addressed in EGR 101. Introduction to engineering graphic design. Every semester.

EGR 211 Solid Mechanics (4) Statics of particles and rigid bodies. Equivalent force-couple systems and equilibrium in 2D and 3D. Frames and machines; centroids; introduction to friction. Mechanics of deformable bodies: stress, strain, tension, compression, torsion, bending, shear. Design and deflection of beams, stability of columns. Every semester. Prerequisite: MAT 161.

EGR 212 Linear Circuit Analysis I (3) DC and AC circuit analysis, network theorems, Kirchoff's Laws, topology, and computer aided techniques. Introduction to Fourier Analysis. Every semester. Prerequisite: MAT 162.

EGR 214 Dynamics (3) Plane kinematics and kinetics of particles and rigid bodies. Equations of motion, work and energy, impulse and momentum. Simple gyroscopic phenomena. Spring semester. Prerequisites: EGR 211, MAT 162.

EGR 225 Signals and Systems (3) Characterization of linear systems in terms of differential and difference equations, superposition, convolution, transfer function and frequency response. Emphasis on continuous-time signals and systems. Specific topics include Fourier series and transforms, Laplace transforms and their application to electrical systems, sampling theory and aliasing. Spring semester. Prerequisite: EGR 212.

EGR 304 Technology and Society (3) An examination of the interactions between technological development and the development of human societies. Emphasizes the historical approach and involves the use of historical, imaginative, theoretical, sociological, philosophical, and/or theological writings on technology and society. Cross-listed as HUM 304. Fall semester, even years. Prerequisites: HUM 203, SCS 110 (or two lab science courses), or consent of the instructor.

EGR 316 Process Control (3) Introduction to classical and modern control theory. Discussion of the elements of a practical system and computer modeling of such systems. Spring semester. Prerequisites: EGR 212, MAT 405.

EGR 322 Manufacturing Engineering (3) Introduction to both traditional and modern manufacturing engineering topics including Geometric Dimensioning and Tolerancing. Traditional manufacturing topics include machining, stamping, forming (plastics and metal), casting, metrology, etc. Modern manufacturing topics include Computer Numerical Control, Flexible Manufacturing Systems, robotics, CAD/CAM/CIM/CAPP, nano-fabrication, etc. Hands-on team projects/labs and plant tours included. Spring semester, odd years. Prerequisite: EGR 211 or permission of instructor.

EGR 325 Materials Engineering (3) Atomic bonding, crystal lattices, dislocation theory, phase diagrams, heat treatment, ferrous and non-ferrous alloys, ceramics and glasses, polymers and composites. Fall semester, even years. Prerequisite: CHM 221.

EGR 330 Thermal Fluid Sciences (3) Application of the first law of thermodynamics to systems involving heat transfer and fluid flow. Introduction to fluid properties, work and energy, basic rate processes (heat and momentum transfer), and application to heating, cooling, and movement of solids, liquids and gases. Every semester. Prerequisite: PHY 201.

EGR 331 Introduction to Thermal and Fluid Engineering Laboratory (1) Selected experiments in thermodynamics, heat transfer, and fluid flow integrated with EGR 330 topics. Additional topics in report writing, appropriate statistical and data presentation approaches. Fall semester. Corequisite: EGR 330.

EGR 332 Fluid Mechanics (4) Fluid properties and hydrostatics. Open channel flow, compressible flow, pipe flow and pipe networks, pumps and turbo machinery, boundary layers, dimensional analysis, similitude, lift and drag. Spring semester. Prerequisite: EGR 330 and EGR 331.

EGR 371 Operations Research (3) Quantitative approaches to management decision making. Includes review of probability, decision theory, linear programming, network analysis, inventory control, waiting line theory and simulation. Applications to business and industry. Cross-listed with BUS 371. Spring semester, even years. Next offered, Spring 2020. Prerequisite: MAT 105 or MAT 265.

EGR 401 Christian Ethics and Engineering (2) The engineering profession, professional life. Christian ethics applied to engineering, discussion of case histories of ethical problems in engineering. Spring semester. Prerequisite: Senior standing or consent of the instructor.

EGR 423 Quality Engineering (3) Introduction to traditional quality engineering topics such as statistical quality control (control charts, acceptance sampling, process capability analysis, design of experiments), total quality management, lean manufacturing, six-sigma concepts and practices, measurement, detection, reduction, elimination, and prevention of quality

deficiencies. Taguchi method and its application to engineering design. Spring semester, alternate years. Next offered, Spring 2020. Prerequisite MAT 265 or BUS 242. Cross-listed as BUS 423.

EGR 481, 482 Senior Design Project (2-3, 2-3) Projects derived from industry sources or realistic integrated design problems. Projects may be undertaken by individuals or teams. Projects may be interdisciplinary or specific to an area of concentration. Must be taken in sequence; EGR 481 will be graded in progress (IP); the final grade in EGR 482 will count for all four credit hours in the GPA. Every semester. Prerequisite: senior standing.

EGR 199, 491, 493, 494, 495, 499 (See page 14)

ENGLISH • ENG

ENG 095 English Proficiency (2) Development of basic writing skills in preparation for ENG 101. Limited to those recommended by department action. Fall semester. Credit-no credit. **NOTE: This course does not earn credit toward graduation.**

ENG 101 English Composition (3) Fundamentals of expository writing. Offers practice in reading, interpreting, and responding to texts. Passing grade to meet college requirement is C– or better. Every semester. **NOTE: Does not count toward the English major.**

ENG 102 Academic Writing and Research Process (3) The course is intended to serve those students who seek to improve the knowledge, skills, and strategies to find and critically evaluate information, and then organize the results of their research and communicate them in writing. Prerequisite: ENG 101 or equivalent. On demand or summers.

ENG 110 Proficiency in English as a Second Language (2) Development of oral and written communication skills in English for non-native users of English. Limited to those recommended by department action. Offered on demand. Credit-no credit.

ENG 112 Introduction to Literary Study and Research (3) Basics of literary critical theory, study of literary genres, written work applying various critical perspectives to literature. Fall semester.

ENG 113 Researched Writing (3) Writing based on various kinds of research and investigation primarily in the field of English studies; an emphasis on individualized projects and extensive practice in using library and literary resources. Fulfills core writing requirement for English and Writing majors. On demand or summers. Prerequisite: ENG 112.

ENG 151 Honors English Composition (3) Modes, styles, and rhetoric of expository writing. Prerequisite: Permission of the English Department. Fall semester.

ENG 201 Introduction to Creative Writing (3) Introduction to the forms and concepts of literary creation; treatment of the basic elements of compositional principles of fiction, poetry, and drama. Spring semester.

ENG 205 Advanced Composition (3) Study and practice of making expository writing answerable to the writer's voice, purpose, and audience. Spring semester.

ENG 212 Cinema (3) Structure, technique, and values in film. Film classics and contemporary movies will be studied with written responses required. Spring semester.

ENG 213 Topics in Non-western Film (3) Study of film focusing on theme, issue, genre, director, actor, or other film topic. Variable topics. Prerequisites: HUM 103. Alternate Fall semesters; Next offered Fall 2018, 2020.

ENG 215 Creative Writing: Fiction (3) Supervision for writing short stories, seminar discussion of class members' work, and individual conferences. Prerequisite: ENG 201. Alternate years; next offered Fall 2019, 2021.

ENG 216 Creative Writing: Poetry (3) Supervision for writing poetry, seminar discussion of class members' work, individual conferences. Prerequisite: ENG 201. Alternate years; next offered Fall 2018, 2020.

ENG 221 Newspaper (1) Workshop course for *The Cabinet* staff. Credit-no credit basis. Prerequisite: ENG 101 or COM 101 or PHI 100. Every semester. Repeatable.

ENG 223 Literary Magazine (1) Workshop course for *The Chimes* staff. Credit-no credit basis. Prerequisite: ENG 101 or COM 101 or PHI 100. Every semester. Repeatable.

ENG 232 Introduction to Rhetoric (3) Survey of rhetorical theories with applications to writing and analysis of texts. Prerequisite: ENG 101 or COM 101 or PHI 100. Fall semester.

ENG 241 Contemporary Newswriting (3) Fundamentals, including ethical principles and actual practice of newspaper reporting and writing. Alternate spring semesters; next offered Spring 2019, 2021.

ENG 242 Editing (3) Basic concepts in editorial writing, news editing, headlining, and layout and designing applicable to any publication. Alternate Spring semesters, next offered Spring 2020, 2022.

ENG 261 British Literature to 18th Century (3) Survey of British literature from its beginnings through the 17th century. Pre-requisite or co-requisite: ENG 112. Alternate Fall semesters, next offered Fall 2018, 2020.

ENG 262 British Literature from 18th Century to Present (3) Survey of British literature from 1680's to the present. Pre-requisite or co-requisite: ENG 112. Alternate Spring semesters, next offered 2019, 2021.

ENG 281 American Literature to Civil War (3) Survey of American literature from indigenous oral literature to Civil War. Prerequisite or Co-requisite: ENG 112. Alternate Fall semesters, next offered Fall 2019, 2021

ENG 282 American Literature from Civil War to Present (3) Survey of American literature from the Civil War to the present. Prerequisite or Co-requisite: ENG 112. Alternate Spring semesters, next offered 2020, 2022.

ENG 290 Non-Western World Literature (3) An introduction to the study of nonwestern cultures and literatures that includes a range of texts (in English translation) from regions that may include the Americas, Africa, Asia, and the Pacific Rim. Prerequisites: ENG 101 or equivalent and ENG 112. Alternate Fall semesters, next offered 2019, 2021.

ENG 291 Masterpieces of World Literature (3) Study of the concept of masterwork through examining examples from Western literature and challenges to that concept in examples of post-colonial literature. Prerequisite: ENG 112. Alternate Spring semesters, next offered Spring 2019, 2021.

ENG 301 Topics in Genre Writing (3) Introduces students to writing in a variety of popular fiction forms. Seminar-style class focused on discussion of class members' work; includes individualized conferences. Alternate Spring semesters, next offered 2020, 2022.

ENG 311 Writing for Business and Industry (3) Writing for technology and industry in a variety of modes. Practice in oral presentation. Alternate Spring semesters, next offered Spring 2019, 2021.

ENG 320 Tutoring Writing (2) Instruction and practice of tutoring writers needing guidance in developing writing skills. Work in Writing Center is integral to course. Fall semester.

ENG 328 History of the English Language (3) Development from Indo-European sources to contemporary forms. Alternate Fall semesters, next offered 2019, 2021.

ENG 335 Literature of Minorities (3) Study of literature of one or related minorities in American society—for example, African American, Native American or Asian American literature. Variable topics. Repeatable with different topic. Prerequisite: ENG 112. Offered on demand.

ENG 336 Studies in Women's Literature (3) Study of literature written by women from a variety of historical and cultural contexts. Prerequisite: ENG 112. Alternate years; next offered Spring 2020, 2022.

ENG 337 Immigration and American Literature (3) Study of the social, cultural, and literary history of various immigrant communities in America from the 19th to the 21st century. Prerequisite: HUM 103. Alternate Spring semesters, next offered Spring 2019, 2021.

ENG 344 Publishing (3) Study and practice of desktop publishing, other technology of publication, and approaches to being accepted for publication. Alternate years; next offered Spring 2019, 2021.

ENG 351 Shakespeare (3) Representative histories, comedies, and tragedies. Fall semester.

ENG 382 English Grammars (3) Traditional and modern, including generative grammar. Every semester.

ENG 390 Special Topics in Literature (3) Study of major author or related authors, or of a theme, issue, or other literature topic. Repeatable with a different topic. Prerequisite: ENG 112. Every semester.

ENG 394 Special Topics in Writing (3) Study and practice of various kinds of writing, creative and/or informational. Topics change from offering to offering. Offered on demand.

ENG 401 Advanced Creative Writing Workshop (3) Workshop-style format involving writing and revising in one established form in order to produce a publishable work. Prerequisite: ENG 215 or 216. Fall semester.

ENG 402 Teaching of Language Arts, 4-8 (3) Balanced literacy methods for integrating reading, writing, speaking, listening, viewing, and critical thinking activities into a literature-based program for middle school students. Note: This course has a field requirement. Every semester.

ENG 405 Teaching of English –Secondary (4) Methods course required of all students seeking certification to teach English on the secondary level. Focus on approaches appropriate to middle and high school students. Field experience required as part of the course. Prerequisite: Junior standing. Fall semester.

ENG 413 Teaching English as a Second Language (3) Theory, principles, and practice of teaching English language skills to non-native speakers of English. Fall semester.

ENG 489 Majors Seminar (3) Focused seminar on literary, historical, or cultural topics designated in current class schedule. Research and presentation of a major paper. English and writing majors only. Repeatable. Prerequisites: ENG 112, ENG 232, and senior standing. Fall semester.

ENG 199, 491, 493, 494, 495, 499 (See pages 14-15)

ENGLISH AS A SECOND LANGUAGE • ESL

ESL 310 Academic Oral Communication (2) Development of listening and speaking skills in an academic setting. Classroom emphasis placed on video lectures, note-taking, discussions, and presentation on academic topics. Offered on demand.

ESL 320 Academic Writing (2) Development of a clear, natural, and effective written communication in English. Awareness is placed on style, levels of usage, and the difference between written and spoken language. Vocabulary enrichment through readings and compositions. Offered on demand.

ESL 330 Academic Reading (2) Development of strategies for academic reading, speed, and overall comprehension of authentic material. Vocabulary enrichment through readings and discussions of academic texts. Offered on demand.

ESL 410 Academic Oral Communication (2) Development of the ability to listen to authentic, fluent speech in lectures and note taking. Classroom emphasis placed on video lectures, note taking, discussions, and presentations on academic topics. Offered on demand.

ESL 420 Academic Writing (2) Development and refinement of a clear, natural, and effective written communication in English. Emphasis on academic grammar and rhetorical skills needed for English 101. Awareness is placed on style, levels of usage, and the difference between written and spoken language. Vocabulary enrichment through readings and compositions. Offered on demand.

ESL 430 Academic Reading (2) Development of strategies for academic reading, speed, and overall comprehension of authentic material. Vocabulary enrichment through reading and discussion of advanced academic texts. Offered on demand.

ENVIRONMENTAL ENGINEERING • EVE

EVE 240 (4) Water Quality Control (4) Stewardship of God's creation; material and energy balances, physical, chemical, and biological processes for the treatment of water supplies, municipal wastewaters, and industrial wastewaters. Fall semester. Prerequisite: CHM 111. Co-requisite: MAT 162.

EVE 341 Environmental Monitoring and Impact Analysis (3) Design and operation of air and water quality monitoring systems. Sampling methods for air, water, sludges, and solids. Introduction to environmental impact analysis. Spring semester. Prerequisites: EVE 240 and MAT 265.

EVE 453 Solid and Hazardous Waste (3) Generation, handling, collection, processing, treatment and disposal of municipal solid waste; unit processes for hazardous waste treatment, including incineration and solidification; landfills and ground water contamination. Spring semester, alternate years. Next offered, Spring 2020. Prerequisites: CHM 221 and either EGR 330 or CHM 307.

EVE 454 Air Pollution Control (3) Sources and impacts of air pollution, atmospheric transport, and dispersion processes, unit processes for air pollution control in stationary and mobile sources. Fall semester, odd years. Prerequisites: CHM 221 and either EGR 330 or CHM 307.

EVE 461 Surface Water Hydrology (3) Hydrologic cycle, focusing on the rainfall-runoff process, stream flow, and evapotranspiration. Reservoirs, open-channel flow, flow routing, contaminant transport, and dispersion. Spring semester, odd years. Prerequisites: CHM 111 and EGR 330.

EVE 462 Ground Water Hydraulics and Hydrology (3) Hydrologic cycle, focusing on infiltration, ground water flow, and aquifers. Darcy's law, continuity equation, well theory, contaminant transport and dispersion. Spring semester, alternate years. Next offered, Spring 2020. Prerequisites: CHM 111 and EGR 330.

EVE 199, 491, 493, 494, 495, 499 (See pages 14-15)

ENVIRONMENTAL SCIENCE • EVS

EVS 111 Environmental Science (4) An introduction to environmental issues and Biblical principles of environmental stewardship with emphasis on human impacts on the environment as well as approaches and solutions that minimize negative impacts. This course is designed for science and environmental engineering majors. Three hours lecture and three hours laboratory per week. Spring semester. Prerequisites: BIO or EVS or EGR (env. conc) major or permission of instructor.

EVS 221 Environmental Ethics (3) Critique and application of ethical theories that influence decision-making related to environmental issues and controversies, with an emphasis on biblical principles that inform environmental ethics. The history of the modern environmental movement and the writings of influential thinkers will provide a backdrop for our study of environmental ethics. Spring semester, even years. Prerequisites: BIO 107 or EVS 111 or SCS 105 or permission of instructor.

GREEK • GRK

GRK 101, 102 Elementary Hellenistic Greek I, II (3, 3) The purpose of these courses is to enable students to begin reading and translating the Greek New Testament on their own. Emphasis is placed upon understanding the basic grammar, developing a working vocabulary and basic translation methods. Prerequisite: GRK 101 is a prerequisite for GRK 102. Fall and spring semesters, alternate years.

GRK 201 Intermediate Hellenistic Greek (3) The purpose of this course is to enable students to gain greater proficiency in reading and studying the Greek New Testament. Elements of advanced Greek grammar and syntax are introduced through translation assignments. Basic methods of New Testament Greek exegesis are also demonstrated and practiced. Prerequisite: GRK 102 or permission of the instructor. Fall semester, alternate years.

GRK 202 Biblical Greek Exegesis (3) A continuation of Intermediate Hellenistic Greek. It involves the further development of reading facility and the application of exegetical principles and methods. Prerequisite: GRK 201 or permission of the instructor. Spring semester, alternate years.

GRK 199, 491, 493, 494, 495, 499 (See pages 14-15)

HEBREW • HEB

HEB 101, 102 Elementary Biblical Hebrew I, II (3, 3) An introduction to Biblical Hebrew grammar, with reading in simple Biblical prose texts. Prerequisite: HEB 101 is a prerequisite for HEB 102. Fall and Spring semesters, alternate years.

HEB 201 Intermediate Biblical Hebrew (3) Continuation of Hebrew grammar and syntax with emphasis upon reading selected Biblical passages on an intermediate level. Prerequisite: HEB 102 or permission of the instructor. Fall semester, alternate years.

HEB 202 Biblical Hebrew Exegesis (3) Development of reading facility in the Hebrew Bible, with application of basic exegetical principles. Prerequisite: HEB 201 or permission of the instructor. Spring semester, alternate years.

HEB 199, 491, 493, 494, 495, 499 (See pages 14-15)

HISTORY • HIS

HIS 150 Survey of American History (3) An overview of major themes in American history from the pre-Colombian period to the present. Designed for non-history majors, especially elementary education. Special attention given to Pennsylvania history. Spring semester, every year. Core, Society Group B option.

HIS 151 American History Through Reconstruction (3) Development of the nation from colonial origins through 1870s. (Shanghai campus and Early College program only).

HIS 152 American History Since Reconstruction (3) Survey from 1870s to the present. (Shanghai campus and Early College program only.)

HIS 201 Introduction to Historical Studies (3) An introduction to the practice and discipline of history, ranging from research and writing to more theoretical concerns. Spring semester, every year.

HIS 220 Europe I: Ancient through Medieval (3) Survey of ancient and medieval history, from fifth century BC to the 14th century AD, tracing major ideas, institutions, and events and the shift from Mediterranean to European culture. Offered on a three semester rotation. Core, Society Group B option.

HIS 221 Europe II: 1500–1815 (3) From the Renaissance through the Napoleonic period. The formation of modern Europe. Offered on a three semester rotation. Core, Society Group B option.

HIS 222 Europe III: 1815–Present (3) Nineteenth and twentieth century Europe. Offered on a three semester rotation. Core, Society Group C option.

HIS 250 U.S. I: Colonial (3) Survey of the colonial era from the earliest settlements to the adoption of the Constitution. Special emphasis on Pennsylvania history. Offered on a three year rotation. Core, Society Group B option.

HIS 251 U.S. II: 19th Century (3) Development of the nation from the early republic through the 1890's. Special emphasis on Pennsylvania history. Offered on a three year rotation. Core, Society Group B option.

HIS 252 U.S. III: 20th Century (3) Survey of major themes in US history since 1900. Special emphasis on Pennsylvania history. Offered on a three year rotation. Core, Society Group B option.

HIS 260 Latin America (3) Colonial developments from discovery to independence and problems of the republics from independence to the present. Alternate years. Core, Society Group C option.

HIS 270 Middle East (3) History of Islam, noting especially its impact on political behavior of the Islamic countries and including the Arab-Israeli confrontation. Alternate years. Core, Society Group C option.

HIS 280 Modern Africa (3) History and politics of Sub-Saharan Africa, with emphasis on the interaction of indigenous and Western influences. Alternate years. Core, Society Group C option.

HIS 290 Modern Asia (3) Historical and political aspects of the people, particularly in China and Japan, especially since 1800. Alternate years. Core, Society Group C option.

HIS 300 Special Surveys (3) Specialized surveys of various historical topics not otherwise listed in the catalog. Examples would be philosophy of history, Pennsylvania history, history of the British Empire, women's history, etc. May be repeated with different topics. Offered every year.

HIS 303 Special Surveys- Society Group B (3) Specialized surveys of various historical topics that may be counted toward the History major or to fulfill the Core Curriculum Society B requirement. Topics vary from semester to semester and may include: "The Crusades;" "Greece and Rome;" "History of Spain;" etc. Offered regularly.

HIS 304 Special Surveys- Society Group C (3) Specialized surveys of various historical topics that may be counted toward the History major or to fulfill the Core Curriculum Society Group C requirement. Topics vary from semester to semester, and may include "Colonial Latin America;" "Genocide;" "Global Christianity;" "World Religions;" etc. Offered regularly.

HIS 342 Gilded Age and Progressive Era (3) This course provides an in-depth investigation of the years from 1877 through the 1920s, a time when many of the structures that define modern America originated. Industrialization, immigration, settlement of the West, social and national political reform, urbanization, Jim Crow-ism, the end of traditional Native American lifestyles, and New Manifest Destiny are among the topics explored. Offered periodically.

HIS 351 U.S. Foreign Policy (3) Survey of the history of American foreign relations with particular emphasis on the period 1898 to the present. Investigates the ideas, decisions, personalities, and ideological underpinnings that have shaped and defined US foreign policy. Offered periodically.

HIS 361 Religion and American Civilization (3) A survey of American religious history from the pre-Colombian period through the present. Offered periodically.

HIS 365 World Religions (3) This course will survey the major religious traditions, with particular focus upon Hinduism, Buddhism, Chinese religions, and Islam. Consideration will be given to assessment of the historical development of beliefs and practices of these traditions from a Christian perspective. Particular attention will be paid to the doctrinal, intellectual, and ritual dimensions of these religions. Crosslisted with PHI 318. Every spring. Core, Society Group C option.

HIS 366 Global Christianity (3) This course explores the worldwide Christian movement from the perspective of the current African, Asian, and Latin American resurgence and the shift of Christianity center of gravity from the global north to the global south. Offered every Fall semester. HUM 304 and/or Core, Society Group C option.

HIS 371 United States Cultural History (3) An exploration of overarching themes in American cultural history, including marriage and family, consumerism, political culture, and sport. Offered periodically.

HIS 381 History of Britain (3) Overall view from earliest times to the present, with special emphasis on the unique developments that distinguish British history from continental history. Offered periodically.

HIS 391 History of Russia (3) An overall consideration of Russian history, with emphasis on the modern period and the distinctive features of Russian history and culture. Offered periodically.

HIS 401 Selected Themes in History (3) Specialized reading and writing within a subfield. Examples: French Revolution, capitalism and its American critics, genocide, Stuart Britain, the Israel-Palestine conflict. Repeatable with different topics. Prerequisite: junior or senior standing or permission of the instructor.

HIS 421 Senior Seminar (3) A seminar on a topic or theme of the instructor's choosing, involving intensive engagement with historiographical literature as well as original research. Senior status. Every fall. May be replaced by SSC 403 for Education majors only.

HIS 422 History and Theory (3) A reading course on theory and methodology, including readings on the intersection of Christian faith and the doing of history. Every fall. Prerequisite: senior standing.

HIS 199, 491, 493, 495, 499 (See pages 14-15)

HONORS • HON

HON 101, 102 Freshman Honors "College" (1, 1) This course is a two course sequence (HON 101/HON 102) designed to challenge first-year honors students to consider questions profoundly relevant to their new vocation as "college students." What is college for? What is a Christian college? Why are you here? (i.e., in college/in a Christian college). While HON 101 in the Fall semester operates more like a traditional classroom, HON 102 in the Spring semester consists of a book discussion and various learning and service experiences, with the purpose of understanding how our studies and vocations can bring glory to God. Prerequisite admission to the First Year Honors Program. Fall and Spring semesters. Prerequisite for HON 102: HON 101, admission to the First Year Honors Program.

HON 120 Society (3) This course is for First-Year Honors Program cohort members only and is designed to explore American society, including how a few scholars have characterized the nature and relative promise of American society, as well as what might be called a Christian view of society, with the ultimate goal of helping FYHP students discern Christian faithfulness in a multifaceted society. It fulfills one social science core requirement. Prerequisites: HON 101, HUM 103 Honors Program. Spring semester.

HON 201 Book Discussion “Calling” (1) This course explores from a Christian perspective, the many dimensions, or levels of significance, the term “calling” carries (e.g., personal calling, vocational calling, religious calling, and spiritual calling, etc.) Prerequisite admission to the Young Scholars Program. Fall semester.

HON 300 Academic Faithfulness (3) This course encourages students to develop a vision for their lives that is motivated by a love for Christ and focused on helping “young scholars” to understand Christian faith and the academic life more clearly and fully. Prerequisite: Admission to the Young Scholars Program. Spring semester. BIB 300 option.

HON 303 Book Discussion “Academic Faithfulness” (1) This course furthers the conversation begun in HON 300 by focusing on an additional book related to academic faithfulness. Prerequisite: HON 300. Spring semester.

HUMAN SERVICES • HSV

HSV 201 Introduction to Human Services (3) This course provides an overview of the human services profession, its history, values, goals and practices. Ethical and philosophical issues involved in providing human services to those in need will be explored. Fall semester.

HSV 202 Human Diversity (3) This course surveys human diversity in terms of race, ethnicity, gender, and social class in contemporary American culture. The effects of oppression and prejudice will be explored on individuals and groups, as well as evaluating the consequences of social policy aimed at alleviating discrimination. Implications for the practice of human services will be discussed. Fall semester.

HSV 215 Human Services: Foundations and Calling (2) This course assists students in developing foundational competencies essential for success in the human service major. Content includes the exploration of calling and the integration of worldview and human services. Skills related to the theoretical and the applied constructs of the field will be introduced. Spring semester.

HSV 230 The Family System in Context (3) This class will consider the dynamic family in social context. Different theories and topics such as marriage, parenting, communication, conflict and economics will be discussed. The Biblical model of creation, fall and redemption will be the context for the class. Fall semester.

HSV 301 Social Welfare Agencies and Policies (3) This course surveys the history and current development of systems designed to serve those in need. Agencies oriented to meet the needs of special populations (e.g., the aged, children and youth, rural and urban groups) will be explored and the policies influencing their development will be critically analyzed. Fall semester. Prerequisite: HSV 201.

HSV 302 Program Evaluation for Human Services (1) This supplemental course will explore agency field experience from the vantage point of administrative program evaluation. Work in this course will allow students to advance their knowledge and skills doing program administration and applied research through program evaluation in human services settings. This course will be taken with HSV 303 and with/or subsequent to PSY 205/MAT 105. Fall semester. Prerequisites: HSV 201, 202, and PSY 201.

HSV 303 Agency Field Experience (3) The course is designed to afford students 90 hours of supervised field experience in diverse human services settings. Students will complete an agency rotation supplemented by weekly class discussion. Emphasis is placed on the integration of theoretical constructs and field observations. Every semester. Prerequisite: HSV 201, HSV 202, and HSV 215 or PSY 206.

HSV 305 Counseling and Helping Skills I (3) This course is designed to prepare the student for practice in human services agencies through the development of culturally sensitive helping relationships. Emphasis is placed on enhancing communication skills, developing interview techniques, and learning basic group skills and group interactive patterns. Spring semester. Prerequisite: HSV 201 or PSY 201. HSV, PSY, MIN, BIB, and BIOPSY majors and HSV minors only.

HSV 307 Generalist Practice, Model, and Theory (3) This course is designed to further advance the student's practice skills. Emphasis is placed on identifying client strengths, problem-solving, preparing case plans for individuals and families, and community and organizational interventions. Spring semester. Prerequisite: HSV 201 and PSY 201.

HSV 401 Senior Seminar (3) This course is offered in conjunction with the internship experience. It acts as a capstone course for the major. Students will be given the opportunity to consider their worldview, the Christian worldview and a Christian response to the discipline and issues of human services. The course acts as a preparation for the professional career launch of a student. The course is taken in conjunction with the field experience and is designed to support the student's field experiences. Must be taken with HSV 450. Every semester. Prerequisites: HSV 201, HSV 202, HSV 303, HSV 305, HSV 307, PSY 201, PSY 250, and SOC 120. HSV majors only.

HSV 405 Special Populations (3) This course will address the experiences of at-risk groups including victims and offenders. Attention will be given to trauma and violence, human trafficking, mental health, addictions, crisis intervention, self-harm, and sexual minorities. A biblically-based response to special populations will be emphasized. Spring semester, odd year. Prerequisites: CRJ or HSV majors or minors, junior standing.

HSV 450 Field Experience (6) This course affords the student an opportunity to apply knowledge and theories obtained in course work to actual field experience. The student will be supervised in the agency placement by both an on-site coordinator and the Geneva placement advisor. A total of 20 hours per week will be spent on site during a 15-week semester period. Prerequisite: Enrollment depends on an application process that is administered by the HSV program director. One requirement is that the student have received credit for the following seven courses: HSV 201, HSV 202, HSV 303, HSV 305, HSV 307, PSY 201, PSY 250, and SOC 120. A second requirement is the acquisition of necessary governmental clearances. There are other requirements as well. Admission is only by application and eligibility. Complete application instructions and materials are available from the instructor. Students must have attained senior standing. Must be taken with HSV 401. Every semester. HSV majors only.

HSV 199, 292, 491, 493, 495 (See pages 14-15)

HUMANITIES • HUM

HUM 103 Invitation to the Humanities (3) An introduction to the Humanities disciplines and intellectual endeavor through a study of selected topics focusing on central concerns of our cultural heritage. One lecture and two discussion meetings each week. Every semester.

HUM 200 The Humanities in England and Scotland (3) This course is designed to expose students to the history, art, architecture, and literature of England and Scotland as unique expressions of Western culture that nevertheless illustrate the main themes and patterns of Western civilization. Offered as needed. Prerequisite: HUM 103.

HUM 203 Making the West (3) This course explores three dominant themes within western cultural history as expressed through the literary, visual, and musical arts. Diverse viewpoints on the nature of beauty, freedom, and truth from the classical period through the enlightenment will be discussed and evaluated from a Christian perspective. One lecture and two discussion meetings each week. Every semester. Prerequisite: HUM 103.

HUM 205 Ancient Roman World: Its Language, History, Religion and Culture (3) This course introduces the students of Rome With Purpose to the elements of the History of Rome, by focusing on the daily life of Ancient Romans in relation to their language, culture, and religion. As they live in Rome, the attendees are to observe and explore by field educational trips to ancient sites of Rome, Ancient Ostia, and Pompeii. The purpose of this course is to introduce the students to the historical and cultural context of the Roman World affecting future developments in the Westernized society. Every semester in Rome. Prerequisite: HUM 103.

HUM 213 Understanding the Art of Architecture (3) The purpose of this course is to inspire a comprehension of the built environment through the study and analysis of historical examples. Students will be challenged to examine buildings, both from the past and the present, and evaluate them in terms of the purposes for which they were designed and built and their significance as a part of the setting for human activities. Students will gain an in-depth understanding of what a building is and how it functions. An emphasis will be placed on European architecture and visits will be made to see examples in Rome and Florence. Every semester in Rome. Prerequisite: HUM 103.

HUM 214 History of the Christian Church (3) This course is a survey of the development of the Christian Church from the close of the New Testament period to the present time, with special attention to the role of Rome in the development of Christian thought. The course will provide an examination of the church as an institution and as a people. Thus, while

context, dates and names establish the background for historical understanding of the institution of the church, ideas will also be discussed from an explicitly evangelical perspective. Students will therefore gain a historical basis for understanding current ideas and trends in the church and in ministry. Each semester in Rome. Prerequisite: HUM 103.

HUM 301 Italy and the Western Humanities (6) This travel course explores western culture as expressed in the literary, visual, and musical arts in historical and intellectual context from origins in Judeo-Christian and Greco-Roman traditions through the 20th century. Particular emphasis will be placed on the study of ancient Rome, the Renaissance, the development of Christianity in Western Europe, and the Fascist era. The course will make extensive use of field trips in Rome and Florence. Spring semester, odd years. Course fulfills the requirements for HUM 203 and HUM 303. Prerequisite: HUM 103.

HUM 303 Perspectives: Faith, Culture, Identity (3) Survey of the movement of Western culture in the 19th, 20th, and 21st centuries through diverse perspectives on faith, culture, and identity as evidenced through literature, visual art, music, and in historical and intellectual contexts. Special attention will be given to contemporary issues and values. One lecture and two discussion meetings each week. Every semester. Prerequisites: HUM 103 and HUM 203.

HUM 304 Focused Options in Humanities (3) Various courses designed to deepen a student's understanding of some particular aspect of the art, history, thought, music, and literature of either Western or non-Western cultures. Courses will be offered through a variety of departments in the college and will be cross-listed as HUM 304 courses. Every semester. Prerequisites: HUM 103 and HUM 203 or consent of instructor; the instructor may choose to set additional prerequisites. NOTE: Students may take more than one course numbered HUM 304, so long as they do not repeat a course previously taken for credit.

HUM 305 The History of Ideas (3) This course is an introduction to the history of Western ideas and aesthetics- from the age of Classicism, through Christianity, the Renaissance, the Reformation, the Enlightenment, Romanticism, Modernism, and Globalism- designed to provide students with a more enhanced sense of how modern Western worldviews are informed by historical human thought and events. These views are further examined in light of the aesthetics of their ages, especially through literature, visual art, architecture, and music that reflect the thoughts and feelings of the movements. Field trips to classic sites in and around Rome are an integral feature. Every semester in Rome. Prerequisite: HUM 103.

HUMANITIES BOOK DISCUSSION • HMN

HMN 491 Book Discussion (1) Reading and discussion of one book. Several options each semester. Attendance at weekly group discussions required for credit. Enrollment limits determined by each instructor. Repeatable with different books. Subject to eight credit hour limitation. Graded credit-no credit.

INDEPENDENT • IDM

IDM 495 Independent Major Tutorial (1-3) Preparation of a paper, project, or completion of an internship directed by a faculty advisor that serves as a culminating experience.

LANGUAGES AND CULTURES • FLC

FLC 101, 102, 201, 202 (1-4) Designed to provide enrichment in the language and culture of a designated country and its people. Courses will cover the basic aspects of pronunciation, grammatical structures, and cultural knowledge needed for using the language in conversing. Vocabulary development will be an integral part of the course. Courses may include such languages as Italian, Chinese, Japanese, Russian, and others. Some of these courses may be offered using a nontraditional format such as individualized courses using audiovisuals. Offered on demand. No prerequisite for FLC 101; FLC 101 is a prerequisite for FLC 102.

FLC 201, 202 (1-4) A continuation of the material included in FLC 102. Emphasis will be on speaking, understanding, vocabulary development and cultural knowledge. Reading and writing skills will be introduced. Some of these courses might be offered using a nontraditional format such as individualized courses using audiovisuals. Offered on demand. Prerequisite: FLC 102.

LINGUISTICS • LIN

LIN 219 Introduction to Linguistics (3) Basic elements of phonology, morphology, syntax, and semantics. Fall semester.

LIN 220 Applied Linguistics (3) Issues and topics in historical linguistics, sociolinguistics, and psycholinguistics. Prerequisite: LIN 219. Spring semester.

LIN 384 Special Topics in Linguistics (3) Study of a major topic in theoretical or applied linguistics. Variable topics. Offered on-demand or summers. Prerequisites: LIN 219 and others as designated at time of offering.

LIN 199, 292, 491, 493, 495 (See pages 14-15)

MATHEMATICS • MAT

MAT 095 Algebra (3) A study of basic algebraic concepts and skills that underlie college-level mathematics and are required background for core science and statistics courses. This course does not count toward graduation but does for financial aid and full-time enrollment. The course may not be taken as an audit. Every semester.

MAT 101 College Algebra (3) A rigorous review of Algebra I and II with some geometry. Every semester. Math proficiency is required (See page 202).

MAT 102 Trigonometry (3) A detailed study of trigonometry. Spring semester. Prerequisite: MAT 101 or Math SAT 530 or Math ACT 21. Students may take only one course for credit from MAT 102 and 120.

MAT 105 Elementary Statistical Methods (3) Introduction to data collection, descriptive statistics, basic concepts of probability, inferential methods, hypothesis testing, correlation, and regression. Every semester. Math proficiency is required (See page 202).

MAT 120 Precalculus (3) Designed to prepare students for Calculus I. Review of algebraic manipulations, functions, trigonometry, radicals, complex numbers, logarithms, and conic sections. Five hours per week. Fall semester. **Prerequisite: Math SAT score at least 530, Math ACT score at least 21, MAT 101 or MAT 102.** Students may take only one course for credit from MAT 102 and 120.

MAT 130 Discrete Math (3) Number systems, set theory, graph theory, induction, Boolean algebra. Spring semester. Prerequisite: MAT 101 or Math SAT 530 or Math ACT 21.

MAT 161 Calculus I (4) Limits, differentiation, related rates, analytic geometry, max/min problems, basic integration, area, volume of revolution, and applications. Five hours per week. Every semester. Prerequisite: Math SAT score at least 590, math ACT score of at least 25 and experience with trigonometry; or MAT 120 Precalculus **or MAT 102 Trigonometry.**

MAT 162 Calculus II (4) Exponential and logarithmic functions, inverse trig functions, L'Hopital's rule, techniques of integration, infinite series, series expansions, and polar coordinates. Five hours per week. Every semester. Prerequisite: MAT 161.

MAT 261 Calculus III (4) Multivariable calculus; introductory linear algebra and differential equations; partial derivatives; multiple integrals. Five hours per week. Every semester. Prerequisite: MAT 162.

MAT 265 Probability and Statistics I (3) A calculus-based study of probability distributions and densities, mathematical expectation, sampling theory, and hypothesis testing. Every semester. Prerequisite or co-requisite: MAT 162.

MAT 266 Probability and Statistics II (3) A rigorous, mathematical development of many of the topics introduced in MAT 265. In addition, joint probability distributions, moment-generating functions, order statistics, and selected topics related to actuarial science will be covered. Prerequisites: MAT 261 and MAT 265. Fall semester, alternate odd years. Next offered, Fall 2019).

MAT 307 Linear Algebra (3) Vectors, vector spaces, matrices, determinants, linear transformations, eigen values. Fall semester. Prerequisite: MAT 162.

MAT 309 Introduction to Abstract Algebra (2) Groups, rings, integral domains, and fields. Spring semesters of alternate even years (next in Spring 2020). Prerequisite: MAT 130; pre- or co-requisite MAT 310.

MAT 310 Introduction to Real Analysis (2) A rigorous axiomatic approach to real numbers, sequences, limits, continuity, and derivatives. Spring semesters of alternate even years (next in Spring 2020). Prerequisite: MAT 162.

MAT 350 Numerical Methods (3) Solution of linear and nonlinear equations, polynomial interpolation and extrapolation, numerical differentiation and integration, ordinary differential equations, matrix operations. Fall semester, alternate even years (next in Fall 2018). Prerequisites: MAT 162 and (either CSC 101 or CSC 111), or permission of the instructor.

MAT 380 History of Mathematics & Mathematics Education (2) Today's efforts to reform the teaching of mathematics will be examined in an historical context. Both the history of mathematics education and the history of mathematical thought will be explored. The great thinkers and their contribution to mathematical thought will be highlighted. The implications of various worldviews, including a Christian worldview, concerning the nature of mathematics and mathematics pedagogy will be examined. Spring semester. Cross-listed as EDU 380.

MAT 382 Math Curricula in the Middle and Secondary School (2) An introduction to curriculum resources focusing on what is critical for students to know and be able to do. Emphasis is on creating unity among the written, taught, and tested curricula. Those taking the course will become knowledgeable about and able to use the standards of the State of Pennsylvania and the National Council for the Teaching of Mathematics (NCTM) with regard to their own teaching of mathematics. Spring semester. Cross-listed as EDU 382.

MAT 402 Teaching of Math, 4-8 (3) Study of the methods and procedures needed to teach math, grades 4-8. Fall semester.

MAT 403 Methods of Teaching Math (4) Study of the methods and procedures needed to teach high school algebra and geometry. Fall semester. Prerequisites: math education major, MAT 261, EDU 380, and EDU 382.

MAT 404 College Geometry (3) Euclidean Geometry developed from basic postulates. Prerequisites: math education major and junior standing or instructor permission. Fall semester, even numbered years.

MAT 405 Differential Equations (4) Methods of solution and application of ordinary differential equations. Every semester. Prerequisite: MAT 162.

MAT 409 Partial Differential Equations (3) Sturm-Liouville Theory. Fourier analysis and boundary value problems. The heat and wave equations. Spring semester. Prerequisite: MAT 261. Prerequisite or co-requisite: MAT 405.

MAT 410 Special Topics (3) Covers an advanced topic in mathematics or statistics according to student interest. Possible topics include Advanced Real Analysis or Topology. Offered on demand at the instructor's discretion. Prerequisite: instructor permission.

MAT 430 Mathematics Senior Project (1) Independent senior work on a project related to mathematics culminating in a written paper and an oral presentation. May be literature-related or connected with faculty-student research or applied projects. Fulfills the Major Capstone Experience for the Applied Mathematics major. Prerequisites: MAT 405 and senior standing, majors only.

MAT 199, 491, 493, 494, 495, 499 (See pages 14-15)

MECHANICAL ENGINEERING • MEE

MEE 321 Mechanics of Deformable Bodies (3) A review and continuation of the deformable body topics in EGR 211. Bending, torsion, direct stress and transverse shear in beams; curved members; thin-walled members; combined stresses; experimental stress analysis using strain gauges; theories of failure; deflection of beams; statically indeterminate problems; elastic stability of columns; energy methods; introduction to plasticity. Fall semester. Prerequisites: MAT 261, EGR 211.

MEE 324 Kinematics of Mechanisms (3) Displacement, velocity, and acceleration analysis of linkage and cam mechanisms by graphical and analytical methods. Synthesis of mechanisms. Gears and gear trains. Fall semester. Prerequisites: MAT 261, EGR 214.

MEE 333 Applied Thermal and Fluid Engineering (3) Application of thermodynamics and fundamental heat transfer concepts to power and refrigeration cycles and their components, with a focus on cycle modifications to improve efficiency. First and second law analysis of gas and vapor power and refrigeration cycles. Design and selection of heat exchangers. Radiation and multimode heat transfer. Thermodynamics of ideal gas mixtures with application to gas-vapor mixtures and combustion. Spring semester. Prerequisites: EGR 330 and EGR 331.

MEE 371 Instrumentation Engineering (3) A survey of sensors and their applications. Dynamic characteristics of sensors and of the analog and digital electronics involved in making measurements. Interpretation of signals based on appropriate first and second order models of system performance. Applications include measurement of strain, velocity, pressure, flow rate, acceleration, and temperature, and others as determined by the instructor and by student project needs. Fall semester, alternate years. Next offered, Fall 2018. Prerequisites: MAT 405 and either PHY 202 or EGR 212.

MEE 403 Mechanical Component Design (3) Statistical concepts, reliability, factor of safety, fatigue, and wear failure. Applications to the design of shafting, bearings, gears, springs, and fasteners. Design optimization. Fall semester. Prerequisite: MEE 321.

MEE 405 Finite Element Methods (3) Formulation of discrete elements for structural and stress analysis. Variational theorems. Isoparametric elements. Heat conduction, elastic stability, vibration, fluid flow, magnetics, and optimization problems solved using professional software. Spring semester. Prerequisite: MEE 321 or consent of the instructor.

MEE 410 Mechanical Vibration (3) Steady state and transient analysis of systems with a single or multiple degrees of freedom. Modal analysis and dynamic response of structures and machines. Introduction to the dynamics of continuous systems. Spring semester. Prerequisites: MAT 261, MAT 405, EGR 214.

MEE 416 Design of Thermal Systems (3) Applications of thermodynamics, fluid dynamics, and heat transfer to the design of thermal systems such as power plants, solar energy systems, and HVAC systems. Extension to complex cycles, heat exchangers, and radiation heat transfer. Includes individual and team design problems as a major component. Spring semester. Prerequisites: MEE 333 or (CHE 302 and CHE 315).

MEE 418 Reacting Systems (3) Equilibrium and kinetics of reacting flows. Techniques involved in choosing a reactor to produce a desired product. Possible applications include chemical synthesis, combustion systems, incineration, and pollution control systems. Taught concurrently with CHE 401. Fall semester. Prerequisites: CHM 221 and either EGR 330 or CHM 307.

MEE 199, 491, 493, 494, 495, 499 (See pages 14-15)

MINISTRY • MIN

MIN 201 Cultural Anthropology (3) General survey of cultural anthropology in which different cultural groups are studied. Particular emphasis is placed on the implications of cultural variations for Christian missions. Offered every other year. Society Group C option.

MIN 202 Holistic Spiritual Formation (3) An introduction to principles and practices of spiritual formation, including its nature, history, means, and outcomes. Offered periodically.

MIN 203 Discipleship (3) This course will explore and identify critical foundational elements toward embodying a definition of biblically based discipleship. Every other Spring.

MIN 204 Sustainable Missions (3) Students will develop a Biblical understanding and response to the poor, and consider ministry approaches that promote sustainability in a complex global context. Every other Spring, odd years.

MIN 205 Christian Education in the Local Church (3) Emphasis on principles essential for participation. Fall semester, alternate years. Prerequisite: BIB 113 or permission of the instructor. Offered periodically.

MIN 210 Evangelism (3) A study of the theology, the theory and the practice of evangelism. Prerequisites: BIB 112 and BIB 113.

MIN 215 Methods of Teaching the Bible (3) The focus of this course is on the structure, knowledge base, and practical application of teaching the Bible in a variety of ways and settings. Prerequisites: BIB 112 and BIB 113. Spring semester.

MIN 219 World Christian Movement (3) Selected types of societies, both past and present, that represent varying levels of cultural development. Cross-cultural and Christian approach to case studies. Offered periodically. Society Group C option.

MIN 220 Topics in Christian Ministry (3) Exposure to new approaches and strategies to ministry. Repeatable. Prerequisites: BIB 112, BIB 113, and sophomore standing.

MIN 224 Missions and Culture (3) This course aims to prepare students for Christian service in societies that differ significantly from their own. Students will research the features of a distant people group from historical and worldview perspectives, and consider how missionaries to such places can adapt themselves to significantly different cultural circumstances while bringing the heart of the gospel into such situations. Offered periodically. Society Group C option.

MIN 225 Globalism and Multiculturalism (3) This course explores the phenomenon of globalism in the 21st century as the world's "global village" is being forged by the inexorable forces of instantaneous communication, international transportation and trans-national corporations. Students will learn how these forces are influencing various aspects of life, from religion to politics to family dynamics, and will be encouraged to consider Christian responses to these forces. Offered periodically. Society Group C option.

MIN 227 Cultural Perspectives for Missions (3) This course explores, from anthropological and biblical perspectives, the nature of culture (especially, in the non-Western world), its constituent elements and other social structures and their impact on developmental processes. It aims to orient students toward acquiring skills for understanding cross-cultural dynamics and developing the requisite competences for effective cross-cultural engagement as ambassadors of Christ in a globalized pluralistic world. Every fourth semester.

MIN 240 Introduction to Student Ministry (3) Consideration of the Biblical basis for a relational ministry, of the current high school scene, and of the leadership qualities, techniques, and insights required for working with adolescents, both the uncommitted and the church-nourished. Fall semester.

MIN 242 Children's Ministry (3) This course will address the need to understand developmentally appropriate practices for infants through elementary-aged children as a prerequisite for effective children's ministry. Students will develop an understanding of how children learn and the appropriate ways to initiate, nurture, and sustain faith responses as children physically and cognitively grow and develop. A special focus will be given to the importance of family and church connections. In addition, students will learn how to communicate Biblical truths to children. Spring semester, alternate years.

MIN 244 Urban Student Ministry (3) The purpose of this course is to encourage in students a love for God's cities and people of the cities by giving students an introduction to urban youth, culture, dilemmas, and ministry models. Spring semester.

MIN 246 Campus Ministry (3) This course will address these key topics: developing essentials in Biblical theology; defining the mission of campus ministry; confirming calling; understanding college student development; and identifying effective approaches to campus ministry. Spring semester, even years.

MIN 250 Theory and Practice of Experiential Education (3) Comparing adventure education with traditional education, this class studies components of experiential education history, modalities, philosophy and effective Christian ministry. It includes practical pieces of how to develop, administer, and conduct experiential activities for a variety of settings including classrooms, youth groups, colleges, retreats, and camps. Every other Spring semester, even years.

MIN 253 Challenge Course Facilitation (3) This class will develop in students the ability to assess a group's need and design a challenge course experience to facilitate the necessary experience for growth. It will instruct and develop the personal and technical skills necessary to lead experiences that grasp meaning at its depth for various ages and purposes. Offered periodically.

MIN 292 Ministries Practicum (2) Opportunity to gain hands-on experience in missions, student ministry or pastoral ministry in a guided setting. Every semester.

MIN 311 Family Ministry (3) This course explores the theological significance of the family and its impact on nurturing faith. It considers various approaches and designs of family ministries as responds to the cultural challenges facing intergenerational engagement. Every Fall semester.

MIN 316 Special Topics in Student Ministry (3) Students will consider topics that reflect important aspects of the world of student ministries. They will critically consider challenges facing the church that include: Apologetics, Arts & Ministry, leadership, and cultural issues. Prerequisites: BIB 112 & BIB 113. Every Fall semester.

MIN 319 Contemporary Adolescent Culture (3) A survey of the last 40 years of American history investigating social trends and technology that have changed the nature of adolescence and must be considered as we attempt to evangelize teenagers.

MIN 430 Senior Seminar (3) This course is dedicated to pulling all of the preliminary course work of the prior three years into one cohesive whole. Students will produce their own student ministry manual—as well as complete, in a practical manner, their ability to articulate a wholistic, theoretical, and Biblical approach to student ministry. Every semester.

MIN 493 Student Ministry Internship (9) Mentored student ministry experience in a church or ministry setting taken in one or two semesters. Every semester.

MIN 199, 292, 491, 493, 494, 495, 499 (See pages 14-15)

MUSIC APPLIED • MUA

MUA 105 Beginning Piano for Adults (1) Introductory class lessons for non-music majors who have no prior experience at the piano. Offered periodically.

MUA 106 Class Piano I (1) Designed for music majors who, having little or no previous experience with piano, need to acquire the skills necessary to pass the piano proficiency examination. Every semester. Repeatable.

MUA 107 Class Piano II (1) Continuance of preparation for the piano proficiency examination. Every semester. Repeatable.

MUA 121, 122 Private Lessons (1–2) Private instruction in voice, piano, organ, or other instrument. Music majors take two half-hour lessons per week for two credit hours; others take one lesson per week for one credit hour. Every semester.

MUA 153 Class Percussion (1) Class instruction in the fundamentals of all basic percussion instruments with emphasis on snare rudiments. Spring semester-even years.

MUA 154 Class Strings (1) Class instruction in fundamentals of string playing with emphasis on violin. Ranges, bowing, fingering, the use of violins in ensembles. Spring semester- even years.

MUA 155 Class Brass (1) Instruction in the brass family of instruments, including transposition, basic repair, technique, and uses in combinations. Course meets twice a week. Fall semester-even years.

MUA 156 Class Voice (1) Class instruction in voice, tone production, posture, diction, interpretation; emphasis on teaching proper development and use of the voice. Spring semester-odd years.

MUA 157 Class Woodwinds (1) Instruction in woodwind instruments, including single and double reeds. Will include transposition, instrument repair, technique, and uses in combinations. Course meets twice a week. Fall semester- odd years.

MUA 193 Functional Guitar (1) Guitar class required for Music Education majors and open to all students. Spring semester.

MUA 220 Accompanying (2) Principles and problems of accompanying, with practical experience. Repeatable. Two semesters required of applied majors in keyboard instruments. Every semester, on demand. Prerequisite: major or concentration in a keyboard instrument.

MUA 221, 222 Private Lessons (1–2) Continuation of private study in voice or instrument. Every semester.

MUA 321, 322 Private Lessons (1–3) Continuation of private study in voice or instrument. Every semester.

MUA 421, 422 Private Lessons (1–3) Continuation of private study in voice or instrument. Every semester.

MUA 451 Senior Recital (1) Presentation of the degree recital. Every semester. Required of all music education and music performance majors. Prerequisites: senior standing, approval of music department. In the semester in which the senior recital is performed, the student will register for MUS 451 (1) and MUS 421 or MUS 422 (1–2).

MUSIC • MUS

MUS 108 Music Theory I (2) Review of music fundamentals. Intervals, scales, triads, inversions, voice leading. Meets three hours per week. Fall semester.

MUS 109 Music Theory II (2) Diatonic harmony of the common practice period. Meets three hours per week. Spring semester. Prerequisite: MUS 108.

MUS 120 English and Italian Diction for Singers (2) Required of performance majors in voice, recommended for music education majors with voice concentration. Spring semester, alternate years as needed.

MUS 121 German and French Diction for Singers (2) Required of performance majors in voice, recommended for music education majors with voice concentration. Spring semester, alternate years as needed. Prerequisite: competence in International Phonetic Alphabet (IPA).

MUS 128 Aural Skills I (2) Basic concepts in sight-singing, ear training, and eurhythmics. Fall semester.

MUS 129 Aural Skills II (2) Continuation aural musicianship. Spring semester. Prerequisite: MUS 128.

MUS 208 Music Theory III (2) Chromatic harmony; studies in analysis of 18th and 19th century music. Fall semester. Prerequisite: MUS 109.

MUS 209 Music Theory IV (2) Harmonic and stylistic practices of 19th and 20th century composers. Spring semester. Prerequisite: MUS 109 or permission of the Department.

*MUS 212 Marching Band (1) The Geneva marching band is a high energy program that also includes majorettes, drill team, and a silk line. Three rehearsals per week. Fall semester.

*MUS 213 Symphonic Band (1) Performing great compositions of yesterday and today. Two rehearsals per week. Spring semester.

*MUS 214 Instrumental Ensemble (1) Brass, jazz, woodwind, or string instruments, depending on student interest and availability. One and a half to two hours per week. Membership by audition only. On demand.

*MUS 215 Genevans (1) The college a cappella choir shares the pleasure and excitement of great choral music. Two rehearsals per week. Membership by audition only. Every semester.

*MUS 216 Vocal Ensemble (1) Selected members of the Genevans. Membership by audition only. One and a half to two hours per week. Every semester.

*MUS 218 Handbell Ensemble (1) The excitement and beauty of music for bells, rung on the college's six-octave set of English handbells. Every semester.

MUS 228 Aural Skills III (1) Continuation of sight-singing and ear training; identification of more complex chords. Fall semester. Prerequisite: MUS 129.

MUS 229 Aural Skills IV (1) Continuation of sight-singing and ear training. Spring semester. Prerequisite: MUS 129 or permission of the Department.

MUS 231, 232 Fundamentals of Conducting I, II (1, 1) Basic beat patterns, starting and stopping, rudiments of score preparation. Every semester. Required of all music education and music performance majors. Prerequisite for MUS 231: MUS 108. Prerequisite for MUS 232: MUS 231.

MUS 301 Legal and Ethical Aspects of Music Business (3) Applications of business law to music (contracts, copyright, etc.), and consideration of ethics in art and entertainment. Fall semester, odd years.

MUS 310 Music History I (3) A survey of the historical development of Western music from Antiquity through the Baroque; consideration of bibliography and research technique in music. Fall semester.

MUS 311 Music History II (3) A survey of styles, composers and performers in Europe and America from the Classical period through the present. Spring semester.

MUS 320 Literature of Piano/Voice/etc. (2) Survey of the standard literature for the major instrument, including listening and analysis. Required of music performance majors. Spring semester, on demand. Prerequisite: three to four semesters of college-level study in the applied instrument.

MUS 334 Advanced Choral Conducting (1) Advanced choral patterns and principles of directing an ensemble; score preparation; interpretation; rehearsals; programming, organization, etc. Practical experience in conducting laboratory or regular ensembles. Spring semester. Prerequisites: MUS 109 and MUS 232.

MUS 335 Advanced Instrumental Conducting (1) Advanced instrumental patterns and principles of directing an ensemble, score preparation; interpretation; rehearsals; programming, organization, etc. Practical experience in conducting laboratory of regular ensembles. Spring semester. Prerequisites: MUS 109 and MUS 232.

MUS 350 Elementary School Music (3) Music in relation to the growth needs of children; development of varied musical experiences through good literature, games, rhythm band instruments, recorders, Orff instruments, autoharp, and recordings. Fall semester.

MUS 351 Secondary School Music (3) The place of music in the education of adolescents; materials and activities for the music program; the changing voice; literature, instrumental arranging, and methods of presentations. The course involves advanced field practice in the high school setting. Spring semester.

MUS 370 World and Popular Music (3). Survey of non-Western, non-art, and commercial music, with special emphasis that will vary. Spring semester. Required of music education majors; elective for all other students. Non-music majors who take this for the humanities HUM 304 must have completed HUM 303.

MUS 420 Pedagogy of the Piano/Voice/etc. (2) Methods of teaching on the major instrument, selection of materials, design of a teaching plan, and practical experience under observation. Required of music performance majors. Fall semester, on demand. Prerequisite: six semesters of college-level study in the applied instrument.

MUS 491 Special Topics (1–3) See page 14. May be repeated for different topic.

MUS 493 Internship (credit variable) Supervised internship in music or audio business, church music, etc. On demand.

MUS 199, 491, 493, 494, 495, 499 (See pages 14-15)

*See limitation explained on page 15.

PHILOSOPHY • PHI

PHI 100 Critical Thinking (3) An introduction to the tools and terminology of logic, various argument forms and common fallacies, including hands-on practice analyzing arguments, in order to improve reasoning skills fundamental to effective communication and critical thinking in every academic discipline and avenue of life. Every year.

PHI 110 The Philosophical Conversation (3) Designed for the student with little or no background in philosophy, this course surveys the history of Western philosophy, key philosophers, and important philosophical concepts that continue to shape our perception of ourselves, our world and God. Philosophy concerns the fundamental questions of life, study, worship and work—What is reality? How do I know what I know? and What is right and good? Every year.

PHI 112 Ethics (3) Examines the nature of ethical principles, theories and judgments as these have developed historically and provides an analysis of various ethical problems such as abortion, capital punishment, euthanasia, etc. Attention is given to several major Christian ethicists such as Augustine, Aquinas and Kierkegaard. Suitable as an introduction to philosophy. Spring semester.

PHI 113 C. S. Lewis (3) Explores Lewis' thought through philosophical themes such as, What is morality? What is love? What does it mean to be human? Why does suffering occur? Students in this course will read *The Screwtape Letters*, *The Four Loves*, *Mere Christianity*, *The Abolition of Man*, and *The Problem of Pain*.

PHI 200 Plato and Classical Philosophy (3) Studies Plato's major works, including the *Apology* and *The Republic* against the backdrop of Pre-Socratic philosophy. Introduces students to Aristotle and Cicero and their works on politics and ethics. Approved HUM 304 option. Fall semester.

PHI 202 Augustine (3) Explores the context and content of Augustine's major works, including *The City of God*, *The Confessions* and *On the Free Choice of the Will*. Students learn how to closely read a philosophical text closely and interpret it, applying it to the history of Christendom. Early church fathers and major philosophical figures from late antiquity are examined to provide a context for Augustine's work. Approved HUM 304 option. Fall semester.

PHI 206 Aquinas and Medieval Philosophy (3) Explores the contours of Aquinas' thought in *Summa Theologica*. Attention is given to understanding his views in light of their background in Aristotle. This course examines Aquinas

against the background of the major figures in medieval philosophy such as Anselm, Bonaventure and Duns Scotus. Approved HUM 304 option. Spring semester, alternate years.

PHI 300 History of Modern Philosophy (3) Explores the development of the theory of knowledge and ethics in the early modern period through an analysis of continental rationalism (Descartes, Spinoza, Leibnitz), British empiricism (Hobbes, Locke, Berkeley, Hume) and the American theologian/philosopher Jonathan Edwards. Approved HUM 304 option. Fall semester, alternate years.

PHI 304 Nineteenth-Century Social Philosophers and Pragmatism (3) Explores the early pragmatist philosophers, C.S. Peirce, William James, and John Dewey through their major philosophical texts. Pragmatism is a uniquely American variety of philosophy that has shaped American cultural life, its educational and political experience. It was the dominant position in the first half of the 20th century and has had a significant revival in modern philosophical discourse principally through the work of neopragmatist Richard Rorty, whose essays will be examined as well. Society Group B option.

PHI 305 Contemporary Philosophy: The Analytic Tradition (3) Examines the work, influence, and value of key philosophers in 20th-Century analytic philosophy, such as Bertrand Russell, Ludwig Wiggstein, J.L. Austin, and current contributors in this widespread tradition. Of special interest for students in linguistic, language, literary, communication and biblical studies. Every other year.

PHI 306 Postmodern Philosophers (3) Explores the philosophical antecedents and thought of important contemporary philosophers who represent the philosophical reaction against modernity and the dominance of the Enlightenment paradigm—specifically, Jacques Derrida, Michel Foucault, Jean Francois Lyotard, and Richard Rorty. Additionally considers Christian thinkers' responses to and appropriation of postmodern thought. Of special interest for students in sociology, literature, Christian and student ministry majors. Every year. Approved HUM 304 option.

PHI 307 Women Philosophers (3) Exposes the student to the work of important women philosophers such as Marjorie Grene, Simone de Beauvoir, Hannah Arendt, Simone Weil, and Martha Nussbaum, Lorraine Code, Caroline Simon, and Elenore Stump.

PHI 308 Contemporary Continental Philosophy (3) This course considers major themes of 20th Century Continental Philosophy, through a closer look at the work of important Continental philosophers such as Heidegger and Merleau-Ponty: existence, being-in-the-world, and the lived body. Alternate years.

PHI 309 Kierkegaard and Nietzsche (3) Explores the early foundations of the 19th century philosophical movement called existentialism by examining the two main philosophers in its genesis. Students will read a number of major works by both philosophers including (Kierkegaard) *Sickness Unto Death*, *Fear and Trembling*, and *Practice in Christianity* and (Nietzsche) *Thus Spake Zarathustra*, *Genealogy of Morals*, *Beyond Good and Evil*, as well as some others. This course provides the framework for understanding the critique of modernism by the postmodernists.

PHI 310 Christian Understanding of Life (3) This seminar course introduces students to covenant epistemology: an innovative, biblically compatible holistic, epistemological vision which effectively offers a Christian understanding of life. Students' interactive exposure to a variety of works which shape and imply this epistemology proves to be personally transformational and profoundly practical. Every year. Approved HUM 304 and BIB 300 option.

PHI 318 Philosophies of World Religions (3) A study of the major religions of the world including Buddhism, Hinduism, Taoism, Confucianism, Islam and Judaism from the vantage point of a Christian world view. Students explore the question of exclusivity (only one religion is true) and what constitutes a religious experience. Approved HUM 304 option. Fall semester, alternate years.

PHI 353 Philosophy of Science (3) Examines fundamental philosophical questions undergirding and implied by the practice of science, and major positions and debates in contemporary philosophy of science regarding scientific explanation, confirmation, discovery, and the realist or antirealist status of scientific claims. Additional attention will be given to the insights of scientist-turned-philosopher Michael Polanyi, as well as to the implications of Christian commitment for philosophy of science. Of special interest for students in the sciences. Alternate years. Approved HUM 304 option.

PHI 354 Political Philosophy (3) Studies in the variety of political philosophies of the last 300 years including social contract theory, liberalism, Marxism and socialism, tolerance or pluralism by concentrating on the major theories with a view toward contemporary analysis and criticism. Cross-listed as POL 309 and offered periodically. Society Group B option.

PHI 355, Philosophy for Theology (3) Explores philosophical developments and discussions which have proven germane and valuable in service to the recent theological enterprise, e.g., hermeneutics, deconstruction, speech act theory, and reformed epistemology. Alternate years.

PHI 410 Senior Seminar (3) This course is designed for philosophy majors and minors to study a contemporary or historical philosophical topic in-depth. Students will learn to do advanced research in philosophy and will write a major paper in the process. Prerequisite: junior or senior standing.

PHI 199, 491, 493, 494, 495, 499 (See pages 14-15)

PHYSICAL EDUCATION • PED

PED 101 Physical Education (1) Instruction in, and application of, the fundamental skills, rules, and concepts of various sports and physical activities. Various sections include aerobics, badminton, basketball, golf, tennis, volleyball, racquetball, and weight training. Course syllabi include a more precise description of each section.

PED 103 Physical Fitness (1) Instruction in the role and improvement of health-related components of fitness in conjunction with each student's lifestyle. Special emphasis will be given to proper Christian stewardship of the body, developing an individual fitness program, and understanding the structure and function of several body systems as they are related to fitness.

PED 104 Intercollegiate Sport Participation (1) An intercollegiate sport-athlete may earn a PED 104 credit (non-graded) for each season of intercollegiate athletic participation, up to three per sport. The second season of participation may count toward the physical education requirement PED 103 (must register for PED 103V). The only recognized intercollegiate sports are baseball (men), basketball (women and men), cross-country (women and men), football (men), soccer (women and men), softball (women), tennis (women and men), track and field (women and men), and volleyball (women).

PED 150 Coaching Effectiveness (3) This course is designed to provide students with knowledge and practical experiences related to coaching. It focuses on knowledge, skills, and issues in coaching. This course aims to develop insight and knowledge in the areas of philosophy, conditioning and training, and pedagogy. The course will study issues involved in coaching in an attempt to expose the complicated demands of coaching and the necessary tools one should possess in order to be successful in coaching. Alternate Spring semesters, even years.

PED 205 Sport Coaching Practicum (3) The course offers opportunity for coaching minors to develop the knowledge, practical application, and skills necessary to become more proficient leaders in sport. Students' ability will be enhanced and assessed in various coaching and administrative duties. Students should register for this course with the instructor when they are admitted to the coaching minor and remain active until all the requirements are completed. Prerequisite: PED 150. Every semester.

PED 247 First Aid and Emergency Care (2) Instruction and practice in the prevention, evaluation and treatment of injuries and illnesses that require first aid with certification in standard first aid and CPR. Requires small fee for certification. Fall semester.

PED 255 Athletic Training (3) Instruction in understanding basic muscular skeletal dynamics and how they relate to the care and prevention of athletic injuries. Identify and evaluate common athletic injuries, learn basic skills related to taping, as well as how to use equipment commonly found in athletic training rooms. Spring semester.

PED 405 Sport Coaching Seminar (1) This course is designed to provide valuable information and resources to students who are planning on coaching at any level (youth, interscholastic, intercollegiate). It will serve the sport coaching minors by providing information related to professional development and continuing education opportunities for coaches. Topics to be covered in this course include Professional Development opportunities for Coaching Professionals (Coaching Certifications and Coach Licensing, Internships and Graduate Assistantships) and Job Searching and Securing. The presentation of material takes place in the classroom via lectures, projects and presentations. Prerequisites: PED or SPM 205 and Junior status. Spring semester.

PHYSICS • PHY

PHY 100 Introductory Physics (3) An introduction to the principles of physics; algebra-based and with no laboratory. Topics include mechanics of motion, force, energy, thermodynamics, fluids, wave phenomena, light and sound. Prerequisite is math proficiency in algebra and basic trigonometry. Shanghai program core Cosmos option.

PHY 160 Introduction to Acoustics (3) Practical applications of physical, physiological, psychological, musical, and architectural acoustics. Sound recording, reproduction, and measurements. Wave phenomena, harmonic analysis, and their application to musical scales and instruments, speech, hearing, transducers, and reverberation. Techniques and equipment demonstrated. Spring semester. Prerequisite: SCS 110 or PHY 181 or PHY 201.

PHY 181, 182 General Physics I, II (4, 4) Mechanics, properties of materials, thermodynamics, electromagnetism, light, sound, atomic and nuclear structure. PHY 181 in Fall semester, PHY 182 in Spring semester. Three lectures and one laboratory per week. Prerequisite: Math proficiency is required. (More than minimal competence in algebra is necessary.)

PHY 201, 202 College Physics I, II (4, 4) Mechanics, heat, and sound the fall semester, electricity, optics, and modern physics the spring semester. Three lectures and one laboratory period per week. PHY 201 in fall semester, PHY 202 in spring semester. Prerequisite: MAT 162, which may be taken concurrently with PHY 201. PHY 201 is a prerequisite for PHY 202.

PHY 250 Observational Astronomy (3) A quantitative survey course in general astronomy with an observational laboratory component for students in the technical majors. The students will master the operation of the LX200 telescope at the Geneva College observatory and its associated CCD camera to complete a series of observing projects. Prerequisite: MAT 161. Offered on demand at department's discretion.

PHY 301 Classical Mechanics (3) Principles and techniques of non-relativistic mechanics. Includes motion of a point mass in a vector force field, potential theory, conservation laws, rotating coordinate systems, and the Lagrangian and Hamiltonian techniques, with applications to planetary motion, scattering, rigid body motion, forced oscillations, and continuous media. Fall semester, odd numbered years. Prerequisites: PHY 202. Co-requisite, MAT 261.

PHY 303, 304 Advanced Physical Measurements I, II (1–3, usually 2 credits) An intermediate course in experimental physics. Equipment available for work in atomic physics, nuclear physics, solid state physics, thermodynamics, optics, electromagnetic fields, and gravitation. Areas of experimentation selected by the student in consultation with the instructor. Special experiments available for future science teachers. Prerequisite for PHY 303: PHY 182 or PHY 202 or consent of the instructor. Prerequisite for PHY 304: PHY 303.

PHY 306 Optics (3) Begins with the electromagnetic wave solutions of Maxwell's equations. Includes matrix formulation of paraxial geometrical optics, wave propagation, polarization, interference and diffraction, stimulated emission and lasers, Fourier transform spectroscopy, and non-linear optics. Spring semester, even numbered years. Prerequisite: PHY 202.

PHY 307 Thermodynamics (3) Includes the laws, kinetic theory of gases, and introduction to classical statistical mechanics. Fall semester. Prerequisites: PHY 202, CHM 111 and MAT 162. Cross-listed as CHM 307.

PHY 318 Modern Physics I (3) Introduction to wave mechanics and its application to the hydrogen atom, atomic structure and spectra, and electrons in solids and semiconductors. Other topics may include molecular bonding, special relativity, nuclear models, and crystal structure. Fall semester, even numbered years. Prerequisites: PHY 202 and MAT 162.

PHY 319 Modern Physics II (3) More advanced treatment of topics in modern physics such as special relativity, semiconductors, statistical mechanics, and models of nuclear structure. Prerequisite: PHY 318. Offered periodically.

PHY 410 Advanced Topics in Theoretical Physics (3) Covers an advanced topic in theoretical physics chosen according to student interest. Possible topics include: general relativity; advanced quantum mechanics; quantum field theory; non-linear dynamics and chaos; advanced computational physics; and advanced mathematical methods. May be taken repeatedly with a different topic. Offered on-demand. Prerequisite: instructor permission.

PHY 420 Physics Research (1-2) Individualized work on an advanced or specialized project under the direction of a faculty member. Projects should be selected in consultation with the faculty member to provide for preliminary literature review. Final written report required. Three hours project work per week per credit. May be taken repeatedly but a maximum of two credit hours may count toward a physics major or minor. Prerequisite: instructor permission.

PHY 430 Physics Senior Project (1) Independent theoretical, experimental, computational, or literature-related senior research project in physics culminating in a written paper and oral presentation. May be taken independently or concurrently with PHY 420. Fulfills the Major Capstone Experience for the Physics major. Prerequisite: PHY 202 and senior standing, majors only.

PHY 199, 491, 493, 494, 495, 499 (See pages 14-15)

POLITICAL SCIENCE • POL

POL 151 American Government (3) Structure and operation of the national political institutions of the United States. (Political Science majors may not use this course to fulfill the social science core requirements.) Fall semester. Core, Society Group A or B option.

POL 203 International Relations (3) Introduction to the theory of international politics and the foreign policies of the major powers. Spring semester, odd years. Core, Society Group B option.

POL 211 Comparative Politics (3) Introduction to the theory and practice of comparative politics; case studies of key political systems. Spring semester, even years. Core, Society Group C option.

POL 253 Parties, Elections, and Interest Groups (3) Development and present role in America. Brief investigations of other party systems for comparative analysis. Offered periodically. Prerequisite: POL 151 or consent of the instructor.

POL 254 State and Local Government (3) Overview of structure and function in the United States, followed by exposure to city, county, borough, and township governments in the area. Offered on demand.

POL 255 Congress and the Presidency (4) An introduction to processes, powers, functions, limits, and interactions of Congress and the presidency. Prerequisite: POL 151 or consent of the instructor. Offered periodically.

POL 305 Constitutional Law (3) A consideration of the development of American constitutional law and its relevance to political processes today. Spring semester, odd years. Prerequisite: POL 151 or one course in American history.

POL 309 Topics in Modern Political Thought (3) Studies in the variety of political theories during the last 300 years, including contract theories, Marxism and socialism, and liberalism, concentrating on one or two major theories. Spring semester, even years, may be repeated with different topics. Cross-listed with PHI 354. Core, Society Group B option.

POL 312 History of Political Thought (3) Reading and discussion of major works of political theory from Plato to the present. Offered on demand. Prerequisite: sophomore standing.

POL 313 Democratic Political Thought (3) A consideration of both “normative” and “non-normative” democratic theory and evaluation of these in the light of the Scriptures. Offered on demand.

POL 331 Foreign and National Security Policy (3) This course introduces students to key concepts and basic theories about foreign policy, national security, and homeland security in the United States and other countries, as well as current debates such as just war vs. pre-emptive war, privacy vs. security, and sovereignty vs. alliances and international organizations. Offered periodically. Prerequisite: POL 203 or consent of instructor.

POL 332 Topics in Comparative Politics (3) This course introduces students to diverse regions of the world and to key issues in comparative politics. This course will focus on a different region or group of nations each time it is offered, including the Middle East, Latin America, the former Soviet Republics, and comparative democratic governments. Students will look at key issues for that region in areas such as economics, culture, politics, military affairs, and religion. Offered periodically. Core, Society Group C option.

POL 341 Politics of Global Economics (3) This course introduces students to key concepts and basic theories about how institutions affect global economics, particularly in trade, finance and investment, debt, development, and fiscal and monetary policy. Those institutions include not only governments, but non-governmental organizations, multinational corporations, and multilateral treaty organizations. Offered on demand. Prerequisite: POL 203 or consent of instructor.

POL 342 Topics in International Relations (3) This course introduces students to contemporary key issues in international relations. Each time it is offered, the course will focus on a different topic, such as transnational crime and terrorism, international law and organizations, intelligence, or public health and the environment. Students will learn about the underlying issues for each subject, the main actors involved, and the relevant public policy strategies utilized by the United States and other nations. Offered periodically.

POL 352 Great Issues in Politics (3) Some significant questions asked by philosophers in the study of politics and some ways they have been answered. Writings of Christian political theorists included. Prerequisites: successful completion of

BIB 112 and BIB 113; HUM 103, HUM 203, and HUM 303 and junior or senior standing (completion of 60 credit hours). Offered every semester.

POL 360 Public Administration (3) Introduces students to the literature, theories, and key concepts that underlie the academic *study* of public administration. It also aims to familiarize students with some of the core areas of the *practice* of public administration, including personnel, budgeting, and decision-making and policy evaluation. Spring semester, odd years. Prerequisite: POL 151 or consent of instructor.

POL 361 American Public Policy (3) Process at national level, using currently significant policies as case studies. Spring semester, even years. Prerequisite: POL 151 or consent of instructor.

POL 421 Senior Seminar (3) A review of academic political science, focusing on its relevance to the student as a Christian, as a professional, and as a citizen. Required of political science majors. Offered periodically. Prerequisite: senior standing.

POL 199, 491, 493, 494, 495, 499 (See pages 14-15)

PSYCHOLOGY • PSY

PSY 201 Introduction to Psychology (3) Problems, principles, and methods to serve as a part of a liberal education and as preparation for more advanced work in psychology, or for professional study: development, motivation, emotion, learning, intelligence, personality, and abnormal behavior. Every semester.

PSY 202 Biological Bases of Behavior (3) Neuroanatomical and neurophysiological foundations and neurological and chemical events underlying sensory processes, learning, motivation, emotion, motion and mental disorders. Fall semester. Prerequisite: PSY 201.

PSY 205 Psychological Statistics (3) An introduction to the methods used by social scientists to understand data. Covers descriptive statistics, basic probability theory, and inferential statistics. Proficiency in high school algebra is assumed. Fall semester. Requires math proficiency (See page 202).

PSY 206 Orientation to Psychology (2) This course focuses on the essential skills necessary for success in the psychology major. Broad issues such as introduction to the integration of worldview and psychology, as well as, vocation and career planning will be discussed. Specific skills relevant to the psychology major such as reading empirical research and writing in APA style will be addressed. Fall semester .

PSY 207 Research Methods in Psychology (3) An introduction to psychology as a scientific process. The course covers philosophy of science, designing and performing experiments and quasi-experiments, ethics in experimentation, interpreting data using inferential statistics, and scientific writing. Spring semester. Prerequisites: PSY 201 and PSY 205 or permission of the instructor. Spring semester.

PSY 211 Educational Psychology (3) Psychological principles and theories applied to teaching. The coverage of psychological variables that influence teacher functioning in the classroom, the role of human development, learning, instructional models, motivation, classroom management and discipline, the nature of and the response of teachers to exceptionality, and ethnic, racial, and social differences in schools. Every semester. Cross-listed with EDU 211.

PSY 214 SPSS and Statistical Analysis (1) This course will guide students through the use of SPSS as a statistical analysis tool. Topics will include descriptive statistics, and hypothesis testing for multiple groups, correlation and regression. Spring, semester. Pre or co-requisite: PSY 205 or MAT 205.

PSY 250 Life Span Development (3) Covers developmental patterns of human beings from conception to death all in the context of God's created order. Physical, cognitive, social, emotional, and spiritual aspects of development will be considered. Research methods and approaches will be explored as well. Fall semester.

PSY 251 Child Development (3) Development and behavior from conception through middle childhood, including genetic influences, developmental processes, and psychological processes related to physical, linguistic, social, intellectual, emotional, and personal development. Fall semester.

PSY 252 Adolescent Development (3) Physiological, psychological, social, developmental, and educational aspects from the beginning of puberty to the attainment of maturity. Spring semester.

PSY 253 Adulthood and Aging (3) Processes and principles of development in adulthood and in aging. Consideration of normal life stages, social and physical changes, and the special issues associated with geriatric populations. Spring semester.

PSY 254 Marriage and the Family (3) This course has as its purpose to understand the Biblically created order of marriage and subsequent family life. The impact of the Fall will be considered as well the redemptive work of Christ in family relationships. Many topics will be covered and will include personalities, expectations, dating and mate selection, roles, communication, and financial stewardship. Spring semester.

PSY 260 Tests and Measures (3) Methods, techniques, and instruments, including methods of construction, critical analysis, laboratory experience. Fall semester, even years. Prerequisite: PSY 201 and PSY 205.

PSY 313 Abnormal Psychology (3) Empirically-based principles of psychopathology. Surveys classical “mental illnesses” from various perspectives. Fall semester. Prerequisite: PSY 201.

PSY 328 Learning and Cognition (4) This course examines the experimental and theoretical approaches to the principles of classical conditioning, operant conditioning, models of memory. Laboratory experiences will assist students in studying theories of learning and memory, while applying them to out-of-class contexts. Fall semester. Prerequisites: PSY 201, PSY 205 or MAT 205, PSY 207.

PSY 350 International Psychology (3) This course provides an overview of various global issues from a psychological or psychocultural perspective including the identification and treatment of mental health problems, emotional functioning, the struggles of disempowered and marginalized groups, and societal transformation, and national development. Cross cultural psychology is an important aspect of international psychology. The course will include opportunities to communicate and network with academics, professionals, and other students from other cultures, countries, and nations to raise awareness of the importance of cultural perspectives in psychological research and practice. The course will also examine the role of the Christian Psychology, Christian Counseling and missionary efforts in providing counseling and care internationally and cross culturally. Summer semester, periodically. Prerequisites: PSY 201.

PSY 404 Personality Psychology (3) An introduction to theory and research into personality and motivational processes. Covers psychodynamic, trait, social learning, and social cognitive approaches to the field. Both historical and current thinking will be stressed. Spring semester. Prerequisites: PSY 201, PSY 205, and PSY 207.

PSY 405 Psychology of Gender (3) This seminar focuses on psychological theories and research pertaining to both genders and similarities and differences. Relevant topics will include discussion of biological bases and socialization bases of gender roles, family issues, workplace issues, and sexuality. Fall semester, even years. Prerequisite: PSY 201.

PSY 406 Psychology of Prejudice (3) This seminar focuses on both classic and current research in the realm of prejudice and prejudice reduction. Issues will include: What is prejudice? How is it related to stereotyping and discrimination? How does identity affect prejudice? What are the consequences of prejudice? How can prejudice be reduced? Spring semester, odd years. Prerequisite: PSY 201

PSY 408 Social Psychology (3) Social and environmental influences on interpersonal relationships such as friendship, perception, altruism, aggression, conflict, and peacemaking. Spring semester. Prerequisites: PSY 201, PSY 205 and PSY 207.

PSY 411 History and Theories of Psychology (3) Development of important theoretical attitudes, especially the influence of various types of theory. Spring semester. Prerequisite: senior standing as a psychology major.

PSY 423 Psychological Research Literature (1) Readings in current psychological literature. Students will meet one hour per week to discuss a set of articles from a major psychological journal. Students will gain more experience in reading and critiquing psychological research and will be exposed to research across the topic areas in psychology. May be taken up to four times for credit. Offered periodically. Prerequisites: PSY 201, PSY 205 and PSY 207.

PSY 424 Applied Psychological Research (2). Applied research methodology. Topics to include needs assessment, data analysis, program evaluation, and qualitative research in community settings. Each student in the class will complete an approved research project under the direction of the course instructor. May be taken up to four times for credit. Offered periodically. Prerequisites: PSY 201, PSY 205 and PSY 207, junior standing, overall GPA of 3.0 or higher.

PSY 425 Senior Seminar in Psychology (1) Students will write an APA-style review paper about the area of psychology or biopsychology in which they have an occupational interest and create a portfolio of the documents they will need to gain employment or admission to graduate school. Fall semester. Prerequisites: senior standing, major in psychology or biopsychology.

PSY 450 Special Topics in Psychology (3) Specialized courses in psychology not otherwise listed in the catalog. Examples would be persuasion and the psychology of consumerism. May be repeated with different topics. Offered periodically. Prerequisite: PSY 201

PSY 199, 491, 493, 494, 495, 499 (See pages 14-15)

SCIENTIFIC STUDIES • SCS

SCS 105 Environmental Science (3) Overview of current environmental issues in the context of science and society. The course emphasizes scientific principles, the impact of human activities on the environment, and the role of Christians as stewards of creation. Every semester.

SCS 110 Introduction to the Natural Sciences (4) A study of selected topics in physics, chemistry, and biology that focus on the unifying themes of energy and the method by which scientific theories develop. Prerequisite: Math proficiency is required (See page 202). Three hours lecture and three hours laboratory per week.

SCS 201 Astronomy (3) History of modern astronomy, solar system models and orbits, structure of the sun and other stars, stellar development, galaxies, and cosmology, with emphasis on recent discoveries and theories. Fall semester. Prerequisite: SCS 110 or PHY 181 or PHY 201. Requires math proficiency (See page 202.)

SCS 215 Earth and Space Science (3) This course incorporates the disciplines of geology, meteorology and astronomy into a holistic study of planet earth. A major goal of the course is to give the student an understanding of the mechanics of God's creation. Fall semester, evening school.

SCS 220 Weather & Climate (3) Weather & Climate will explore today's professional practice of meteorology and climatology, along with the theories that support these dynamic fields. Topics will include weather instruments, map interpretation, cloud observations, air pollution dispersion, climate regions, and climate change. Spring semester, odd years.

SCS 320 Global Health (3) This course examines the wide range of health issues which face people around the world, but particularly in low-income countries. The impact of poor health, barriers to better health, and solutions for improving health are also discussed. Every other Spring semester.

SCS 403 Teaching of Science in Middle and Secondary Schools (4) Basic elements of instruction as they apply to the secondary science classroom. Includes the planning, presentation, and evaluation of several types of science lessons. Involves observations in local school district classrooms. Prerequisites: EDU 211 or PSY 211; junior standing; 15 hours of social studies courses; social studies education major declared; and requirements as mandated by Chapter 354. This course must be successfully completed before student teaching. Fall semester, even years.

SCS 404 Teaching of Science, 4-8 (4) This course provides the future teacher with preparation for teaching in the content area of science for grades 4-8. A variety of strategies, assessments and philosophies for teaching will be explored. Inquiry-based science is an important focus of the course as well as the integration of science into other content areas. A major component of this course is field experience which includes some teaching of lessons. Prerequisites: PSY 211 and requirements mandated by Chapter 354. This course must be successfully completed before student teaching. Fall semester.

SCS 495 Independent Study (1-4) (See page 14)

SOCIAL SCIENCE • SSC

SSC 101 Learning and Transition (1) Information and experiences designed to aid students in their intellectual, social, physical, and spiritual growth. The class should especially help facilitate the transition from high school or work to college, thus promoting success in college.

SSC 105 Higher Education in America (2) This course will assist global students in making the transition to higher education in the US. It focuses on skills needed to be successful in the classroom and explores situations that they will encounter in campus life. Every summer.

SSC 120 Academic Prolegomena I (2) A course to aid in the academic and faith transition from high school to college. Fall semester.

SSC 130 Academic Prolegomena II (2) A course to aid in the academic and faith transition from high school to college. Spring semester.

SSC 210 Crime, Law, and Society (3) This course will provide students with an introductory survey of the basis of American civil and criminal law; key contemporary legal issues; and the processes and institutions of the justice system, including law enforcement, courts, and corrections. Particular attention is placed on the relationship between the law and society's norms, and the relationship of both to Scriptural principles of justice. Spring semester, odd years. Cross-listed as CRJ 210.

SSC 280 Human Geography (3) Elements of the natural and cultural environment as they affect and are affected by human activities. Fall semester, even years.

SSC 310 Criminal Justice: Theories and Systems (3) An overview of correction theories and services in the United States and an evaluation of these in light of Biblical principles. Offered every other year. Prerequisite: SSC 210.

SSC 348 Methods of Social Science Research (3) Introduction to the logic of the scientific method applied to the social sciences including, theory construction, research ethics, research design, measurement, sampling techniques, data collection devices, and field research. Fall semester, odd years. Prerequisite: POL 151 or SOC 120.

SSC 349 Social Science Statistics (4) The application of statistics to social research including, the use of computers, coding, SPSS, descriptive graphs and statistics, sampling and probability theory, statistical inference and hypothesis testing, cross tabulation and associated bivariate tests, and other statistical tools used in political science and sociological research. Three hours in class and one hour in computer lab. Spring semester, even years. Prerequisite: SSC 348 and satisfaction of college math proficiency requirement (See page 202.)

SSC 403 Social Studies Teaching Methods (4) Explores the various methods for teaching the social studies on the secondary level and involves advance field practice in the high school setting. Fall semester, evening school. Prerequisites: junior standing and 15 credit hours of social studies courses, and Social Studies major declared. Fall semester.

SSC 404 Teaching of Social Studies, 4-8 (3) This course provides the future teacher with preparation for teaching in the content area of social studies for grades 4-8. A variety of teaching strategies and philosophies related to teaching social studies will be explored. A major component of this course is field experience which includes teaching of lessons. Prerequisites: PSY 211 and requirements as mandated by Chapter 354. This course must be successfully completed before student teaching. Fall semester.

SOCIOLOGY · SOC

SOC 120 Society (3) This course is an exploration of the fundamental human social reality. Drawn from basic sociological foundations and theories, this course develops the call for civic engagement that can transform the world people live in light of Biblical moorings. Offered every semester. Core, Society Group A or B option.

SOC 220 Social Change (3) A survey of macro and micro social change revolving around the civil rights movement, mediating institutions, neighborhood design, and economic foundations. Spring semester, even years.

SOC 221 Social Groups and Institutions (3) A study of the foundational theories and practices of group behavior. This is developed in the framework of civic engagement and institutional contexts. Offered on demand.

SOC 223 The Sociological Imagination (3) Develops a way of seeing the social realm sociologically. It uses the tools of social research including: social epistemology; qualitative research, quantitative research; and, style requirements for writing. Fall semester, even years.

SOC 230 Introduction to Community Development (3) This course is designed to help students learn how to interact with the broader community especially in the attempt to develop resources necessary for ministry to youth. Fall semester, odd years.

SOC 242 Criminology (3) The social causes and prevention of crime and the relations between society and the criminal. Prerequisite: SOC 120. Every semester.

SOC 249 Restorative Justice (3) This course proposes an alternative way of administering criminal justice. It involves the victim (when possible), the community and the offender in a process of restoration following the damage of a crime. Spring semester, odd years.

SOC 254 Seeking Reconciliation: Gender, Class, and Race (3) Central sociological concepts are surveyed and placed in a community context. The course is framed by the Biblical concept of reconciliation. Offered every other year.

SOC 262 The American Civil Rights Movement (3) This is an interdisciplinary course designed to introduce students to the history, rhetoric and social forces surrounding the Civil Rights Movement. Offered on demand. Cross-listed as COM 330 and HUM 304.

SOC 270 Civic Engagement (3) This course is designed to encourage a vision for deep personal transformation within the context of studies of historic Christian community and neighborhood engagement. This course is only available to students in the living/learning community "City House". Prerequisite: Sophomore standing and resident of City House. Every fall.

SOC 271 Restoring the City (3) This course is built around themes of place, localism, and Beaver Falls. Prerequisite: Sophomore standing. Every Spring.

SOC 300 Special Topics (3) Specialized courses in sociology not otherwise listed in the catalog. Examples would be American Culture Studies; International Justice; and Environmental Sociology. May be repeated with different topics. Prerequisite: SOC 120. Every year.

SOC 310 Deviance and Marginalization (3) Investigating the social processes that marginalize individuals and groups due to norm violation and labels them deviant such as addicts, mentally ill, aging or murderers. Prerequisite: SOC 120. Fall semester, odd years.

SOC 311 Sociology of the City (3) This course introduces students to the central role the city plays in social life today. It is set in the long history of sociology's interest in urbanism and highlights current attempts to thriving neighborhoods. Fall semester, even years.

SOC 312 Studies in Black Culture (3) An exploration of the rich historical, cultural and social dimensions of the black experience in America. Topics will vary. Repeatable with a different topic. Fall semester.

SOC 346 Sociology of Religion (3) The relationship between religion and society with special attention to the role of the church in American society. Prerequisite: SOC 120. Spring semester, even years.

SOC 360 Readings in Social Theory (3) An in-depth reading of primary sources of classic and contemporary social theory done in seminar format. Prerequisites: SOC 120, and junior standing. Fall semester, even years.

SOC 380 Public Scholarship (3) This is an applied research project to be done in conjunction with an existing organization, agency, or ministry where the student's research is conducted in response to an identified problem. Offered on demand.

SOC 401 Utopia and Shalom (3) The sociology capstone course surveying the historical quest of human groups for utopia contrasted with the Biblical concept of shalom. Prerequisites: SOC 120 and junior standing. Spring semester, odd years.

SOC 421 Seminar (3) Independent work guided by faculty lectures and class discussion. This course will cover different topics and will only be offered as an elective necessitated by student interest. Prerequisites: sociology major, and junior standing. Offered on demand.

SOC 199, 491, 493, 494, 495, 499 (See pages 14-15)

SPANISH · SPA

SPA 101, 102 Elementary Spanish I, II (3, 3) This two-course sequence is an introduction to the fundamentals of the Spanish language offering opportunity in the classroom, using real-life situations, for the development of abilities in listening and speaking. Reading and writing skills will be conducted primarily outside of class but integrated with the listening and speaking focus of the course. The course is designed for students who have had 0-1 year of Spanish in high school, or equivalent for SPA 101 (Fall semester), and one and a half to two years or equivalent for SPA 102 (Spring semester). New students should take an online Spanish assessment in order to be placed in the most appropriate level.

SPA 201, 202 Intermediate Spanish I, II (3, 3) A two-course sequence that is a continuation of the material learned in SPA 101 and SPA 102. Continued development of the use of the Spanish language in listening and speaking with a further development of reading and writing abilities. Classroom emphasis on listening and speaking. Reading and writing are primarily developed through outside classroom assignments. Writing of guided and original short compositions is an integral part of these courses. These courses are designed for students who have completed three to four years of Spanish in high school or equivalent, or SPA 102 for SPA 201 (Fall semester), or four to five years of Spanish in high school or equivalent, or SPA 201 for SPA 202 (Spring semester). New students should take an online Spanish assessment in order to be placed in the most appropriate level.

SPA 315 Culture and Civilization of Spanish America (3). A survey of the cultural patterns of Spanish America from the pre-Columbian period to the present time. Emphasis is placed on the basic elements of life in Spanish America that have been decisive in forging its culture from the earliest times to the present. Cultural elements: political, geographic, educational, attitudinal, psychological, social, economical, religious, and literary, in addition to the role of Spanish America in today's world and its cultural contributions. Spring semester. Prerequisite: SPA 319.

SPA 319 Advanced Spanish Conversation (3) Development of oral and aural language skills through free and directed class conversation and individually prepared oral presentations. Speaking activities and group discussions utilize readings on current events, cultural issues, and literature. Attention will be given to vocabulary building, pronunciation, fluency, and idiomatic expressions. Fall semester. Prerequisite: SPA 202.

SPA 320 Advanced Spanish Composition (3) Development of a clear, natural, and effective written communication in Spanish. Awareness is placed on style, levels of usage, and the difference between written and spoken language. Vocabulary enrichment through readings, compositions and other exercises. Compositions are based on a variety of topics and include different types of essays. Every other spring – even years. Prerequisite: SPA 321.

SPA 321 Advanced Spanish Grammar (3) Detailed examination of grammatical structures introduced in elementary and intermediate Spanish courses. Students will have practice in oral and written communication using more complex grammatical structures not included in previous courses. Vocabulary enrichment through written compositions, readings, and oral activities. Fall semester. Prerequisite: SPA 315.

SPA 330 Hispanic Film (3) Study of Latin American films, focusing on cultural themes and the development of language skills and fluency through discussion, vocabulary building and written assignments. Every other spring-even years. Prerequisite: SPA 321.

SPA 491 Special Study. A seminar on an announced topic related to Spanish. Repeatable for credit with a new topic. Spring semester. Prerequisite: SPA 320.

SPORT MANAGEMENT • SPM

SPM 101 Introduction to Sport Management (3) Theories and principles of management for sport programs. Introduces students to career opportunities and responsibilities in sport management, as well as basic information on topics such as legal liability, fiscal management, facilities operation, personnel supervision, and public relations. Fall semester.

SPM 201 Legal Issues in Sport (3) Negligence, liability, risk management, product liability, insurance, contracts, equal opportunity, eligibility and control of activities and facilities are topics of study. Prerequisite: SPM 101 or permission of instructor. Spring semester- odd years.

SPM 205 Sport Management Practicum (3) The course offers opportunity for sport management majors or minors to develop the intellectual learning and practical application skills necessary to become more proficient leaders in sport. Professional building experiences will be achieved through interaction with sport managers from different fields. Every semester.

SPM 206 Governance and Organization of Sport (3) A study of the various agencies that govern sport at the professional, collegiate, high school, and amateur levels. Organizational theory, research, labor relations, and administrative responsibilities in sport will be presented and discussed. Spring semester, odd years. Prerequisite: SPM 101 or permission of instructor.

SPM 302 Facility Management and Design (3) An introduction to the management, planning, and maintenance of facilities for athletics, sport, recreational programs, play fields, buildings, and auxiliary structures. Attention will be given to staffing,

security, accessibility, safety, and legal aspects of facility management and design. Prerequisite: SPM 101 or permission of instructor. Alternate Fall semester-odd years.

SPM 401 Sport in American Culture (3) Presentation of sociological dimensions of sport and sport participation and the impact of sport on society in general. Review of related research covering such areas as youth sport, women in sport, professional sport, religion and sport, sport and education, sport and politics, and the effects of sports on the economy. Discussion of various theories (i.e. conflict, critical, etc.) Special attention will be placed on analyzing sport in American culture from a Christian perspective. Prerequisites: SPM 101 and junior standing. Spring semester-even years.

VISUAL COMMUNICATION • VIS

VIS 201 3D Art Fundamentals (3) An introduction to mold making and casting methods related to the manipulation of three dimensional forms and space by completing sculptural and architectural projects. Fall semester.

VIS 202 Painting Techniques (3) An introduction to fundamental painting materials, processes, techniques and language related to the visual vocabulary and production of paintings. Spring semester. Repeatable with instructor permission.

VIS 205 Visual Communication Practicum (1) An independently directed student project facilitated by the professor in addition to three off-campus site visits to cultural institutions, professional work places, and contexts related to practical experience. Repeatable with instructor permission. Every semester.

VIS 300 Drawing Techniques (3) An introduction to the fundamental processes of visual perception and drawing methods related to the application of mark making instruments to a variety of substrates. Repeatable one time with instructor permission. Spring semester.

VIS 330 Topics in Visual Communication (3) Special studies in aspects of expression and communication in visual media. Fall semester. Repeatable. Prerequisite: any other course in visual communication concentration.

VIS 199, 491, 493, 494, 495, 499 (See pages 14-15)

Off-Campus Study Opportunities

Crossroads: Geneva's Center for Enriched Learning administers all off-campus study opportunities.

Acceptable personal and academic qualities and habits are required for off-campus study. Because many qualities affect the off-campus study process and success, a student can be evaluated on non-academic performance issues which may include adherence to ethical standards, personal maturity, motivation, and dependability, in addition to academic qualifications. These characteristics may be inferred by the College from a number of sources, including, but not limited to, results of formal assessment(s), recommendations from faculty and staff, personal interviews, and written materials. The College reserves the right to refuse to permit any student to study off-campus and to involve any appropriate campus personnel in the decision-making process.

The following is a list of semester-long off-campus programs offered by Geneva College and our partners. Short term Geneva programs are planned by faculty on a regular basis. More information can be found on the Geneva College website: <http://www.geneva.edu/academics/crossroads/off-campus-study/>.

Arcadia University

Arcadia University offers more than 100 programs around the world through its College of Global Studies. Arcadia currently offers coursework in 56 fields—from African Studies, Architecture, and Engineering to Geology, Information Technology, and Veterinary Science.

Art Institute of Pittsburgh

Qualified Geneva College students may apply for one of the Junior-year College Affiliate Programs at The Art Institute of Pittsburgh. Students who are graduates of the Art Institute of Pittsburgh are able to articulate into Bachelor of Arts and Bachelor of Science programs being offered at Geneva College.

Geneva College students in their third year may enroll at the Art Institute of Pittsburgh for a specialized two-quarter (30 quarter credit hours equal to 20 semester credit hours) or three-quarter (45 quarter credit hours equal to 30 semester credit hours) program in one of the following subject areas in which the student is interested and qualified. For the two-quarter option, students will enroll during the Summer quarter or Winter quarter and for the three-quarter option, students will enroll in the Fall quarter.

- A. Photography
- B. Fashion & Retail Management
- C. Fashion Design
- D. Game Art & Design
- E. Graphic Design
- F. Interior Design
- G. Media Arts & Animation
- H. Visual Effects & Motion Graphics
- I. Web Design and Interactive Media

Qualified students will have completed two years, 58-64, credits, on Geneva's home campus and must have a GPA of 2.5 or better. They must have received approval from the Communication Department Chairperson and their advisor and have received approval to enter a specific program at the Art Institute of Pittsburgh.

Following the completion of the Junior-year option, the student will return to Geneva's home campus for completion of their senior year and graduation requirements.

Au Sable Institute of Environmental Studies

Geneva cooperates with the Au Sable Institute of Environmental Studies by offering credit for summer courses at Au Sable's nature studies centers in the Great Lakes, Pacific Rim, India, and Costa Rica. Courses can be chosen from the following list:

- Alpine Ecology
- Animal Ecology
- Aquatic Biology
- Conservation Biology

Directed Individual Studies
 Ecological Agriculture
 Ecology of the Indian Tropics
 Environmental Applications for GIS
 Environmental Chemistry
 Environmental Health
 Field Biology in Spring
 Field Botany
 Field Ecology of Birds
 International Development and Environmental Sustainability
 Lake Ecology and Management
 Land Resources
 Marine Biology
 Marine Mammals
 Molecular Tools for the Field Biologist
 Research
 Research Methods I and II
 Restoration Ecology
 Tropical Agriculture and Missions
 Watersheds in Global Development
 Wildlife Ecology

For complete course descriptions and registration procedures, obtain an official Au Sable bulletin from Professor Marjory Tobias, mctobias@geneva.edu, or log on to the Au Sable website at <https://www.ausable.org/>. Any Au Sable course with 90–100 contact hours will give four credit hours of BIO, CHM, or SCS, depending on the specific course. In combination with specified courses at Geneva, students can qualify for certification as naturalists, as environmental analysts, as land or water resources analysts, or as stewardship ecologists, or for an environmental science minor (page 36).

BCA Study Abroad

BCA Study Abroad is an independent, non-profit international education organization with programs around the world and is committed to the advancement of peace and justice.

BestSemester

BestSemester offers eight off-campus and study abroad programs around the world through the Council for Christian Colleges and Universities (CCCU). These programs offer a unique opportunity for students to make the world their classroom and are available to second-semester sophomores, juniors, and seniors.

- American Studies Program
- Australia Studies Centre
- Contemporary Music Center
- Los Angeles Film Studies Center
- Middle East Studies Program
- Oxford Summer Program
- Scholars' Semester in Oxford
- Uganda Studies Program

Chinese Language, Culture and Missions Semester Abroad Program (CLCM)

The Chinese Language, Culture and Missions Semester Abroad Program (CLCM), located at Christ's College in Taipei, Taiwan, gives students the opportunity to study Chinese language and culture in a Chinese-speaking environment. It also allows students to gain an understanding of the history of Christian missions in China and how to do ministry within Chinese contexts. Students earn 15 semester hours of credit. Students also have a variety of opportunities for community service both on and off campus.

Jerusalem University College

Geneva College maintains membership in the Associated Schools of Jerusalem University College. Geneva students therefore can take classes in Jerusalem for Geneva College credit. Advisor for the program is Dr. Byron G. Curtis.

Subscribing to the historic Christian faith in the evangelical and nondenominational tradition, Jerusalem University College, facilitating the interests of its consortium of associate schools, offers graduate and undergraduate programs of study at its campus on Mount Zion in Jerusalem, Israel.

The programs of study seek to enhance students' understanding of the Bible and of the cultures of the Middle East. Specifically, students may achieve their educational objectives by:

- A rigorous study of the history, archaeology, and geography of Israel and other areas of the Middle East.
- A mastery of Biblical language and literature and a working knowledge of other Semitic languages appropriate to their study programs.
- An accurate understanding of the cultural, philosophical, and religious expressions of the ancient and modern peoples of Israel and other countries of the Middle East, including the relationship of Israel with other Middle East nations and the role of Israel in the ancient and modern worlds.
- A maximal use of and personal interaction with the unique academic and cultural resources available to them in the classroom and their fieldwork in Jerusalem, throughout Israel, and in other regions of the Middle East.

LCC International University

A university education within an international learning community that transforms people for servant leadership, the goal of LCC is to engage students in a transforming educational experience. To create a generation of leaders for Eastern Europe who think critically, promote democratic ideals, develop a market economy, and re-build the network of civil society within the context of a Christian worldview. LCC is located in Klaipeda, Lithuania: a major ice-free port city on the Baltic Sea connecting Russian and Western European business and industry. The semester at LCC is a five (5) course fifteen (15) credit program. Included in the program is an orientation week with travel throughout Lithuania, and a one week trip to St. Petersburg and Moscow.

Lorenzo de Medici Institute (LdM)

LdM offers academic and professionally-oriented courses designed to complement a variety of study abroad programs as well as enrich students' knowledge, education and skills. Students can choose from over 400 different courses in 37 subject areas, which are taught in English at LdM's three locations: Florence, Rome, and Tuscania. Courses fall under five main academic divisions: Arts and Sciences, Sciences, Creative Arts, Design, and Italian Language and Culture.

LdM is committed to delivering a high-quality international learning experience through which students advance along their formal educational paths, develop their creativity, realize their own potential, and empower themselves to impact the world around them. Experiential learning is LdM's main tool to foster students' future professional development.

NYC Semester at The King's College

Interact with top professors, experience New York, and study in-depth in one of four areas of study: Business, Journalism, Media Culture & the Arts, Finance, Religious & Theological Studies, or Policy, Philosophy & Economics. Courses and electives are based on fall and spring semesters. NYC Semester at The King's College immerses students in a unique academic experience. At the campus in Manhattan's Financial District, students will engage in an exciting and rigorous academic program while taking advantage of unparalleled internship opportunities, cultural experiences, and more.

Rome with Purpose

Rome with Purpose is designed to offer Geneva College students the opportunity to "Experience Italy in Christian community." While living together in a convent near the center of Rome, Italy, students have opportunity to engage in a rigorous and stimulating academic program, explore the antiquities of Rome, experience current Italian culture, and get involved in ministry opportunities with local churches. Rome with Purpose professors all teach from a Christian worldview and the director and his wife are on-site to guide and mentor the students as they step forward and follow Jesus through this intercultural experience. Students can earn 16 credits during their 90-day stay, with three weeks available for independent travel throughout Europe. A summer option is also available.

Salzburg Institute

The Salzburg Institute Summer Program is designed for students interested in but not necessarily majoring in history, music, philosophy, fine arts, literature, biblical studies, communication arts, and theology. Studying in Salzburg offers students a vibrant academic experience in a city with an incredible cultural, intellectual, and musical heritage. The program accepts students from various religious and ideological backgrounds who are interested in exploring the arts and humanities within the context of the Christian tradition. This is a five-week diverse program for undergraduate students which includes cross-cultural workshops, concerts, and numerous excursions to a wide array of cultural institutions and churches, as well

as a week-long trip to Vienna. Students will earn 8 credits during the session. All participants take one of the two Institute's 4-credit core seminars on Christian Thought and Culture.

Semester In Spain

In affiliation with Trinity Christian College, Geneva College students may study abroad in Seville, Spain. Students are offered beginning, intermediate, and advanced courses in Spanish. During the semester students will be challenged academically in the study of the Spanish language, culture, history, and art by a faculty of native Spaniards. Students will also live with a host family, learning their traditions and experiencing the ways in which they live. The education will be so much more than 16 course credits. Participants are able to visit Córdoba, Toledo, Granada and the small pueblos outside Seville. During their semester, students will gain improved language fluency and a greater understanding of Spain and Europe. Semester In Spain provides high quality academic instruction in an experiential format. The program offers a global perspective with depth of study in Spanish language, culture, and history. Consistent with Geneva's mission of equipping students for lives of Christ-like service, the program nurtures a context of Christian support and community.

WINS (Webster International Network School)

Geneva students have access to programs offering coursework in many disciplines at locations across the world, including: Austria, China, Ghana, Greece, the Netherlands, Switzerland, and Thailand. Because of Geneva's partner status, students are eligible for an airfare award through WINS to help defray the cost of transportation to their off-campus study location.

Non-Traditional Undergraduate Programs

The Center for Urban Biblical Ministry (CUBM)

The Center for Urban Biblical Ministry (CUBM) was established in Pittsburgh in 1992 using the CUTS model in Philadelphia. The purpose of the program is to offer biblically based education to urban church leaders and active laypersons who have had little or no previous college experience. The program is based at the Reformed Presbyterian Theological Seminary in the Point Breeze area of Pittsburgh. The program offers associate of arts in Christian ministry and in Leadership, an associate of arts in business administration, and an associate of science in human services that prepare students to enter the Geneva Adult Degree Program in human resources or community ministry leadership or other four-year degree programs. Classes are offered in the evening and students can take from one to three classes per semester. The program is staffed by a director who is supported by the various administrative offices on the Beaver Falls campus.

For curriculum details call 412-247-9010 or e-mail kbyrd@cubm.org.

Associate of Arts in Christian Ministry- 63 credit hours

Core Requirements – 33 credit hours

Take 6 credit hours of Biblical Studies

BIB 112	Biblical Introduction I	3
BIB 113	Biblical Introduction II	3

Take 6 credit hours of Social Science

PSY 201	General Psychology	3

Adult Degree Programs

These special programs are available for students who have had work experience and perhaps some prior college courses who are seeking to obtain or complete an associate's or baccalaureate degree. The Geneva College Adult Degree Programs (ADP) offer both an Associate of Arts in General Studies (AA) degree and a Bachelor of Professional Studies (BPS) degree in a selection of majors through online, classroom, and hybrid formats.

There are two categories of courses in the ADP: courses within each of the majors, and core and elective courses. Online courses are asynchronous (learners log on and participate at the time of their choosing, not at a set time). Classroom students meet one night per week from 6 p.m. to 10 p.m. at a choice of locations. Learning in these non-traditional methods may be evaluated through multiple means, depending on the format (classroom or online), such as written reflection, online discussion forums, oral and/or video presentations, classroom and/or online activities, and quizzes and exams.

Advantages of the Adult Degree Programs include:

- Curriculum designed specifically for non-traditional students
- Flexible tuition and financial packages
- Online and hybrid course offerings provide added flexibility
- Online courses are offered in two eight-week blocks in each of the fall and spring terms and one eight-week block of courses in the summer
- Classroom programs are offered on an accelerated, continuous calendar
- Classroom students attend class one night per week, from 6 to 10 p.m. in comfortable, small group settings
- Highly qualified faculty with experience in their field of instruction
- Easy online registration

Associate's Degree Program

The Associate of Arts in General Studies program requires a minimum of 60 credit hours. Students must satisfy the following 24 credits of Geneva College core requirements:

English Composition	3
Social/Behavioral Science	3
Humanities	6
Geneva Bible Courses	6
Natural Science or Science and Math	6

The balance of credits can be selected from ADP's Online Core and Elective Courses, and students are encouraged to take electives that can lead to an ADP minor.

Up to 24 credits can be accepted in transfer. At least 36 credits must be completed at Geneva College.

Bachelor's Degree Programs

To be admitted to an ADP major that leads to a Bachelor of Professional Studies, adults must have a minimum of 60 credit hours from Geneva College or 60 credit hours of transferable credit from an accredited college or university with a GPA of 2.0 or above, five years of post-high school experience, and demonstration of writing competency. This program is not intended for the traditional undergraduate student. Students who have not yet earned the minimum 60 credits may take credits from the ADP Core and Elective course offerings.

A minimum of 120 credit hours is required to obtain the Bachelor of Professional Studies.

For specific details on curriculum, admission and graduation requirements, tuition and fees, class start dates, or any other aspects of the ADP, contact the Adult Degree Programs in the Department of Professional, Online, and Graduate Studies at 800-576-3111.

ADP students must satisfy Geneva College core requirements, either by ADP's Core and Elective offerings or by transfer.

Minimum Core Requirements -18 credit hours

English composition	3 credit hours
Humanities	6 credit hours
Natural science or science and math	6 credit hours
Social science	3 credit hours

ADP Core and Elective Courses

The ADP's Core and Elective courses help adults who have earned fewer than the 60 credit hours required to enter major courses in the ADP, or who need additional credits to complete their degree requirements. Through ADP's Core and Elective credits, students can continue their education in a program designed specifically for adults. These Core and Elective offerings provide adults who have been away from the college classroom for some time the opportunity to acquaint themselves with Geneva's innovative and adult-friendly format. Core and Elective courses are offered in the fall, spring, and summer. Check Geneva's website or call the ADP office 800-576-3111 for course offerings.

Aging Services Major – B.P.S. *Online only.*

The B.P.S. in Aging Services prepares graduates to manage the aging services workforce. As highly competent managers, they help provide for the well-being and safety of individuals who need support while living in residential care and community-based settings. Topics of study include non- medical direct care services and support, planning and evaluation, and aging services law and administration.

Courses are delivered fully online.

Major Courses- 36 semester hour credits

AGE 440	Legal Issues in Aging	3

Child and Family Services Major- B.P.S. *Online only.*

The B.P.S. in Child and Family Services prepares students for the issues faced by human services professionals working with families and children. Students examine current social systems and policies that impact families, as well as various forms of family dysfunction. In addition, they develop an understanding of child growth and development, as well as the key role that family has in maturation. Understanding how a family truly functions is a difficult task- each individual, no matter how big or small, plays a vital role in the makeup of a family.

Courses are delivered fully online.

LDP 395	Principles of Teambuilding	3
LDP 441	Business and Interpersonal Communication	3
LDP 438	Principles of Organizational Change	3
ORD 460	Organizational Dynamics	3

Psychology Minor

Courses are delivered fully online.

PSS 201	Introduction to Psychology	3
PSS 250	Life Span Development	3
CFS 251	Child Development	3
PSS 253	Adulthood and Aging	3
PSS 313	Abnormal Psychology	3
HSS 202	Human Diversity	3

Public Relations Minor

Courses are delivered fully online.

Eighteen credits are required for the minor; select six courses from:

MGT 320	Marketing	3
PBR 280	Public Relations Publications	3
PBR 205	Principles of Public Relations	3
PBR 350	Digital Communication Design	3
PBR 380	Strategic Planning for Public Relations	3
PBR 315	Communication Theory	3
PBR 212	Organizational Communication	3

Adult Degree Programs Course Descriptions

The Geneva College Adult Degree Programs (ADP) offer courses in online or classroom formats, or a combination of these formats (called *hybrid* courses). Classroom sessions are held from 6 p.m. to 10 p.m. in facilities geographically convenient to the students. Online courses are asynchronous (learners logon and participate at the time of their choosing, not at a set time.) ADP online courses are offered in either of our learning management systems, Moodle (MDL) or Atheneo (ATH).

Learning in these non-traditional methods may be evaluated through multiple means, depending on the format (classroom or online), such as written reflection, online discussion forums, oral and/or video presentations, classroom and/or online activities, and exams.

For specific details on curriculum, admission and graduation requirements, tuition and fees, class start dates, or any other aspects of the ADP, contact the Adult Degree Programs in the Department of Professional and Online Graduate Studies at 800-576-3111.

ADP students must satisfy Geneva College core requirements, either by ADP's Core and Elective offerings or by transfer.

Course format and learning management system (LMS) are indicated behind the course number as follows:

MDL = Course in Moodle LMS *ATH* = Course in Atheneo LMS *CLR* = Classroom delivery

ACE 150 (ATH) Accounting Fundamentals (3) This course is an overview into the many accounting functions used in a student's workplace. The textbook and examples are chosen to combine theory and experiences in such a way as to increase a student's understanding of accounting theory and the role the accounting function supports the understanding and operation of every business.

ACE 155 (ATH) Faith and Money (3) This class will teach students what God says about handling money and possessions with a goal of students learning to be financially and spiritually free. A practical method of budgeting is included. It will also cover God's principles of living honestly, being accountable, dealing with debt, giving, work, and eternity.

ADL 115 (MDL) Success Strategies for the Adult Learner (3) This course is designed to equip adult learners with strategies for success in college and in life-long learning, emphasizing personal responsibility. With a specific focus toward success in online learning, the course covers foundational ideas about faith, learning, and a biblical worldview. Geneva's available resources and services; goal-setting; time management and organization; writing basics; reading strategies; APA; and adult learning theories.

ADL 119 Principles of Personal Finance (3) This course introduces personal financial literacy and wealth management. Based on the widely-recognized money management principles of Dave Ramsey, students will learn the essentials of financial planning for the present and future and will acquire knowledge and skills to take charge of their finances through saving, budgeting, investing, and other financial management strategies.

ADL 430 (MDL) Organizational Analysis (3) Completing this course will prepare students to analyze the structure and function of an organization in light of contemporary organizational models. Participants apply theoretical knowledge about organizations to a specific organization and explore how organizations can be transformed into redemptive agents in this world and contribute to human flourishing.

ADL 432 (MDL & CLR) Research and Resources (3) This course encourages students to develop familiarity with the literature in their major field of study with an emphasis on information literacy. Students will identify, access, retrieve, and summarize respected information in the field that is relevant to a research topic. In addition to identifying themes in the literature, students will compare, contrast and evaluate the major perspectives that emerge from their investigation.

ADL 445 (MDL & CLR) Theory and Practice of Adult Learning (3) In this course adult students will explore several theories of adult learning, including the Kolb model of adult learning, and then students will apply one of the models to their own experience of learning. This course will have application both to the student's own self-discovery but also to the work that the student may perform as a leader in a workplace or ministry setting.

ADL 470 (MDL & CLR) Career and Professional Development (3) In this course, students will reflect on the learning that they have experienced during the entire program. They will develop a compendium of learning and accomplishments in the program, as well as key professional documents that are typical of a person looking to advance in their chosen profession.

AGE 201 (MDL) Aging Services & Case Management (3) This course provides an overview of services and professions whose history, values, goals, and practices support aging populations. Support coordination and case management are a focus of the course, with emphasis on identifying client needs, problem solving, preparing case plans for individuals and families, and community and organizational interventions and advocacy.

AGE 250 (MDL) Health, Wellness & Adjustment in Older Adults (3) This course provides a non-clinical knowledge base of the physical and mental aging processes, including forms of dementia, and will introduce students to holistic (physical, spiritual, psychological, and social) wellness promotion in older adults, with particular attention to creating programs for this purpose. Students will be introduced to principles of spiritual development in older adults that can aid individuals and their families in adjusting to loss and later-life transitions.

AGE 301 (MDL) Professional Ethics in Aging (3) This course focuses on broader philosophical and worldview issues related to the ethics of aging and dying. Ethical principles and best practices guidelines of advocacy agencies and organizations will be presented. Ethical and legal issues related to this vulnerable population, behavioral interventions, self-determination, and professional boundaries will be included.

AGE 401 (MDL) The Aging Adult in Social Systems (3) This course will consider the needs of the aging adult in family and social systems. Students will explore the cooperative nature of family involvement in elder care management. Community and congregational resources will be examined. Different theories and topics such as aging-in-place, long term and palliative care, and hospice will be discussed. The biblical model of creation, fall and redemption will be the context for the class.

AGE 410 (MDL) Death, Dying and Bereavement (3) This course is designed to give the student an understanding of the research and theories of death, dying and the bereavement process, as well as the development and impact of a Christian understanding/eschatology for both the patient and loved ones in these processes. Hospice, palliative care, ethics, and euthanasia are discussed, as well as cross-cultural beliefs that come to bear on these phenomena.

AGE 420 (MDL) Supervision & Professional Development (3) Fundamental employee supervision topics are addressed including training, supervision, performance evaluation, and motivation as students are prepared for early managerial roles within direct care organizations. The course also covers confidentiality, professionalism, boundaries and roles, cultural diversity and personal values.

AGE 430 (MDL) Policies & Programs for Aging Populations (3) This course surveys the history and current development of systems designed to serve the aged and aging in the United States. Agencies and programs oriented to meet the needs of aging populations will be explored and the policies influencing their development will be critically analyzed. The role of the economy, politics, race, class, gender, legal and advocacy issues are discussed.

AGE 440 (MDL) Legal Issues in Aging (3) This course introduces legal and policy issues affecting older adults and their families, as well as care providers. Both national and state policies that impact the services and care available to older adults and access points for these services will be presented. Provides information on long-term care facility types and how they are licensed; Medicare and Medicaid services and coverage; mental health and veteran's services; abuse and protective services; legal planning for aging, including health care directives and powers of attorney; and advocacy and the legal processes that vary by state. Focuses on how each program contributes to a web of services for older adults, as well as areas in which services may be lacking.

BBL 135 (ATH) Wisdom Literature (3) This course explores the primary works of wisdom literature in the Old Testament (Job, Proverbs and Ecclesiastes) along with related materials in some of the Psalms and the New Testament Epistle of James.

BBL 200 (ATH) How to Read the Bible (3) A study of the process that led to the creation of the English Bible and its authority, a survey of the principles and practice of independent Bible study, including an emphasis on the grammatical historical approach to biblical interpretation. The student will study methods of application leading to the development of them, proposition and finally the lesson itself.

BBL 251 (ATH) Church History I (3) A study of the history of the Christian Church from its founding on the day of Pentecost to the beginning of the Reformation with special emphasis upon people, events and doctrinal controversies that were significant in the growth of Christianity.

BBL 252 (ATH) Church History II (3) A study of the history of the Christian Church from the dawning of the Reformation to the present time with special emphasis upon the people, events and doctrinal controversies that were significant in the growth of Christianity.

BBL 303 (ATH) Pentateuch (3) This course examines the historical and theological themes unifying the first five books of the Hebrew Bible (the Old Testament). Students will be directed to gain a broad reading acquaintance with these books, so as to understand particulars of each alongside their commonality. Basic English Bible knowledge is a prerequisite for this course. A primary component of this course will be readings through most of the Pentateuch. However, the course will take more of a thematic than a purely chronological or sequential approach to the five books of Moses.

BBL 408 (MDL & CLR) Foundations of Christian Thought (3) This course explores the phenomenon of “worldview” as the assumptions that everyone has about reality- a vision for life that drives how people view the nature of the world, the remedy for the world, and the future of the world. And, this course challenges students to critique their own worldview in light of the worldview presented in the Bible. At the end of the course, students will be equipped to examine their own life and work in light of the biblical worldview.

BBL 409 (MDL) Christianity in Dialogue (3) Students will explore the basics of Christian apologetics in terms of identifying the assumptions that drive life-commitments. In particular, the most common and influential perspectives will be evaluated, and the contradictions inherent in living out worldviews will be considered. It will be the perspective of this course that a biblical worldview, with its assumptions deriving from Scripture, best explains the world and human experience.

BIB 112 (ATH) Biblical Introduction I—Creation to Post-Exilic Period (3) Introduction to the history of salvation as expressed in the Old Testament, including historical and theological study focused on Israel as the covenant people of God, with special attention on the relationship of the Old Testament to Jesus Christ.

BIB 113 (ATH) Biblical Introduction II—Intertestamental Period through Apostolic Age (3) The political, social, and religious background and setting of the New Testament; the Gospels as witness to Jesus Christ; and the development of Christianity in the first century.

BIO 218 (MDL) Introduction to Nutrition (3) An introduction to the major types of nutrients needed by humans, their utilization by the body, the consequences of their deficiencies, and their sources. Nutritional principles are applied through the life cycle.

BSS 201 (ATH) International Business (3) This course will help you understand the issues, the terminology of international business, some of the regions, the organizations that play a role in international business and the very practical steps and tools for developing a sustainable international business.

BSS 217 (ATH) Entrepreneurship (3) This course covers the various disciplines, activities and skill sets required to be successful as an entrepreneur. It explains the physiological and analytical aspects of successful entrepreneurship as well as skill sets needed in the disciplines of management, marketing, accounting, operations, and law.

CFS 230 (MDL) The Family System in Context (3) This class will consider the dynamic family in social context. Different theories and topics such as marriage, parenting, communication, conflict and economics will be discussed. The biblical model of creation, fall and redemption will be the context for the class.

CFS 251 (MDL) Child and Adolescent Development (3) Development and behavior from conception through puberty and the subsequent attainment of maturity, including genetic influences, developmental processes, and psychological processes related to physical, linguistic, social, intellectual, emotional, and personal development.

CFS 301 (MDL) Child and Family Policy (3) This course provides an historical overview of family and child policy in the United States, including policies toward children and families in poverty. The role of the economy, politics, race, class, gender, legal, and advocacy issues are discussed.

CFS 401 (MDL) Development of Professional Skills (3) This course teaches professional skills necessary to be a successful service provider. The course covers confidentiality, professionalism, boundaries and roles, cultural diversity and personal values.

CFS 450 (MDL) Program Management and Evaluation (3) This course focuses on program development, administrative procedures, and program evaluation. Specifically, there is an emphasis on the basic skills required for development, delivery and evaluation of a wide range of human service programs including preventive interventions for families and individuals.

CFS 495 (MDL) Professional Ethics (3) This course introduces students to the philosophy of ethics, principles of ethics, and ethical decision-making models. Students will be challenged to clarify personal values, explore professional codes of ethics, and engage in ethical analysis as it relates to the provision of children and family services. Students will acquire and practice the skills of ethical decision-making in terms of Christian thought and belief.

CMN 403 (MDL & CLR) Personal Leadership Assessment and Development (3) This course will establish principles and requirements for leadership, depict biblical examples of how God develops leaders for His ministry, provide opportunity for students to apply this understanding to their own lives through self-assessment of leadership characteristics, and guide students in recognizing and describing God's calling and development of their own lives for a particular field of ministry.

CMN 404 (MDL & CLR) Old Testament Principles for Ministry (3) This course will be an introduction to Old Testament interpretation. Furthermore, special attention will be paid to the application of ministry principles found in the Old Testament to a variety of community ministry settings.

CMN 406 (CLR) The Church In Its Community (3) This course will examine the role of the congregation as a moral agent for positive change in the community. The course will be divided into three phases of discussion: (1) Developing a theological framework for understanding community (heirs and disinherited), giving special attention to the faith community as a support group; (2) Overcoming obstacles to community building and exploring resources and strategies for community organizing; and (3) Strategies for reconciliation and conflict resolution in small groups and in addressing public issues.

CMN 407 (MDL & CLR) New Testament Principles for Ministry (3) A study of the book of Acts with practical application for ministry today.

CMN 409 (MDL & CLR) Principles of Family Ministry (3) The focus of this course is on an understanding of the family from a biblical perspective and the development of an underlying biblical theology of family ministry.

CMN 410 (CLR) Leadership for Mission and Ministry (3) This course will explore the biblical foundations for the church and its ministry, review the biblical concept of leadership, explain how to discern and develop spiritual gifts, describe selection and training of leaders, develop a biblical philosophy of ministry and practice formulating strategies and programs which are deliberately rooted in such a biblical philosophy.

CMN 416 (MDL & CLR) Theology and Practice of Evangelism (3) Adult students in this course will explore both the theological underpinnings of evangelism as well as explore various methods for doing evangelism, with a view toward both becoming more articulate in sharing their own faith and becoming more equipped to giving leadership to an evangelistic effort in their own communities.

CRM 202 (MDL) Human Diversity (3) This course surveys human diversity in terms of race, ethnicity, gender, and social class in contemporary American culture. The effects of oppression and prejudice will be explored on individuals and groups, as well as evaluating the consequences of social policy aimed at alleviating discrimination. Implications for the practice of criminal justice will be discussed.

CRM 210 (MDL) Theoretical Foundations of Criminal Justice (3) This course will provide students with a general overview of the criminal justice system and its foundation, including its history, current role, developments, and constitutional implications. This course will also explore key criminal justice theories and developments in the field while examining the major criminal justice agencies including police, prosecution, courts, corrections and interdependence.

CRM 217 (MDL) Contemporary Issues in 21st Century Policing (3) This course examines the various theories and research on police service from the federal, state, and municipal level. It examines the nature of coercion in human interaction and the legitimate use of force by police. This course will also examine the emerging trends and issues in policing, along with

the various philosophies and research on the Standard Model of policing, Community-Oriented Policing, and Problem-Oriented Policing. Students will also review theories of police administration and the research corroborating or refuting the validity of those theories.

CRM 330 (MDL) Juvenile Justice (3) Students will review causal theories of juvenile crime and will also examine the history and philosophy of the treatment of juveniles in the criminal justice system and the goals and effectiveness of the system. Promising alternatives rooted in a biblical reconciliation worldview will be included.

CRM 345 (MDL) Adult Community-Based Corrections (3) This course examines the history, structure, organization, and operation of community-based services in the Criminal Justice System. The focus is on the application of services provided to people in diversion programs and those convicted of crimes who are allowed to remain in the community to serve their sentences. Types of offenders, styles of supervision, innovative programs, and contemporary trends in community-based corrections will be explored.

CRM 350 (MDL) Criminal Investigations & Procedures (3) In this course students will explore the basic concepts of criminal law and its ideologies and theories, while focusing on a study of what constitutes particular crimes, both in the common law and by statute, including certain defenses. Students will also explore the historical development of criminal law and its contemporary application. Students will gain an understanding of the examination of a crime, with a detailed study of the evidence and procedures involved with investigating a crime. Students will also explore the laws of arrest (including use of force), search and seizure, with an emphasis on the constitutional basis. This course will help adult students develop a deeper ability to discern what constitutes fair administration of justice: dealing fairly with the accused while continuing to uphold the interests of both victims and society at large.

CRM 360 (MDL) Public Administration of Justice (3) This course is designed to introduce students to the theory and study of public administration. It will address the development and execution of policy and the leadership and management of governmental agencies and organizations. Topics include: the critical role that public bureaucracies play in the administration of justice, intergovernmental relations, formal and informal groups and their role in the creation of policy, legal-processes and public organizational theory and dynamics.

CRM 400 (MDL) Terrorism and Homeland Security (3) In this course students will examine the characteristics and causes of terrorism and the multiple threats to our homeland security- radiological, biological and chemical- technologies and events emerging in the 21st century. Students will also analyze from a criminal justice perspective the terror movements affecting the United States, including the crime of human trafficking and cyber security, and will discuss legal issues, investigations, and criminal profiles. Emphasis will be given to prevention, preparedness, and response along with the roles of local, state, and federal agencies in the process. Various social and historical forces and events will be considered in order to contextualize specific key individuals, organizations, and actions. This course also examines motivational factors- religious, political, and ideological- that drive various groups.

CRM 450 (MDL) Ethics & Professionalism (3) This course introduces students to the philosophy of ethics, principles of ethics, and ethical decision-making models. Students will be challenged to clarify personal values and engage in ethical analysis as it relates to the provision of criminal justice services. Ethical dilemmas applicable to law enforcement, corrections, and community-based corrections will be examined. Students will acquire and practice the skills of ethical decision-making in terms of a Christian worldview.

EGL 101 (ATH) English (3) This course will engage students in the production of effective academic writing. It is designed to meet the composition needs of beginning or returning college students. It will teach the rhetorical and arrangement skills that are basic to effective learning and communicating through writing in any discipline.

ENG 101 (MDL & ATH) English Composition (3) Fundamentals of expository writing. Offers practice in reading, interpreting, and responding to texts. Passing grade to meet college requirement is C- or better.

ENG 102 (MDL & ATH) Academic Writing and Research Process (3) The course is intended to serve those students who seek to improve the knowledge, skills, and strategies to find and critically evaluate information, and then organize the results of their results of their research and communicate them in writing. Prerequisite: ENG 101 or equivalent.

HMT 411(MDL & CLR) Humanities (3) Students will explore the humanities as a manifestation of human responses to the Cultural Mandate- to "rule over the earth and subdue it". The humanities reflect the cultural values of the culture from which they spring, therefore students will be equipped with the theological and philosophical categories needed to properly discern the truth (and untruth) of the cultural messages embedded in the humanities. On the one hand, students will be

equipped to appreciate the common grace truth embedded in the humanities, but on the other hand, students will be equipped with the biblical categories of antithesis needed to discern where those truths fall short. At the end of the course, students will be equipped to engage both aesthetic considerations and “truth considerations” in the humanities.

HRS 441 (MDL) Business and Interpersonal Communication (3) Emphasis is placed on the interpersonal skills that students may use to facilitate effective relationships. Attention is given to the importance of being an effective communicator in both interpersonal and organizational contexts. Students have the opportunity to practice and assess communication and presentation skills. Class sessions include discussion of assigned readings, role playing exercises, small group activities, and presentations. Course concepts are modeled in a final presentation as well as in a reflection paper.

HRS 443 (MDL) Training and Development (3) Students in this course study theories, concepts, and processes that are used to develop, implement, and sustain training programs in organizations. As part of the course, students examine the principles for establishing effective training and development methods including design, delivery, and assessment. The major project for this course is the creation of a training and development plan that is applied to their organization.

HRS 451 (MDL) Introduction to Human Resources (3) This course provides an introduction to the field of Human Resources and discusses the emerging role of HR professionals as strategic business partners as well as their relationship to other functions within the organization. Legal and contemporary approaches to diversity management are discussed. Key legislation discussed will include EEO, ADA, FMLA, and Title VII. This course will provide a foundation for further study of Human Resources.

HRS 453 (MDL) Policies and Personnel Management (3) This course is the second course in the sequence of courses covering the Human Resources body of knowledge and it focuses on human resource development. Human resource development topics include training, development, and performance management.

HRS 455 (MDL) Employee & Labor Relations (3) In the sequence of courses covering the human resources body of knowledge, this course includes the topics of employee relations in both union and non-union settings as well as workplace health and safety. The National Labor Relations Act and the Occupational Health and Safety Act will be covered.

HRS 457 (MDL) Principles of Management and Supervision (3) Students identify the actual roles managers play in complex organizations. Students are prepared for managerial roles while helping them work more effectively with current managers. Management theory is critically evaluated for its usefulness in light of actual practice.

HRS 458 (MDL) Current Issues in HR (3) The focus of this course is not the acquisition of new knowledge and theories in the field of Human Resources, but rather the application of knowledge gained in previous learning modules and courses to current issues and trends in the field today. Students will be expected to research trends and issues that are relevant and understand how they affect the HR Manager.

HSS 201 (MDL & CLR) Introduction to Human Services (3) This course provides an overview of the human services profession, its history, values, goals and practices. Ethical and philosophical issues involved in providing human services to those in need will be explored.

HSS 202 (MDL) Human Diversity (3) This course surveys human diversity in terms of race, ethnicity, gender, and social class in contemporary American culture. The effects of oppression and prejudice will be explored on individuals and groups, as well as evaluating the consequences of social policy aimed at alleviating discrimination. Implications for the practice of human services will be discussed.

HSS 205 (CLR) Cultural Competence (3) This course provides an overview of various theories, methods, and applications concerning the concept of cultural competence within human service and psychological disciplines, as well as within the Church and the kingdom of Christ. The course examines cultural competence in terms of secular and Christian perspectives with an emphasis on Christ-centered and biblical strategies of implementation.

HSS 301 (CLR) Social Welfare Agencies/Policies (3) For classroom ADP cohorts this is a hybrid course- 60% On-line, 40% Classroom. This course surveys the history and current development of systems designed to serve those in need. Agencies oriented to meet the needs of special populations (e.g., the aged, children and youth, rural and urban groups) will be explored and the policies influencing their development will be critically analyzed.

HSS 305 (CLR) Counseling & Helping Skills I (3) This course is designed to prepare the student for practice in human services agencies through the development of culturally sensitive helping relationships. Emphasis is placed on enhancing communication skills, developing interview techniques, and learning basic group skills and group interactive patterns.

HSS 307 (CLR) Generalist Practice, Model & Theory (3) This course is a continuation of HSS 305 and is designed to further advance the student's practice skills. Emphasis is placed on identifying client strengths, problem solving, preparing case plans for individuals and families, and community and organizational interventions.

HSS 401 (CLR) Senior Seminar (3) This course is offered in conjunction with the internship experience and is designed to support the student's field experience with structured educational perspectives. The focus is to assist the student in integrating Christian viewpoints and human services theories with actual field practice.

HSS 405 (CLR) Community Interventions (3) This advanced human service course builds on micro level counseling and helping, as well as generalist practice knowledge and skills, in addressing the human service needs of at-risk groups (e.g. impoverished, mental health, drug and alcohol, children and families involved in child protective services, domestic violence, community violence, adult and juvenile justice, and AIDS/HIV). The course examines special populations in the context of human needs, crisis intervention, and other community systems and interventions. Special attention will be given to church based and Christian strategies used to care for at risk groups.

HSS 432 (CLR) Human Services: Research and Resources (3) This course encourages students to develop familiarity with the literature in their major field of study with an emphasis on information literacy. Students will identify, access, retrieve, and summarize respected information in the field. In addition to identifying themes in the literature, students will compare, contrast and evaluate the major perspectives that emerge from their investigation.

HSS 434 (MDL & CLR) Applied Research & Statistics (3) Data analysis and evaluation techniques are presented. Specific information covered includes entering data in a database, frequencies, measures of central tendency and dispersion, analyzing correlation and variance, and working with tests of significance.

HSS 450 (CLR) Field Experience (6) This course affords the student an opportunity to apply knowledge and theories obtained in course work to actual field experience. The student will be supervised in the agency placement by both an on-site coordinator and the Geneva placement advisor. A total of 270 hours will be spent on site during the 17-week term.

HUM 118 (ATH) Classical and Christian Cultures (3) This course examines human cultural achievement in western civilization from ancient times until the Renaissance. The philosophical, theological, and political contexts will be examined, along with literature, visual and musical arts.

HUM 119 (ATH) Western Culture: Renaissance to Modernity (3) This is a survey course of the historical, cultural, social, economic, and religious developments in western civilization. This course will examine, through reading, writing, and discussion, the dominant ideas in western culture as expressed in the philosophy, art, literature, and music from a Christian perspective.

LDP 305 (MDL) Principles of Negotiation (3) This course examines the art and science of negotiation. This course develops important leadership skills by combining lectures with practice, using exercises where students negotiate with each other. Over the course of this module, students engage in exercises and associated readings, exploring the basic theoretical models of bargaining, handling conflict, mediation, and consensus-building.

LDP 395 (MDL) Principles of Teambuilding (3) Study of how teams influence leadership effectiveness, with emphasis on how to develop interactive and dynamic groups, working in the virtual or face-to-face environment. Topics include the various means of sharing information when working in any team environment and the strategy of conducting environmental scanning to identify communication issues and formulate solutions.

LDP 421 (MDL) Case Studies in Leadership (3) Case studies will be selected for in-depth study of the application of leadership concepts with particular reference to those concepts found in Scripture. Students will develop a written analysis of their style of leadership. Related issues are introduced through readings.

LDP 438 (MDL) Principles of Organizational Change (3) Students explore types and forms of organizational change, the process of transforming organizations and the impact of change on people in organizations. Students translate theoretical concepts into active strategies for implementing recommendations for change in case studies and real-life scenarios. Transformation as a redemptive concept is also explored.

MGT 151(MDL) Principles of Accounting (3) Accounting application is critical to this course as the preparation of trial balances, adjusting and other journal entries, and financial statements are the focus. Financial and managerial decision making techniques are discussed and applied in detail.

MGT 213 (MDL) Principles of Micro/Macroeconomics (3) This course examines consumption and production at the household, firm and industry level; explains methods of economics analysis and price formulation; and examines the various market structures and behavior of pure competition, monopoly, oligopoly, and monopolistic consumption. Additional course material explains the characteristics and operations of the national economy, including the measurement of national employment, production and income, the role of money and banking, and international trade. Students also learn methods of economic analysis, the role of government, and economic policy.

MGT 241(MDL) Quantitative Analysis (3) Introduction to basic statistics and spreadsheets. Includes data collection, descriptive statistics, basic concepts of probability, inferential methods, hypothesis testing, correlation, and regression.

MGT 311 (MDL) Business Law (3) General principles applied to contracts, agency and employment, business organizations, government regulation, and real and personal property.

MGT 320 (MDL) Marketing (3) This course introduces the student to basic principles and foundations of marketing. Topics include defining marketing and the market process, understanding the marketplace and consumers, designing a customer-driven marketing strategy and mix, and the major trends and forces that impact marketing.

MGT 330 (MDL) Principles of Finance (3) Principles of corporate financial management. Course topics include ratio analysis, cash flow forecasting, leverage, working capital management, cost of capital, capital budgeting, and security types.

ORD 460 (MDL) Organizational Dynamics (3) In this course, students are introduced to the theory and concepts related to individual and group behavior in organizations. Students examine the reasons why people act the way they do in organizations, as well as identify methods that can improve the behavior and attitudes of organizational members. Topics related to individual and group problem solving are studied within the context of organizational structures and processes. Case studies and group practice allow students to apply these theories and concepts in presentation and written form. In addition, an application paper in which students address an organizational problem is submitted as part of the course assessment.

PBR 205 (MDL) Principles of Public Relations (3) Overview of the theories and applications of public relations and related fields. Examines integration of Biblical values in public relations through various lessons, case studies, and group projects.

PBR 212 (MDL) Organizational Communication (3) Explores the historical and theoretical developments in the research and practice of communication within organizational structures. Students will learn major theories and will be able to identify and define primary concepts, then apply them to real world situations. Students will also examine the roles of technology, culture, leadership, teamwork, and ethics as they relate to organizational communication.

PBR 280 (MDL) Public Relations Publications (3) Hands-on experience in the theory and development of creating graphic communications. Basics of design for printed and electronic materials used in public relations and marketing are discussed.

PBR 315 (MDL) Communication Theory (3) The study of communication through the exploration and analysis of societal theories and contemporary issues.

PBR 350 (MDL) Digital Communication Design (3) This course engages digital communication contexts emphasizing the role of design in web based mediums. Students learn how to make informed design decisions about content placement and invention. Students are also introduced to first level content development in an industry standard content management application.

PBR 380 (MDL) Strategic Planning for Public Relations (3) Exploring the various tools and tactics of effective public relations as a means of building mutually beneficial relationships between commercial and/or nonprofit organizations and their various publics.

PBR 411 (MDL) Crisis Communication (3) This course examines principles and procedures for communicating to multiple stakeholders and publics before, during, and after a crisis event. Students will explore the processes of planning,

implementing and evaluating crisis communication plans. Particular attention to human responses in crisis situations will be carefully considered as one seeks to support, encourage, and restore people from a biblical worldview.

PLS 401 (MDL) Christian Faith & Politics (3) Students will explore the Scriptural and philosophical underpinnings of government and survey the history of political thought with particular emphasis on the Christian tradition, including a discussion of the American Founding. In addition, the biblical principles of justice, economics, and liberty will be explored in the context of a reflection on modern political ideologies. Lastly, students will investigate a number of important issues in contemporary political debate, such as war, globalization, and the environment.

PSS 105 (ATH) Goals, Priorities, and Attitudes (3) The setting of goals, as well as priorities among those goals, with an emphasis upon how those goals and priorities relate to the realities and aspirations of life. The attitude of the individual including other aspects of psychological makeup and how it impacts upon the ability and willingness to set goals and priorities. An emphasis upon how goals, priorities, and attitudes can lead to effective Christian personal management. Last offering: Summer 2016.

PSS 201 (ATH) Introduction to Psychology (3) This is a foundational course. Myers defines psychology as a scientific study of behavior and mental processes. This study includes an exploration of how these processes are affected by the physical state, mental state and external environment of an organism. Introduction to Psychology 201 material applies not only to future courses in psychology, but also to sociology, education, business, biology, and other academic areas. Allow the course to challenge the way you understand others, yourself, your relationships and your overall environment.

PSS 250 (MDL) Lifespan Development (3) The Lifespan Development course is designed to provide information that will assist students in understanding the normal developmental process of individuals over the entire lifespan starting with conception and ending with death.

PSS 253 (MDL) Adulthood and Aging (3) A course covering the major issues in the psychology of adult development and aging.

PSS 313 (MDL) Abnormal Psychology (3) This is a foundational course. Textbook authors Barlow and Durand define psychopathology as a scientific study of psychological disorders. Until several years ago the science of psychopathology had examined the separate effects of psychological, biological and social influences. Recent advances in science confirm that the integrative approach to understanding psychological disorders is most effective. The approach of this course reflects the current state of our clinical sciences and enhances the learning process. Allow the course to challenge the way you conclude that a behavior is either normal or abnormal.

PSY 350 International Psychology (3) This course provides an overview of various global issues from a psychological or psychocultural perspective including the identification and treatment of mental health problems, emotional functioning, the struggles of disempowered and marginalized groups, and societal transformation, and national development. Cross cultural psychology is an important aspect of international psychology. The course will include opportunities to communicate and network with academics, professionals, and other students from other cultures, countries, and nations to raise awareness of the importance of cultural perspectives in psychological research and practice. The course will also examine the role of the Christian Psychology, Christian Counseling and missionary efforts in providing counseling and care internationally and cross culturally. Summer semester, even years. Prerequisites: PSY 205 or MAT 105, PSY 207.

SCS 105 (ATH) Environmental Science (3) This course introduces principles of environmental science with a purposefully Christian perspective. Course topics include understanding our environment, evolution, species interactions, human populations, biomes, environmental conservation, environmental health, pollution, energy and environmental policy, and sustainability. An important goal is to gain an understanding of the environment and our place in it. Underlying this course will be the concept of biological stewardship- the idea that all humans are required by God to be careful and thoughtful in our usage of Earth's limited resources. There are many voices saying how we can best live on Earth; it is necessary to personally evaluate and understand what God says about this also.

SCS 215 (ATH) Earth and Space Science (3) This course introduces principles of earth and space science with a purposefully Christian perspective. Earth and space sciences include the detailed study of Earth's materials, hydrologic systems, tectonic systems, as well as an understanding of the other planets in our solar system. Underlying this course will be the examination of God's hand in this orderly creation and His continued involvement in it.

SOC 110 Sociological Perspectives The primary purpose of this course is to introduce students to a way of seeing the world through social spectacles. More than that, the course is designed to help students see our very social world through

Christian lenses. This course has been designed to help the adult student identify some of the sociological theories behind the social dimension of their own lives and for social institutions, how current social institutions have fallen short as well as the potential for renewal within various social institutions. Meets the ADP social science graduation requirement.

SOC 410 (MDL) Restoring Social Institutions: A Christian View of Marriage, Family, Church, and Neighborhood (3) The social world is full of institutions, and is held together by institutions. These institutions change over time, sometimes for better and sometimes for worse. In this course we will explore the contours of four social institutions- marriage, the family, the church, and neighborhoods. How are these institutions changing? Why are they changing? And what is our own role in these institutions? Biblical norms for these social institutions will be considered, and we will work together to develop a Christian perspective to apply to other social institutions as well. Meets the ADP social science graduation requirement.

Portage Learning

The Geneva-Portage courses are offered by Geneva College and delivered by way of the PortageLearning.com platform. Portage is the division of Geneva College that offers courses to visiting students seeking to transfer courses to their home institution where they intend to pursue a degree in health professions. All of the Geneva-Portage courses are approved as part of our curriculum through the Graduate and Adult Program Committee at Geneva College and have gone through the same review process as our other courses.

Portage Learning courses may be taken by Geneva students to fulfill degree requirements; however, they must be taken prior to matriculation.

Geneva-Portage (Pre-requisite courses for the health professions) – *On-line only*

BIOD101 Essential Biology I w/Lab (4) The BIOD101 is currently in the curriculum development stage. When the course is completed, the syllabus will be posted on the College and Portage Learning websites. The laboratory component of this course is delivered using virtual labs and interactive simulations.

BIOD102 Essential Biology II w/Lab (4) The BIOD102 course is currently in the curriculum development stage. When the course is completed, the syllabus will be posted on the College and Portage Learning websites. The laboratory component of this course is delivered using virtual labs and interactive simulations.

BIOD103 Medical Terminology (3) This course is a systematic approach to learning the language required to practice in a medically related field.

BIOD121 Introduction to Nutrition (3) This course will provide the student with the fundamentals of nutrition, both in theory and application.

BIOD151 Essential Human Anatomy and Physiology I w/ Lab (4) This course is a systematic integration of the structure and functioning of the cells, tissues, organs, and systems of the human body. The laboratory component of this course is delivered using virtual labs and interactive simulations.

BIOD152 Essential Human Anatomy and Physiology II w/ Lab (4) This course is a systematic integration of the structure and functioning of the cells, tissues, organs and systems of the human body. The laboratory component of this course is delivered using virtual labs and interactive simulations. The laboratory component of this course is delivered using virtual labs and interactive simulations.

BIOD171 Essential Microbiology w/ Lab (4) This course is a systematic examination of the microbial world, emphasizing the properties of bacteria. The laboratory component of this course is delivered using virtual labs and interactive simulations.

CHEM103 General Chemistry I w/ Lab (4) The CHEM103 course is currently in the curriculum development stage. When the course is completed, the syllabus will be posted on the College and Portage Learning websites. The laboratory component of this course is delivered using virtual labs and interactive simulations.

CHEM104 General Chemistry II w/ Lab (4) The CHEM104 course is currently in the curriculum development stage. When the course is completed, the syllabus will be posted on the College and Portage Learning websites. The laboratory component of this course is delivered using virtual labs and interactive simulations.

CHEM108 General Chemistry for the Health Professions w/ Lab (4) This course is a systematic exploration of the fundamental laws, theories, and mathematical concepts of inorganic, organic and biological chemistry designed to contain comprehensive information needed for health professions study. The laboratory component of this course is delivered using virtual labs and interactive simulations.

ENGL101 English Composition (3) This course will focus on the writing process, the various modes of writing, the research paper process, literary analysis, and reflective writing.

ENGL102 Literature and Composition (3) English 102 enhances the writing practices and skills acquired in English Composition I. In response to the reading of a wide variety of texts, students will engage in writing activities that promote critical thinking, literary analysis, and the ability to create argumentative essays that establish a position supported by evidence. The extensive sampling of reading and writing for this course includes the following genres in the study of

American, British, and World Literature: 1) Poetry 2) Prose 3) Drama 4) Historical Fiction 5) Thematic Short Stories 6) Biography/Autobiography 7) Novel 8) Research Paper (Argumentative Format with Documentation). Students will respond in writing to the genres presented in the eight modules of this course. The course concludes with a comprehensive, multiple choice final exam on the reading selections in the eight modules. Prerequisite: ENGL101.

MATH101 College Algebra (3) This course is an overview of the basic fundamentals of mathematics and algebra, and then will use those concepts to introduce more advanced topics.

MATH110 Introduction to Statistics (3) This course is a general introduction to mathematical statistics as a tool used in the decision making process. The course text, homework assignments and examinations will emphasize interpretation of data.

PHIL120 Introduction to Ethics (3) The goal of the course is to help students understand the principles of classical theoretical philosophical ethics with case studies designed to develop ways of understanding themselves and becoming enabled to apply those outlooks to the care they expect to give in a medical context as health professionals.

PSYC101 General Psychology (3) This course is an introduction to the scientific study of behavior and a systematic presentation of its basic concepts and methods.

PSYC140 Developmental (Lifespan) Psychology (3) This course addresses classic developmental theories and research as well as provides an overview of current developmental topics across the lifespan.

SOCI180 Introduction to Sociology (3) The primary purpose of this course is to introduce students to a way of seeing themselves, others, and the world.

Graduate Programs

Geneva College offers seven graduate programs in a variety of formats. These seven programs are listed below with relevant contact information. More specific information for each program follows, although the most detailed information is available at the websites of the respective programs.

MASTER OF ARTS IN COUNSELING

Dr. Shannan Shiderly, Program Director
Ms. Marina Frazier, Program Manager
724-847-6697
724-847-6101 (FAX)
counseling@geneva.edu

MASTER OF ARTS IN HIGHER EDUCATION

Dr. Keith Martel, Program Director
Ms. Allison Davis, Program Manager
724-847-5567
724-847-6107 (FAX)
hed@geneva.edu

MASTER OF BUSINESS ADMINISTRATION

Dr. Gary Vander Plaats, Program Director
Ms. Marina Frazier, Program Manager
724-847-6571
724-847-6101 (FAX)
mba@geneva.edu

MASTER OF SCIENCE IN CYBERSECURITY

Dr. Gordon Richards
724-847-6718
web@geneva.edu

MASTER OF SCIENCE IN LEADERSHIP STUDIES

Mr. John Gallo, Dean of Adult and Online Programs
724-847-2715
724-847-4198 (FAX)
msls@geneva.edu

Introduction

Four principles shape our approach to graduate education. By definition, all graduate education necessarily deals with issues fundamental to an academic discipline, requires the student to work from original, not purely secondary, sources, and requires the student to develop the entry-level skills and knowledge of a professional in the field. Finally, graduate education is defined by, and must conform to, the philosophy of education and institutional policy of Geneva College; this point is defined and expanded below as our fourth principle.

Expressing the first three of these four principles in student educational outcomes means graduate students must develop competencies in:

- knowledge of the original literature(s),
- knowledge of the theories and fundamental questions in the discipline,
- knowledge of classic answers to the fundamental questions,
- development of personal answers to the fundamental questions,
- development of the skills of independent thinking,
- development of skills for the critique of ideas, theories, and methods,
- and such applied and professional skills in the field as appropriate.

Our fourth principle is that the philosophy of education, the focus, and the implementation for all graduate programs of the college are established by the Foundational Concepts, by the mission statement, by other policy as published in the catalog, and by the document Principles and Policies for Graduate Education (PPGE). An important educational outcome of this principle is that each student should be able to understand, at an appropriate level, both scripture and theology as they relate to the discipline. It also follows that programs must be operated within the context of the college's institutional strategic plan and administrative policies (PPGE, 2008).

General Admissions and Academic Standards and Policies

Admissions and academic standards for graduate education are determined by the Faculty Senate's academic program committee and respective graduate programs. In addition to the institution's general admissions and academic standards that follow, each graduate program has specific expectations for admissions and for satisfactory academic progress. Some of these program-specific standards are presented in subsequent sections of this catalog, but the most complete information should be accessed from the college website, and/or from the respective program managers.

Included in the general standards are the following:

- It is recognized that programs in different disciplines will have different expectations for admissions standards, successful progress, and successful completion of the program. In some cases, specific competencies must be acquired or specific standards must be met. These are published in the descriptions of the individual programs.
- All graduate students must have earned a baccalaureate degree from a school that has been accredited by an agency recognized by Geneva College as determined by the Registrar's Office.
- Maximum transfer credit granted for students entering a Geneva graduate program is 9 credit hours. However, if classes are an exact match with the Geneva classes and are acceptable to the program director, course work up to half of the program's credit hours will be accepted. If the academic work was taken before matriculation at Geneva, the credits and courses are accepted without grades.
- Admission to a graduate program is based on evidence of the ability, preparation, and aptitude of the student, indicating that the student is capable of successful graduate work.
- Full-time status in graduate programs is 9 credit hours per semester or the equivalent.^{1,2,3}
- The minimum GPA in graduate courses for graduation is 3.0.
- College accounts must be current each semester for the student to enroll in the next semester.
- Programs may vary in length, but each master's program will be at least 30 credit hours with at least 24 hours in academic courses (excluding thesis, practicum, and internship).
- The maximum time to complete a program is seven years from matriculation. Students may petition for extensions of this deadline, and those petitions will be reviewed by the graduate program director.

¹As of Spring 2012, the Special Education and Reading programs require 6 credits for full-time status.

²As of Fall 2013, the Higher Education and MBA programs require 6 credits for full-time status.

³The MS in Leadership Studies requires 6 credits for full-time status.

Grade Reports

A 3.0 GPA is the minimum to earn a master's degree. Additional GPA and specific grade standards may apply at various points in a graduate program; for example, a specific GPA may be required for admission to an internship or to advanced standing in the program.

Graduate students do receive academic credit for a grade of C, but should be cautioned that C level work is not considered to be acceptable graduate work, that a 3.0 is required for graduation, and that students may not have more than two C's. Each graduate program may identify more specific consequences to C grades.

Repeating a course for which credit has been granted will not increase hours toward graduation, but the new grade earned may be substituted for the old in determining grade points. Credits graded D or F are included in the GPA but do not count toward graduation requirements. Repeating a course graded D or F does not increase the hours used to determine the GPA but will increase both grade points and credits toward graduation according to the new grade earned, students who receive a D or F must retake the course at Geneva. No transfer courses will be allowed to make up a D or F grade.

Academic credits for specific courses cannot be used to meet the credit requirements of two degrees. That is, an undergraduate may, with permission, take a graduate course. Completion of the course may mean that the student has met a course requirement when subsequently enrolled in the graduate program, but the credit for the course cannot be used to meet the credit-hour requirements of the graduate degree program. Consequently, in some cases where an undergraduate student took graduate-level classes, the student may need to take courses beyond the basic curriculum requirements to accumulate the credit hours needed for graduation.

Official grade reports made be viewed on-line no later than three weeks after the grades are received by the Registrar's Office.

Graduation Requirements

Students must apply to graduate- this doesn't happen automatically. The graduation application is to be completed and returned to the Registrar's Office. Students who apply for graduation after the deadline will be included for the next degree conferring date. Failure to meet stipulated deadlines may result in the student being ineligible for commencement and will delay the awarding of a diploma. Students who find that they will not complete their requirements for graduation by the date for which they have applied must call or write both the graduate department with which they are affiliated and the Registrar's Office to request a change in their degree award date.

Graduating students are invited to participate in the annual graduate commencement ceremony in the spring. This is usually held on Saturday afternoon. Graduate students are welcome to attend Baccalaureate which is held on the Friday evening before the graduation ceremony.

Program-specific policies and procedures

Each graduate program normally provides their students with a program handbook or its equivalent in which specific policies, procedures, opportunities, assessment steps, and issues specific to the program or instructional site are clarified. Please contact the program directly for this information or access it via the college website.

Financial Policies

Tuition

Tuition for most graduate programs is set annually on a semester-hour basis. Payments can be made with cash or a check made payable to Geneva College and are due prior to the first class. Transcripts and diplomas will not be furnished until the student's account is paid in full. If a student's employer is willing to reimburse for graduate course work, the student must notify the respective program office.

Financial aid

Limited financial aid, in the form of scholarships or assistantships is available in some programs. Campus work-study funding may also be available. A free application for federal student aid (FAFSA) form must be filed each year before any student can be considered for financial assistance. The federal financial aid policy continues to evolve each year; at this point the best option for graduate studies is the federal loan program. Geneva College's financial aid office has been approved to award loans under the Ford Federal Direct Loan Program to qualified students.

Students who are enrolled for less than six credit hours are not eligible for federal student loans. If there will be a semester when students will be working on an internship, practicum, or some other part of the academic program, but will not be

registered for any courses, they may not be eligible for aid in that semester. There are ways that the financial aid and graduate service offices can help students plan for this process- please contact them in advance of registration. Continued eligibility for financial aid is based on satisfactory academic progress, adherence to filing deadlines, and on other eligibility requirements and guidelines set by the U.S. Department of Education.

Refund Schedule

To drop a course, a student must drop the course via my.geneva.edu or turn in a drop form to the Registrar's Office as soon as a decision is made to drop the course.

Loan deferment

Special issues arise when students use loans to finance their education. Each lending institution has its own guidelines for loan repayment. Students are entirely responsible for that financial relationship. Loans due from the student's undergraduate education may be deferred while the student is in a graduate program. If a student does not maintain the status required for loan deferment, loan repayments will need to be made until the student is again verified by the Registrar's Office as meeting the appropriate status requirements for loan deferment. To maintain part-time status, a student must register for a minimum of six credits per semester. For full-time status, students must register for nine credits per semester.^{3,4,5,6} An incomplete grade will jeopardize a student's part-time or full-time status.

³As of Spring 2012, full-time status for the Special Education and Reading programs is 6 credits.

⁴As of Fall 2013, full-time status for the Higher Education and MBA programs is 6 credits.

⁵The MS in Leadership requires 6 credits for full-time status.

⁶The MS in Cybersecurity required 6 credits for full-time status.

Master of Arts in Counseling

Marriage, Couple, and Family Counseling Program, Clinical Mental Health Counseling Program, School Counseling Program

Statement of Philosophy

Professional counselors use various interventions to facilitate wellness, personal growth, and mental health among those whom they counsel. A multidimensional holistic view of persons examines the interplay of physical, psychological, social, and spiritual aspects of life. The practice of professional counseling is based on knowledge of mental health, counseling, and human development principles and involves cognitive, affective, behavioral and systems interventions and strategies.

Mission Statement

The mission of the Master of Arts (MA) in Counseling Programs is to educate, supervise, and mentor students to develop the knowledge, skills, and personal awareness necessary for them to function as professional counselors. The MA in Counseling program promotes excellence in professional preparation by providing a comprehensive education that integrates an understanding of Christian faith with professional counseling standards, as well as in a variety of religious and secular settings. This program adopts and seeks to promote a holistic mindset and set of practices, specifically integrating biological, psychological, sociocultural, and spiritual frameworks that orient and inform our understanding of human development and the change process. In addition to general counseling proficiency, students are specifically trained to become Marriage, Couple, and Family, Clinical Mental Health, or School Counselors.

1. The mission of the Marriage, Couple, and Family Counseling Program is to train students in the knowledge, skills, and practices of counseling in order to provide competent care for individuals, couples, and families within a multicultural and pluralistic society; this mission is actualized through the process of embracing (1) a family systems orientation to counseling, (2) the highest ethical standards of the profession, (3) an exploration of the person of the counselor, and (4) professional development through participation and leadership in professional organizations.
2. The mission of the Clinical Mental Health Counseling Program is to train entry-level counselors capable of functioning competently and ethically in mental health delivery environments; operate using an overall developmental/wellness model informed by a neumbiopsychosocial framework; and, employ systematic and culturally sensitive intervention strategies.
3. The Mission of the School Counseling Specialty is to prepare school counselors capable of supporting the academic, occupational/vocational, and personal/social development of the students whom they serve. Competencies in working with students ranging grade-levels P-12 are taught and instilled through (1) The use of data to inform school counseling programs and practices, (2) excellence in knowledge and practice, (3) integrity through adherence to codes and standards for ethical practice, (4) management of their own professional development, and (5) competent school counseling and educational practice.

Outcomes

1. Students will demonstrate knowledge and skill-based competencies, personal (inter- and- intra) awareness and growth, and a keen understanding of ethical issues and ethical decision making processes in each of the following core areas: human growth and development, group counseling and group work, social and cultural diversity, counseling and helping relationships, career and lifestyle development, assessment and testing, research and program evaluation, and professional counseling orientation and ethics. These outcomes will be assessed through a variety of means, including, but not limited to, the following: classroom participation and group work, class presentations, written communication (both academic and reflective), role-play activities, capstone projects, and a variety of other assignments, both formative and summative in design.
2. Students will demonstrate knowledge and understanding of the Christian faith, as well as other roles of spirituality and religion on the change process, and demonstrate competencies around integrating these perspectives into the analysis, evaluation, and/or case conceptualization processes in professional counseling settings. This outcome will be assessed through participation in classroom discussions, presentations, writings and a variety of other assignments, both formative and summative in design.
3. Students will demonstrate knowledge and skill-based competencies, personal (inter-and intra) awareness and growth, and a keen understanding of ethical issues and ethical decision making processes in practicum and internship experiences; this also in the various unique applications specific to their chosen counseling specialization (Marriage, Couple and Family, Clinical Mental Health, or School Counseling).

- a. Students in the Marriage, Couple, and Family Counseling Program will demonstrate skill and knowledge proficiencies in assessing levels of function/dysfunction among families. Students will practice and demonstrate skill and knowledge-based competencies in joining with various families/relational systems, and an ability to customize treatment approaches/interventions in order to promote therapeutic change, enhance relationship satisfaction, or any other goal that is congruent with the family/system's goals for therapy. Specific skills and approaches will be demonstrated regarding ethical decision making processes, case conceptualization processes congruent with family systems therapy, and multicultural competence/awareness regarding a variety of social, cultural, sexual, and/or religious factors which could be influencing the system.
 - b. Students in the Clinical Mental Health Counseling Program will demonstrate basic mental health counseling skills and mastery of essential mental health knowledge (e.g. diagnosis, treatment planning, evidence-based interventions) during and throughout their internship experience.
 - c. Students in the School Counseling Program will demonstrate the knowledge and performance competencies required to facilitate the academic, occupational/vocational, and personal/emotional development of students; this in addition to demonstrating proficiency in applying ethical and efficacious decisions-making skills, that are data driven and informed, throughout their work in counseling, consulting, coordinating, and/or appraising.
4. Given the array of different personal skills and abilities possessed by diverse individuals, students will select and develop a personal style of practice, engage in supervised fieldwork experiences, and promote the development of a professional identity.

Program Description

The 60-credit Clinical Mental Health Counseling Program and the 60-credit Marriage, Couple, and Family Counseling Program are designed in accordance with national counselor certification and state licensure standards and provide students with academic training necessary to become professional counselors. The 51 credit School Counseling Program additionally prepares students to be certified as elementary and/or secondary school counselors by the Pennsylvania Department of Education (PDE). (This school counseling curriculum recently was expanded to address PDE-required competencies in special education and English language learning.) As per CACREP 2016 requirements, it should be noted that beginning in the 2017-2018 school year, the School Counseling Program will now require 60 credits instead of the current 51 credits.

All students receive exposure to core knowledge of the profession, which includes developmental theory, career development, assessment, research, ethics, multicultural awareness, counseling theory, and group work as well as training in the skills of helping. All students are required to participate in a 10-hour group laboratory designed to train group facilitators. Each student receives intense individual and group clinical supervision during practicum and 600-hour internship. Recent graduates of the programs have found employment in a variety of work settings including schools, clinics, church counseling centers, and public and private agencies.

All three MA in Counseling Programs (Clinical Mental Health Counseling, Marriage, Couple, and Family Counseling, and School Counseling) are offered in their entirety at Geneva College in Beaver Falls, PA. Enrollment permitting, all classes required for the Clinical Mental Health Counseling Program also are offered at the Regional Learning Alliance Center in Cranberry Township which is a short 30 minute drive from the Geneva College campus. Most class requirements for the School Counseling Program and the Marriage, Couple, and Family Counseling Program also can be scheduled at the Regional Learning Alliance Center in Cranberry Township.

All three programs offered in the MA in Counseling Program at Geneva are accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). The current accreditation runs through March 2024.

Application materials are available from the MA in Counseling Office (724-847-6697 or www.counseling@geneva.edu). In addition to the completed application, prospective applicants are required to submit official transcripts from all colleges and universities attended, and essay focusing on academic and career goals, and three academic or employer recommendations from individuals not related to the applicant. Personal or phone interviews are conducted by MA in Counseling Faculty. Prospective applicants are rated according to their academic background and aptitude, interpersonal skills, work-related experiences, and compatibility with program goals and perspectives. Provisional admissions status may be granted to students who meet most but not all criteria for full admission. Students applying to the MA in Counseling Program should be aware that, prior to the practicum and internship, they will be required to complete PA State Police, FBI records and PA child abuse checks to determine whether they have felony convictions or any record of child abuse perpetration.

Statistics Competency: Admissions: Statistics Competency: Basic statistics competency is a prerequisite for CNS 505 (Testing and Appraisal) and CNS 512 (Research Methods and Program Evaluation), both of which are required courses for

students in the MA Counseling Program. This competency can be met in one of three ways: (1) by successfully completing CNS 504 (Statistics) as a student in the MA Counseling Program, (2) by providing evidence of having earned a grade of B- or better in an approved undergraduate statistics class in the last 5 years, or (3) by earning a score of 80% or better in the final exam of Geneva's undergraduate psychological statistics class. Students should note that both general statistical knowledge and applied statistics practices (such as program evaluation, research methods, and psychometrics) constitute 25% of the National Counselors Exam which is required for licensure. Students who are eligible to waive CNS 504 and do so, will take another 3-credit elective course to meet the 60-hour requirement.

Acceptance to the M.A. in Counseling Programs should not be confused with degree candidacy. At degree candidacy, each student's professional development, attitudes, and academic achievement, written and verbal skills, adherence to ethical standards, personal maturity, relational skills, motivation, dependability, emotional stability, professional commitment, and fitness for the counseling profession are assessed. Graduate students in Counseling must apply for Degree Candidacy following the completion of 12 credits and before the completion of 27 credits in the program. Students who are admitted provisionally to the program are not permitted to apply for Degree Candidacy until they are fully admitted to the M.A. in Counseling Program. Students on academic probation are not permitted to apply to degree candidacy until the probationary status is removed which occurs only after the cumulative GPA is raised to a 3.0 or above. As a result, degree candidacy and/or academic progress may be delayed for students who are admitted provisionally or for those students on probation. Applications for Admission to Degree Candidacy are printed in the Appendix of the MA in Counseling Handbook.

In accordance with the Geneva College Procedures for Administrative College-Initiated Withdrawal of Student, a student may be dismissed from the program if the student exhibits evidence of psychological, physical or behavioral problems that could disrupt the academic process or present a danger to the student or other members of the College community (students, faculty, administration, staff, or others). This would include individuals and potential counsees at a practicum or internship site. This overall policy is explained further in the college catalog and student handbook published on the Geneva website. This policy also may pertain to a student returning from hospital confinement who needs extended observation. For further clarification, please refer to the later sections in the M.A. in Counseling Program Handbook entitled "Professional and Ethical Standards" and "Faculty Responsibilities" as well as to overall college policies pertaining to disciplinary procedures and withdrawals. These latter policies are written in the Geneva College Catalog and/or Student Handbook which are published on the college website.

According to Geneva College's Graduate Education Policy, "graduate students do receive academic credit for a grade of C but should be cautioned that C level work is not considered to be acceptable graduate work, that a 3.00 is required for graduation, and that students may not have more than two C's." In the MA in Counseling Programs, students must maintain a 3.0 Grade Point Average (GPA) to remain in good standing. Students whose GPA's fall below 3.0 will be placed on academic probation for a maximum of three semesters (fall, spring, and summer) or until the GPA is raised to a 3.0 or higher, whichever occurs first. Students on academic probation must consult with their advisor to develop a written revised Plan of Studies aimed toward remediation. Students on academic probation will be evaluated by a faculty committee before probationary status is removed. Students on academic probation or with more than two "C" grades will not be permitted to take the Comprehensive Examination or schedule practicum/internship credits. Students may be on academic probation for no more than three semesters, after which they will be dismissed from the MA in Counseling Program if the GPA remains below a 3.0. Students with more than two "C's" must retake classes so that no more than two "C" grades remain on the final MA in Counseling transcript.

Students in the Marriage, Couple, and Family Counseling Program (60 credits) will complete:

CNS 504: Statistics	3
CNS 505: Testing and Appraisal	3
CNS 510: Foundations for Faith-Based Counseling or CNS 511: Christian Counseling within the Mental Health Professions	3
CNS 512: Research Design and Program Evaluation	3
CNS 514: Human Development	3
CNS 520: Counseling Theory	3
CNS 521: Counseling Skills or CNS 579: Child and Adolescent Counseling Skills	3
CNS 533: Career and Lifestyle Counseling	3
CNS 534: Social and Cultural Foundations of Counseling	3
CNS 536: Group Counseling	3
CNS 537 Professional Issues and Ethics in Marriage, Couple, and Family Counseling	3
CNS 575: Foundations of Marriage, Couple and Family Counseling	3

CNS 577: Family Counseling	3
CNS 578: Marital and Couple Counseling/Therapy	3
Three Electives	9
CNS 581: Marriage, Couple, and Family Counseling Practicum	3
CNS 582: Marriage, Couple, and Family Counseling Internship	6

Students in the Clinical Mental Health Counseling Program (60 credits) will complete:

CNS 504: Statistics	3
CNS 505: Testing and Appraisal	3
CNS 510: Foundations for Faith-Based Counseling or CNS 511: Christian Counseling within the Mental Health Profession	3
CNS 512: Research Design and Program Evaluation	3
CNS 514: Human Development	3
CNS 520: Counseling Theory	3
CNS 521: Counseling Skills or CNS 579: Child and Adolescent Counseling Skills	3
CNS 533: Career and Lifestyle Counseling	3
CNS 534: Social and Cultural Foundations of Counseling	3
CNS 536: Group Counseling	3
CNS 538: Professional Issues and Ethics in Mental Health Counseling	3
CNS 501: Psychopathology and Diagnosis	3
CNS 541: Clinical Mental Health Counseling	3
CNS 548: Psychopharmacology	3
Three Electives	9
CNS 586: Mental Health Counseling Practicum	3
CNS 587: Mental Health Counseling Internship	6

Students in the School Counseling program (60 credits) will complete:

CNS 504: Statistics	3
CNS 505: Testing and Appraisal	3
CNS 510: Foundations for Faith-Based Counseling or CNS 511: Christian Counseling within the Mental Health Profession	3
CNS 512: Research Design and Program Evaluation	3
CNS 514: Human Development	3
CNS 520: Counseling Theory	3
CNS 521: Counseling Skills or CNS 579: Child and Adolescent Counseling Skills	3
CNS 533: Career and Lifestyle Counseling	3
CNS 534: Social and Cultural Foundations of Counseling	3
CNS 536: Group Counseling	3
CNS 539: Professional Issues and Ethics in School Counseling or CNS 538: Professional and Ethics in Mental Health Counseling AND CNS 595: School Counseling Professional Issues and Ethics	3 or 4

School Counseling Specialization Requirements:

CNS 502: Advanced Child & Adolescent Treatments and Interventions	3
CNS 563: Organization & Management of School Counseling Programs	3
CNS 564: Curriculum, Learning, Inclusion, and Instruction for School Counselors	3
CNS 565: Child/Adolescent Counseling Practicum	3
CNS 566: Elementary School Counseling Internship	3
CNS 567: Secondary School Counseling Internship	3

Electives: 9 Credits (Electives chosen in consultation with advisor. Suggested as follows relative to Clinical Mental Health Counseling licensure requirements in some states)

CNS 501: Psychopathology and Diagnosis	3
CNS 541: Clinical Mental Health Counseling	3
CNS 548: Psychopharmacology	3
CNS 545: Addictions	3

Course Descriptions

CNS 501 Psychopathology and Diagnosis (3) An exploration of understanding of mental illness. The study of the classification, etiology, and treatment of psychopathology and personality disorders. The course deals with the Diagnostic and Statistical Manual of the American Psychiatric Association (DSM) categorization of criteria for specific diagnoses. Spring semester.

CNS 502 Advanced Child & Adolescent Treatments and Interventions (3) Theory and practice of counseling children and adolescents in school and community settings. Characteristics of English language learners and exceptional needs students and the provision of counseling services to these children. Various topics include counseling related to disabilities, autism spectrum disorders, death and dying, child abuse, substance abuse, youth violence, teenage pregnancy, risky sexual behavior, behavioral disorders, mood disorders, anxiety, intellectual disabilities, learning disabilities, traumatic brain injury, chronic health problems, and eating disorders. Fall semester.

CNS 504 Statistics (3) An introduction to descriptive and inferential statistics. Topics include descriptive statistics, bivariate distributions, sampling, estimations, and tests of hypotheses. Fall semester.

CNS 505 Testing and Appraisal (3) Basic individual and group assessment techniques, test item construction, reliability, validity, and standardization. Students will become familiar with authentic, screening, diagnostic, formative, benchmark, and summative assessments relative to decision-making. Students will critique various assessment instruments (intelligence tests, ability tests, achievement tests, screening tests, interest tests, and personality tests) used by counselors. Socio-cultural factors, ethical factors, and legal codes relative to assessment of special populations, diverse learners, and English language learners will be addressed. Prerequisite: CNS 504. Spring semester.

CNS 510 Foundations for Faith-Based Counseling (3) A study of basic concepts of evangelical and Reformed Christian theology with special emphasis on biblical anthropology and the way it informs and critiques various counseling theories. Fall semester.

CNS 511 Christian Counseling within the Mental Health Profession (3) Students will examine philosophical assumptions of major counseling theories and apply empirically verified modalities and techniques that can be faithfully housed within the Christian tradition. Students will learn to administer formal and informal assessment tools, as well as adopt counseling theories and clinical interventions which will enable them to competently address the religious/spiritual dimension of client functioning in culturally and ideological diverse treatment settings. Summer semester.

CNS 512 Research Design and Program Evaluation (3) Course provides the student with the necessary skills to professionally evaluate the current research in the field of counseling. Topics include research strategies, scaling and coding, internal and external validity, and program evaluation. Prerequisite: CNS 504. Summer semester.

CNS 514 Human Development (3) An exploration of major events in human development from conception through death. Developmental concepts that have universal application will be covered. Fall semester.

CNS 520 Counseling Theory (3) A comprehensive overview and integration of the major theoretical perspectives on the counseling process. An examination of the historical development of counseling theory, an exploration of affective, behavioral, and cognitive counseling theories, and the application of theoretical material to case studies. Foundational elements of the counseling process will be explored via academic activities and observation and critique of videotaped master therapist counseling sessions. Students will develop an initial personal theoretical orientation for counseling endeavors. Fall semester.

CNS 521 Counseling Skills (3) A comprehensive overview, integration, and application of major theories and techniques employed in the counseling process. Specific advanced counseling interventions by master counselors will be reviewed via videotape and critiqued. Initial counseling skills will be developed via *in vivo* role play and will be reviewed and critiqued by the instructor. Basic models and strategies of consultation will be explored from theoretical and pragmatic points of view, and applied to case material. Spring and Summer semester.

CNS 533 Career and Lifestyle Counseling (3) A survey of theory and practice of counseling associated with career selection, career development, relationships among career, life-style, and family, and relevant appraisal tools. Spring semester.

CNS 534 Social and Cultural Foundations of Counseling (3) Theories and techniques of effective multicultural counseling to include consideration and appreciation of cultural, racial, ethnic, disability, gender, language, and other diversity issues

within a pluralistic society. Students will examine the role of the counselor in advocacy, conflict resolution, cultural awareness and work with English Language Learners. Spring semester.

CNS 536 Group Counseling (3) Elements of group dynamics, ethical issues special to group work, and group leadership skills. Students will compare four types of groups—task and work groups, psychoeducational groups, counseling groups, and psychotherapy groups. Various theoretical approaches to groups counseling as well as adaptations with specific populations and specific settings will be addressed. Includes a 10-hour group laboratory experience. Fall semester.

CNS 537 Professional Issues and Ethics in Marriage, Couple, and Family Counseling (3) A survey of professional identity, ethical standards, and legal codes for Marriage, Couple, and Family counselors and marriage and family therapists. Topics will include: 1) history and philosophy of the counseling profession; 2) knowledge of professional roles including consultation and group work; and 3) moral principles and virtues in counseling practice, training, supervision, and consultation. Spring semester. (This course is offered as a one-week intensive.)

CNS 538 Professional Issues and Ethics in Mental Health Counseling (3) A survey of professional identity, ethical standards, and legal codes for mental health counselors and therapists. Topics will include: 1) the history and philosophy of the counseling profession; 2) knowledge of professional roles including consultation and group work; and 3) moral principles and virtues in counseling practice, training, supervision, and consultation. Spring semester. (This course is offered as a one-week intensive.)

CNS 539 Professional Issues and Ethics in School Counseling (3) The course is a survey of professional identity, ethical standards, and legal codes for professional counselors with emphasis on elementary and secondary school counseling. Students are to demonstrate knowledge of and ability to apply, in decision-making situations, ACA and ASCA ethical standards, the Pennsylvania Code of Professional Practice and Conduct for Educations, and legal obligations and public policies that address institutional and social barriers that impede access, equity, and success of all counseling clients, particularly K-12 students. Special emphasis is on professional issues, ethical standards, and legal codes relevant to the school counselor's role with diverse students and English language learners. Spring semester. (This course is offered as a one-week intensive.)

CNS 541 Clinical Mental Health Counseling (3) Assumptions and roles of mental health counseling within the context of the community and its health and human service systems, including functions and relationships among interdisciplinary treatment teams, and the historical, organizational, legal, and fiscal dimensions of the public and private mental health care systems. Fall semester.

CNS 543 Advanced Mental Health Counseling Skills (3) This course is designed for advanced students to learn in depth the theory and practice of various individual counseling orientations as these counseling perspectives are applied with clients over time. The theoretical models addressed will be reviewed and critiqued for strengths, weaknesses and applicability to various client populations. The specific counseling theories covered will vary from semester to semester. Prerequisite: CNS 521.

CNS 545 Addiction Counseling (3) This course provides a basic introduction to the assessment and counseling treatment of clients manifesting alcohol and substance abuse disorders. Theoretical formulations, etiological issues, presenting symptomatology, and courses of these disorders, and interventions models will be addressed. Spring semester.

CNS 547 Advanced Assessment (3) The purpose of this course is to familiarize the students with the study of mental disorders and advanced clinical assessments. The student will learn how to systematically obtain important client demographic information, evaluate drug and alcohol issues, and assess for other mental health disorders utilizing clinical instruments that allow for effective information gathering. This course will enable students to better evaluate mental health disorders utilizing some of the most prominent assessment instruments found in the clinical and research realms. Finally, students will learn how to administer formal and informal assessment tools, as well as integrate various counseling theories (i.e. CBT, MI, etc) and clinical interventions which will enable them to effectively address the clinical picture of client functioning based on empirical evidence. Summer semester.

CNS 548 Psychopharmacology (3) A review of the most commonly used drugs for psychological conditions, their effects and their side effects, and the methods of action. Particular attention is paid to the synaptic events relevant to drug actions. Summer semester.

CNS 549 Crisis and Trauma (3) This course addresses the nature of crisis and trauma from the intake interview through evidence-based best practices for treatment models. It is designed to introduce students to the complex issues surrounding

both crisis and trauma including trauma-informed care, trauma awareness (types, characteristics of, and individual and sociocultural features), trauma reactions, trauma-related symptoms, and co-occurring disorders, screening and assessment, treatment issues, and trauma-specific treatment models. The effects of trauma on the brain, body, and the mind will be discussed. Psychological First Aid, the ethics of caring for trauma survivors, secondary trauma, and the importance of clinical supervision are also discussed. Students will be required to participate in several role plays and demonstrate competency in crisis management and suicide assessment as well as complete the Mental Health First Aid training and receive certification. Summer semester.

CNS 563 Organization and Management of School Counseling Programs (3) The course covers the nature, development, and management of school counseling programs, and differences between elementary and secondary school contexts. Students will develop knowledge of concepts, skills, and issues necessary to function effectively as school counselors. Students will be able to assess, plan, and integrate the elements of a comprehensive program that reflects the programmatic and ethical standards of the American School Counselor Association, including structuring of essential services to foster personal, social, educational, and career development in students. Summer semester.

CNS 564 Curriculum, Learning, Inclusion, and Instruction for School Counselors (3) The course focuses on school counselors in K-12 inclusive settings as they work with diverse learners, English language learners, parents, administrators, teachers, and community agents. Students will become familiar with special education guidelines, multidisciplinary assessment, educational planning, and behavioral intervention. They will be able to articulate the standards-driven nature of curriculum, learning theory, instructional practice, and inclusion. Focus will be on 1) inclusive counseling practices, 2) types of disabilities and implications for learning; and 3) classroom management, 4) school-wide behavioral support, 5) literacy and instruction in core areas, 6) English Language Learning, 7) instructional methods, and 8) Evidence-Based academic and behavioral interventions.

CNS 565 Child/Adolescent Counseling Practicum (3) This 100-hour experience places students in a professional setting in which they will develop counseling skills with school-aged children. Students in the course are required to have 40 hours of direct service with K-12 students through individual or group counseling. They also participate in 1½ hours of weekly group supervision with the Geneva practicum instructor and, in addition, receive an hour a week of additional supervision with the course instructor. Open only to students who have been admitted to the program as degree-seeking students. Prerequisites: A GPA of 3.0 or above. Admission to Degree Candidacy, successful completion to a Counseling Skills Pre-Practicum Class (Counseling 521 or Counseling 579) and Group Counseling (Counseling 536) with a grade of “B” or better; participation in Practicum/Internship Orientation, Criminal and Child Abuse History Clearances, and Proof of Professional Liability Insurance. Fall semester.

CNS 566 Elementary School Counseling Internship (3) The internship is a field experience in which students apply knowledge and hone skills needed for successful practice as an elementary school counselor. This is a 300-hour internship under the supervision of an approved site supervisor who is a practicing elementary school counselor. Students are to demonstrate mastery-level performance in: 1) the essential services of counseling, consulting, coordinating, and appraising; 2) planning and implementation of classroom guidance activities; 3) professional conduct in interactions with field and college supervisors, students, teachers, administrators, and community members; and 4) such other activities defined as the responsibility of the school counselor at their elementary school placement. Supervision is for one hour weekly in the field and 1½ hours per week on campus. Prerequisites: CNS 565. Requires Acts 33 and 34 clearances, FBI clearances, a recent TB test, proof of malpractice insurance, and a passing grade on the comprehensive exam. Spring semester.

CNS 567 Secondary School Counseling Internship (3) The internship is a field experience in which students apply knowledge and hone skills needed for successful practice as a secondary school counselor. This is a 300-hour internship under the supervision of an approved site supervisor who is a practicing secondary school counselor. Students are to demonstrate mastery-level performance in: 1) the essential services of counseling, consulting, coordinating, and appraising; 2) planning and implementation of classroom guidance activities; 3) professional conduct in interactions with field and college supervisors, students, teachers, administrators, and community members; and 4) such other activities defined as the responsibility of the school counselor at their secondary school placement. Supervision is for one hour weekly in the field and 1½ hours per week on campus. Prerequisites: CNS 565. Requires Acts 33 and 34 clearances, FBI clearances, a recent TB test, proof of malpractice insurance, and a passing grade on the comprehensive exam. Spring semester.

CNS 575 Foundations of Marriage, Couple, and Family Counseling (3) This course is designed to introduce students to the history, philosophy, etiological premises that define the practice of Marriage, Couple, and Family counseling/therapy. The domain of professional ethics, the legal system, and professional organizations pertaining to the field will be presented. Professional issues will be presented as well as implications pertaining to social, cultural, diversity, and equity pertaining to

couples and families. Students will articulate a foundation view of marriage, couple, and family counseling consistent with their own biblical worldview. Summer semester.

CNS 577 Family Counseling (3) This course is designed for students to learn knowledge and skills for the practice of family therapy. Models of family therapy will be reviewed and critiqued in light of the Christian worldview of the student. Techniques, assessments, interventions, and strategies will be discussed and role-played to develop preventative approaches as well as resolving specific problems that impede family functioning. Fall semester.

CNS 578 Marital and Couple Counseling/Therapy (3) This course is designed for students to learn knowledge and skills for the practice of couple and marital counseling. Models of marital counseling will be reviewed and critiqued in light of the Christian worldview of the student. Techniques, assessments, interventions, and strategies will be discussed and role-played to develop preventive approaches as well as resolving specific problems that impede marital functioning. Fall semester.

CNS 579 Child and Adolescent Counseling Skills (3) This course will focus specifically on counseling skills used to work with children and adolescents. It incorporates both the American School Counseling Association Personal/Social Domain standards for students as well as CACREP standards. Students will learn evidence-based best practices and user-friendly techniques for counseling this unique and often challenging population. The integration of the child's faith into assessment and treatment will also be discussed. Summer semester.

CNS 581 Marriage, Couple, and Family Counseling Practicum (3) This course is a 100-hour experience on and off campus under supervision of an experienced master's-level clinician. It includes 40 hours of direct service with couples or families; group supervision 1½ hours per week on campus; and one hour of additional faculty supervision per week. Development of clinical skills is a key focus of the practicum. Prerequisites: CNS 521 and CNS 536. Acts 33 and 34 clearances and proof of malpractice insurance. Fall Semester.

CNS 582 Marriage, Couple, and Family Counseling Internship (6 credits over two semesters) This course is a 600-hour experience off campus under supervision of an experienced master's-level clinician involving direct service with couples, families, or individuals with marital or family issues. Supervision is held for one hour weekly in the field and in group supervision for 1½ hours per week on campus. Students must be registered for this course while completing the internship. Prerequisites: CNS 581. Requires Acts 33 and 34 clearances, proof of malpractice insurance, and a passing grade on the comprehensive exam. Spring semester.

CNS 586 Mental Health Counseling Practicum (3) This course is a 100 hour experience which includes 40 hours of direct service with individuals and groups; group supervision 1½ hours per week on campus; and one hour of additional faculty supervision per week. Open only to students who have been admitted to the program as degree seeking students. Prerequisites: CNS 536 and CNS 521. Requires Acts 33 and 34 clearances and proof of malpractice insurance. Fall semester.

CNS 587 Mental Health Counseling Internship This course is a 600-hour experience off campus under supervision of an experienced master's-level clinician and includes direct counseling and service hours with individuals and groups. Supervision is held for one hour weekly in the field and in-group supervision 1½ hours per week on campus. Open only to students who have been admitted to degree candidacy and who have completed all other coursework. Students must be registered for this course when completing the internship as the internship may extend beyond one semester. Prerequisites: CNS 586. Requires Acts 33 and 34 clearances, proof of malpractice insurance, and a passing grade on the comprehensive exam. Spring semester.

CNS 591 Special Study (1-3) A seminar or directed study on an announced topic or set of topics. Credit specified at registration. Repeatable for credit with a new topic.

CNS 595 Independent Study (1-3) Individualized advanced study, research, or project development in a clearly defined and limited area not covered by a regular course. The work should be primarily initiated by the student but undertaken with the consent, regular guidance, and direction of an instructor qualified in the area. Prerequisites: approval by the instructor and the department chair.

Master of Arts In Higher Education

Mission and Outcomes

The mission of the Master of Arts in Higher Education (MAHE) program is to cultivate a vision for higher education that is rooted in a Christian view of life, characterized by a consideration of foundational issues, and committed to the preparation of perceptive and principled leaders for colleges and universities.

Our sincere hope is that students who complete the MAHE program will have made substantial progress towards the following educational outcomes:

- Articulate the relevance and application of a Christian view of life to the study and practice of higher education;
- Understand contemporary higher education through theological, philosophical, historical, and sociological lenses;
- Advocate and model a holistic human development in higher education settings, with a particular emphasis on college students' success in and out of the classroom;
- Develop beliefs, knowledge, attitudes, and skills that reflect a professional identity rooted in Christian vocation; and,
- Effectively communicate, in writing and in speaking, the results of an exploration of a specific topic within the field of higher education.

Academic Information

The MAHE program comprises 36 credit hours. All students take the 30-credit hours foundations core designed to ensure a broad grasp of the field of higher education, clear insight into the nature of learning and the learner, and principles of professional practice—all in the context of a Christian perspective. Two elective courses (6 credit hours) also are required.

Program Delivery

The MAHE program can be pursued in the following formats depending on a student's time and commitments:

In the accelerated program, students earn degrees by taking core classes once a week over a continuous 20-month period, beginning each September, at Geneva College. A one-week break often follows each course and two longer breaks occur at the Christmas holidays and in the summer respectively. Students typically complete elective courses by enrolling in one of the institute programs. Most students in the accelerated program hold graduate assistantships at Geneva or at nearby colleges and universities.

Graduate assistantships are available to students enrolled in the accelerated program. The professional positions available for assistantships may include residence life, admissions, campus ministry, coaching, teaching, or student activities. Graduate assistantships normally are nine-month positions (usually renewable for the second year) and they include a one-third reduction in tuition as well as a monthly stipend.

The institutes program allows students to pursue a master's degree without having to leave their current positions. Institutes are offered in mid-June and early January. Students can take either one or two courses per week at the two-week summer institute. At winter institute, students can take one course offered in early January. Readings, assignments, and ongoing conversations are undertaken during the semester or semesters following each institute.

The institutes program is the ultimate in flexibility. Students who desire to finish the MAHE in three years may take four courses each year by attending both weeks of the summer institute (or a combination of summer and winter institutes). However, students who desire to take longer to complete the program may opt for two or three courses per year, utilizing any combination of the summer and winter institutes.

The self-directed studies program offers students the opportunity to design their pursuit of the MAHE in the most feasible way. That is, students interested in this format can simply choose courses whenever they are offered until they fulfill all of the program requirements, whether it takes two to three years or four to five years for them to do so.

Foundations core (30 credit hours):

HED 501: Foundations of Learning and Knowledge	3
HED 502/602: Historical Foundations of Higher Education	3
HED 503/603: College Students in America	3
HED 504/604: Foundations of Higher Education	3
HED 505: The Higher Education Professional	3
HED 510: College Student Success	3

HED 515: Foundations of Educational Research	3
HED 517: Capstone in Higher Education	3
HED 521: Leadership and Change	3

Plus **one** of the following:

HED 531/631: Foundations of Campus Diversity	3
HED 532: Comparative Higher Education	3

Elective Courses (6 credit hours/choose two; some of these courses are offered more frequently than others):

HED 508: Sociological Foundations of Higher Education	3
HED 511: Residence Life	3
HED 513: Counseling and Advisement	3
HED 514: Contemporary Trends in Higher Education	3
HED 523: Legal Issues in Higher Education	3
HED 534: Assessment and Retention	3
HED 540: Vocation of Teacher	3
HED 592: Practicum in Higher Education	3

Foundations Core

HED 501 Foundations of Learning and Knowledge (3) This course explores the major philosophic systems that have functioned as foundations for western higher education, and investigates the interplay of theories of knowing and models of learning in the context of higher education. In either case, it pays special attention to the use of biblical categories to analyze and to direct the discussion toward the development of normative and practical alternatives for higher education.

HED 502/602 Historical Foundations of Higher Education (3) This course provides a general overview of the historical development of American colleges and universities, beginning with the colonial period and continuing through the contemporary period. Special attention will be given to the role of interpretive frameworks: the rise of the German research university model; the role of women; and the radical post WW II expansion of higher education in America. Pre-requisite: Students must be accepted to the Higher Ed program. Cross-listed as HED 602.

HED 503/603 College Students in America (3) This course offers a comprehensive overview of American college students. More specifically, it provides a multifaceted profile of who is currently in college. The course also examines and critiques major human development theories that attempt to explain students' development. In this context, the course considers the feasibility of a Christian theory of students' development during the college years. Prerequisite: By permission of the Director of Higher Ed. Cross-listed as HED 603.

HED 504/604 Foundations of Higher Education (3) This course is designed to introduce students to what might be called the worldviews that shape and have shaped the academy. More specifically, students will uncover and analyze underlying assumptions, perspectives, and practices that are present in American higher education historically and presently. Students will also be introduced to a biblical worldview as a framework for examining other worldviews that are currently operating in the American academy. Prerequisite: By permission of Director of Higher Ed. Cross-listed as HED 604.

HED 505 The Higher Education Professional (3) This course is a seminar and workshop concerning the vocation of and practices in higher education. It will provide a time and place to consider the contours of the field as they are encountered in students' experiences in their work. Utilizing readings, student and faculty experiences, and guest lectures from local colleagues, this course intends to strengthen students' daily work in their offices, divisions, and institutions at large, while thickening their understanding of the calling to higher education and in the institutions they serve.

HED 510 College Student Success (3) Since national six-year college graduation rates hover at approximately 50%, it seems reasonable to inquire about the extent to which the American colleges and universities are effectively promoting student success in college. This course takes on this "problem" by examining research and literature about college student success to identify particular policies, programs, and practices that promote students' success in American higher education.

HED 515 Foundations of Educational Research (3) This course is intended to provide an introduction to various research design and methodology skills that are relevant to educational research. We will also examine the nature of the research process as well as the roles of researcher. Our hope is that students will become both more proficient and more accustomed to understanding, valuing, and interpreting educational research as well as designing, conducting, and presenting effective research.

HED 517 Capstone in Higher Education (3) As a capstone course, this course is intended to provide integration, cohesion, and summary to the entire course of study. We will revisit and reflect upon the foundational hopes of the program for student learning. Likewise, students will complete a culminating project that illustrates their interests, knowledge, and proficiencies within the field of higher education.

HED 521 Leadership and Change (3) This course examines literature and research on leadership planning and practice in American colleges and universities, particularly in the context of addressing macro (societal) and micro (organizational) change effectively. In so doing, we will attempt to evaluate ways in which a Christian perspective may provide understanding, critique and direction to academic leadership in response to changing landscapes.

HED 531/631 Foundations of Campus Diversity (3) This course will explore the complex issues facing university and college professionals when addressing diversity and multiculturalism. We will examine the development of dominant and dominated cultures in the United States and how an increased understanding in these regards might shape how higher education professionals do their work. A Christian perspective will ground and shape the dialogue with special attention to how Christians have attempted to address issues of diversity in the past. Distinctions will be made between individual and institutional diversity challenges, and we will examine specific policies in various areas of the academy. Specific attention will be given to dialogue on issues of gender, class, race, and religious affiliation. Prerequisite: Students must be accepted to the Higher Ed Program. Cross-listed as HED 631.

HED 532 Comparative Higher Education (3) This course studies the higher education systems of selected other countries in an effort to understand such systems on their own terms, as well as to utilize the higher education systems of other countries as a lens through which to understand the American system more clearly. This course will involve travel to selected countries to explore their higher educational policies, practices, and people first-hand while also examining relevant literature and research about each respectively.

Elective Courses

HED 508 Sociological Foundations of Higher Education (3) This course examines various contexts in which American higher education currently operates. We will explore macro contexts that focus on higher education systems and include issues such as classification taxonomies, institutional diversity, accountability, governance, and society's investment. We will also examine micro contexts that focus on colleges as organizations and include issues such as institutional missions and values, leadership, decision-making, and organizational change. Understanding larger and smaller contexts ostensibly offers significant insight into how to function more effectively in the academy.

HED 511 Residence Life (3) This course examines the development of residence life in American higher education. It will explore theoretical issues such as residence life as education, as well as more functional issues such as staffing and supervision, program development and assessment, architectural design, and addressing relevant personal and structural problems. The course emphasizes translating theoretical understanding into practical initiatives to enhance student learning.

HED 513 Foundations of Counseling and Advisement (3) This course is designed to provide a working knowledge of the theories, concepts and competencies necessary for students interested in pursuing a career in student affairs/higher education. In keeping with a scholar/practitioner focus, this course will provide theoretical underpinnings and practical tools associated with counseling, advising and mentoring college students including professional association guidance and standards, developing communities of care and a mentoring culture, emergency and crisis response, legal and ethical concerns, counseling diverse populations, counseling for life-calling, and academic advising.

HED 514 Contemporary Trends in Higher Education (3) Though this course will be offered relatively infrequently or on special occasions, it provides an opportunity to examine specific topics in contemporary higher education such as technology, college costs, student preparedness, non-traditional learning models, innovative pedagogy and the like. As such, the course offers a means to examine powerful developments and trends in the academy of which professionals must be apprised and for which discernment is critical.

HED 523 Legal Issues in Higher Education (3) This course will discuss current policies and legal concepts concerning American institutions of higher education. The aim of this course is to develop in the student a compass for spotting possible legal concerns that may arise in a variety of professional settings. Students will have the opportunity to weigh and balance the sometimes competing rights and responsibilities of institutions, staff, and students through lecture, discussion and case studies.

HED 534 Assessment and Retention (3) This course examines the roles, theories and practices of assessment and retention in American higher education. We will introduce students to factors that contribute to effective assessment and retention

practices, implementation strategies and models, and various resources that provide continuing information and insight. We will also evaluate ways in which a Christian perspective may provide understanding, critique, and direction to assessment and retention conversations.

HED 540 The Vocation of Teacher (3) In this course, students examine various aspects of the college professorate in contemporary academe. Students will discuss and critique particular demographic descriptors of the academic profession and the numerous roles that faculty members fulfill. In addition, students will be challenged to bring Christian criteria to bear on the nature and expression of the academic calling.

HED 592 Practicum in Higher Education (3) This course is intentionally connected to the contextualized learning experiences that all students are required to complete, and emphasizes hands-on professional opportunities and focused reflection of such opportunities. Students will explore various resources in the field of higher education, consider relevant insights from experienced professionals and professional opportunities (e.g., workshops, conferences, etc.) and be challenged to more fully understand the interplay between beliefs, ideas, and professional practice.

HED 631 Foundations of Campus Diversity (3) This course will explore the complex issues facing university and college professionals when address diversity and multiculturalism. We will examine the development of dominant and dominated cultures in the United States and how an increased understanding in these regards might shape how higher education professionals do their work. A Christian perspective will ground and shape the dialogue with special attention to how Christians have attempted to address issues of diversity in the past. Distinctions will be made between individual and institutional diversity challenges, and we will examine specific policies in various areas of the academy. Specific attention will be given to dialogue on issues of gender, class, race and religious affiliation. Spring semester. Prerequisite: Students must be accepted to the Higher Education Program. Cross-listed as HED 531.

Master of Arts in Higher Education 4+1 Program

The Master of Arts in Higher Education Program offers a 4+1 option that allows students the possibility of completing nine credit hours (three courses) at the masters level during their junior and/or senior year of undergraduate studies and complete the MA in the 12-15 months following their completed bachelor degree.

Master of Business Administration

Nationally accredited by the Association of Collegiate Business Schools and Programs

Mission

The mission of the Master of Business Administration (MBA) program is to prepare men and women for leadership by providing learning experiences which consider business principles within our faith context. We believe that business is a calling of God, and that there is an ever-increasing need for managers acting in biblically sound ways. There is an understanding that such a program cannot reduce the rigor and content of a management program, since we must strive for excellence in all that we do. In light of this mission, the curriculum and instruction focuses on the belief that the business vocation is inseparably coupled with one's faith and core beliefs. This program will provide the unique opportunity for men and women committed to Jesus Christ and seeking the advancement of His Kingdom to gain knowledge and skills for the effective accomplishment of that goal.

Program Outcomes

The Master of Business Administration program provides students with the learning platform to develop the essential knowledge, skills and competencies to be competent business practitioners through conceptual and application-oriented learning. Additionally, the program equips students with the ability to articulate and integrate the pervasive and critical elements of sound Biblical and ethical principles and a contemporary global business perspective into managerial decision-making.

Program Description

The MBA program courses are offered in five 9-week terms each calendar year. Classes are offered on Monday, Tuesday, Wednesday and Thursday evenings. Classes typically begin at 6:00 p.m. and end at 10:00 p.m. The goal of this format is to allow working adults an opportunity to attend classes one night each week and complete the 36-hour program in approximately two and one half years. The program scheduling also allows students to finish in one year if they take more than one course per term. Students who are required to take the three leveling classes will be able to complete the program in approximately three years if they take courses one at a time.

Leveling Course (3 Credit Hours)

A leveling course (Business Law) is required for students who do not have an undergraduate business degree (BSBA) from an accredited college or university. Students lacking the Common Professional Component of business study (as defined by the ACBSP) will be required to satisfy the component content prior to receiving regular status in the MBA program. Students required to take the Business Law leveling course can take BUS 311 offered by Geneva College in the undergraduate program, or any undergraduate Business Law course offered by an accredited college or university.

Core requirements (30 credit hours)

BUS 605: Corporate Finance	3
BUS 610: Financial Management	3
BUS 615: Financial and Managerial Accounting	3
BUS 620: Management Thought and Application	3
BUS 530/630: Management Information Systems/Decision Support Systems	3
BUS 540/640: Marketing Management	3
BUS 550/650: Human Resource Systems/Organizational Behavior	3
BUS 660: Biblical Management and Ethics	3
BUS 670: Managerial Economics	3
BUS 690: Strategic Business Policy	3

Graduation Requirement: A passing grade on the Major Field Test is required.

In addition to the above, students must select one of the following MBA Options/Concentrations:

General MBA (36 credit hours plus leveling, if necessary)

All of the above core courses plus any two electives from the following:

BUS 611 Investment Theory & Applications	3
BUS 616 Valuation & Corporate Investments	3
BUS 641 Buyer Behavior	3
BUS 645 Advanced Marketing	3
BUS 680 Research Methodology	3
BUS 681 Project Management	3
BUS 685 Operations Management I	3
BUS 686 Operations Management II	3

Applied Management Concentration (42 credit hours plus leveling, if necessary)

All of the above core courses, two electives from the list above, plus 1 credit of Internship per registered term.

Finance Concentration (36 credit hours plus leveling, if necessary)

All of the above core courses, plus:

BUS 611 Investment Theory & Applications or BUS 618 Financial Statement Analysis	3
BUS 616 Valuation & Corporate Investments	3

Applied Finance Concentration (42 credit hours plus leveling, if necessary)

All of the above core courses and Finance Concentration courses, plus 1 credit of Internship per registered term.

Marketing Concentration (39 credit hours plus leveling, if necessary)

All of the above core courses, plus:

BUS 641 Buyer Behavior	3
BUS 645 Advanced Marketing	3
BUS 680 Research Methodology	3

Applied Marketing Concentration (42 credit hours plus leveling, if necessary)

All of the above core and Marketing Concentration courses, plus 1 credit of Internship per registered term.

Operations Management Concentration (45 credit hours plus leveling, if necessary)

All of the above core courses, plus:

BUS 680 Research Methodology	3
------------------------------	---

BUS 681 Project Management	3
BUS 685 Operations Management I	3
BUS 686 Operations Management II	3
EGR 423 Quality Engineering or EGR 371 Operations Research or others approved by MBA Director	3

Applied Operations Management Concentration (51 credit hours plus leveling, if necessary)

All of the above core and Operations Management Concentration courses, plus 1 credit of Internship per registered term.

Course Descriptions (30 credit hours)

Core courses differ from courses in the undergraduate program in that the graduate program will significantly focus on the managerial perspective rather than an introduction to the principles of the different business functions. As such, the core courses will build on the information provided by the undergraduate courses. This managerial perspective will be aimed at ensuring that students are able to think critically, analyze situations, and apply sound business techniques, knowledge and Biblical wisdom. Comparative analysis will go beyond standard financial analysis, seeking to evaluate the effect of emphasis upon self and power often found in contemporary organizations relative to a biblical perspective on human behavior, character, and appreciation of diversity, valuing all of God's creation.

There are 10 courses that comprise the core knowledge portion of the master of business administration program. These courses expand upon the common professional component of the field as required by the ACBSP.

Core Courses

BUS 530/630 Management Information Systems/Decision Support Systems (3) The integration and application of computing resources by the firm to aid strategic and ethical decision making and competitiveness; principles of managing production and operation of facilities and automated decision making technologies. BSBA/MBA program or permission of instructor.

BUS 540/640 Marketing Management (3) Examines the marketing mix and its role to strategically position the firm; course uses a consumer product-based simulation to practice management decision-making and competitive behavior. BSBA/MBA program or permission of instructor.

BUS 550/650 Human Resource Systems/Organizational Behavior (3) The design and implementation of strategic human resource systems from a general management perspective. Content includes organizational assessment, biblical integration of HR systems, development of HR strategy, organizational theory, legal compliance, contemporary trends, HR issues, and the relationship of HR systems to organizational performance. BSBA/MBA program or permission of instructor.

BUS 605 Corporate Finance (3) The study of key financial concepts including capital budgeting, cost of capital, risk, and return, cash flow analysis, and an understanding of financial statements. Prerequisite: BUS 615.

BUS 610 Financial Management (3) The course is designed as a continuation of BUS 605, introducing you to additional financial theories, practices, and processes by which major decisions are made by corporate financial managers. It includes a discussion of the cost of capital, capital budgeting (return on investment analysis), the capital structure decisions, shareholder distributions, the management of working capital, multinational financial management, and several special topics. Prerequisites: BUS 605 recommended; BUS 615 or permission of the instructor.

BUS 615 Financial and Managerial Accounting (3) The study of accounting for the manager; emphasis on financial reporting, financial performance evaluation, ethical issues, and cost accounting.

BUS 620 Management Thought and Application (3) This course examines the history of management thought, a biblical perspective on management, and contemporary application. Examines the factors that influence individual work performance, organizational effectiveness and applied techniques for improving organizational performance.

BUS 660 Biblical Management and Ethics (3) Within the context of Scripture, principles are identified, discussed, and applied to business problems and situations including businesses' obligations to society and individuals' responsibility to organizations.

BUS 670 Managerial Economics (3) Economic issues and economic analysis as applied to managerial decision-making. Evaluating the impact of international trade theory, taxation, and resource allocation upon the business organization.

BUS 690 Strategic Business Policy (3) Strategic management and business policy issues facing the general manager; a comprehensive application of the various managerial applications derived from the core classes. Cultivation and utilization of skills in analysis, diagnosis, and development. Prerequisite: This course may only be taken after the completion of 21 credit hours of MBA courses including BUS 610, BUS 615, and BUS 540/640, or with the permission of the MBA program coordinator.

Elective Courses

BUS 611 Investment Theory & Applications (3) Various topics in the uses and pricing of derivative securities, including options forwards, futures, and swaps. Also addressed are applications of return factor models, both for assessing portfolio risk and in modeling the required expected return on an individual security. Every other year (Even years). Prerequisite: BUS 605.

BUS 616 Valuation & Corporate Investments (3) Valuation plays a key role in many areas of Finance-public and private offerings, mergers, and acquisitions, LBOs, intellectual capital, and portfolio management. This course is about the valuation of real assets and capital expenditure decisions by corporations. Basic valuation tools, relative valuation models, and real option models are addressed. Every other year (Odd years). Prerequisites: BUS 615, BUS 605, BUS 610 recommended.

BUS 618 Financial Statement Analysis (3) This course combines theoretical concepts underlying the presentation of financial statements with the practical techniques of financial analysis. Topics include accounting processes; examination of the components of the balance sheet, the income statement and the statement of cash flows; application of the various quantitative techniques of financial analysis, such as ratio interpretation and EPS evaluation; the meaning and significance of the auditor's opinion, and current SEC reporting regulations. Every other year (even years). Prerequisite: BUS 615.

BUS 641 Buyer Behavior (3) This course focuses on the role of buyers in the marketing process. Buyer behavior in the consumer marketplace as well as the organizational buying process is examined. The study of buying behaviors enhances understanding of what marketing strategies are likely to be effective, how humans operate in the marketplace, and what kind of affective, cognitive, and social mechanisms enter into the purchasing decision. A sampling of specific topics addressed includes the role of attitudes, learning and memory, and lifestyles and culture in the buying decision. (Every other year (Even years).

BUS 645 Advanced Marketing and Promotions (3) This course is an advanced study of marketing systems in the American economy. Included is the identification of the activities involved in the flow of goods among manufacturers, brokers, wholesalers, retailers, and consumers. Specifically, the elements of the Marketing Mix and their role in strategically positioning the firm is closely examined. Also, the nature of demand, costs and pricing, business models, channel theory, product theory, and sales promotion are presented. Every other year (Odd years).

BUS 680 Research Methodology (3) Utilization of research tools and quantitative techniques used in business with application to current policy and decision-making. Multivariate statistics and quantitative analysis tools will be applied.

BUS 681 Project Management (3) Teach student to master the most proven methods in project management as well as new techniques emerging from current industry and today's most recent research. Introduce manual techniques perfected during the past 50 years and progressive automated techniques, all consistent with the latest PMBOK® Guide and integrated with Microsoft® Project. Students first practice manual techniques to ensure that they fully grasp the principles behind the methods before learning to use MicrosoftProject® to complete tasks. Students will build strong portfolios to showcase their skills as they create specific deliverables for real-world projects, working by themselves or as part of a group. To ensure that students understand the established standards in project management today and to prepare them to become Certified Project Management Professionals (PMP®) if they choose, all course content is consistent with the knowledge areas and processes of the latest fourth edition of the PMBOK® Guide.

BUS 685 Operations Management I (3) Operations Management I is the first course of two designed to convey an overview of the basics of firm operations for product and service-oriented businesses. Production and operations vocabulary is emphasized as well as the qualitative and quantitative aspects of (1) the Design of Goods and Services, (2) Process and Capacity Design, (3) Forecasting, (4) Inventory, (5) Quality Control and Statistical Process Control, (6) Aggregate Planning and Scheduling, and (7) Facilities Maintenance & Reliability. In addition, all of the above areas of operations are examined from human resources, materials, capital, and equipment perspectives. Every other year (Even years).

BUS 686 Operations Management II (3) Operations Management II is the second of two courses designed to convey an overview of the basics of firm operations for product and service-oriented businesses. Production and operations

vocabulary is emphasized as well as qualitative and quantitative aspects of (1) Material Requirements Planning (MRP), (2) Supply Chain Management, (3) Location Selection, (4) Layout Design, (5) Job Design, and (6) Operations Strategy. In addition, all of the above areas of operations are examined from human resources, materials, capital, and equipment perspectives. Every other year (Odd years).

BUS 691 Special Topics (3) Elective courses will be offered during the various academic terms based on the needs of students and on faculty availability. Topics may include employment law, international business, investments, legal issues in business, and total quality management.

BUS 693 Internship (1) A work-study type project either on or off campus, designed to expose the student to an actual workplace experience. A student must spend 45 hours at the workplace site for one credit hour credit. Internships are credit/no credit only.

3+1 BSBA/MBA Business Scholars Program

The 3+1 BSBA/MBA Business Scholars Program is an opportunity for outstanding students to accelerate the completion of both a Bachelor of Science in Business Administration and a Masters of Business Administration. Students will be selected for this program based on high school GPA, SAT/ACT scores, essay and an interview with department faculty. If selected, students will need to maintain a GPA of 3.4 or higher in order to remain in the program. The course load requirement will be heavy (typically 18 credit hours/semester). Some summer courses will be required. Six credit hours of internship will need to be earned prior to beginning the MBA program. Nine credit hours of graduate courses will be taken during the undergraduate program that will count toward satisfaction of degree requirements for both programs. Students will enjoy priority registration for BUS 419 Management Insights, which is a small weekly forum in which students interact with Christian business professionals. First year students will compete for a stackable, non-renewable \$5000 scholarship. An honors designation will be included on the transcripts for students completing the 3+1 BSBA/MBA Business Scholars Program. Students in the scholars program will receive a 10% discount on their graduate classes once in the MBA program.

Master of Science in Cybersecurity

Cybersecurity is one of the fastest growing fields in the world. Students entering this field will have the opportunity to experience techniques, practices, and procedures that will aid in securing the systems, databases, websites and other organizational assets that are increasingly targeted by malicious actors. Students will learn both offensive and defensive procedures for attacking and defending networks. Students will be prepared to assist organizations in discovering and correcting system vulnerabilities. Students will be prepared to assist organizations in recovering from disasters, man-made and natural. The future is bright for cybersecurity. Many of the security needs that will be demanded by organizations is not even known or understood at this time.

Degree Requirements (33 Credit Hours)

CYB 610 Intrusion Detection and Prevention	3
CYB 620 Governance, Risk, and Compliance (on-line)	3
CYB 654 Principles of Cybersecurity (on-line)	3
CYB 672 Ethical Hacking	3
CYB 611 Cyberlaw and Cyberethics (on-line)	3
CYB 635 Operating Systems: Linux, Windows, Virtualization and Cloud	3
CYB 640 Wireless, Mobile, and Internet of Things (on-line)	3
CYB 671 Digital Forensics	3
CYB 625 Incident Response, Disaster Recovery, and Business Continuity (on-line)	3
CYB 680 Principles of Cryptography	3
CYB 690 Cloud Security (on-line)	3

Course Descriptions

CYB 511 Cyberlaw and Cyberethics (3) This course helps students understand the legal and policy issues associated with the Internet. Tackling a full range of legal topics, it includes discussion of jurisdiction, intellectual property, contracts, taxation, torts, computer crimes, online speech, defamation and privacy. Sessions include recent, relevant cases, discussion questions and exercises at the end of each lesson. This will also encompass research and presentation skills for public and organizational use. Spring semesters.

CYB 525 Incident Response, Disaster Recovery, and Business Continuity (3) This course examines incident response through planning, implementation, management, and review. The student will learn underlying technological requirements, business requirements, and tools for combating regulatory mandates. This will also provide a real-world analysis of human and non-human incidents in an international perspective. Spring semesters.

CYB 535 Operating Systems: Linux, Windows, Virtualization and Cloud (3) This course introduces the fundamental concepts to understand operating systems design and usage. Topics include Windows Server (2016), Linux/UNIX, Virtualization (VMWare, Bochs, Xen, VirtualBox), and Cloud Computing. The student will be immersed in several operating systems, requiring proper configuration for network services and user administration. The student will be required to provide a research project involving the design, implementation, and management of a multiplatform and interoperable network. Spring semesters.

CYB 554 Principles of Cybersecurity (3) This course provides an introduction to the fundamentals of network security, including compliance and operational security; threats and vulnerabilities; application, data, and host security; access control and identity management; and cryptography. The course covers new topics in network security as well, including psychological approaches to social engineering attacks, Web application attacks, penetration testing, data loss prevention, cloud computing security, and application programming development security. The student will also gain presentation and management skills for information security projects. Fall semesters.

CYB 571 Digital Forensics (3) This course presents the leading programs for practical forensic techniques. The text introduces legal and technical challenges, offering detailed coverage of crucial topics such as mobile forensics, Mac forensics, cyberbullying, and child endangerment. The practical activities require the student to extract, analyze, and report on several different digital media, using hands-on mastery of modern digital forensics tools and techniques. Spring semesters.

CYB 572 Ethical Hacking (3) This course will investigate a multitude of topics needed to become an Ethical Hacker, Security Professional, or well-informed technology staff. This course will concentrate on real-world application of hacking techniques, ethical and spiritual motivations of malicious hackers, and defensive concerns for protecting systems. This course will provide a solid foundation for ethical hacking certifications and penetration testing with metasploit. Prerequisites: CSC 335 or CYB 535 or CYB 635. Fall semesters.

CYB 610 Intrusion Detection and Prevention (3) This course investigates the methods by which security professionals can detect and respond to individual and persistent threats. In depth labs provide the student with the skills needed to implement and manage an intrusion detection or prevention system, while solid foundational theory allows the students to utilize any upcoming technology that the future may provide. Fall semesters.

CYB 611 Cyberlaw and Cyberethics (3) This course helps students understand the legal and policy issues associated with the Internet. Tackling a full range of legal topics, it includes discussion of jurisdiction, intellectual property, contracts, taxation, torts, computer crimes, online speech, defamation and privacy. Sessions include recent, relevant cases, discussion questions and exercises at the end of each lesson. This will also encompass research and presentation skills for public and organizational use. Spring semesters.

CYB 620 Governance, Risk, and Compliance (3) This course details the requirements to properly govern and maintain a technical enterprise. Topics include: Corporate Governance, IT Governance and Strategies, Operational Risk, Governance, Risk, and Compliance (GRC) Technology and Tools, and International Guidance. This course will focus on conducting internal audits to meet regulatory guidelines and consulting initiatives. Fall semesters.

CYB 625 Incident Response, Disaster Recovery, and Business Continuity (3) This course examines incident response through planning, implementation, management, and review. The student will learn underlying technological requirements, business requirements, and tools for combating regulatory mandates. This will also provide a real-world analysis of human and non-human incidents in an international perspective. Summer semesters.

CYB 630 International Terrorism and Cyberwarfare (3) This course will introduce the student to terrorism history and concepts, criminal and terrorist motivations and differences, global terror and crime network analysis, methods of influence, fraud, digital network analysis concepts, and methods to analyze dark networks. The student will understand the underpinnings of the current and past terror movements and methods currently employed to detect and disrupt these phenomena. Fall semesters.

CYB 635 Operating Systems: Linux, Windows, Virtualization and Cloud (3) This course introduces the fundamental concepts to understand operating systems design and usage. Topics include Windows Server (2016), Linux/UNIX, Virtualization (VMWare, Bochs, Xen, VirtualBox), and Cloud Computing. The student will be immersed in several operating systems, requiring proper configuration for network services and user administration. The student will be required to provide a research project involving the design, implementation, and management of a multiplatform and interoperable network. Spring semesters.

CYB 640 Wireless, Mobile, and Internet of Things (3) This course will introduce the student to the Internet of Things and cloud-based communication systems. This includes concepts for energy management, monitoring, wireless networking, and mobile communication. Spring semesters.

CYB 654 Principles of Cybersecurity (3) This course provides an introduction to the fundamentals of network security, including compliance and operational security; threats and vulnerabilities; application, data, and host security; access control and identity management; and cryptography. The course covers new topics in network security as well, including psychological approaches to social engineering attacks, Web application attacks, penetration testing, data loss prevention, cloud computing security, and application programming development security. The student will also gain presentation and management skills for information security projects. Fall semesters.

CYB 660 Secure Programming (3) This course will introduce the student to secure programming techniques and concepts that focus on common pitfalls programmers encounter when striving to publish their code. This includes handling input, buffer overflows, output and exceptions, and other common issues. There is also a focus on web-enabled systems and deployment of C and Java-based software. Spring semesters.

CYB 671 Digital Forensics (3) This course presents the leading programs for practical forensic techniques. The text introduces legal and technical challenges, offering detailed coverage of crucial topics such as mobile forensics, Mac forensics, cyberbullying, and child endangerment. The practical activities require the student to extract, analyze, and report on several different digital media, using hands-on mastery of modern digital forensics tools and techniques. Spring semesters.

CYB 672 Ethical Hacking (3) This course will investigate a multitude of topics needed to become an Ethical Hacker, Security Professional, or well-informed technology staff. This course will concentrate on real-world application of hacking techniques, ethical and spiritual motivations of malicious hackers, and defensive concerns for protecting systems. This course will provide a solid foundation for ethical hacking certifications and penetration testing with metasploit. Prerequisites: CSC 335 or CYB 535 or CYB 635. Fall semesters.

CYB 680 Principles of Cryptography (3) This course introduces the student to cryptographic concepts, tools, and techniques for both protection and malicious attack. The student will be introduced to cryptography attack algorithms and procedures, as well as, corrective procedures. This will include encryption algorithms, hashes, and usage scenarios for corporate and personal application. The student will be required to implement several cryptographic tools in laboratory exercises. Summer Semesters.

CYB 690 Cloud Security (3) Cloud computing is used in every facet of private and public organizations around the world. This course discusses concepts related to cloud computing and provides insight into the risks and solutions to protect cloud computing resources. Summer semesters.

Master of Science in Leadership Studies

Program Description

Designed for working professionals, the Leadership Studies program is modeled after Geneva's Adult Degree Programs. Students can complete their Master's in Leadership Studies degree in two years fully online. The Leadership Studies program includes a choice of three areas of specialization: Ministry Leadership, Non-Profit Leadership, and Project Management and Leadership.

Core Requirements (24 credit hours)

MLS 505 History and Theory of Leadership	3
MLS 510 Leadership and Communication	3
MLS 515 Leadership and Ethics	3
MLS 525 Leadership and Motivation	3
MLS 530 Leadership and Organizational Change	3

MLS 535 Leadership and Decision Making	3
MLS 653 Capstone Leadership Studies Project I	3
MLS 657 Capstone Leadership Studies Project II	3

Specialization Tracks: (12 credit hours)

Ministry Leadership

MLS 570 Mission, Vision, and Strategic Planning	3
MLS 571 Preventing Ministry Failure	3
MLS 572 Developing Leaders and Managing Resources in Ministry Leadership	3
MLS 614 Non-Profit Fund Raising	3

Non-Profit Leadership

MLS 604 Board Development	3
MLS 614 Non-Profit Fundraising	3
MLS 624 Marketing for the Non-Profit Leader	3
MLS 634 Finance for the Non-Profit Leader	3

Project Management and Leadership

MLS 540 Leadership and Finance	3
MLS 580 Principles of Project Management	3
MLS 581 Managing Risk	3
MLS 582 Project Quality Assurance, Assessment & Evaluation	3

Course Descriptions

MLS 505 History and Theory of Leadership (3) This course provides an overview of both the development and content of major leadership models and theories as applied in organizational contexts. Many issues regarding leadership and organizations will be explored such as the concepts of organizational culture, paradigm and worldviews, including both biblical and secular perspectives.

MLS 510 Leadership and Communication (3) This course explores the central role that communication plays in effective organizational leadership. In particular, leadership communication is critical to developing or changing organizational culture, which are key functions of leadership.

MLS 515 Leadership and Ethics (3) This course explores the relationship between leadership and ethics. Beyond just an examination of ethical systems and ethical issues, this course attempts to understand the ways in which ethics is central to the very act and process of leadership.

MLS 525 Leadership and Motivation (3) This course emphasizes understanding the relationship between effective leadership and work motivation, with an emphasis on “engagement”. The course includes several theories of motivation, which will help in understanding some of the practices that exist in work organizations. The course also explores assumptions about human nature that form the basis for motivational theories and practices.

MLS 530 Leadership and Organizational Change (3) Through a study of related theories and models, this course lays the foundation for an in-depth understanding of the dynamics of positive organizational change. In addition to investigating present and future trends in organizational change, students are shown how change can be implemented with Biblical, servant-leadership perspectives and how such change models can be sustained for the long term. As part of the course assignments, students gain experience by designing a change model and applying it to their own organizations.

MLS 535 Leadership and Decision Making (3) This course explores and analyzes decision-making theories, models, research, and techniques for the purpose of applying them to current organizational trends and issues that require the efficient utilization of effective leadership and decision-making skills.

MLS 540 Leadership and Finance (3) Students are provided with a working knowledge of essential concepts that are used in understanding the financial picture of organizations. The application of those concepts for effective organizational leadership and decision-making is a key emphasis. In addition, students examine the importance that stewardship and ethics play in financial decision-making.

MLS 570 Mission, Vision, and Strategic Planning (3) This course prepares the student for strategic planning in various ministry settings. It will also help students understand the Biblical concepts of Vision, Mission, Strategy, Style, and Values and focus on the ability to develop and apply these concepts to their own ministry setting.

MLS 571 Preventing Ministry Failure (3) This class will help the student better prepare themselves for the rigors of ministry, avoid common pitfalls, and prevent potential problems. It will deal with such significant issues as setting realistic expectations, creating professional and personal boundaries, and properly handling finances, stress, and time management. The course will also address how to promote healthy relationships with ministry boards, staff, and one's own family.

MLS 572 Developing Leaders and Managing Resources in Ministry Leadership (3) This course includes strategies for developing leaders, team building, and team dynamics. Time-management skills, managing financial resources, and promotion, service, and maintenance functions are discussed. In addition, ethical and legal issues are discussed, and students are challenged to lead ministries based on sound biblical, ethical and legal standards.

MLS 580 Principles of Project Management (3) This Project Management course examines project management in theory and practice and the roles and responsibilities of the project manager. The course offers a practical approach to managing projects, focusing on organizing, planning, and controlling the efforts of the project. Students will gain a strong working knowledge of the basics of project management and be able to immediately use that knowledge to effectively manage work projects. At the end of the course students will be able to identify and manage the product scope, build a work breakdown structure, create a project plan, create the project budget, define and allocate resources, manage the project development, identify and manage risks, and understand the project procurement process. Special attention will be paid to the role that planning and managing a project reflects a proper Christian worldview.

MLS 581 Managing Risk (3) Human society has been organizing their efforts as projects for hundreds of years. Projects usually require someone to manage the project with the responsibilities to ensure the project is successful. During this class students will examine the techniques and skills needed to manage projects of all different types. Students will understand the concept of project risk management, project task estimation and schedule planning documents. Students will understand potential cultural issues when working with project members from other cultures, or different backgrounds and learn to resolve project management related problems using the skills of negotiation, mediation, or interpersonal communication from a Christian perspective.

MLS 582 Project Quality, Assurance, Assessment and Evaluation (3) Effective project management utilizes information and measurements to create a logical process that minimizes risk, aligns resources, and maximizes accountability. In light of this, the course will seek to optimize the education experience by focusing on how to measure and collect useful information that will assist a project manager in the creation, development, implementation, and evaluation of an efficient project management environment.

MLS 604 Board Development (3) To help their nonprofit organizations be successful in achieving their missions, board members must understand their responsibilities, be prepared to ask tough questions, and make difficult decisions. This course provides nonprofit leaders with the ability to build a strong partnership with board members, recognize the importance of finding and developing an active and committed board, and present ways to assess board performance. In addition, a biblical perspective on governance and oversight will help nonprofit leaders work with their board in a godly, Kingdom-building way.

MLS 614 Non-Profit Fundraising (3) Non-Profit leaders often have a primary job to raise the outside resources and support needed for the organization to fulfill its mission. This course equips non-profit leaders with everything from traditional fundraising basics (drafting a plan, engaging your board, researching prospects) to new trends and opportunities with online/email campaigns, crowdfunding, and mobile fundraising. Biblical concepts related to stewardship will help inform non-profit leaders on the ethical dimensions of fundraising.

MLS 624 Marketing for the Non-Profit Leader (3) Non-profit leaders are spokespeople for the mission and cause of their organization. In this course, students will learn how to shape a marketing program that grows with the organization, using smart and savvy communication techniques, both offline and online. Combining a biblical perspective, big-picture management and strategic decision-making along with tips for implementing a marketing program day in and day out, this course provides a simple yet powerful framework for building support for the organization's mission and programs.

MLS 634 Finance for the Non-Profit Leader (3) Today's non-profit organizations face a myriad of governmental and fiduciary regulations. Non-profit leaders need to be experienced in navigating the organization's finances to maximize the mission of the organization. This course will help students understand key concepts in finance and how they relate to basic

structure of nonprofits. Students, using biblical foundational principles, will recognize the complex interworking of the organization's finances, how it impacts its human capital, and how it can enhance the organization's mission if managed effectively.

MLS 653 Capstone Leadership Studies Project I (3) This course is the first of a two-course concluding academic exercise designed to provide MSLS students with an opportunity to demonstrate mastery in the field of leadership studies. This first course will focus on the development of a rigorous independent research project, as well as challenge and refine students' writing and research skills at the graduate level. The final project of the two courses can be: the creation of a new business model, a strategic plan or analysis, or a new program or service for a local nonprofit; but it must have socially and culturally redemptive value. Throughout both courses, students will have weekly interaction with their instructor to discuss the progress of their projects and seek additional guidance. Prerequisites: 30 MSLS credits.

MLS 657 Capstone Leadership Studies Project II (3) In the second course of the Capstone Project two-course sequence, students will complete the research for their Capstone Project, which will culminate in the writing of a scholarly paper that clearly documents their research and reflects the integration of theory and practice through the interpretive lens of the Christian worldview. Students will present their findings in the form of an oral presentation and defense of the project's major conclusions and recommendations to faculty and peers at the end of the course. Prerequisite: MLS 653.

Campus Life at Geneva

Academic Advising

Faculty advisors are assigned to all new students during their fall semester at the college. Once a student declares a major, the role of advisor is usually assumed by a faculty member in the student's major department. Though primarily a mentor responsible for counseling with advisees about academic matters and approving course selection at registration time, an advisor may offer information and encouragement relating to summer employment or study, graduate school programs, and occupational or career opportunities. Students are urged to maintain personal as well as professional acquaintance with their advisors.

SSC 101: Learning and Transition Class

This class is a one-credit hour academic core requirement for first time freshmen during the fall semester of their first year. Geneva College helps students succeed by focusing on the characteristics responsive to transformation: promoting higher levels of academic, interpersonal, and intrapersonal performance within in the college environment. In order to accomplish this goal, students will develop a valuable perspective of college while concurrently developing skills useful for navigating college life. In effect, this course explores the topic of college as its primary subject in order to help students thrive in this newly discovered context. This class is a graduation requirement for all incoming freshmen and is not required for transfer students.

Transfer students who have earned 12 or more semester credit hours at another college are not usually involved in the summer preview sessions or required to participate in the ongoing learning and transition class, but do participate in a transfer orientation program prior to the beginning of their fall semester on campus.

Residence Life

Residence Life seeks to provide all resident students opportunities for spiritual and individual growth, maturity, and leadership. This is provided in a safe atmosphere that allows for cooperative community learning and living. These communities are led by professional residence directors and a building team of upper class student leaders including resident assistants.

Residential students are housed according to one's given biological sex established at birth. Traditional style residence halls have two students per room, apartment style residences house three to six students per apartment, and small houses adjacent to the campus have a variety of arrangements. Housing requirements, which are published yearly in the Student Handbook, include, but are not limited to, living off-campus at a parent or legal guardian's home, faculty or staff member's home, family of another commuter or living on campus in residential housing. A variety of meal plans are available to all students and are a requirement for resident students.

Chapel

As part of Geneva's educational mission, the college conducts a chapel service from 10:10-11:00 a.m. each Wednesday morning during the academic year when classes are in session. These services gather the whole campus community together to hear and sing God's word and to seek him in prayer. Messages apply deep biblical truth in a warmhearted way, engaging the hearts of attendees on the soul-deep issues of our time and helping them to understand and live out the grace and glory of the risen Christ.

There are 15 chapel opportunities per semester; students are required to attend 11 per semester (an academic convocation in the fall semester counts for one chapel attendance). Students may track their attendance on line.

If students fail to attend the minimum 11 services per semester, they must attend a meeting held on "Reading Day" of that semester's finals week. During the meeting, instructions about making up for missed chapels are given.

Students must listen to the audio recordings (available on the college website) of missed chapels and submit to the Student Development office within 10 days of the meeting a two-page, single-spaced paper for each chapel missed beyond the four allotted skips per semester.

Any dispute about whether a student attended on a particular date must be raised within four weeks of the disputed date, or it will not be considered.

Privacy Issues (FERPA)

The Family Educational Rights and Privacy Act (or FERPA) affords students certain rights with respect to their educational records and personal information. The following section specifies Geneva's policies in relation to FERPA.

Educational Records

- 1) A student has the right to inspect and review his/her education records within 45 days from the date the College receives a request for access.
- 2) A student should submit a written request that identifies the record(s) he/she wishes to inspect to the Registrar's Office, head of academic department, or other appropriate official. The College official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the College official to whom the request was submitted, that official will advise the student of the correct official to whom the request should be addressed.
- 3) A student has the right to request the amendment of the education record that the student believes is inaccurate or misleading. A student should write to the College official responsible for the record, clearly identifying the part of the record that they want to have changed, and specify why it is inaccurate or misleading.
- 4) If the College decides not to amend the record as requested by the student, the College will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for the amendment. Additional information regarding the hearing procedures will be provided to the student if the right of hearing is granted.
- 5) A student has the right to consent to the disclosure of personally identifiable information contained in the student's educational records, except to the extent that FERPA authorizes disclosure without consent.
- 6) One exception that permits disclosure without consent is disclosure to school officials with legitimate educational interests, i.e. if the official needs to review an education record in order to fulfill his or her professional responsibility. A school official is a person employed by the College in an administrative, supervisory, academic, research or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the College has contracted (such as an attorney, auditor or collection agent); a person serving on the Board of Trustees or Board of Corporators; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in the performance of his or her tasks.
- 7) Upon request, the College may disclose education records without consent to officials of another school in which a student seeks to be enrolled.
- 8) College to comply with the requirements of FERPA. The office that administers FERPA is:
Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, S.W.
Washington, DC 20202-4605
- 9) The College may also disclose personal information when a student's health/safety are in jeopardy of if/when a student poses a significant threat to self or others.

Parental Rights

In order to respect the role of parents, all new students will be asked to sign permission for their educational records to be shared with parents upon request. All inquiries will be made through the Office for Student Development and a written record of such requests will be maintained. Respecting fully the need for students to take responsibility for their own actions, a designated College official will inform the student when and by whom such a request for information has been made.

If a student is a dependent for tax purposes, neither the age of the student nor the parent's status as a custodial parent is relevant. If a student is claimed as a dependent by either parent for tax purposes, then either parent may have access to the child's educational records without the student's consent. A student may petition in writing to the Dean of Students that information not be disclosed to a specific individual.

For alcohol/controlled substance violations, the College is permitted to disclose information regarding the violation to the

parents of any student under the age of 21. If the student is a dependent for tax purposes, the College may disclose the information to the parents without the student's consent regardless of age.

English Proficiency

English proficiency is determined by SAT score. Proficiency is demonstrated by an Evidence-Based Reading and Writing SAT score of 440 or above. Students entering Geneva College without English proficiency must successfully complete ENG 095.

Math Proficiency

Math proficiency is determined by SAT or ACT score. Proficiency is demonstrated by a math SAT score of * 510 or above or math ACT score of 19 or above. For students who matriculate at Geneva College without the supporting documentation provided by either an SAT or ACT math score, demonstration of math proficiency will not be assumed and may be accomplished by the same methods used for those who must demonstrate math proficiency due to low scores. Math proficiency status for international students will be determined by the Department of Chemistry, Mathematics, and Physics on a case-by-case basis.

*for the new SAT beginning in March 2016.

Students entering Geneva College without math proficiency must successfully complete one of the following:

- 1) Repeat the SAT earning the minimum math score or above
- 2) Pass MAT 095 Algebra with a C- or higher
- 3) Transfer a math course from another acceptable college or university or take a higher math course at Geneva. (Note that the course must be part of the algebra-calculus sequence and only courses equivalent to Geneva's MAT 101 or higher are accepted for transfer credit.)
- 4) Pass the math proficiency challenge exam

The math proficiency challenge exam will be offered by the Department of Chemistry, Mathematics and Physics as follows:

- During each Summer Preview (new students) at published dates and times.
- During fall orientation (new students) at published dates and times.
- During spring orientation (new students) at published dates and times.
- On the first Monday of the fall semester (new transfers and returning students)
- On the first Monday of the spring semester (new transfers and returning students).

The fee for the challenge exam is \$25 and it is not refundable. It is payable at the door of the testing site by cash or check. Advance registration guarantees a place during the testing session. For exam scheduling information, call the department office at 724-847-6710.

Credit by Examination

For students pursuing a bachelor's degree, Geneva College will award a maximum of 24 credits for any Credit by Exam options. For an associate's degree, the maximum will be 12 credits. Students should be aware the AP examinations, CLEP examinations, International Baccalaureate examinations, and college courses taken prior to or after enrolling at Geneva College may be duplicative. In these cases, Geneva will award credit for only one.

Advanced Placement

Geneva College may grant college credit for satisfactory completion of a college-level course in a secondary school or for particular scores on an advanced placement examination of the college Entrance Examination Board. Placement and college credit are determined by the Registrar's Office and the chairperson of the appropriate academic department. AP score reports should be sent to the Geneva College admissions office.

Geneva College Credit by Examination

Prior to or during the first 12 months of attendance at Geneva, a student may receive course credit or exemption by passing a comprehensive examination if and only if such an examination has been approved to be offered by the department chair. The eligible courses are determined by the department in which they are offered and the examination may be taken only once for each course. The examination fee is \$75. If credit is desired, there is an additional fee of \$50 per credit. Credit and a letter grade must be obtained if the course is in the student's major or in the core requirements. The grade for electives may be any letter grade or credit-no credit as determined by the instructor. Upon receiving the receipt for payment and a memo from the instructor recording the grade, the credit hours are entered on the transcript.

College Level Examination Program (CLEP)

Geneva College awards credit for some CLEP tests. Contact the Registrar's Office for further information.

International Baccalaureate

Credit may be awarded to students who have taken higher-level courses in the International Baccalaureate Program and who have scored at least a 5 (on a 7-point scale) on the higher-level course examinations. Such credit generally is awarded on a course-by-course basis as recommended by the appropriate Geneva College department. No credit will be awarded for the standard level exams. International Baccalaureate transcripts should be submitted to the Registrar's Office.

General Certificate of Education Advanced Level (GCE A Level)

Credit may be awarded for students who score a B or higher on a GCE A level exam. These are offered in the United Kingdom and some commonwealth countries. Official transcripts should be submitted to the Registrar's Office.

Foreign Language Deficiencies

Any student who did not have two years of the same of foreign language in high school is considered to have a foreign language deficiency. Students who did not have two years of the same foreign language in high school must meet their foreign language deficiency by:

1. completing both 101 and 102 of the same language. This can be done by taking both 101 and 102 in Spanish, Greek, Hebrew or Independent Study at Geneva, or by transferring in 101 and 102 from another college
OR
2. completing a one-semester study abroad experience in a non-English speaking country which includes one 3-credit (or more) foreign language course at any level, in any language commonly spoken in the host country (i.e. Italian 101 in Rome, Arabic 101 in Jerusalem, Spanish 102 in Seville, etc.). Required grade for the language course: C or higher.

Probationary Admission

If the college desires to admit a student but has some concern about the student's academic success based on some aspect of his/her previous academic record, it will admit the student on what is called "academic probation". Academic Probation carries with it particular restrictions and requirements that are intended to encourage satisfactory academic performance. EDU 095 (described on page 115), which promotes fundamental reading and study skills, is required. Students are also required to develop a learning contract which will be monitored by the Student Success Center staff. More information about academic probation is found above.

*The final high school transcript will be considered complete and closed as of the date of the high school graduation, indicated on the transcript. No additional high school transcript will be accepted after the final transcript is received. The graduation date is the date identified on the final transcript.

Evaluation of Credit Hours

Once admitted to Geneva College, an official evaluation of credit hours earned at other institutions will be sent to the student. Upon enrollment at Geneva, any additional certified grades will be evaluated and updated by the Registrar's Office. An unofficial evaluation of credit hours may be done at any point, even prior to application for admission. To inquire further about this, contact the admissions office. At the time of acceptance for admission, the transfer student receives an evaluation of credit hours which have been earned. Whenever additional grades are certified, the evaluation is updated by the Registrar's Office.

Policies For Students Who Transfer to Geneva from Other Institutions

The class standing of any transfer student will be based on the number of credits accepted in transfer. Courses judged by the Registrar's Office to be equivalent to Geneva courses will be distributed to meet general and major requirements (subject to the limitations noted below). Courses which are judged not to be equivalent to Geneva courses will be accepted as electives (subject to the limitations below).

All credits transferred to Geneva that are certified on official transcripts are listed on the Geneva transcript. Geneva will only use transfer students' grades and GPA from transfer credits: (1) to determine the initial admission decision, (2) to determine eligibility for financial aid for the first year at Geneva, and (3) to determine athletic eligibility in the first semester at Geneva. It should also be noted, however, that the Pennsylvania Department of Education (Chapter 354) requires that any and all courses taken by Education majors must be included in the student's career GPA for certification

purposes. Course equivalencies are determined by the Registrar's Office with input, as necessary, by the appropriate Department Chair.

In addition to the policies described in the two preceding paragraphs, each of the following requirements govern the extent to which courses transferred from other institutions will be counted toward a Geneva degree:

- SAT/ACT Scores for students transferring from another college (post high school graduation) are generally not required. Scores may be requested, depending on the student's academic achievement at their previous college. An academic reference letter or entrance interview may also be required.
- Ordinarily only credits earned at regionally accredited institutions or, in the case of international transfers, nationally approved institutions will be accepted as transfer credit.
- Only courses for which a grade of C- or better has been given will be accepted in transfer. Please note, however, that courses with grades below C- will be included in the calculation of GPA for the three purposes described above (admission, financial aid, and athletic eligibility).
- A minimum of 40 credit hours overall, and at least 12 of the last 30 credit hours, must be earned at Geneva.
- Fifteen credits or twenty-five percent, whichever is larger, are required in the major. These credits must include the program's capstone/seminar course if applicable.
- A minimum of one-third of a minor must be earned at Geneva.
- Courses transferred from another institution will be counted in the same semester that the credit-granting institution that granted the credit designated the course.
- Invitation to the Humanities (HUM103), Great Issues in Politics (POL 352), and Biblical Worldview: Testing the Spirits of Our Age (BIB 300) must be taken at Geneva. In the case that a student is transferring a course from a full member CCCU institution that is determined to be equivalent to BIB 300, three other credits in the core may be substituted for this requirement upon approval of the Core Studies Department.
- For associate degrees a maximum of 24 credits may be transferred.

Requests for exceptions to any of the above policies must be made in writing to the Academic Dean. Usually, the Academic Dean will consult with the appropriate department chair, the faculty advisor (when appropriate), and the Registrar's Office before granting any exception request.

Policies for Current Geneva Students Who Wish to Transfer Course Credit to Geneva

Geneva students are permitted to enroll in courses at other institutions and transfer the credits and grades for these courses to Geneva. However, all of these transfer courses must be approved in advance by the Registrar's Office with assistance from a student's faculty advisor. Department chairs also may require students to repeat certain courses in the major if the age of, or if a student's performance in, the transfer course do not adequately support adequate achievement in the major. Course equivalencies are determined by the Registrar's Office with input, as necessary, by the appropriate Department Chair. In addition to the policies described in the preceding paragraph, each of the following requirements govern the extent to which courses that Geneva students take at other institutions will be counted toward a Geneva degree:

- Ordinarily only credits earned at regionally accredited institutions or, in the case of international transfers, nationally approved institutions will be accepted as transfer credit.
- Only courses for which a grade of C- or better has been given will be accepted in transfer. Both the grade and the credit will be transferred to Geneva. In addition, the Pennsylvania Department of Education (Chapter 354) requires that any and all courses taken by Education majors must be included in the student's career GPA for certification purposes.
- A minimum of 40 credit hours overall, and at least 12 of the last 30 credit hours, must be earned from Geneva.
- Fifteen credits or twenty-five percent, whichever is larger, are required in the major. These credits must include the program's capstone/seminar course if applicable.
- A minimum of one-third of a minor must be earned at Geneva.
- Courses transferred from another institution will be counted in the same semester that the credit-granting institution that granted the credit designated the course.
- In order to replace a grade for a course previously completed at Geneva, any 200-level course or above must be repeated at a four-year institution.
- A minimum of one-third of the required credit hours in the core must be earned at Geneva. These courses must include Great Issues in Politics (POL 352), Foundations of Christian Thought (BIB300), and the Humanities sequence of HUM 103, 203, and 303.
- For associate degrees, a maximum of 24 credits may be transferred.

Policies for Current Geneva Students Who Wish to Enroll in an Approved Off-Campus Study Program and Transfer Course Credit to Geneva (Including CCBC Aviation Students)

Geneva students are permitted to enroll in courses at other institutions and transfer the credits and grades for these courses to Geneva. In addition to the CCBC-Aviation program, other approved off-campus study programs are listed on pages 148-150 in the Catalog. During a semester in which a student is enrolled in these programs, Geneva processes financial aid. All of these off-campus study courses must be approved in advance by the Registrar's Office with assistance from a student's faculty advisor and the Crossroads Office. Department chairs also may require students to repeat certain courses in the major if the age of, or if a student's performance in, the transfer course do not adequately support adequate achievement in the major.

Course equivalencies are determined by the Registrar's Office with input, as necessary by the appropriate Department Chair. In addition to the policies described in the preceding paragraph, each of the following requirements govern the extent to which courses that Geneva students take at other institutions will be counted toward a Geneva degree:

- Ordinarily only credits earned at regionally accredited institutions, or, in the case of international transfers, nationally approved institutions will be accepted as transfer credit.
- All grades at the OCS program will be transferred to Geneva and recorded on the Geneva academic record, including D, F, and W grades. Both the grade and the credit will be transferred to Geneva. In addition, the Pennsylvania Department of Education (Chapter 354) requires that any and all courses taken by Education majors must be included in the student's career GPA for certification purposes.

Requests for exceptions to any of the above policies must be made in writing to the Academic Dean. Usually, the Academic Dean will consult with the appropriate department chair, the faculty advisor (when appropriate), and the Registrar's Office before granting any exception request.

International Students

Students applying for admission from outside of the United States will need to follow a different set of guidelines as follows:

- 1) Complete the application for admission in its entirety and submit it to the admissions office with the \$25 (U.S.) application fee. Unless otherwise instructed, the fee must accompany the application to be considered complete. A bank or money order should be made payable to Geneva College.
- 2) Submit a letter of financial backing to the college. This should be a document from your sponsor (or yourself, if you are providing your own support) certifying that sufficient financial resources are available to cover ALL of your educational expenses while you are in the U.S.A. Please include bank statements or other supporting documentation that substantiates the ability to meet *all* of your financial obligations.
- 3) Submit official transcripts from *all* of your previous institutions. Include secondary school and college transcripts, graduation certificates, or certified results of the standard examination for entry into higher education in your own country, if applicable. These transcripts must be officially translated into English and must be sent directly from the schools from which the courses were taken. A minimum of six passes at the ordinary level of the General Certificate of Education (GCE) is required for admission.
- 4) Submit an academic recommendation from at least one person (non-relative) who is most familiar with your academic achievement.
- 5) Submit result of the Test of English as a Foreign Language (TOEFL), or results of other internationally recognized tests of English (e.g. IELTS or the Michigan Test) if English is not your native language.

Once *all* of the above documentation has been received in the Geneva College Admissions Office, an admission decision will be made. Once admitted to Geneva College, a letter indicating your admission and the I-20 will be sent to you. To secure your place as a student at Geneva, you must submit a \$1,000 (U.S.) deposit, which will be credited to your semester's cost. Registration and housing will not be processed until your deposit has been received in the admissions office. This deposit is refundable only until May 1, after which no refund will be given should you decide not to enroll.

Once admitted to Geneva College, an official evaluation of credit hours earned at other institutions will be sent to the student. Upon enrollment at Geneva, any additional certified grades will be evaluated and updated by the Registrar's Office. An unofficial evaluation of credit hours may be done at any point, even prior to application for admission. To inquire further about this, contact the admissions office.

International Articulation Agreements

Geneva College currently has a formal articulation agreement with Christ's College, Taipei, Taiwan. Typically graduates of Christ's College with a BA in English and recommendation of the faculty can achieve a Geneva BA degree with a major in communication in 15 months. Completion time is dependent, however, on the student's English skills and the ability to complete the prescribed curriculum.

English Language Acquisition Institute (ELAI)

The English Language Acquisition Institute (ELAI) offers intermediate and advanced level courses for degree-seeking students who need support with their English skills. Availability of these courses depends on need within our international student population.

The intermediate division is the English for academic purposes (EAP) level. This allows students who are at the intermediate level to enroll in one regular Geneva College class (or a maximum of three credit hours) in addition to nine credit hours of ESL courses designed to develop academic skills such as essay writing, lecture note taking, reading, and discussion of academic topics. New students admitted to the EAP must have a score from 480 to 499 on the TOEFL test (157 to 170 on the computerized TOEFL test). There is a flat tuition fee plus incidental fees at this level.

The advanced division is the bridge program, for students who are almost ready to take a minimum of 12 regular college credit hours but still need some additional work on English skills. New students admitted to the bridge program must have a score from 500 to 549 on the TOEFL test (173 to 213 on the new computer-based TOEFL test) and have satisfied other requirements to be admitted as freshmen or transfer students. Students at this level take one to three ESL courses and two to four regular college classes. Students are charged according to the regular college tuition schedule at this level.

ESL courses (English for academic purposes) include:

ESL 310	Academic Oral Communication (2 credit hours, 3 classroom hours)
ESL 320	Academic Writing (2 credit hours, 3 classroom hours)
ESL 330	Academic Reading (2 credit hours, 3 classroom hours)

ESL courses (bridge program)

ESL 410	Academic Oral Communication (2 credit hours, 3 classroom hours)
ESL 420	Academic Writing (2 credit hours, 3 classroom hours)
ESL 430	Academic Reading (2 credit hours, 3 classroom hours)

Course descriptions for these ESL courses can be found on page 123.

Health Insurance Coverage

All international students must pay for group medical insurance or provide proof of similar insurance coverage from their home countries.

Readmission

Students who discontinue course work for any reason must apply for a readmission 60 days prior to the semester in which they wish to enroll. The form is available from the Registrar's Office or on Geneva's website.

Transient Students

Students in good academic standing at other accredited institutions are approved for registration upon presentation of Geneva's transient student certificate bearing the appropriate signature and seal from their college or university. This arrangement is particularly useful for study in Geneva's summer program. Transient students accept full responsibility for securing their institution's approval of the courses they take at Geneva, and the transient status must be renewed each semester or summer.

Teacher Certification Candidates

Candidates who have their bachelor's degree but wish teacher certification must furnish one official transcript of all college work to the department of education and must meet with the Education Department Certification Officer to establish a program that will result in the education department being able to recommend the individual for certification in Pennsylvania (see page 56). High school transcript and SAT scores are not necessary, but the education department requires that applications for student teaching be made at least one semester in advance. Course work accepted for the purpose of achieving teacher certification will have to be of such recency and quality as to be relevant to current state certification standards.

Post-Baccalaureate

After having completed a baccalaureate degree, college graduates may wish to take additional courses to earn a second bachelor's degree, to complete teacher certification, or to learn new skills. Upon presentation to the Registrar's Office of an official transcript showing a conferred baccalaureate degree, a student may enroll in any Geneva course or program of studies at the regular fee. In addition, Geneva offers five graduate degree programs.

FINANCIAL INFORMATION

Rates and Fees

Full-time tuition includes a full-semester load of course instruction, the use of the library, computer labs, and the physical education facilities of the college, and admission to all athletic competitions. A schedule of at least 12 credit hours and not more than 20 is considered to be a full-semester load and is subject to regular per-semester tuition. Tuition charges for less than 12 credit hours or more than 20 credit hours, and for summer school students, are at a per credit hour. Full tuition is charged for repeated courses.

Deposits

All new and readmitted students confirm their acceptance with a \$250 enrollment deposit. The enrollment deposit is refundable when the student is no longer enrolled as long as other student account balances have been paid. The enrollment deposit is required for both resident and commuter students.

All charges are subject to change each academic year.

2018-2019 Schedule of Fees

Undergraduate Program

(per semester)

Tuition, semester (12 to 20 credit hours).....	\$13,365
Each hour beyond 20 credit hours schedule	\$900
Room & Board, per semester	\$5,085
Campus Service Fee**	\$250
Online Course Fee***	\$325

*Full 21 meal plan—Both a fourteen-meal plan and a block plan option is available to upperclassmen.

**Campus Service Fee is non-refundable after the start of the term.

***Online Course Fee is charged per online course enrolled in and non-refundable after the start of the term.

Department Fees

(per semester)

Several courses in the education and science departments have student fees. All courses that require work with a school district and payment to a certified cooperating teacher have a fee. Contact the education and science departments for complete information.

CDS 450..... \$200

Private Music Lessons—1 credit hours..... \$295

Private Music Lessons—2 credit hours..... \$590

Private Music Lessons—3 credit hours..... \$885

Summer Sessions

Geneva offers two sessions of summer school- May@Geneva and Summer II. During May@Geneva, all major college facilities remain open, though some on limited schedules. Housing is available for May term (see rates below), and is also available on a week-to-week basis after May.

Students may take from 3-7 credits during May in any combination of 1, 3, and 4-credit classes. Registration for May@Geneva opens in February for the preceding spring semester, and remains open until the first day of classes.

Summer II classes meet on variable schedules starting after May@Geneva, the details of which are available in the online listing of classes.

2018-19 Schedule of Fees

(Note: The following fees apply to courses scheduled during May 2018 and other Summer 2018 terms. Fees for May 2018 follow the 2018-2019 fee schedule.)

Tuition for all summer school classes, per semester credit hour	\$333 per credit hour
Room and board fee, May@Geneva	\$415
Room fee, per week after May@Geneva	\$75
Administrative fee (applies to each student enrolled in May@Geneva)	\$95
Online Course Fee	\$250

Course Fees: Fees charged for any course during the fall or spring semester will also be applied during the summer terms.

Graduate tuition and DCP cohort charges are listed below.

Billing for May@Geneva

- Full payment is due before the first day of the term.
- Room and Board is billed as one lump sum for May term. There is no separation of room & board. There are no week-by-week charges.

Refund Policy

Details about the tuition and fee refund policies can be found at <http://www.geneva.edu/student-financial-services/policies/>.

Financial Aid

Geneva grants and scholarship are generally not available in the summer. Some federal grants and loans may be available. Interested families should contact the Student Financial Services office to discuss the benefits and options.

Graduate Tuition

MBA Classroom (per credit hour).....	\$710
MBA Online (per credit hour).....	\$633
MSLS (per credit hour)	\$609
Masters of Higher Education (per credit hour).....	\$655
Masters in Counseling (per credit hour)	\$675
Masters in Cybersecurity	\$700
Teaching Certificate Program.....	\$640

Adult Degree Program

(Major and Elective Courses, per credit hour).....	\$433
Classroom (tuition and fee combined, per credit hour)	\$571
Internship Credits	\$314

Early College

On Campus & Online (per credit hour).....	\$150
Online course fee (per course).....	\$100
In High School (transcript).....	\$100

Refund Schedule

Refunds for tuition, room and board charges are given according to the schedules at <http://www.geneva.edu/student-financial-services/policies/financial-policies>.

- The effective date of withdrawal is based on when the Registrar's Office or your Program Director (for adult and graduate students) has been properly notified. Traditional undergraduate students withdrawing from the fall or spring semester may notify the Student Development office instead.
- Refunding for non-Geneva aid will happen at a different rate from charges above. Check with the Student Financial Services Office for details or visit: <http://www.geneva.edu/student-financial-services/policies/financial-policies>.

Medical Withdrawal

A medical withdrawal is intended for use only in situations in which a student is medically or psychologically incapacitated such that he/she cannot continue as a college student. All medical withdrawal requests must be substantiated by a letter from a doctor or other qualified health professional and subsequently approved by the Dean of Student Development. Return in a subsequent semester requires the approval of the Dean of Student Development as well. More details can be found in the Traditional Student Handbook (<http://www.geneva.edu/student-life/vp/student-handbook>) or from your academic department (for ADP and Graduate Students).

Payments

Payments can be made online through the NelNet Student Account portal of MyGeneva by EFT or credit card. Payments can also be made by check, cash, or money order in the Student Financial Services Office. eBill notifications will be sent to the student's Geneva email address at least monthly once registration has occurred. All checks should be made payable to Geneva College and should include the student's identification number. For traditional students, all charges for the semester are due by August 10 for the fall semester and by January 2 for the spring semester. For all other programs, charges must be paid within 10 days of the start of the semester. Additional details can be found here: <http://www.geneva.edu/student-financial-services/tuition-costs-billing/tuition-costs>. All charges, net of financial aid, are to be paid prior to the due dates.

Tuition payment plans are available to traditional undergraduate students, Adult Degree students, and select Graduate Programs. Students can get details and enroll through their MyGeneva/Nelnet student account.

All international student payments should be received at Geneva College via wire transfer or money orders only for their first semester on campus. They are eligible for payment plans the subsequent semesters. All international student accounts must be paid in full by the semester due dates.

Scholarships and Financial Aid

Eligibility

Geneva College offers financial aid from a variety of sources including grants, scholarships, state funds, loans and work study.

Geneva College offers various scholarships, grants, loans, and student employment. The financial aid offered by Geneva College falls into these categories:

- Academic Scholarships based upon SAT/ACT scores and high school GPA
- Grants based upon financial need determined by the Free Application for Federal Student Aid (FAFSA) results
- Grants based upon membership in certain denominations, geographic region, high school, etc.
- Federal Grants
- State Grants from participating states
- Federal student loans
- Part-time employment on campus through Federal Work Study
- Veterans Education Benefits, OVR, Trade Act benefits, etc.

Full information can be obtained from the Student Financial Services Office or online at <http://www.geneva.edu/student-financial-services/>. Continuation of financial aid from year to year depends on the student's making "satisfactory progress" toward a degree and meeting filing deadlines. Each institution is required by federal law to establish a set of minimum standards. In order for a student to receive any type of aid through Geneva, he or she must maintain satisfactory progress as follows:

Satisfactory Academic Progress is checked at the end of the spring semester for students in the traditional undergraduate and graduate programs. For the cohort type programs (such as degree completion programs), it is checked after the term that most closely corresponds to the spring term. In order to receive financial aid (including loans), students must maintain satisfactory progress as indicated below:

1. Full-Time Undergraduate Students: All full-time students must pass a minimum of 24 "new" hours of academic credit annually to remain eligible of aid consideration (twelve "new" hours for any student with only one term or semester in the year and maintain a minimum 1.7 G.P.A. as a freshman or sophomore (under 60 credits earned). Juniors and seniors must maintain a minimum 2.0 G.P.A.

2. Part-Time Undergraduate Students: All part-time students must complete 75% of all new credits attempted in a term. If, in a specific term less than 75% are completed, then 75% of the cumulative attempts must be completed. Part-time students must maintain a minimum 1.7 G.P.A. as a freshman or sophomore (under 60 credits earned). Juniors and seniors must maintain a 2.0 minimum G.P.A.
3. Graduate Students: Graduate students are considered to be making satisfactory academic progress if they are meeting their program's standards for continued enrollment, achieving a minimum of a 3.00 G.P.A. and making progress in their program so they will complete the degree within the 150% timeframe.
4. Impact of incompletes, withdrawals, repeats, remedial, and transfer credits:
 - Incomplete courses can impact two ways. Initially, because a course is incomplete, it does not count toward the credits per year requirement for students, so it could impact 150% progress. Eventually an incomplete course that is not resolved becomes an "F" which affects the GPA.
 - Withdrawing from a course can bring the total credits earned for the school year below the minimum requirement if the "W" grade is earned after the drop/add period. A Repeated course does not count as "new" credits unless it is replacing a course with an "F" grade. Courses with an "F" grade do not result in any earned credits.
 - Remedial credits are not counted in the cumulative GPA. Since they do not count towards degree requirements and are not college level, they are not included in the total credits earned on the transcript, but are included when determining sufficient academic progress.
 - Transfer credits accepted by the Registrar's Office toward the completion of the student's degree program will count as both hours attempted and hours completed. Please note that transfer hours that come on a transcript after the semester begins will be factored in at the next scheduled Satisfactory Academic Progress checkpoint.
5. Pace of Progression and Maximum Timeframe:
 - The pace at which an undergraduate student completes classes varies depending upon full-time or part-time enrollment. A full-time student must complete the normal four year program in no more than six years. Part-time students must proceed at the same pace. For example, a student who should complete in six years as a part-time student may not exceed nine years.
 - Graduate students must also take no more than 150% of the normal amount of time to complete a degree. For example, a program that requires two years of full-time enrollment must be completed within three years.
 - It is important to note that the student is ineligible at the evaluation point where it is indicated that they will exceed the maximum timeframe, NOT at the point that they actually reach the maximum timeframe.
6. Review Policies: If, after review, it is found that the student has not maintained "satisfactory progress", the student will be placed on financial aid suspension until the required credit hours or grades have been attained. The student will be contacted at his or her Geneva College email address and through mail at the primary address on file. Additional options are listed below:
 - Make up any incomplete grades with a passing grade of A through D and notify the Student Financial Services Office when complete.
 - Enroll during the summer term (without aid) to make up the necessary hours. Please note that all summer transcripts MUST be received before the start of the Fall semester. Please contact the Student Financial Services Office when your transcript has been sent.
 - Enroll for the Fall term at the normal load plus the required makeup hours (without aid). Aid eligibility would be reestablished for the Spring term, providing you meet the necessary cumulative average/credit requirement and notify Student Financial Services at the end of the Fall term.
 - Appeal your financial aid suspension (per instructions below)
 - Pay out of pocket or borrow a private, credit based loan that does not require satisfactory academic progress. More information about these private credit based loans can be found at <http://www.elmselect.com>.

Note: A student placed on Financial Aid Suspension may not receive any Federal or Geneva aid when placed on financial aid suspension. State aid has different standards. The Pennsylvania state grant requires 24 "new" credits per year and does not have a GPA requirement. Academic scholarships also have different requirements (see your scholarship letter from Admissions or contact the Student Financial Services Office for the details of your award).

7. Appeals: Any student who has been placed on financial aid suspension may appeal in writing to the Director of Student Financial Services indicating what extenuating circumstances occurred that hindered meeting the minimum requirements and why aid should not be terminated. Examples of these circumstances may include the death of a family member, illness or injury of the student, or other special circumstances.

The appeal must include 1) the reason(s) that the student failed to make satisfactory academic progress and 2) what has changed that will allow the student to make satisfactory academic progress. The Director and/or Financial Aid Committee will review the appeal to determine if an exception is justified. The student will be notified in writing of the appeal decision. A student who successfully appeals will have one award year to improve academic progress and comply with Satisfactory Academic Progress policy to continue financial aid eligibility, unless otherwise communicated by the Director. Except in rare circumstances, students may appeal one time only.

Additional Information: Since we check progress annually, we do not have warning or probation periods. Even if a student does not receive federal financial aid, this policy still applies. Past periods of not making satisfactory academic progress, whether receiving aid or not, can and will impact federal financial aid eligibility in future terms.

Attention Federal and State Financial Aid recipients: Be advised that courses not needed for your program(s) of study are not eligible for federal or state financial aid. Please consult with your advisor if your Advising Worksheet on my.geneva.edu indicates that you are enrolled in Additional Coursework.

Please check the Geneva College website for up to date information and details.

Federal Aid Refund Policy

The student Financial Aid Office is required by federal statute to recalculate federal financial aid eligibility for students who withdraw, drop out, are dismissed, or take a leave of absence prior to completing 60% of a payment period or term. The federal Title IV financial aid programs must be recalculated in these situations. If a student leaves the institution prior to completing 60% of a payment period or term, the financial aid office recalculates eligibility for Title IV funds. Recalculation for federal aid is based on the percentage of earned aid using the following Federal Return of Title IV funds formula:

Percentage of payment period or term completed = the number of days completed up to the withdrawal date divided by the total days in the payment period or term. (Any break of five days or more is not counted as part of the days in the term.) This percentage is also the percentage of earned aid.

Funds are returned to the appropriate federal program based on the percentage of unearned aid using the following formula: Aid to be returned = (100% of the aid that could be disbursed minus the percentage of earned aid) multiplied by the total amount of aid that could have been disbursed during the payment period or term. If a student earned less aid than was disbursed, the institution would be required to return a portion of the funds and the student would be required to return a portion of the funds. Keep in mind that when Title IV funds are returned, the student may owe money to Geneva. (See tuition refund policy for more details or make an appointment with the Student Financial Services Office to review your situation.)

If a student drops a course but does not completely withdraw from the term, the Federal Pell Grant recalculation date is the first day of the term. In other words, Federal Pell Grant eligibility will be based on the number of credits enrolled at the start of the term.

If a student earned more aid than was disbursed to him/her, the institution would owe the student a post-withdrawal disbursement which must be paid within 120 days of the student's withdrawal.

Refunds are allocated in the following order:

- Unsubsidized Direct Loans (other than Direct Parent PLUS loans)
- Subsidized Direct Stafford Loans
- Federal Perkins Loans
- Federal Direct Parent (PLUS) Loans
- Federal Pell Grants for which a return of funds is required
- Federal SEOG Grants for which a return of funds is required
- Other assistance under this Title for which a return of funds is required

Students who withdraw will receive an email notifying them of how their financial aid has been affected.

For more information about how adjustments are made when a Disciplinary Suspension occurs, please see the Student Handbook (<http://geneva.edu/student-life/vp/student-handbook#studentTravel>).

Geneva Funds Refund Policy

Please see <http://www.geneva.edu/student-financial-services/policies/financial-policies> for tuition and financial aid policies.

ANY INFORMATION PRINTED IN THE MOST RECENTLY PUBLISHED FINANCIAL AID BROCHURE or Student Financial Services website (www.geneva.edu/fa) SUPERCEDES THE INFORMATION PROVIDED IN THIS CATALOG.

Definition of Terms

Audit—Attendance in a class without formal participation is allowed by registering for the class as an audit. The cost is half of the regulation hourly tuition and no credit is earned nor is a grade given.

Core requirement—A course or courses that must be completed by all students receiving a degree. The core requirements are numbered and described on page 12.

Corequisite— A course that is required to be taken concurrently with another course.

Course—A program of study involving regular classes or laboratories.

Credit—Recognition given for study completed, usually expressed in credit hours.

Credit hours—Units of credit based upon the number of credit hours in class per week for a semester. The number of credit hours required for a degree is explained on page 25.

Credit point—Number value assigned to the grade a student receives in each course. See page 18.

Grade point average (GPA) —Total credit points divided by total credit hours graded. The GPA is a measure of the student's level of achievement that helps to determine individual progress and eligibility for special honors or privileges. See references on page 18.

Electives—Courses chosen by a student to complete total credit hours required for a degree but not needed to meet either core or major requirements.

Interdisciplinary—Involving two or more departments. The term is applied to a course combining subject matter or instruction from more than one department, or to a major that includes courses from more than one department.

Intensive course—A course offered in a special format that condenses a semester's work into a short period, often just a week, with full-time and concentrated work.

Major—A primary field of study. Each student must complete requirements in one such field. See page 1.

Minor—A secondary field of study, not required for graduation. See page 1.

Options—A group of courses from which one or more must be chosen to meet some requirement.

Prerequisite—Another course that must be completed or any condition that must be fulfilled before enrollment in a course.

Semester—A four-month term, usually extending from the last week of August through the third week of December, or from the second week of January through the first week of May. The college's calendar for the next year is published at the beginning of this catalog.

College Personnel

Board of Corporators

The Charter of the College provides for the incorporation of the school to be controlled by a Board of Corporators consisting of 12 members of the Reformed Presbyterian Church of North America for a term of four years. The Board elects its own officers.

Officers:

Mr. Steven C. McMahan, Chair
Mr. Matthew Filbert, Vice Chair
Rev. Phil Pockras, Secretary
Mr. Philip Duguid, Treasurer

Class of 2018

Rev. Bruce Backensto, Beaver Falls, PA
Mr. Philip Duguid, Meriden, KS
Mr. Steven McMahan, Clay Center, KS

Class of 2019

Dr. Kenneth de Jong, Bloomington, IN
Rev. Don Piper, Brier, WA
Rev. Philip Pockras, Belle Center, OH

Class of 2020

Mr. Matthew Filbert, Beaver Falls, PA
Mr. David J. Schaefer, Beaver, PA
Dr. Bonnie Weir, Bronxville, NY

Class of 2021

Mr. Chris Huggins, Tully, NY
Mrs. Shana Milroy, Colorado Springs, CO
Mr. Scott Reynolds, Bloomington, IN

Board of Trustees

The affairs and business of the College are managed by the Board of Trustees which consists of 21 members chosen by the Board of Corporators.

Officers:

Mrs. Joye Huston, Chairman
Rev. Don Piper, Vice Chairman
Dr. Bonnie Weir, Secretary

Term expires 2019

Dr. Melville W. Adams, Consultant, Huntsville, AL
Mr. David W. Carleton, CIO, Heritage Valley Health System, Darlington, PA
Rev. Donald W. Piper, Pastor, retired, Seattle RPNA Church, Brier, WA
Mr. David R. Shedd, CEO, Faith Without Borders, LLC, Vienna, VA
Dr. Siarhei Spirydovich, Radiation Oncology, Indiana University Cancer Center, West Lafayette, IN

Term expires 2020

Mrs. Katherine L. Dennis, Director of Development, Retired, University of Kentucky Healthcare, Winchester, KY
Mr. Matthew T. Filbert, Director of Reformed Presbyterian Missions, Beaver Falls, PA
Mr. Raymond E. Lipps, Sr. Director, Global IT Security, Celgene Corp., Short Hills, NJ
Mrs. Shana Milroy, Colorado Spring, CO
Dr. Daniel Pu Liu, Professor of Finance and Department Chair, University of Arkansas, Fayetteville, AR.

Term expires 2021

Mr. Andrew M. Bernard, Jr., Investment Advisor, WTAS LLC, Ambler, PA
Dr. Kenneth de Jong, Chair, Dept. of Linguistics, Indiana University, Bloomington, IN
Mr. John P. Edgar, Esquire, Retired, Sherrard, German and Kelly, P.C., Pittsburgh, PA
Mrs. Joye H. Huston, Retired CEO (Registered Nurse), FW Huston Medical Center, Winchester, KS
Mr. Donald Kirkwood, Assistant Dean for Development and Alumni Relations, Temple University School of Business, Newton Square, PA.

Term expires 2022

Mr. Kenneth W. Creasman, Executive Coach, Mgmt. Consultant, Temecula, CA

Mr. Philip Duguid, Duguid Construction, Meriden, KS

Hon. Kathryn Gardner, Judge, Kansas Court of Appeals, Topeka, KS.

Mr. David Schaefer, Information Technology Department, Eaton Corporation, Beaver, PA.

Dr. Bonnie Weir, Principal Engineer, Avago Technologies, Bronxville, NY

Mr. Ethan Wingfield, Capital One Executive, McLean, VA.

Administration

The year in parentheses following the name of each person is the date of first appointment in the college.

Calvin L. Troup (2016), President; BA, Geneva College; MA and PhD, Pennsylvania State University.

Kenneth A. Smith (2004), President Emeritus (2015); BA, BSBA, Geneva College; MPIA, University of Pittsburgh; PhD, University of Maryland.

John H. White (1961), President Emeritus (retired 2004); BA, Geneva College; diploma, Reformed Presbyterian Theological Seminary; MA, University of Pittsburgh; DMin, Pittsburgh Theological Seminary.

Academic Affairs

Karla Threadgill Byrd (1997), Executive Director, Center for Urban Biblical Ministries; BS, California University of Pennsylvania; MAT, University of Pittsburgh.

John D. Gallo (2007), Dean of Adult and Online Programs and Assistant Professor; BA, MS, Geneva College; MBA, Northcentral University.

William M. Starke (2018), Registrar; BSBA, UNC Greensboro; MDiv, Trinity School for Ministry.

Melinda R. Stephens (1998), Vice President of Academic Affairs and Professor of Chemistry; BS, Geneva College; PhD, University of Pittsburgh.

Enrollment Services and Student Development

Brian Jensen (2014), Vice President of Enrollment and Student Retention; BS, North Central University; MA, Geneva College.

Neil Best (2011), Director of Residence Life; BA, Northwestern College; MA, Trinity Western University.

Allyson Grubb (2016), Director of Student Financial Services; BSBA, MS, Geneva College.

David Layton (1988), Associate Vice President of Enrollment Services; BS, MA, Geneva College.

Donald J. Sullivan (1975), Vice President Emeritus of Student Development (retired, 1999); BSEd, Slippery Rock State College; master's equivalence, Duquesne University and Brown University.

Joy M. Jewell (1975), Dean Emerita of Student Development (retired 2008); BA, Geneva College; MA, The Pennsylvania State University, University of Pittsburgh, additional course work at Pennsylvania State University.

Athletics

Van Zanic (1998), Athletic Director; BA, Geneva College.

Associate Vice President and Controller

Stephen Ross (2009), Associate Vice President and Controller; BS, Cedarville University.

Vice President of Information Technology and Chief Information Officer

Scott Barnes (2015), Vice President of Information Technology and Chief Information Officer; BS, Robert Morris University.

Vice President of Business and Finance

Tim Baird (2004), Vice President of Business and Finance; BSBA, Geneva College; MBS, Saint Joseph's University.

Vice President of Institutional Advancement

Marvin Dewey (2016), Vice President of Institutional Advancement; BA, North American Baptist College; MDiv, North American Baptist Seminary; EdD, Vanderbilt University.

Chaplain

Rutledge Etheridge (2013), Chaplain; BA, Cedarville University; MDiv, Reformed Presbyterian Theological Seminary.

Faculty

Emeritus Faculty

The second year in parentheses is the year of retirement.

Ralph Ancil (2004), Professor Emeritus of Economics (2016); BS, Grand Valley State University; MS, Michigan State University; PhD, Michigan State University.

David W. Badger (1969), Professor Emeritus of Chemistry (2004); BS, Geneva College; MS, PhD, University of Michigan.

Constance T. Braun (1967), Professor Emerita of Education (2001); BSEd, Geneva College; MLS, University of Pittsburgh; MEd, Westminster College.

Norman M. Carson (1957), Professor Emeritus of English (1991); BA, Geneva College; MA, State University of Iowa; Reformed Presbyterian Theological Seminary; University of Pennsylvania; University of Chicago; PhD, Boston University.

Mary E. Cleland (1962), Assistant Professor and Assistant Librarian Emerita (1995); BA, Geneva College; Columbia University; MSLS, Case Western Reserve University.

Louise Copeland (2009), Associate Professor Emerita of Music (2014); BS, Geneva College; MM, University of Cincinnati.

Robert M. Copeland (1981), Professor Emeritus of Music (2012); BS, Geneva College; MMus, PhD, University of Cincinnati; Westminster Choir College.

Peter W. Croisant (1983), Assistant Professor Emeritus of Communication (2013); BA, Michigan State University; MA, CBN University.

Jack Delivuk (1990), Professor Emeritus of Library and Systems Librarian (2016); BS, Geneva College; MDiv, Reformed Presbyterian Theological Seminary; MSLS, Clarion University; STM, ThD, Concordia Seminary.

James K. Dittmar (1989), Professor Emeritus of Leadership Studies (2016); BA, Geneva College; MEd, Slippery Rock University, PhD, University of Pittsburgh.

Elizabeth A. Douglas (1966), Professor Emerita of Fine Arts and Coordinator of the Humanities Survey courses (1996); BFA, Carnegie-Mellon College; MA, University of Pennsylvania.

Harry E. Farra (1962), Professor Emeritus of Communication (2001); BA, Northwestern College; MDiv, Bethel Theological Seminary; MA, University of Minnesota; PhD, The Pennsylvania State University; University of Pittsburgh.

S.S. Hanna (1982), Professor Emeritus of English (2013); BA, University of Wisconsin; MA, PhD, Indiana University.

Kenneth E. Hartman (1968), Professor Emeritus of Chemistry and Director of Pre-medical and Allied Health Program (2005); BS, Geneva College; PhD, University of Pennsylvania.

David A. Harvey (1972), Professor Emeritus of Psychology, Counseling and Human Services (2010); BAE, University of Florida; MEd, Florida Atlantic University; PhD, University of Pittsburgh.

Elaine Hockenberger (1985), Professor Emerita of Communication (2018); BA, MS, Bloomsburg State College; PhD, University of Pittsburgh.

Robert Hough (1988), Dean Emeritus of Adult and Continuing Education (2001); BA, Calvin College; MA, Presbyterian School of Christian Education; PhD, Michigan State University.

George J. Jennings (1971), Associate Professor Emeritus of Anthropology and Sociology (1981); BA, University of Minnesota; BD, Northwestern Evangelical Seminary; MA, University of Minnesota.

Romaine Jesky-Smith (1977), Professor Emerita of Education, (2015); BSEd, Geneva College; MEd, Westminster College; PhD, University of Pittsburgh.

Nancy Johnson (2004), Professor of Education; BA, Wheaton College; MEd, University of Virginia; PhD, Pennsylvania State University.

David A. Jordan (1983), Associate Professor Emeritus of Business (2007); BS, John Brown University; ME, Old Dominion University; MBA, Gold Gate University; Certified Systems Integrator (CSI).

Robert E. Liljestrang (1983), Associate Professor Emeritus of Civil Engineering, (2014); BSCE, MSCE, Purdue University, PE.

Carol B. Luce (1989), Professor Emerita of Psychology, Counseling, and Human Services (2018); MEd, The Pennsylvania State University; PhD, University of Pittsburgh.

John Mitchell (1962), Associate Professor Emeritus of Business Administration (1995); BSBA, Geneva College; MBA, University of Pittsburgh; The Pennsylvania State University; CPA.

Gerald D. Moran (1974), Professor Emeritus of Library and College Librarian (2007); AB in Ed, Fairmont State College; MLS, George Peabody College for Teachers of Vanderbilt University; PhD, University of Pittsburgh.

Ronald Moslener (1992), Professor Emeritus of Psychology, Counseling and Human Services (2012); BA, University of Pittsburgh; MDiv, Pittsburgh Theological Seminary; DMin, Fuller Theological Seminary.

Ann Paton (1958), Professor Emerita of English (1994); BA, Geneva College; MLitt, University of Pittsburgh; PhD, University of Colorado; Princeton University; University of Minnesota; University of Virginia; Trinity Episcopal School of Ministry.

Joseph E. Peters (1999), Professor Emeritus of Psychology, Counseling and Human Services (2016); BS, Juniata College; MS, PhD, The Pennsylvania State University.

Ralph N. Phillips (1995), Associate Professor Emeritus Department of Adult and Continuing Education (2015); BS, Geneva College; MDiv, Westminster Theological Seminary; MA, University of Pittsburgh; MA, Geneva College, PhD, University of Pittsburgh.

Mark Porter (1997), Professor Emeritus of Degree Completion (2018); BA, Grove City College; MDiv, Westminster Theological Seminary; EdD, Indiana University of Pennsylvania.

Verley G. Sangster (1994), President Emeritus Center for Urban Theological Studies (2006); MA, Fuller Theological Seminary; DDiv, Colorado Christian University.

Dean Smith (1990), Professor Emeritus of Biblical Studies (2013); BA, Geneva College; MDiv, Reformed Presbyterian Seminary; DMin, Reformed Theological Seminary, Orlando.

Richard L. South (1961), Professor Emeritus of Physics (1999); BS, Geneva College; MS, PhD, Case Western Reserve University.

James H. Sterrett (1975), Professor Emeritus of History (1999); BA, Grove City College; MA, PhD, Kent State University; Trinity Episcopal School for Ministry.

Eugene C. Sullivan (1976), Assistant Professor Emeritus of Physical Education (1999); B.S., Slippery Rock University; MAT, University of North Carolina.

Philip J. Van Bruggen (1992), Professor Emeritus of Psychology, Counseling, and Human Services (2008); BA, University of Oregon; MA, PhD, University of Iowa.

John H. White (1961), President and Professor of Bible Emeritus (2004); BA, Geneva College; diploma, Reformed Presbyterian Theological Seminary; MA, University of Pittsburgh; DMin, Pittsburgh Theological Seminary.

Ann Wollman (1975), Registrar Emerita (2002); BA Augsburg College, MA, University of Wisconsin.

David H. Wollman (1971), Professor Emeritus of History (2002); AB, Northeastern University; MA, PhD., University of Wisconsin; London University.

Current Faculty

Christen Adels (2018), Professor of Business and Chair, Department of Business, Accounting and Management; BSBA, Geneva College; JD, MBA, University of Pittsburgh.

Adel G. Aiken (1985), Professor of Education and Chair, Department of Education; BSEd, Geneva College; MEd, Westminster College; EdD, University of Pittsburgh.

Kimberly Arata (2018), Assistant Professor of Communication; BA, Geneva College; MA, Ball State University.

Rodney Austin (2005), Associate Professor of Chemistry; BS, Mount Vernon Nazarene College; PhD, University of Cincinnati.

William Barlow (2010), Associate Professor of Engineering; BSEE, The Pennsylvania State University; MSEE, University of Pittsburgh.

Elizabeth Belcastro (2010), Associate Professor of Education; BA, Fairmont State College; MA, West Virginia University; EdD, University of Pittsburgh.

Doug Bradbury (2008), Assistant Professor of Biblical Studies; BA, MA, Geneva College; PhD, Union Institute and University.

Jeffrey Cole (2003), Professor of History, Director of the Crossroads Program, and Chair, Department of Core Studies; BS, Lynchburg College; MEd, Lynchburg College; PhD, Bowling Green State University.

Anthony Comer (2011), Associate Professor of Engineering; BS, Purdue University; MS, PhD, University of Kentucky.

Daniel J. Cross (2015), Associate Professor of Physics; BS and BA, Cedarville University; MS and PhD, Drexel University.

Byron Curtis (1991), Professor of Biblical Studies; BA, Geneva College; MDiv, Reformed Theological Seminary; PhD, Westminster Theological Seminary.

Edward Dambach (2012), Assistant Professor of Mathematics; BS, Westminster College; MEd, Westminster College.

Eugene DeMarco (1993), Assistant Professor of Business and Head Football Coach; BA, Geneva College; MBA, West Virginia University.

John G. Doncevic (2007), Associate Professor of Library and Library Director; BS, Geneva College; MLIS, University of Pittsburgh; MTS, Reformed Presbyterian Theological Seminary; JD, Widener University.

Sean Doyle (2008), Associate Professor of History and Humanities; BA, Toccoa Falls College; MA, Gordon-Conwell Theological Seminary; PhD, University of Edinburgh.

Gary Dunda (2010), Assistant Professor of Physical Education and Head Men's Soccer Coach; BA, Messiah College; MA, Emporia State University.

David A. Essig (1999) Professor of Biology; BS, Bowling Green State University; MS, Ball State University; PhD, University of Michigan.

Kathryn E. Floyd (2006), Assistant Professor of Library and Cataloger/Assistant Instructor Librarian; BA, Calvin College; MSLS, Clarion University of Pennsylvania.

Robert Frazier (2003), Professor of Philosophy; BA, Gordon College, MA, Gordon-Conwell Theological Seminary, PhD, The State University of New York at Buffalo.

Bradshaw Frey (1984), Professor of Sociology; BA, Geneva College; MDiv, STM, Pittsburgh Theological Seminary; PhD, University of Pittsburgh.

Matthew Fuss (2011), Associate Professor of Business; BA, MBA, Geneva College; PhD, Duquesne University.

John D. Gallo (2007), Dean of Adult and Online Programs and Assistant Professor; BA, MS, Geneva College; MBA, Northcentral University.

James S. Gidley (1990), Professor of Civil Engineering and Chair, Department of Engineering and Computer Science; BS, University of Rhode Island; SM, Harvard University; PhD, Harvard University; PE.

Natalie Heisey (2010), Associate Professor of Education; BS, Edinboro University; MEd, Gannon University; EdD, University of Pittsburgh.

Julie Hines (2018), Assistant Professor of Accounting; BSBA, Geneva College; MBA, St. Joseph's University; CPA.

Philip M. Holladay (1983), Professor of Mathematics; BS, MS, PhD, North Carolina State University.

Imac Holmes (2016), Associate Professor of Counseling; BS, MS, Cairn University; EdD, Argosy University.

Jonathan Impellizzeri (2012), Associate Professor of Counseling; BA, Lee University; MS, Duquesne University; PhD, Regent University.

Christopher C. Jobes (2015), Professor of Engineering; BS and BSME, Geneva College; MSME and PhD, West Virginia University.

Mildred L. Johnson (2015), Associate Professor of Criminal Justice; BS and MS, Geneva College; DSL, Regent University.

Jennifer J. Joseph (2015), Instructor of Library and Reference Librarian; BS, Geneva College; MLS, University of Pittsburgh.

Mark T. Kennedy (2014), Associate Professor of Engineering; BS, Syracuse University; MS, Auburn University.

Donald B. Kephart (1983), Associate Professor of Music and Chair, Department of Music; BS, Grove City College; The Pennsylvania State University; MMus, Youngstown University.

Matthew L. Kickasola (2012), Assistant Professor of Humanities and Music; BM, Covenant College; MM, Temple University; MA and PhD, Washington University.

Shirley J. Kilpatrick (1991), Professor of Humanities; BA, Geneva College; MA, The Pennsylvania State University; DMin, Trinity Episcopal School for Ministry.

Lori Koehler (2018), Associate Professor of Nursing and Chair, Department of Nursing; BS, DeSales University; MSN, Walden University; FNP-C, Kaplan University- Davenport Campus; DNP, Kaplan University.

David F. Kuhns (1996), Professor of English and Chair, Department of English ; BA, MA, PhD, University of Pittsburgh.

Susan Layton (2004), Assistant Professor of Communications and Chair, Department of Communication; BA, Geneva College; MS, Illinois State University; CCC-SLP.

Sha Luangkesorn (2006), Associate Professor of Piano and Music Theory; BM, Chapman University; MM, DMA, University of Cincinnati.

Keith Martel (2012), Associate Professor of Higher Education and Director, MA in Higher Education Program; BA and MA, Geneva College; MA and PhD, Duquesne University.

James Matta (2010), Associate Professor of Counseling; BA, MA, Edinboro University; BS, EdD, Duquesne University.

Kerry McMahon (2004), Associate Professor of Chemistry; BS, Geneva College; PhD, University of Connecticut.

Esther Meek (2004), Professor of Philosophy; BA, Cedarville College; MA, Western Kentucky University; PhD, Temple University.

Eric J. Miller (1999), Professor of History; BS, Lancaster Bible College; MA, Trinity International University; PhD, University of Delaware.

Megan Morton (2009), Assistant Professor of English; BA, Saint Xavier University; MA, PhD, Purdue University.

Denise Murphy-Gerber (2008), Associate Professor of Business; BSBA, Clarion University; MS, National-Louis University; PhD, Duquesne University.

Frederick R. Neikirk, Jr. (1992), Professor of Political Science and Chair, Department of History, Political Science, and Sociology; BA, MA, University of Delaware; PhD, University of Illinois.

Paul Poteete (2017), Associate Professor of Computer Science; BS, Excelsior College; MS ISO, Naval Postgraduate School.

Daniel H. Raver (1980), Associate Professor of Business; BSBA, Geneva College; Robert Morris College; MBA, University of Pittsburgh; CPA.

Robert H. Reid (2014), Professor of Engineering; BS, University of Pittsburgh; MS, Illinois Institute of Technology; Ph.D., Carnegie Mellon University.

Diana Rice (2005), Professor of Psychology; BA, Houghton College; MS, Syracuse University; PhD, Syracuse University.

Gordon Richards (2011), Associate Professor of Computer Science; AAS, Community College of the Air Force; BS, Park College; MA, Webster University; DS, Robert Morris University.

Jeffrey D. Santarsiero (1988), Assistant Professor of Physical Education, Head Coach men's basketball ; BS, Nyack College; MS, United States Sports Academy.

Daryl F. Sas (1988), Professor of Biology and Chair, Department of Biology; BA, Dordt College; Mankato State University; PhD, University of Minnesota.

Jeffrey Schindel (2009), Assistant Professor of Communications; BS, MS Geneva College; doctoral candidate, Duquesne University.

Stephanie Schindel (1995), Associate Professor of Psychology and Social Services; BS, Geneva College; MA, Geneva College.

Karen Schmalz (2001), Professor of Special Education; BS, Geneva College; MEd, Shippensburg University; EdD, Regent University.

David W. Shaw (1990), Professor of Mechanical Engineering; BSME, Geneva College; MS, PhD, The Ohio State University; PE.

C. Scott Shidemantle (1997), Professor of Biblical Studies and Bible Core Coordinator; BA, Slippery Rock University; MDiv, Gordon-Conwell Theological Seminary; ThM, Princeton Theological Seminary; PhD, Trinity Evangelical Divinity School.

Wendy Shidemantle (1997), Administrator and Associate Professor of Language Studies; BA, MA, West Virginia University; MA, Cleveland State University.

Shannan Shiderly (2012), Associate Professor of Counseling and Director, MA in Counseling Program; BS, Geneva College; MEd, Westminster College; Ph.D., Robert Morris University.
Cathy Sigmund (2000), Professor of Psychology and Social Services; BS, Geneva College; MS, PhD, The Pennsylvania State University.

Andrea Smidt-Sittema (2006), Associate Professor of History; BA, Calvin College; MA, PhD Ohio State University.

David K. Smith (2001), Professor of Music; BMus, Wheaton Conservatory; MMus, DMA, Indiana University School of Music.

Curtis E. Songer (2014), Associate Professor of Business; BS, University of Oklahoma; MS and MBA, Carnegie-Mellon University.

John W. Stahl (1985), Professor of Chemistry and Chair, Department of Chemistry, Math and Physics; BS, Geneva College; PhD, The Pennsylvania State University.

John W. Stein (1995), Professor of Mathematics and Astronomy; BS, Case Institute of Technology; PhD, University of Pittsburgh.

Melinda R. Stephens (1998), Vice President of Academic Affairs and Professor of Chemistry; BS, Geneva College; PhD, University of Pittsburgh.

Alan W. Sumner (1989), Assistant Professor of Physical Education; Head Baseball Coach, Associate Athletic Director for men; BSBA, Geneva College; MS; The United States Sports Academy.

Lynda A. Szabo (1997), Professor of English; BA, Geneva College; MA, PhD, Duquesne University.
